WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

**GENERAL TERMS & CONDITIONS
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125.00 registration fee.
5. All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the term of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this Contract may be deemed null and void, and terminated without further order.
14. **HIPAA Business Associate Addendum:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
15. **West Virginia Alcohol & Drug-Free Workplace Act:** If this Contract constitutes a public improvement construction contract as set forth in Article 1D, Chapter 21 of the West Virginia Code ("The West Virginia Alcohol and Drug-Free Workplace Act"), then the following language shall hereby become part of this Contract: "The contractor and its subcontractors shall implement and maintain a written drug-free workplace policy in compliance with the West Virginia Alcohol and Drug-Free Workplace Act, as set forth in Article 1D, Chapter 21 of the West Virginia Code. The contractor and its subcontractors shall provide a sworn statement in writing, under the penalties of perjury, that they maintain a valid drug-free work place policy in compliance with the West Virginia Alcohol and Drug-Free Workplace Act. It is understood and agreed that this Contract shall be cancelled by the awarding authority if the Contractor: 1) Fails to implement its drug-free workplace policy; 2) Fails to provide information regarding implementation of the contractor's drug-free workplace policy at the request of the public authority; or 3) Provides to the public authority false information regarding the contractor's drug-free workplace policy."

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in cases of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications:

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

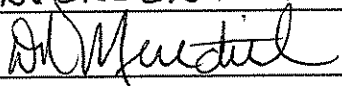

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING: Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.

7021RS New!

The 7021RS walk-behind mower is powered by the innovative Briggs and Stratton 700 Series DOV engine. Its ReadyStart™ automatic choke engineering means no priming or choking is necessary to start the engine. And a patented direct overhead valve system delivers greater torque (7.0 torque power) with less vibration and noise than comparably-sized engines.

With a rear wheel drive system, the 7021RS features the innovative AutoWalk™ self-propelled trigger control. Just squeeze the trigger and its variable drive operates at your own pace. A convenient, single lever allows you to adjust the cutting height on the deck.

As with all of our walk mowers, the 7021RS comes with 3-in-1 mulch, rear bag and side discharge kit.

7021RS

W21S Kawasaki New!

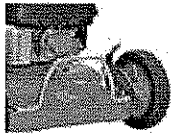

Husqvarna continues to raise the commercial bar with the new W21 series. The 100% commercial construction is evident from the rock solid cast aluminum deck, rugged wheel adjuster assemblies and bearing supported wheels and drive shafts. Features like the ergonomic one piece handle, convenient control placement and refined deck design provide the comfort and performance for increased productivity.

Cast Aluminum Deck
The rugged cast aluminum deck is of a modular design which eliminates wearing parts to the deck.

Wheel Adjusters
Wheel adjuster assemblies are heavy-duty construction and plated for corrosion resistance.

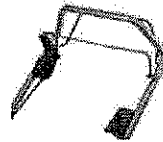

Engine Guard
Heavy-duty engine guard doubles as a lift handle.

Rugged Drive System
The drive system features a commercial quality three speed transmission, sintered steel drive gears and ball bearing supported drive shafts.

Premium Wheels
The durable 9" cast aluminum wheels are supported by dual sealed ball bearings and wrapped in a natural rubber with self cleaning tread.

Ergonomic Handles
The handle assembly is formed of 1" (25.5mm) tubing and features ergonomic styling for comfortable operation.

W21S Kawasaki

Advantages

Engine

Engine	Kawasaki
Power	6 hp
Fuel tank capacity	.525 gallons

Transmission

Transmission	Tuff Torq 3 Speed RWD
Speed, forward	2-3.9 mph
Rear tires	9" cast aluminum"

Equipment

Cutting width	21"
Cutting height	.8 - 3.5"

Productivity

Productivity	.66 acres/hr

WH3615E

Formerly *WHT3615IZT*

The WH fixed deck Hydro series sets new standards in functionality, simplicity and ease of service. The heart of these robust walks is a pair of IZT (integrated zero-turn) transaxles, which offer smooth consistent performance with zero maintenance. The advanced ETS control system provides precision user interface and a clever shifter mechanism allows for simplified transport and park brake function. The rugged fixed deck design is easy to adjust and features the same tapered roller bearing spindles as the commercial riders. Low and wide, these walk-behinds have the stability and maneuverability to satisfy even the most demanding tasks.

