The Division of Highways may purchase Hot-Mix Asphalt F.O.B. Vendor's plant. The bid price F.O.B. Vendor's plant shall include the loading of Division of Highways', owned or rented, trucks and the furnishing of a coating solution in accordance with Section 401.9.7 of the Specifications by Vendor.

2. BIDDING INSTRUCTIONS

Any qualification of bids or any modification of the specifications or conditions governing the bids shall be cause to reject bids.

If a Vendor will be supplying materials from more than one plant, the bid prices that apply to each plant shall be clearly indicated in the bid, preferably on separate bid schedules.

3. DETERMINING LOW BID

The purpose of this contract is to establish unit prices for Items A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM and AN which are to be used as the basis for requisitioning Hot-Mix Asphalt and Warm-Mix Asphalt for use on various maintenance and repair projects throughout the District.

State Contract Purchase Orders (SCO's) for individual paving projects will be based on the lowest overall total cost of the pick-up price of material (Items A through O) plus shoulder paving Item S, T, and U plus the haul cost (Item V) plus the lay down cost (Item W), plus cleaning & sweeping (Item X), tack material (Item Y), mobilization for paving (Items Z, or AA) off season plant opening (Item AB), additional heel-in joints (Item AC), skip paving surcharge (Item AD), mobilization for profiling (Item AE), pavement profiling (Item AF), and Traffic Control (Items AG, AH, AI and AJ), and Item AM Pavement repair, however (Items A through R) may be furnished from any approved production location. Items S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM and AN shall be shown on the SCO as a separate pay item when requested by the Engineer.

State Contract Purchase Orders (SCO's) for material to be picked up at the Vendor's plant by the Division of Highways will be based on the lowest unit price of Items A through R and the Division's most economical haul cost from the Vendor's plant to individual job sites. Factors to be considered shall include but not be limited to; bid price of material, haul cost @ \$0.25 for each additional ton-mile, loading and transportation delays, and availability of material.

The distances allowed for haul costs will be over suitable routes selected by the Engineer that provides the lowest total cost to the Division of Highways and shall be measured from the Vendor's plant location to the mid-point of the project. All such chosen routes shall have acceptable load limits for both roads and bridges.

The Division of Highways reserves the right to request any one or combination of items for which bids are received at the lowest overall total as set forth above.

Acceptance of a bid for any one item shall not be dependent upon the acceptance of a bid for any other item or any combination of items. However, Item P shall not be requested except when determined by the Engineer that all other equivalent items of material are not available, then only on a pick-up basis. Also, Item V will only be requested in combination with other quoted items.

Upon receipt of a State Contract Purchase Order (SCO) for lay down of Hot Mix Asphalt or pavement profiling, the Vendor shall advise the Division of Highways, in writing, within five (5) calendar days of their acceptance of the SCO. Failure to acknowledge shall result in cancellation of the SCO and re-award to the next lowest bidder.

4. CONTRACT CONDITIONS

Vendors may bid any or all items on the bid schedule. However, the amount bid on any one item may not be conditioned on the acceptance of the bid on any other item or items.

All qualified Vendors who submit a valid bid "F.O.B. Vendor's Plant" will be awarded a Contract for those items bid (see Section 12).

In the event a Contractor fails to conform to the requirements set out in this contract document, the State Contract Purchase Order or the governing specifications, and the State Contract Purchase Order may be canceled and re-awarded to the next lowest bidder.

The Vendor is not authorized to ship, nor is the Division authorized to receive materials prior to the issuance of an "SCO".

5. CONTRACT COMPLETION

All State Contract Purchase Order's (SCO's) for lay down work shall be started within ten (10) calendar days of vendor acceptance of the "SCO", unless otherwise specified by the Engineer. If not started within 10 days SCO may be cancelled and reissued to next lowest bidder. If not completed within thirty (30) calendar days of the starting date, unless otherwise specified in the SCO, liquidated damages will be assessed in accordance with Section 108.7 of the Standard Specifications Roads and Bridges Latest Addition.

