PURCHASING AFFIDAVIT

VENDOR OWING A DEBT TO THE STATE:

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

West Virginia Code §21-1D-5 provides that: Any solicitation for a public improvement construction contract shall require each vendor that submits a bid for the work to submit at the same time an affidavit that the vendor has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the West Virginia Code. A public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the West Virginia Code and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the West Virginia Code may take place before their work on the public improvement is begun.

ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and is in compliance with the requirements as stated.

Attn: Roberta Wagner

**Re: WSH90086 – Expression of Interest
The William R. Sharpe, Jr. Hospital**

Dear Ms. Wagner,

Alpha Associates, Incorporated is pleased to submit this Expression of Interest to provide architectural and engineering services for the design of a new 25,000 +/- square foot 50 bed patient care unit at the William R. Sharpe, Jr., Hospital located in Weston, West Virginia.

Alpha was established in 1969, over the past 40 years we have provided architectural and engineering design services for various clients throughout West Virginia and the surrounding states. Alpha's architectural design projects range from small renovations to 210,000 square foot new construction buildings. Alpha has provided design services for multiple hospitals including: Mon General Hospital, Ruby Memorial Hospital, Sundale Nursing Home, West Virginia University Health Sciences Center, Mary Babb Randolph Cancer Center, Harpers Ferry Medical Clinic and Reynolds Memorial Hospital. We will put this experience to work for you.

Team

Alpha is a multi-disciplinary design firm, which offers services in architectural design, civil and structural engineering, surveying, custom interior design, landscape design, construction administration and project management. We employ a staff of 40 highly knowledgeable and dedicated professionals and support staff that is ready to make your project a priority. Alpha is a principal owned and managed firm. A principal of the firm is dedicated to every project to ensure quality control and your complete satisfaction. Alpha has LEED-AP certified professionals on staff that will incorporate reduced energy and reduced costs of ownership into the design of your project.

Alpha will team with McHenry and Associates, located in Ohio to provide mechanical, electrical and plumbing services. Alpha and McHenry have worked together as a team on multiple hospital design projects for 25 plus years.

Alpha has also retained Food Facilities Concepts, located in Pennsylvania to provide design services, should the add alternate to provide a fully operational kitchen and dining room be accepted. Alpha has also worked with Food Facilities Concepts on several projects in the past.

The above team has the knowledge, capacity, and capability to make your project a success. Together our team will work hand-in-hand with you to ensure your project is completed on schedule and within budget. From the beginning we will develop a schedule that meets your needs and that will ensure your project will be completed on time. We will develop complete and accurate plans that will eliminate the need for change orders.

Summary

Let us put our knowledge and experience to work for you. The Alpha team is ready to begin work immediately. We look forward to sharing our ideas with you in an interview. Should you have any questions please contact me at 304-296-8216 x116 or mbreakey@alphaaec.com.

Very Truly Yours,

Alpha Associates, Incorporated

Cost Management

Alpha Associates, Incorporated

Alpha Associates, Incorporated utilizes a two-person cost estimating team. This team of estimators is responsible for providing construction and cost estimating data to all Alpha project teams.

Because we have in-house certified specialists, our cost estimators can work in cooperation with our architectural and engineering staff during the early design phases of a project enabling us to judiciously manage time and costs.

Our estimates average 3% higher than the low bid/award contract amount. To accomplish this impeccable record, Alpha's cost estimating team uses a comprehensive process consisting of four main resources:

1. state-of-the-art cost estimating software including *MEANS*

~~*Cost Works and ProEst Estimating.*~~

2. ~~contractors, vendors and manufacturers,~~

3. ~~historical cost data of similar recently completed projects, and~~

4. ~~third party cost estimating firms by owner request.~~

ARCHITECTS • ENGINEERS • SURVEYORS

McHENRY & ASSOCIATES, INC.

FIRM HISTORY

McHenry and Associates, Inc., was formed in January, 1986, to provide professional engineering services in the field of mechanical and electrical engineering. This firm is a continuation of the professional engineering practice of Menster, McHenry and Associates, Inc., and Paul C. Menster and Associates. Paul C. Menster and Associates was organized to provide consulting and design services in August, 1960. The firm under these names has continuously provided services for 47 years.

The firm provides professional mechanical and electrical engineering services on a wide range of new and renovation type projects. Our experience includes commercial, office, mercantile, retail, recreation, institutional, residential apartment projects, and industrial facilities. This broad background of experience enables the firm to provide innovative designs to satisfy a particular project's requirements. The firm also provides code analyses, feasibility studies, cost estimates, and energy utilization studies related to the mechanical and electrical systems.