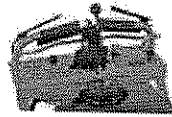

Dual Transmission

Twin IZT transmissions offer maintenance free performance.

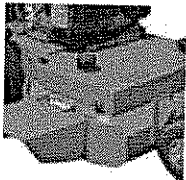

Easy Touch System

Easy Touch System. New operator controls are easy to operate and ergonomically designed for less operator fatigue.

10 gauge steel deck

Fully baffled 10 gauge steel deck with 7 gauge skirts and rolled-under front edge for greater durability and superior cut quality

Heavy-Duty Spindles

Heavy-duty blade spindles feature greasable tapered roller bearing construction for strength and durability and aluminum housings for effective heat dissipation.

WH3615E

Engine

Engine	Kawasaki
Power	15 hp
Fuel tank capacity	5.3 gallons

Transmission

Transmission	Dual Hydro-Gear IZT
Speed, forward	0-6 mph
Speed, reverse	0-3 mph
Front caster tires	9x3.50-4, 4 ply smooth"
Rear tires	16x5.5 - 8 Turf"

Advantages

Reinforced front caster yoke

Reinforced front caster yoke for strength and durability.

Equipment

Cutting width 36"

Cutting height 1.5-5"

#4

WH4817EFQ

Largest of the walk-behind mowers, the WH floating deck Hydro series offers high productivity with precision controls and maneuverability. Premium hydraulic pumps and wheel motors convert input from the advanced ETS control system into smooth, positive drive. The high performance cutting deck floats over imperfections in the lawn to prevent deck contact and cut height is easily adjustable in seconds with the unique QuickLift system. Electric start, convenient control placement and premium Kawasaki engines round out this high performance package.

Easy Touch System

Easy Touch System. New operator controls are easy to operate and ergonomically designed for less operator fatigue.

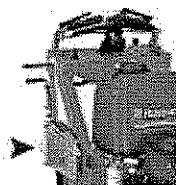

Large fuel tank

Larger 5.3 gallon fuel tank provides up to 6 hours of mowing time. Large (3.5" diameter) fill tube is off-set for easy re-fueling.

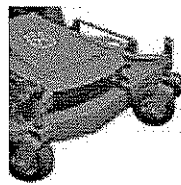

QuickLift Cutting Deck

The only QuickLift deck system for a walk behind allows the operator easy cutting height adjustments in seconds.

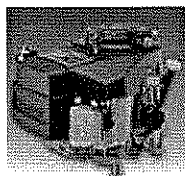

Advanced Cutting System

Advanced Cutting System (ACS) floating decks feature fully baffled 10 gauge steel tops and 7 gauge side skirts. Spindle housing reinforcement and a rolled front end add to the structural integrity while the full floating design provides a more precision, scalp free cut.

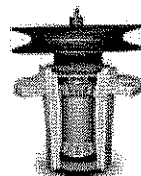

Commercial-grade Engine

The Kawasaki V-twin, overhead valve engine with full pressure lubrication and spin-on oil filter. It has exceptional power and torque, and delivers fuel efficiency and reduced emissions.

Heavy-Duty Spindles

Heavy-duty blade spindles feature greasable tapered roller bearing construction for strength and durability and aluminum housings for effective heat dissipation.

#5

iZ5223

The nimble intermediate series is perfectly suited for enhanced productivity in smaller more challenging areas. The iZ features many of the strengths of the larger zero-turn mowers: "uni-frame" construction, vertical engine arrangement and heavy-duty casters, but incorporates them onto a more compact chassis. Equipped with TUNNELRAM decks ranging from 42" to 61" and engine choices from 17HP to 25HP, these agile workhorses are tailored to fit any commercial cutters need.

Compact design

Compact design saves space when transporting and makes the mowers ideal for mobile lawn care jobs.

