West Virginia Department of Highways, Standard Specification Roads and Bridges, may be obtained from:

Engineering Division, Technical Section
Room A-650
West Virginia Division of Highways
State Capitol Complex, Building 5
Charleston, West Virginia 25305
Phone: 304-558-2885

PURPOSE OF CONTRACT

The State of West Virginia, Division of Environmental Protection's REAP Section and the West Virginia Division of Highways, needs a contract for managing waste tires generated during open dump cleanup projects and adopt-a-highway projects and those generated by DOH in their fleet management operations. As a result of the June 1, 1996 legislative mandate to ban tires from disposal in landfills, a safe, cost effective option for managing waste tires is needed. The DEP/DOH recognizes the need to properly manage the disposition of waste tires generated during state sponsored cleanups and by the DOH fleet in their day to day operations. Any option proposed by a qualified vendor must be in compliance with West Virginia's Waste Tire Management Rule, 33CSR5, which became effective June 2, 1996. A copy of this rule can be obtained by contacting the Secretary of State's Office at 558-6000.

SCOPE OF WORK

The DOH will identify location sites on their property where the successful vendor will place enclosed box trailers for the purpose of temporarily storing waste tires from cleanups. The minimum size box trailer must be capable of holding at least 80 cubic yards (40' x 7 1/2' x 7 1/2') of stacked tires (approximately 1100 passenger car tires equivalents). The unit price of this contract will be per cubic yard. The vendor will furnish heavy-duty locks for each trailer, all keyed alike and will furnish the DEP & DOH 3 keys each per lock. It is the intent of this contract to fill each trailer over time and to call the successful vendor when a trailer is full. After receiving the call the successful vendor must have the full trailer removed and an empty trailer in its place within 5 days.

Tires from cleanups can be muddy and may be wet. DEP/DOH is not responsible for cleaning trailers or for any water damage to trailers. DEP/DOH intends to hand-load trailers in order to maximize capacity and assure that waste tires are placed in an orderly manner. Trailers must be in good working order. DEP/DOH is not responsible in any way for the trailer including vandalism. Every effort will be made to place trailers in a secure area.

RECORDKEEPING REQUIRMENTS

The DEP and DOH shall be responsible to record the number of waste tires placed in the box trailer by each agency. This information shall be recorded on a log sheet posted on the inside of each box trailer and the data shall be entered by the agency representative each time waste tires are placed in the box trailer. The completed log sheet shall be removed from the box trailer and kept in a permanent file at the DOH location prior to the removal of a loaded box trailer by the vendor. A copy of the log sheet shall be provided to the DEP and the vendor each time prior to the removal of a loaded box trailer. The vendor shall be responsible to submit a quarterly report to the WVDEP, Solid Waste Management 7 Environmental Restoration Section at 601 57th Street, SE, Charleston, WV 25304. This report shall include, at a minimum, the following information: Name, address, telephone number and certification motor carrier identification number of the vendor (waste tire hauler), number of waste tires hauled from each DOH location and the name, address and telephone number of the waste tire monofill, storage cell, waste tire processing facility or other approved facility to where the waste tires were hauled by the vendor (inside or outside the State of West Virginia).

TERMS

1. DEP – Division of Environmental Protection-Office of Waste Management or its authorized representative.
2. DOH – Division of Highways or its authorized representative.
3. Waste tires – For the purpose of this contract, means automobile and truck tires or parts thereof which have been illegally or improperly stored or disposed and are subject to be cleaned up by DEP/DOH and tires generated by DOH during its day to day operations.
4. Vendor – Any potential company which would bid on this RFQ. Also includes the terms "apparent low bidder" and "successful bidder" which will be further identified as a waste tire hauler.
5. Tire disposal – Any legal method disposing of waste tires or parts thereof.
6. Tire recycling – Includes any approved method for reusing the components of a tire. Can be either a mechanical or chemical process.

7. **Trailer Rental Rate** - Trailers will only be spotted at each location or site at the District's request. A monthly rental rate may be charged for each trailer at each location after one month and for each month and/or prorated part of a month thereafter until the trailer is removed by the vendor. The rental rate per month can only be charged after a trailer has been located at a site or location for one month or longer and has not been moved.

SECURITY

All trailers will remain locked except during loading/unloading. Only DOH, DEP and their authorized contractors will have keys to the trailers. The general public will not have access to the trailers nor will the trailers be available to any party other than DEP and DOH. The loading of tires into trailers by DOH, DEP and their authorized contractors will be limited to 8:00 am – 4:00 pm, Monday through Friday unless other arrangements are made with the DOH. Trailers will not be parked closer than 50 feet from any structure.

INVOICING AND PAYMENT

Posted on the inside of each trailer will be a log sheet which will identify the source of the waste tires. It is the DOH's responsibility to use this log sheet to properly account for the tires for billing purposes.

The vendor will submit each invoice, not more frequently than monthly, to the DOH at the following address:

Division of Highways
Building 5, Room A-221
1900 Kanawha Blvd., East
Charleston, WV 25305-0430

The DOH will bill the DEP for its share of each invoice and the DEP will reimburse, by IGT, the DOH for its share of the cost.

BIDDING AND AWARD

Each perspective bidder may bid on any or all locations. Each location will be awarded to the lowest compliant bidder for that location. The bidding schedule 1 for specific location containing the 12 locations per cy will be for a trailer to be left at that specific location until the contractor is requested to remove it and replace it with another trailer. The lowest compliant bidder for each of the 12 locations will be determined by adding the monthly rental rate divided by 10 to the per cy bid.

The bidding schedule 2 containing the 12 locations with mobilization per each, mobilization per mile, per cy and, if applicable, monthly rental rate or prorated part thereof will be for trailers to be spotted at sites specified by the Division of Highways or The Department of Environmental Protection for tire pile remediations.

The lowest compliant bidder for each location will be determined by multiplying the per cy price by 100, the per mile price by 50, adding the mobilization charge per each and the monthly rental rate. The bid for that location will be awarded to the bidder with the lowest sum under this formula.

The mobilization charge per each, the per mile charge for the miles from the location to the specified site, and the per cy price for the cubic yard capacity of the trailer and, if applicable, the monthly rental rate or prorated part of a month thereof will be paid for each trailer mobilized to a specified site.