SCOPE OF SERVICES

1. The engineering services offered by McHenry & Associates, Inc., are, in general, related to the mechanical and electrical systems for all types of buildings. Our services are comprehensive and include all mechanical and electrical systems for a project.
2. The mechanical services include the following:
 - a. Building storm drainage systems.
 - b. Plumbing and domestic water distribution.
 - c. Fire protection systems, including standpipes, sprinklers, and fire pumps.
 - d. Fuel and energy systems, including liquid propane and oil storage.
 - e. Compressed air and process piping systems.
 - f. Steam and hydronic heating systems.
 - g. Air conditioning systems.
 - h. Refrigeration systems.
 - i. Ventilation, exhaust and make-up air systems.
 - j. Control systems and energy management systems.
 - k. Energy recovery systems.
 - l. Process piping systems and medical gas systems.
3. The electrical services include the following:
 - a. Power service facilities.

- b. Power distribution.
 - c. Lighting systems.
 - d. Communication and sound systems.
 - e. Fire detection and alarm systems.
 - f. Emergency power generation systems.
4. Consultation and system analysis services include the following:
- a. Feasibility and cost analyses for projects.
 - b. Analyses and studies of existing facilities.
 - c. Energy utilization and management studies.
 - d. Operating cost and comparative fuel studies.
 - e. Life cycle costing and value analyses.

PERSONNEL

1. Our project personnel have a broad background of education, training and experience necessary for completion of a successful design within the parameter appropriate for a particular project. Since our firm provides in-house mechanical and electrical design, the staff is attentive to the requirements of coordination within the professional disciplines.

Our permanent staff includes 32 employees, 9 of which are registered mechanical and/or electrical engineers and 16 are engineering graduates. The remaining staff includes designers, CAD technicians and support staff.

2. The firm also avails itself of the resources of other consultants having expertise to complement the staff in the execution of projects, when appropriate.

FOOD FACILITIES CONCEPTS, INC.

■ COMPANY PROFILE

Food Facilities Concepts, Inc. specializes in meeting the design requirements of the institutional food service industry. Our design team has experience in planning projects for health care, long-term care, educational, hospitality and industry food service facilities, as well as teaching facilities for culinary schools.

We have expertise in all phases of design - from determining project feasibility through installation management. Food Facilities Concepts, Inc.'s design projects encompass small and large scale endeavors; from the renovation of small, outdated serving areas, to the total development of expansive food service departments for new multi-unit facilities.

We have made a commitment to provide the best services possible.
Following are some of the advantages of working with

Food Facilities Concepts, Inc.

- ◆ **Principal Involvement** - Your project will be designed by the principals of our firm. This total personal involvement enables prompt, comprehensive development of your design.
 - ◆ **Quality of Documentation** - We utilize the most advanced food service CAD design programs to produce precise detailed drawings and documentation.
 - ◆ **Experience** - The principals of our firm have more than fifty combined years of food service design experience. As the food service consultant for numerous architects, our staff is also knowledgeable in construction design and coordination requirements.
 - ◆ **Interior Design** - Our interior design department is available to assist your design team in selection and specification of furnishings and interior finishes that will endure their environment.
 - ◆ **Fees** - Our fees are typically fixed, as opposed to a percentage of equipment costs. Many feel that this fee structure helps keep food service equipment costs in line, as our fee is unrelated to the cost of the specified equipment.
-

FOOD FACILITIES CONCEPTS, INC.

■ COMPANY PROFILE

◆◆◆ To date, Food Facilities Concepts, Inc. has provided food service design for over six hundred ninety facilities throughout the country. Our success comes from repeat clientele and referrals, which are gained through our goal to strive for total client satisfaction. If your design requirements include any of the following areas, we are available and eager to assist you.

- **Kitchens**
- **Patient Feeding**
- **Cafeterias**
- **Dining Areas**
- **Satellite Kitchens**
- **Coffee Shops**
- **Restaurants**
- **Convenience Stores**
- **Culinary School Kitchens**

Alpha Associates, Incorporated has been involved in more than 250 projects at the former West Virginia University Medical Center. These projects have totaled over 700,000 SF in planning, design and construction administration. Projects involving research space have included the following projects.