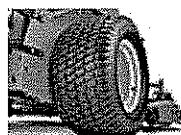

Roll Over Protection

Standard on selected models, the new foldable ROPS design allows for operator protection in normal conditions, with the option to lower in areas with low hanging branches.

9 Bushel Collection System

An optional high performance triple bag collection system features a simplified latch system and pivoting lower frame that make the collector removable in minutes (9 bushel capacity).

Wide Rear Tires

Wide rear tires provide a smoother, improved ride with less turf compaction.

TUNNELRAM Deck

The high performance TunnelRam deck features heavy-duty 7 and 10 gauge steel (3.5mm/4.5mm) construction and a unique triple rolled edge design for superior strength. Performance and clipping dispersal are enhanced by the increased flow of the 7" deep tunnel design.

Automotive Style Caster Yoke

Automotive style caster yoke full tapered roller bearings and reinforced "L" bracket for durability and long life.

iZ5223

Advantages

Engine:

Manufacturer	Kohler V-Twin
Power	23 hp
Lubrication	Pressure with oil filter
Cooling	Air-Cooled
Air filter	Heavy-duty canister
Fuel tank capacity	11.4 gallons
Alternator	15A

Transmission:

Manufacturer	HydroGear / Parker-Ross
Type	Pump and Wheel Motors
Speed forward, min-max	0 - 9.5 miles/h

Heavy-Duty Spindles

Heavy-duty blade spindles feature greasable tapered roller bearing construction for strength and durability and aluminum housings for effective heat dissipation.

Large fuel capacity

11.4 gallons (43 liters) for up to 12 hours of mowing time. Large diameter refill tube for easy refueling.

Heavy Duty Canister Air Filter

The heavy duty canister airfilter provides maximum protection for the engine in the toughest mowing conditions.

Hydraulic System

The hydraulic system utilizes a fully synthetic 15W50 oil for positive component lubrication and protection, even in demanding conditions.

Speed reverse, min-max	0 - 5 miles/h
Brakes	Lined Brake Band
Tires, front/rear	13x5.0-6, 4 ply smooth tread / 23x10.5-12 Turf"

Equipment

Cutting width	52"
Cutting height	Adjustable 1.5 to 5"
Frame construction	Steel, uni-frame
Deck construction	7 Gauge tunnel and sides, 10 Gauge top and spindle reinforcement

Productivity**Overall dimensions**

Base machine (LxWxH)	L=76 1/2, H=42 1/2, W=65"
Weight	880 lbs

Ergonomic Steering Handles

New ergonomically designed steering controls are comfortable to operate and are fully adjustable for height to suit each customer's specific needs. Heavy-duty stabilus dampeners offer smooth control.

Tracking Adjustment Knob

The easily accessible tracking adjustment knob allows fine-tuning of straight line tracking without tools.

Optional Light Kit

An optional ROPS mounted light kit features twin 35W halogen lights with single clamp on installation.

326LS

Husqvarna 326LS is a trimmer with straight shaft and bevel gear. It is particularly suited for tough use in parks and gardens. The E-TECH II engine with air purge makes it easy to start. The extensive reach and angled front loop handle provide a more effective and comfortable working position. Fitted with a J-handle, this trimmer can be used with a blade.

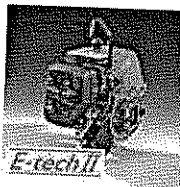

Hard chromium
Hard chromium plated cylinder bore provide increased durability and extended product life.

Wrought connecting rod
Forged connecting rod and three-piece crankshaft for extended product life.

Easy starting
Air purge designed for very easy starting. Transparent fuel tank for checking the fuel level.

E-TECH II
The E-TECH II engine combines high torque, reduced emissions and low noise with a superior power / weight ratio.

326LS

Engine specification

Cylinder displacement	(1.5) cu.inch / (24.5) cm ³
Power	(1.2) hp / (0.9) kW
Maximum power speed	(8400) rpm

#7

335LS

Husqvarna 335LS is a trimmer in the versatile 35cc class, built for tough commercial use. Top class performance is provided through raw powered X-TORQ engine with E-TECH II exhaust emission control, unique ergonomics and excellent durability.

