**RE: Statement of Qualifications to Provide Architect Analysis Services for  
Economic Impact Study Related to Flooding  
RFQ No. HSE 9023**

Dear Mr. Abbot:

Michael Baker Jr., Inc. (Baker) is pleased to present our qualifications and experience as it relates to the comprehensive study and economic sustainability plan for the communities of Glenville and Logan. As you know, we prepared the statewide Hazard Mitigation Plan and assisted the State in its E911 Addressing and Mapping Program. During your review of the enclosed information, you will see that Baker has completed or is currently working on many similar projects.

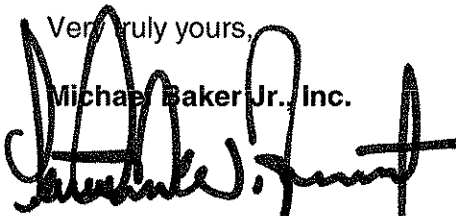

This assignment will be managed and executed from our Charleston office which employs over 40 individuals including architects, landscape architects, engineers, geologists, planners, surveyors, environmental specialists, and technicians, 90% of whom are native West Virginians.

We have greatly enjoyed our professional relationship with the West Virginia Division of Homeland Security, and if selected, we will continue to provide the efficient, timely, personal, cost effective, and quality solutions that you have come to expect from Baker.

We eagerly await the opportunity to personally present our qualifications and proposed approach to this important project for the Division. Should you have any questions or require additional information, please contact the undersigned at (304) 769-0821 or by e-mail, [pfogarty@mbakercorp.com](mailto:pfogarty@mbakercorp.com)

Very truly yours,

Michael Baker Jr., Inc.