6. GENERAL PROVISIONS

6.1 Lay Down

Lay down as noted in Item W shall be provided by the Vendor as requested by the Division of Highways at projects designated by the Engineer.

6.2 Skip Paving

The Vendor may be required to perform Skip Paving projects at a paving location, provided the distance between the end of one skip and the beginning of the next does not exceed two thousand five hundred (2500) feet. When Skip Paving is requested the Vendor shall be paid the Skip Paving Surcharge, Item AD for each ton of final surface course material completed in place on the project. Patching and leveling in preparation for resurfacing of a project shall not be considered Skip Paving.

6.3 Heel - In

Heel -in of joints at the beginning and the end of each paving location, will be performed by the Vendor in accordance with the Resurfacing Heel - In Detail.

Payment for beginning and ending heel - in joints shall be included in the unit price bid for Item W.

Additional Heel - In Joints, Item AC, constructed in accordance with the Resurfacing Heel - In Detail may be required as directed by the Engineer at intersecting roadways, at the beginning and end of each paving skip, and other designated locations. Payment of additional Heel-In Joints shall be paid per lineal foot as measured along the joint, which shall be full payment for complete construction of the joint.

6.4 Cleaning and Sweeping

Cleaning and Sweeping may be performed by the Division. However, Cleaning and Sweeping, if provided by the Vendor, shall be performed in accordance with Subsection 401.10.1 of the Standard Specifications. Payment shall be calculated as the paving length times the width swept in accordance with subsection 401.10.1.

6.5 Off Season Plant Opening

If the Vendor is required to open his plant in the off season to service the needs of the Division, an additional payment will be made under Item AB, off-season plant opening. Vendor will be paid additional day charge for each additional consecutive day that the plant is open after the first day to serve the needs of the Division.

If the plant produces no material for any user on any calendar day, either during the week or on the weekend, the Division will pay the first day rate for off-season plant opening on the next day of Division usage. Payment for this item is subject to the following conditions:

6.5.1 Payment for Item AB can only be authorized and made during the winter months, i.e., between December 15 and March 15, and then only if the plant would not have otherwise been open.

These dates may be revised by the State Highway Engineer, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

6.5.2 Payment will always be made in the full contract bid price amount for first day of plant opening. However, the amount paid from each additional day of plant opening will be reduced as follows:

a. Payment for additional day charge will not be made if the plant has produced over 500 tons on that particular day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the amount bid for additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the State, the various local governments, and all private work.

b. The State will only pay its share of the amount determined to be due for additional day charge in paragraph 6.5.2a above. For example, if the plant produces 375 tons and the Division takes 150 tons of the total, in this illustration 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due one-half (50%) of the additional day charge in accordance with paragraph 6.5.2a. Because the Division's share of this daily production is 40% the Division would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charge.

6.5.3 In order to be paid for additional day charge, a certified statement shall accompany the invoice stating the total quantity produced on that day. If payment for additional day of plant opening is not made due to tonnage produced, the next consecutive day of plant operation, if any, will only qualify for payment at the additional day rate, not the first day rate for plant opening.

6.6 Pavement Profiling (Milling)

6.6.1 Description of Work:

This work shall consist of profiling the existing pavement to the specified grade and cross slope by grinding, planning or milling. The profiling equipment shall be capable of accurately establishing profile grades (1/4 inch plus or minus) along each edge of the machine by reference from the existing pavement by use of ski or matching shoe or by reference to independent grade control. Work shall consist of squaring up the repair area, removing damaged material to a depth directed by the engineer, hauling and disposing of existing pavement, tacking of existing surfaces and placing and compacting Base 2 HMA in lifts not exceeding 2" to the level of the existing pavement. The cost of squaring, removing, hauling, disposing of the existing pavement, placing, and compacting the Base 2 HMA shall be included in the Bid price for "Pavement Repair".