More power where needed most

The X-TORQ engine design increases torque over a wider rpm range and results in maximum cutting power.

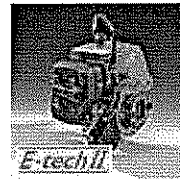

Auto return stop switch

Automatically resets to the ON position for trouble-free starting.

Easy starting

Air purge designed for very easy starting. Transparent fuel tank for checking the fuel level.

E-TECH II

The E-TECH II engine combines high torque, reduced emissions and low noise with a superior power / weight ratio.

Titanium Force™ Trimmer Line

Our top-of-the line trimmer line and one of the most recognized in the industry, this extreme commercial-grade co-polymer trimmer line is a patented design based on cutting-edge technology by having longer life and better overall performance. Because of the "dimpling" of the line (similar to the dimples on a golf ball), this design allows for fast acceleration and level flight characteristics, reduced fuel consumption and a quieter trimmer when running. Line color: Silver. Fits all standard trimmer heads.

#9

LE475

Make your lawn the envy of the neighborhood with the LE475 wheeled edger. The steel blade delivers a precise cut along driveways and sidewalks, and a 4.75 torque power Briggs & Stratton engine provides enough torque to edge through compact soils and grasses. The 4-stroke engine requires no mixing of oil or gas to operate. A curb hop feature allows you to adjust wheels to edge along curbs. And the blade can be angled at varying degrees for approaching slopes, trimming, or edging along flower beds and walkways.

LE475

Engine specification

Engine	Briggs & Stratton / 475 Series
Cylinder displacement	9.03 cu.inch / 148 cm ³
Fuel tank volume	3.78 US pint

Transmission

Wheel size	7x2 / 8x2"
------------	------------

346XP

New edition with increased power and new design. For professional logging, where users demand rapid acceleration, maximum power and maneuverability. Includes features like the side-mounted chain tensioner, fuel pump and Smart Start for easier starts, quick-release cylinder cover and rubber-mounted carburetor. Available with TrioBrake.

Easy to start
Smart Start and fuel pump make the saw very easy to start.

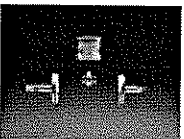

Easy to work with
The slim body, high center of gravity and flat underside make our saws easy to work with.

Air Injection
Air Injection. Centrifugal air cleaning system for longer intervals between filter cleanings, smoother operation and reduced wear.

Snap-lock cylinder cover
Snap-lock cylinder cover saves time when changing spark plugs and cleaning.

Three-piece crankshaft
Forged three-piece crankshaft for maximum durability for the toughest applications.

Easy chain lubrication
Adjustable oil pump makes it easy to set the chain lubrication according to your needs.

346XP

Engine

Cylinder displacement	3.06 cu.inch / 50.1 cm ³
Power	3.7 hp / 2.7 kW
Maximum recommended engine speed	14 100 mm
Fuel tank volume	1.06 US pint / 0.50l
Oil tank volume	0.59 US pint / 0.28l
Oil pump type	adjustable flow

Cutting equipment

Chain pitch	.325"
Recommended bar length	13-20" / 33-50 cm

Ergonomics

Sound level	106 dB(A)
	113 dB(A)

Advantages

The two mass principle

Vibration dampening system with the handles isolated from the engine with rubber mounts or steel springs.

Magnesium crankcase

Sturdily built crankcase withstands high rpms and tough professional use, ensuring a long service life.

Noise emissions, L_{WA}

Vibrations, front/rear handle 2.4 m/s² / 3.6 m/s²

Overall dimensions

Weight excl. cutting equipment 11.0 lbs / 5.0 kg

357XP

The Husqvarna 357XP is among our latest generation of professional saws. High power and rapid acceleration in combination with superior ergonomics, low vibration levels and a slim body ensure both effectiveness and less fatigue. A lightweight and reliable saw for users with demanding professional needs.

Easy to work with

The slim body, high center of gravity and flat underside make our saws easy to work with.

