**RE: *Request for Expression of Interest:  
RFQ # DEP 14735***

Dear Mr. Bowman:

Marshall Miller & Associates is pleased to provide the enclosed response to Expression of Interest (EOI) DEP14735. MM&A has extensive in-house capabilities and experience in landfill issues, and is very well-qualified to undertake engineering and hydrogeologic assignments under the Landfill Closure Assistance Program. Our staff of approximately 185 personnel includes a large professional staff of civil and remediation engineers, hydrogeologists, geologists, surveyors, environmental scientists, and construction managers who understand the engineering, regulatory and ground water issues involved in leachate generation and management. Our professional staff includes Professional Engineers, Certified Professional Geologists, a Certified Ground Water Professional, environmental scientists, remediation specialists, and experienced technicians.

Our highly-qualified, highly-experienced staff is supported with in-house capabilities that are very well-tailored to the demands of the anticipated activities. In-house capabilities include: Geoprobe® direct push technology (truck and bobcat mounted); subsurface geophysical services; heavy equipment (dump trucks, backhoe, loaders) and operators; and surveying.

As you will see in the enclosed EOI, we are continually involved in all of the prescribed services on a routine basis. MM&A has direct experience working with the West Virginia Department of Environmental Protection's Landfill Closure Assistance Program (LCAP) program under previous contracts, and continues to provide services to WVDEP's LUST

program. We are uniquely well-qualified to perform the requested services on behalf of the WVDEP-LCAP program. Specifically, we investigated and prepared closure design plans for the McDowell County landfill.

In summary, MM&A offers a large, highly-qualified, and highly-experienced staff with in-house support capabilities that are very well tailored to the demands of the anticipated activities. Our strengths in hydrogeology, geology, environmental assessment and engineering, coupled with our direct experience with the LCAP program, makes MM&A uniquely qualified to perform the services desired. We would welcome the opportunity for an interview, and would like to invite you to visit our facilities if you should have the opportunity.

Sincerely,

*MARSHALL MILLER & ASSOCIATES*

Christopher S. Butler, P.E.  
*Senior Engineer*

William O. Dickey, P.E.  
*Vice President Civil & Structural Engineering*

William S. Almes, P.E.  
*Senior Engineer & Director of Geotechnical Services*
