The Vendor is not authorized to ship, nor is the Division authorized to receive materials prior to issuance of an (SCO).

## 5. SUPPLYING OTHER ORGANIZATIONAL ENTITIES

In accordance with Chapter 5A, Article 3, Section 9 of the Code of West Virginia the commodities or services contracted for herein shall be available to all local governmental bodies in accordance with the same prices, terms and conditions afforded to the State of West Virginia.

In the event any Vendor does not wish to extend the prices, terms and conditions of his bid and subsequent contract to all political sub-divisions of the State, he must so indicate in a clear and unambiguous manner in his bid. This indication does not prejudice the award of the contract. If a Vendor does not indicate his refusal to extend the prices, terms and conditions of his bid to political sub-divisions of the State he is bound to extend them upon issuance of a purchase order by these other entities.

Other organizational entities using this provision of the contract shall do so without any involvement of the Division of Highways. That is, the entity shall make its own purchase arrangements with the Vendor and shall make its own arrangement for payment.

## 6. HAULING AGGREGATE TO STATE PROJECTS BY CONTRACTOR

The most direct suitable route from the Vendor's aggregate storage site to the midpoint of the project will be determined by the Division and used to compute haul distance for the purpose of determining low bid, and also for the purpose of determining payment. The Contractor shall deposit aggregates at the project site at

the locations and in the manner directed by the Division of Highways. This may include tailgating the aggregate into an aggregate spreader or onto a roadway, or dumping the aggregate into a stockpile.

#### 7. WEIGHING MATERIALS DELIVERED BY TRUCK

Material delivered by truck shall be weighed in accordance with Section 401.9.3 of the West Virginia Department of Transportation, Division of Highways Standard Specifications Roads and Bridges, adopted 2000, as modified by the current Supplemental Specifications.

#### 8. WEIGHING MATERIALS DELIVERED BY MODES OF TRANSPORTATION OTHER THAN TRUCKS

Materials delivered to the designated site by barge, or other non-truck modes shall have their weight determined by a means acceptable to the Division, and the weights of materials so shipped shall be certified, by the Vendor or his authorized agent, to be correct.

The minimum barge delivery requested will be approximately 6,500 tons per SCO. When barge delivery is required contract item will be ordered in 1500 ton increments.

#### 9. SAMPLING AND TESTING

Sampling and testing for quality of all items furnished in this contract will be the responsibility of the Division. Minimum frequency of sampling and testing for quality on all materials (other than those sources already covered by the Division's "commercial source" approval) will be at least one sample every six days of shipment (or if tested during production, at least one sample every six days of production).

Other minimum frequencies shall be in accordance with the following:

<u>Property</u>	<u>Frequency</u>
Gradation-Delivered Material	One sample per each day of shipment (or if tested during production, one sample per each day of production). See Note 1 below.
Gradation-Division Pick-up	(Division pick up; A-1 Source) One sample per each week of shipment per MP 700.00.52; or if tested during production, one sample per each day of production. See Note 1 below.
	(Division pick up; A-2 Source) One sample per 250 tons shipped and a minimum of one per week of shipment.

### Moisture Content (See Note 2)

All samples taken by the Vendor shall be by a Certified Aggregate Sampler or Certified Aggregate Inspector. Tests shall be performed by a Certified Aggregate Inspector.

**NOTE 1:** The Vendor will be responsible for providing test results attesting to the gradation of materials delivered. Gradation results from the production source will be acceptable.

**NOTE 2:** In the event visual inspection of the aggregate indicates excess or unusual moisture beyond that normally expected in the aggregate, the Division reserves the right to determine the moisture content by standard methods. If this becomes necessary, the net weight of the portion represented will be adjusted utilizing the test results obtained by the Division in accordance with MP 700.00.22. Items "N" & "O" (Abrasives) will be considered fine aggregate outlined in MP 700.00.22.

## 10. ACCEPTANCE PLAN

Material failing to comply with the quality requirements will not be accepted. Acceptance for gradation shall be on the basis of test results, provided and certified by the Vendor to be true test results and representative of the material supplied to the Division, on consecutive random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sublots). A subplot shall consist of the quantity of material represented by a single gradation test. In the case where only one sample is taken to represent the total quantity, the subplot and lot will be considered the same. Frequency of sampling and testing shall be in accordance with the Vendor's quality control plan outlined in MP 700.00.51. The Vendor shall provide the gradation test results to the Division within 72 hours.

Gradation test results shall be averaged in accordance with MP 300.00.51. When the average falls outside the applicable limits, the lot of material represented thereby will be considered nonconforming to the extent that the last of its sublots is nonconforming. When a lot of material is nonconforming, then the last subplot contained therein shall have its degree of nonconformance determined as set forth below.