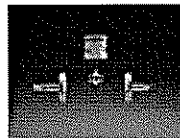

Magnesium crankcase

Sturdily built crankcase withstands high rpms and tough professional use, ensuring a long service life.

Air Injection

Air Injection. Centrifugal air cleaning system for longer intervals between filter cleanings, smoother operation and reduced wear.

Three-piece crankshaft

Forged three-piece crankshaft for maximum durability for the toughest applications.

Smart Start

The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.

Better grip

Angled front handle for better grip and natural working position.

357XP

Engine

Cylinder displacement	3.45 cu.inch / 56.5 cm ³
Power	4.4 hp / 3.2 kW
Maximum recommended engine speed	14 000 mm
Fuel tank volume	1.44 US pint / 0.68l
Oil tank volume	0.80 US pint / 0.38l
Oil pump type	adjustable flow

Cutting equipment

Chain pitch	.325 / 3/8"
Recommended bar length	13-20" / 33-50 cm

Ergonomics

Sound level	101 dB(A)
	114 dB(A)

Advantages

The two mass principle

Vibration dampening system with the handles isolated from the engine with rubber mounts or steel springs.

Easy chain lubrication

Adjustable oil pump makes it easy to set the chain lubrication according to your needs.

Safer to use

Double acting chain brake, right hand guard and chain catcher make the saw safer to use.

Noise emissions, L_{WA}

Vibrations, front/rear handle 3.9 m/s² / 4.2 m/s²

570

A high-performance, powerful saw for demanding professional users. High torque over a very wide rpm range, productivity boosting features and lower fuel costs make this saw an excellent choice.

More power where you need it
The X-TORQ engine design increases torque over a wider rpm range and results in maximum cutting power.

Easy to maintain
The tank protection is easily replacable in case of damage if the chain comes off.

Optimized saw body
A smooth underside, rounded starter cover and well-protected controls make the saw easy to handle, reduce the risk of getting caught in tree branches and make transportation easier.

Smart Start
The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.

Air Injection
Air Injection. Centrifugal air cleaning system for longer intervals between filter cleanings, smoother operation and reduced wear.

Snap-lock cylinder cover
Snap-lock cylinder cover saves time when changing spark plugs and cleaning.

570

Advantages

Engine

Cylinder displacement	4.14 cu.inch / 67.9 cm ³
Power	4.9 hp / 3.6 kW
Maximum recommended engine speed	13 600 mm
Fuel tank volume	1.48 US pint / 0.71
Oil tank volume	0.78 US pint / 0.371
Oil pump type	adjustable flow

Cutting equipment

Chain pitch	3/8"
Recommended bar length	16-32" / 40-80 cm

Ergonomics

Sound level	107 dB(A)
Noise emissions, L _{WA}	115 dB(A)
Vibrations, front/rear handle	3,2 m/s ² / 3,4 m/s ²

Quick chain adjustments

Side-mounted chain tensioner make chain adjustment quick and easy.

Three-piece crankshaft

Forged three-piece crankshaft for maximum durability for the toughest applications.

Better grip

Angled front handle for better grip and natural working position.

575XP

Our most advanced saw for professional users who require peak performance. Larger displacement, higher peak power and torque and even better ergonomics combine to ensure maximum productivity.

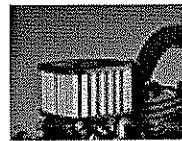

More power where you need it
The X-TORQ engine design increases torque over a wider rpm range and results in maximum cutting power.

Improved handle design
The rear handle is asymmetrically designed with comfort inserts for a more solid and less tiring grip.

Optimized saw body
A smooth underside, rounded starter cover and well-protected controls make the saw easy to handle, reduce the risk of getting caught in tree branches and make transportation easier.

Durability
Available with Heavy-Duty air filter.

Air Injection
Air Injection. Centrifugal air cleaning system for longer intervals between filter cleanings, smoother operation and reduced wear.

Smart Start
The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.

Pole saw 326P5x

Pole saw with rapid acceleration and easy starting E-TECH II engine. The versatile cutter head makes it easy to reach even dense trees and bushes without using a ladder or skylift. Low weight, good balance and rear-mounted engine provide a comfortable working position and reduced exhaust fumes. The cutter head has adjustable and automatic chain lubrication.

