Re: Proposal for Architectural and Engineering Services
Buyer: Krista Ferrell-File 21
EOI NO: GSD096402
EOI Opening Date: 07/22/2008
EOI Opening Time: 1:30 PM

Dear Ms. Ferrell:

The Omni Associates-Architects is pleased to submit our Proposal to the State of West Virginia Department of Administration for architectural and engineering design services for a new State office building in Clarksburg. It is our intention to develop a lasting relationship with the West Virginia Department of Administration. We recognize the importance of this project not only to the State of West Virginia, but also to the City of Clarksburg, and we are dedicated to helping you realize your project on time and within budget.

The design team you select will be one that will work with you over the upcoming years. I am pleased to include **Terradon Corporation, Tower Engineering, and Allegheny Design Services** as part of our specialized team. Omni has collaborated with these professionals on a number of projects in the past. Currently, Omni, Tower and Allegheny are designing a new headquarters and education facility for Canaan Valley Institute with an anticipated Silver LEED™ Certification.

As Omni's Administrative Principal, I will guide the team and serve as the point-of-contact to the Department of Administration throughout the project's duration. **We are a proven team** that listens, produces a quality product, and provides professionalism and attention to detail from the first sketch to the completed project. We are confident that our extensive project experience together with our innovative design concepts will prove successful.

We provide **integrated project delivery methods** that have been greatly enhanced in efficiency by the use of our **BIM (Building Information Modeling)** software. Our early investment in this new technology means our design professionals enjoy the advantage of experience and expertise with BIM that few other firms can offer. Because Omni Associates is based in Fairmont, our **close proximity to Clarksburg** allows us to be on the job site at a moment's notice to provide face-to-face attention to your project.

Thank you for giving us the opportunity to present our credentials. We would enjoy the opportunity to personally meet with you and the balance of the selection committee and discuss our professional experience in greater detail as well as demonstrate how we utilize BIM to greatly expedite project delivery.

Best regards,
THE OMNI ASSOCIATES - ARCHITECTS

Richard T. Forren, AIA, NCARB
Principal