6.10 PRICE ADJUSTMENT OF ASPHALT CEMENT

Due to the uncertainty in estimating the costs of petroleum products that will be used during the life of this Contract, adjustment in compensation for contract Items A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, and P, and is provided in The Special Provision for Section 109 as Section 109.10.

The asphalt cement content used for Item P shall be that specified above for the similar materials in Item A through O.

6.11 PRICE ADJUSTMENT OF FUEL OIL NO. 2 (DIESEL FUEL)

Because of the uncertainty in estimating the cost of diesel fuel that will be used during the life of this contract, adjustment in compensation for contract Items A, B, C, D, E, F, G, H, I, J, K, L, M, N, and O, is provided for in The Special Provision for Section 109 as Section 109.9.

5.12 Surcharge for Warm-Mix Asphalt

6.13 Milled Rumble Strip

Milled Rumble Strips shall be constructed in accordance with "Rumble Strip Special Detail" (See Figure 1).

6.13.1 Mobilization for Milled Rumble Strips

Work shall consist preparatory operations including movement of necessary personnel and equipment onto project site to begin the work of milling rumble strips. Only one mobilization for milling rumble strips per State Contract Order (SCO) shall be paid when milled rumble strips are required.

7. MOBILIZATION FOR PAVING LIMITS

Mobilization for Paving, Items Z and AA will be paid when Vendor is required to place lay down quantities (Item W) under 500 tons. In addition, nighttime mobilization for paving, Item Z will only be paid when Vendor is directed by the Engineer to perform lay down at night.

Only one mobilization for paving per day of operation will be paid, unless moves of over five miles between individual paving locations are required. In cases where a Vendor is required to move from one roadway to the adjacent roadway of a divided highway, additional mobilization for paving will only be paid if the nearest interchange or crossing point that will accommodate the Vendor's equipment is over five miles from the paving locations. (This provision may require roundtrip moves of up to 10 miles with no additional mobilization for paving payment).

At an individual paving location where the Vendor is required to place quantities of less than 500 tons on successive days and/or nights, mobilization for paving will only be paid for the initial day's and/or night's operation.

When WMA is used, the temperature of the completed mixture at the plant may be lowered to an established range that has previously been determined through trial production. The allowable temperature range specified on the approved T400 mix design form shall be adjusted accordingly when using WMA. In addition, typical minimum HMA compaction temperatures shall be waived as long as additional density can be obtained at lower temperatures without damaging the pavement.

11 SUPPLYING OTHER ORGANIZATION ENTITIES

County Courts, Municipalities, School Boards, and other political subdivision and governmental entities, etc, may have a need for these materials, and Vendors may wish to supply that need.

Accordingly, bidders may wish to extend their contract prices to these other entities. If the bidder wishes to supply these other entities, but with prices different from quoted for the Division of Highways, the bidder shall include a set of bid schedules clearly and unambiguously marked for the express use of the entities other than the Division of Highways. Failure by the bidder to include a set of bid schedules for other entities will be taken to mean that the bid schedules extended to the Division of Highways will also be extended to these other entities.

In the event any Vendor does not wish to extend the prices, terms and conditions of his bid and subsequent contract to other entities of the State, he must so indicate in a clear and unambiguous manner in his bid. This indication does not prejudice the award of the contract. If a Vendor does not indicate his refusal to extend the prices, terms and conditions of his bid to other entities of the State, he is bound to extend them upon issuance of a purchase order by these other entities.

Other organizational entities using this provision of the contract shall do so without any involvement of the Division of Highways. That is, the entity shall make its own purchase arrangements with the Vendor and shall make its own arrangement for payment.

- d. Vendors shall show all weigh ticket numbers on their individual invoices.
- e. No payment will be made to a Contractor for Item Z or AA unless he performs the lay down operation and the quantity involved is less than 500 tons for Item Z.

Under no circumstance will the West Virginia Division of Highways accept, or pay for, quantities of material in excess of the quantity stated on the State Contract Purchase Order.