Easy transport and storage

Two-piece shaft for easy transport and storage.

Auto return stop switch

Automatically resets to the ON position for trouble-free starting.

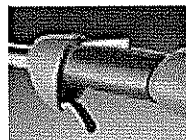

Smart Start

The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.

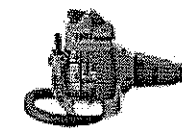

Chain tensioner

Adjustable chain tensioner, no tools required.

Soft handles

Soft handles for optimum comfort.

Impact guard

The rear impact guard protects the engine from damages.

Pole saw 326P5x

Advantages

Engine specification

Cylinder displacement	1.5 cu.inch / 24.5 cm ³
Cylinder bore	34 mm
Power	1.2 hp / 0.9 kW
Maximum power speed	8400 rpm
Type of carburator	Zama C1Q
Fuel tank volume	0.51 / 1 US pint
Maximum recommended engine speed	11700 rpm

Equipment

Chain pitch	3/8"
Recommended bar length	10-12"

Emission, vibration & noise data

Easy starting

Air purge designed for very easy starting. Transparent fuel tank for checking the fuel level.

E-TECH II

The E-TECH II engine combines high torque, reduced emissions and low noise with a superior power / weight ratio.

Vibrations idling front handle min/max	1.2 m/s ² / 1.2 m/s ²

9032PW

Wash away the dirt and grime with the newest addition to Husqvarna's broad line of outdoor power equipment. Our pressure washers feature both CAT and AR pumps, as well as premium engines designed by Honda.

CAT™ Triplex Plunger
 CAT™ Triplex Plunger Pump - built to perform under heavy-duty, industrial applications.

Pro-Grade Spray System
 Pro-Grade Spray System - built to stand up to industrial-type use with 5 Pro-Style Quick-Connect spray tips.

9032PW

Engine manufacturer	Honda GX270
Engine type	4 cycle, 9 hp
Hose length	50 feet
Pressure (PSI)	3200 PSI

Advantages

Adjustable Pressure Regulator

On the 9hp and above the pressure can be increased or decreased to perform job requirements.

Large pneumatic wheels

For all-terrain mobility.

Detergent injection

Liquid detergent can be applied easily through the use of a low pressure spray tip.

125B

Efficient hand held blower that combines high blowing power with user friendliness. Perfect for home owners.
Well balanced and easy to maneuver thanks to inline air outlet.

In lined outlet

The fan housing is designed so that the air stream is in-line with the handle. This makes the machine very easy to maneuver.

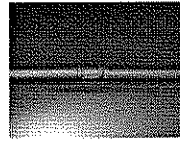

Auto return stop switch

Automatically resets to the ON position for trouble-free starting.

Cruise control

Fan speed can be set for easier handling.

Adjustable tube length

The blowing tube length is adjustable for best performance.

125B

Advantages

Engine specification

Cylinder displacement	1.7 cu.inch / 28 cm ³
Power	1.1 hp / 0.8 kW
Cylinder bore	1.4" / 35 mm
Maximum power speed	8000 rpm
Maximum recommended engine speed	10000 rpm
Type of carburator	Zama C1Q
Air speed	170 mph / 76 m/s
Air flow in housing	13.3 m ³ /min / 470 cfm
Air flow in pipe	12.0 m ³ /min / 425 cfm

Equipment

Fuel tank volume	1 US pint / 0.5l
Fuel consumption	575 g/kWh
Vibrations idling right handle min/max	5.2 m/s ² / 5.2 m/s ²
Vibrations top speed right handle min/max	11.6 m/s ² / 11.6 m/s ²
Sound level, min/max	92 dB(A) / 92 dB(A)
Sound level at 15 m (ANSI B 175.2)	70 dB(A)
Noise emission, L _{WA}	107 dB(A)

Intuitive controls

The controls are well gathered and easy to access.

180BT New!