BETTY PUSKAR BREAST CARE CENTER

This renovation project included interior design services for the 5,710 square foot state-of-the-art center. The Betty Puskar Breast Care Center offers diagnostic services; breast health education; psychological support services; and treatment services, including surgical procedures and radiation therapy.

MARY BABB RANDOLPH CANCER RESEARCH AND TREATMENT CENTER

Site and structural engineering design, and construction field services for the 69,900-square foot cancer center. The center serves as a research, treatment and education facility.

SAME DAY CARE UNIT

Renovation of approximately 3,600 SF of space on the Second Floor of the former University Hospital. The existing space was converted into a unit for out patient surgery preparation and recovery consisting of: exam rooms, nurse office and stations, utility rooms and post-op recovery.

MASS SPECTROMETER AND LABORATORY RENOVATION

Design, engineering, and construction administration for extensive renovations which included a Spectrometer Lab, a volatile storage vault, and related labs, offices and conference rooms.

DENTAL CLINIC

Recently constructed, this new dental clinic adjoins the Family Medicine Clinic in the Robert C. Byrd Health Sciences Center at West Virginia University. An important part of the "total family care" theme, the Family Dental Clinic is housed in approximately 9,300 SF of renovated space.

MAXILLOFACIAL UNIT

Architectural and engineering design for the renovation of 1,650-SF of existing space for the School of Dentistry.

PHYSIOLOGY LAB AND OFFICE RENOVATIONS

14,700 SF containing research laboratories, offices and a small electronics shop.

PHARMACOLOGY AND TOXICOLOGY RENOVATIONS

14,600 SF encompassed research and student laboratories, office and administrative areas.

FAMILY CLINIC

Located on the First Floor of the Robert C. Byrd Health Sciences Center at West Virginia University, this "state-of-the-art" teaching clinic is approximately 27,500 SF of renovated space and was opened in the Spring of 1999.

NEWBORN AND INTERMEDIATE NEWBORN INTENSIVE CARE UNITS

Design, engineering, and construction administration for an eight-bed NICU and a twelve-bed NICU. Facilities included nurses stations, medi-prep area, soiled utility, and clean storage areas.

**FAMILY PRACTICE
Student Health, and Pulmonary Function
Renovations**

Design and construction administration for renovations to existing space of Family Practice Department and Clinic. Renovation included classrooms with related examining and treatment rooms. Pulmonary laboratory space renovated for specialized rooms for exercise, blood gas and spirometry observation. Student Health included examination and treatment facilities for students of the University.

BIOCHEMISTRY DEPARTMENT RENOVATIONS

Complete departmental renovation including research laboratories and offices.

ORTHOPEDIC LABORATORY AND OFFICE RENOVATIONS

Design and construction administration for renovation of 4 laboratories and 7 offices.

MICRO-PATHOLOGY LABORATORIES

Design and construction administration of research laboratories and office suites for the following disciplines: Tumor Virology, Microbiology and Pathology.

EMI BODY SCANNER

Renovation of existing space to house body scanner including new electrical service, with temperature and humidity control for the computerized axial tomography system.

MRI SUPPORT FACILITY

Design of an 1800 square-foot facility to provide support space for a transportable MRI unit. Support space includes dressing rooms, film processing, on-deck area, reception, waiting and doctor's area.

SUMMARY

Mr. Atwell's 40 years of construction experience involve over 300 projects at the Robert C. Byrd Health Sciences Center, totaling over 0.75-million square feet of planning, designing and construction. Before co-founding Alpha Associates, Inc. in 1969, he was responsible for the structural design of several buildings in Northern Virginia, namely T.C. Williams High School and the 16-story Duke Street Apartments Building in Alexandria, VA and the 12-story Fairfax County Governmental Center in Fairfax, VA.

PROFILE

Broad-based responsibilities in the following areas:

- Health Care Design
- Health Care Engineering
- Structural Engineering
- Construction Administration

PROFESSIONAL HIGHLIGHTS

PRINCIPAL-IN-CHARGE AND PROJECT MANAGER:

- The Robert C. Byrd Health Sciences Center of West Virginia University; ADRC Center (Alzheimer's Disease and Related Disorders) with a Cyclotron and a PET Scanner, The Medical Research Imaging Center, The Medical Group Practice, The Sleeth Family Medicine Center, The Family Dental Clinic, The Betty Puskar Breast Care Center, The Mary Babb Randolph Cancer Center, The Blanche Rockefeller Neurosciences Center (Phase I), The School of Pharmacology Renovations; Morgantown, WV.
- Reynolds Memorial Hospital; two-story expansion; Glen Dale, WV
- Louis A. Johnson VA Medical Center; Primary Care (Phase II), Outpatient Support Clinic (Phase I), The Gamma Camera; Clarksburg, WV
- Robert C. Byrd Health Sciences Center East; Martinsburg, WV