When a subplot of material is to have its price adjusted, the percentage point difference between the nonconforming test value and the specification limit shall be determined for each sieve size determined to be nonconforming, and this value shall be multiplied by its appropriate multiplication factor as set forth in Table I.

TABLE 1

<u>NONCONFORMING SIEVE SIZE</u>	<u>MULTIPLICATION FACTOR</u>
Plus #40	1
#40	1.5
#50	1.5
#100	2.0 (1.3 for abrasives and cinders)
#200	2.5
1/2"	1
3/8"	1

The total measure of nonconformance of an individual subplot is the sum of all nonconformances on the various sieve sizes of that subplot. In no case, however, shall a subplot of material have its price adjusted more than once, and the first adjustment which is determined shall apply.

When the total degree of nonconformance has been established and it is 12 or less, the material will be paid for at an adjusted contract price as specified in Table 2.

TABLE 2

<u>DEGREE OF NONCONFORMANCE</u>	<u>PERCENT OF CONTRACT PRICE TO BE REDUCED</u>
1.0 TO 3.0	2
3.1 TO 5.0	4
5.1 TO 8.0	7
8.1 TO 12.0	11
Greater than 12	*

\*The Division will make a special evaluation of the material and determine the appropriate action.

In the event a Vendor delivers a specific quantity of material from a stockpile, and said quantity is less than the total quantity contained in the stockpile, and it has been determined from his certified test data that a nonconforming subplot(s) is contained in said stockpile, the price reduction shall be calculated for the specific quantity as follows:

The percent price reduction shall be determined as set forth above for the nonconforming subplot. The quantity represented by the nonconforming subplot shall then be calculated as a percent of the total (total material contained in the stockpile). To determine the price reduction on the specific quantity delivered, multiply the percent of nonconforming material contained in the stockpile by the quantity delivered, and reduce this quantity by the percent price reduction as determined.

**Example:**

If it has been determined that a stockpile of 100 tons contains 10 percent failing material, and said material is to have its price reduced by 4 percent, then the actual quantity delivered, say 15 tons, will be multiplied by 0.10 (10 percent failing

$$TD \left[ 1 - \frac{PQ_n}{100Q_t} \right] = AP \text{ (price to be paid after adjustment)}$$

material) which equals 1.5 tons. This 1.5 tons will thus have its price reduced by 4 percent. The remaining 13.5 tons will be paid for at full contract price.

WHERE T: = tonnage delivered  
P = percent price reduction  
D = cost per ton  
Q<sub>n</sub> = quantity of nonconforming subplot(s)  
Q<sub>t</sub> = quantity of total stockpile

If two (2) sublots are nonconforming within the stockpile, calculate each separately for the adjusted payment on the quantity delivered (as above). Add these two adjusted payments together and subtract from the total the price to be paid before adjustment for tonnage delivered (TD). If three (3) sublots are nonconforming, calculate each separately and subtract twice the price to be paid before adjustment for tonnage delivered, and so on. Example:

(AP1 + AP2) – TD = Final price to be paid after adjustments

OR

(AP1 + AP2 + AP3) – 2 TD = Final price to be paid after adjustments

Where: AP = price to be paid after initial adjustment for one nonconforming subplot determined by the above equation.

T = tonnage delivered

D = cost per ton

In the event material is delivered from a continuous stockpile, that is, a stockpile which is continuously being replenished while also having material removed for these applications, certification shall be based on the shipment samples.

# **11. PURCHASING CARD ACCEPTANCE**

The State of West Virginia currently utilizes a VISA Purchasing Card Program which is issued through a bank. The successful vendors must accept the State of West Virginia VISA Purchasing Card for payment of all orders placed by State DOT agency for orders as a condition of award.

Vendors are encouraged to utilize a paperless invoice process submitting the following information via e-mail to the DOH ordering locations:

- a. All weigh ticket numbers for material delivered during the invoicing period.
- b. Division of Highways' State Contract Purchase Order (SCO) number and this contract number.
- c. Total quantity and unit price with the total cost of each type of material furnished. (Total quantity invoiced shall be scale weights (supported by weigh tickets) adjusted in accordance with Section 9, Note 2.)

**NOTE:** Under no circumstances will the West Virginia Division of Highways accept, or pay for, quantities of material in excess of the quantity stated on the State Contract Purchase Order.

Certification and application\* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

☒ Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,

☐ Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
3. ☒ Application is made for 2.5% resident vendor preference for the reason checked:  
☐ Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. ☒ Application is made for 5% resident vendor preference for the reason checked:  
☐ Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
5. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:  
☐ Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,

☐ Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.