Husqvarna 180BT is our most powerful commercial backpack blower! Large air flow and high air speed are provided by an efficient fan design together with the powerful X-TORQ engine. Commercial air filter gives long operating time and trouble free use. The harness has wide shoulder straps and hip belt for best ergonomics.

High blowing capacity

The powerful and easy to start X-TORQ engine in combination with effective fan design delivers high air speed and high air flow.

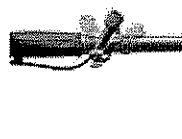

Commercial grade air filter

The 2-stage intake air filtration ensures long operation periods in dusty conditions.

Padded harness

Comfortable padded harness with load-reducing hipbelt.

Ergonomic handle

The handle can be angled and has rubber inserts for a stable, comfortable grip.

180BT

Advantages

Engine specification

Cylinder displacement	4.4 cu.inch / 71.9 cm ³

2754GLS New!

Available exclusively through our independent servicing dealer network, the LS Series are engineered for the discriminating landowner who desires a tractor with added durability, comfort, style and precision.

The 2754GLS is a multi-functional garden tractor, designed not only for cutting grass, but also for performing chores around your estate. Its ground-engaging hydrostatic transmission is capable of towing heavy-duty accessories, such as an aerator, grader or cultivator. A fender shift lever on the 2754GLS gives the operator better control in moving the tractor forward and in reverse.

The 2754GLS features a V-Twin, 27 horsepower Husqvarna Endurance™ series engine powered by Briggs and Stratton. The prosumer Endurance™ engine is rated for longer life than competitive consumer engines and is distinguished by an advanced air filtration system that blocks out foreign particles from entering the engine. Add to this double platinum spark plugs, premium oil and fuel filters, as well as a full-pressure lubrication system and the result is a cleaner, better performing engine.

The 54" cutting deck on the 2754GLS has three blades and our innovative Air Induction™ mowing technology which ensures a smooth, consistent cut. Welded steel tubing reinforces the trim side of the deck. An electric clutch easily engages the blades with the simple pull of a button. 4 gauge wheels on the deck prevent scalping on uneven terrain. There's even a deck wash system, so you can connect your garden hose to the port in order to clean the underside of the deck.

As for durability, the 2754GLS has a 12 gauge welded steel frame and a cast iron front axle.

Ergonomics is a key selling point when it comes to products manufactured by Husqvarna. All of our LS Series tractors have 15" high back seats for a comfortable ride and a step-thru design to make it easier to climb on and off. Our V-Twin engine has a lot less vibration and noise than single cylinder engine models.

Not only does the 2754GLS have substance, but it also has style. We've added a brush guard in the front to protect your investment. 23" x 10.5" rear tires provide better stability and added heft. A new sporty steering wheel and automotive-style aesthetics have been added to enhance the "look and feel" of the machine.

What else can you expect from a Husqvarna LS Class tractor? How about a 12 volt battery charger for your cell phone or MP3 player? A cupholder. An hour meter for helping track scheduled maintenance. And a two-year limited consumer warranty. When you are looking for a premium tractor for a good value, start with the LS Series.

LZ6127

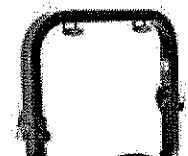

TUNNELRAM Deck

The high performance TunnelRam deck features heavy-duty 7 and 10 gauge steel (3.5mm/4.5mm) construction and a unique triple rolled edge design for superior strength. Performance and clipping dispersal are enhanced by the increased flow of the 7" deep tunnel design.

Heavy-Duty Spindles

Heavy-duty blade spindles feature greasable tapered roller bearing construction for strength and durability and aluminum housings for effective heat dissipation.

Optional Light Kit

An optional ROPS mounted light kit features twin 35W halogen lights with single clamp on installation.

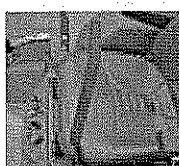

13 Bushel Collection System

An optional high performance triple bag collection system features a simplified latch system and pivoting lower frame that make the collector removable in minutes (13 bushel capacity).

Unibody Frame

State-of-the-art, heavy-duty, solid, welded uni-body frame provides increased strength and longer life.