CONSTRUCTION ADMINISTRATOR:

- Camp Dawson Training Facilities; Kingwood, WV
- Morgantown Medical Office Building; Morgantown, WV
- Ruby Memorial Hospital; Morgantown, WV
- Mon General Hospital; Morgantown, WV

STRUCTURAL ENGINEER:

- The Mary Babb Randolph Cancer, RCBHSC-WVU; Morgantown, WV
- Global Office Building; Washington, PA
- Courthouse Annex; Morgantown, WV
- Morgantown High School; Morgantown, WV
- Grafton High School, Grafton, WV

SUMMARY

Mr. Colebank is President and Chief Operating Officer of the firm. Mr. Colebank has been with Alpha Associates, Incorporated since 1985. He began his career with Alpha as a staff engineer and progressed through the ranks from Project Manager to his current position. Mr. Colebank has worked with diverse clients such as West Virginia University, City of Morgantown, The West Virginia Division of Highways, WVU Foundation and the Morgantown Municipal Airport, as well as numerous private clients. Since 1988, Mr. Colebank has been the Principal-In-Charge of many of the Civil Engineering projects developed at Alpha. In his current capacity, Mr. Colebank provides financial and administrative guidance for the day-to-day operations of the company while continuing to manage Civil Engineering Projects.

PROFILE

Broad-based responsibilities in the following areas:

- Project Management
- Business Operations and Financial Management
- Quality Assurance/Quality Control
- Civil Engineering Project Management and Design

- Building Structural Design and Analysis

PROFILE

Mr. Luttrell has worked with Alpha Associates, Inc. since 1996. He is the chief structural engineer for Alpha on all projects at Alpha. Before coming to Alpha, Mr. Luttrell's graduate work resulted in several contributions to the cold-formed steel deck industry. His new method of analysis for non-uniform loads on composite concrete and cold-formed steel decks has been made a permanent part of the *Steel Deck Institute's* design manual. Mr. Luttrell also worked on projects that involved pre-stressed timber bridge research with the West Virginia University Constructed Facilities Center. Since coming to Alpha, Mr. Luttrell has had a significant involvement in the effort to begin utilizing modern composite materials in practical bridge applications. Two recent Alpha bridge projects have been designed using these innovative materials.

DESIGN TEAM RESUMES

The following list represents the key personnel that will be involved in this project and a brief description of their qualifications.

Principal In Charge

Michael Taylor, as the co-founder of Food Facilities Concepts, Inc., has been working in the food service equipment field all of his working years and is the principal in charge of all kitchen projects for the firm. As a student, he worked in a food service equipment warehouse. After graduating from West Virginia University with a Bachelor of Science degree in Business Administration, he moved into food service equipment sales, which involved complete installation projects. Over the years, his involvement has evolved into food service design for comprehensive facilities, which service multi-unit institutions. Michael's full time experience in this field totals 27 years.

Design Coordinator

Robert B. Gustafson, co-founder of Food Facilities Concepts, Inc. initially was trained as a commercial interior designer at the Art Institute of Pittsburgh. Prior to entering the food service design field 25 years ago, he was involved in the interior design of public spaces, nurse's stations, offices and work areas for colleges, universities, hospitals, banks, libraries, and corporate offices. Since entering the food service design field, Bob has evolved from the interior design of the dining areas, to space planning and design for intricate serving areas, including the design of all custom components. His design experience totals 35 years.

Project Manager

Michael Ventresca, a professionally trained CAD technician, oversees the production of all drawings and schedules. Mike has experience in coordinating major food service equipment installations. This hands-on background enables him to provide documents that are complete and accurate, thus assuring total coordination with related building systems and an efficient installation of the project. Mike has 7 years full time experience in the food service equipment industry.

Project Coordinator

Mary Ann Gustafson also with Food Facilities Concepts, Inc. since its inception, has been associated with food service equipment for 26 years. Prior to this, she started out as a manager for a food service equipment distributor, moved into equipment sales and then a manufacturer's representative calling on food service equipment dealerships. She will coordinate all food service equipment documentation.
