Re: Expression of Interest #GSD096402; WV State Office Building, Clarksburg

Dear Ms. Ferrell:

WYK Associates, Inc. and our project team wish to express our strong interest in providing complete A/E Services for this project. Our Project Team includes all of the professional disciplines required for the various phases of the work including those related to the demolition of the existing building. We have provided A/E Services for a wide variety of projects of varying size and scope, and have done extensive work in the City of Clarksburg. This work has included a project in which we provided services and support for property acquisition, hazardous material surveys and abatement, historic building documentation, demolition, site preparation and the building project itself. We have provided services for projects with multiple contracts and fast track procurement of construction contracts. Our experience and location within three hundred yards of the project site position us well to provide the services that you require.

The project team has experience with and can demonstrate the following project requirements and criteria:

\$1,000,000 E&O Coverage  
Workers Compensation Coverage  
LEED AP

All Project Disciplines:

Soils and environmental concerns  
Civil/Site Engineering  
Landscape Architect  
Architects  
Structural Engineer  
MEP Engineer

As you will see in the attached information, we have a well organized and experienced team and an understanding of the project scope and procurement process. We thank you for your consideration, and hope that we will have an opportunity to present our team and its expertise as a part of the interview process.

Sincerely,

WYK Associates, Inc.

William E. Yoke Jr., AIA  
Principal in Charge