Ergonomic Steering Handles

New ergonomically designed steering controls are comfortable to operate and are fully adjustable for height to suit each customer's specific needs. Heavy-duty stabilus dampeners offer smooth control.

LZ6127

Engine:

Manufacturer	Kohler V-Twin
Power	27 hp
Air filter	Heavy-duty canister
Fuel tank capacity	11.4 gallons

Alternator	15A
Battery	12V

Transmission:

Manufacturer	HydroGear / Parker-Ross
Type	Pump and Wheel Motors
Speed forward, min-max	0 - 10 miles/h

Advantages

Roll Over Protection

Standard on selected models, the new foldable ROPS design allows for operator protection in normal conditions, with the option to lower in areas with low hanging branches.

Ergonomic Deck Lifting System

Ergonomically designed deck lifting system offers precise cutting height adjustment in 1/4 inch increments select models come standard with a foot assisted deck lift pedal.

Heavy Duty Canister Air Filter

The heavy duty canister airfilter provides maximum protection for the engine in the toughest mowing conditions.

Low Center of Gravity

Speed reverse, min-max	0 - 5 miles/h
Tires, front/rear	24x12-12 Turf"
Equipment	
Cutting width	61"
Deck construction	7 Gauge tunnel and sides, 10 Gauge top and spindle reinforcement
Productivity	
Overall dimensions	
Weight	1060 lbs

Low center of gravity and wide stance allow exceptional stability and comfortable ride. Wide tires provide less grass compaction.

Automotive Style Caster Yoke

Automotive style caster yoke full tapered roller bearings and reinforced "L" bracket for durability and long life.

Wide Rear Tires

Wide rear tires provide a smoother, improved ride with less turf compaction.

Large fuel capacity

11.4 gallons (43 liters) for up to 12 hours of mowing time. Large diameter refill tube for easy refueling.

Vibration Isolated Engine

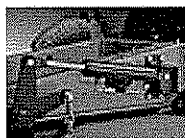

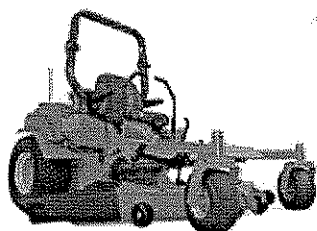

The engine is isolated from the frame with tough neoprene isolators. Reduced vibration results in less operator fatigue and reduced stress on the frame.

#20

BZ7234TD

When the job involves extra large areas and extended running time, the broad area series sets the standard in performance, productivity and comfort. Legendary Husqvarna quality is always at the forefront and the BZ series delivers with a heavy-duty "uni-frame" chassis, reinforced front caster assemblies and true commercial construction throughout. Powerful efficient diesel power, premium quality drive components and high performance TUNNELRAM cutting decks combine to offer superior productivity, while a full suspension seat, ergonomic system controls and industry leading anit-vibration technology make for the one of the most comfortable operating experiences in the industry.

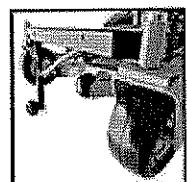

Hydraulic cutting deck lift
The hydraulic cutting deck lift increases performance and allows increased precision and control.

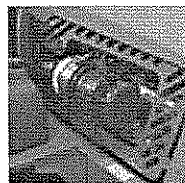

Vanguard / Daihatsu engines
Powerful Daihatsu liquid-cooled 3-cylinder diesel engines provide the highest horsepower in this class.

Stability & Protection
A protected engine compartment and a wide wheel base combine for a level of security and stability found on no other mower.

Hydraulic machine lift
Hydraulic lift arm, which raises the front of the machine, ensuring easier access for service and maintenance of the cutting deck.

Heavy Duty Air Filter
The heavy duty air filter provides maximum protection for the engine under the toughest mowing conditions.

TUNNELRAM Deck
The high performance TunnelRam deck features heavy-duty 7 and 10 gauge steel (3.5mm/4.5mm) construction and a unique triple rolled edge design for superior strength. Performance and clipping dispersal are enhanced by the increased flow of the 7" deep tunnel design.
