### **Procedure for Contracting Work**

Work directives for individual sites or projects will be issued to a qualified contractor in a manner which will be most advantageous to the State. The contractor with the lowest bid items that are indicated in the work directive will be selected. If low bidder is not available then the next lowest will be selected.

### **Down Equipment**

Equipment shall be considered down if it is out of production for more than (2) two hours due to mechanical failure or other conditions and no pay will be authorized until production is resumed. The Department of Environmental Protection, Office of Oil and Gas will not pay for time for fueling and lubrication of the unit(s).

### **Emergency Situation/Project**

In the event that an emergency situation should arise that requires immediate attention regarding plugging oil and natural gas wells and may also require the halt of current operations, the Office of Oil and Gas reserves the right to request the vendor to relocate to assist with the emergency.

### **Workmanship**

The Office of Oil and Gas reserves the right to terminate any plugging job which does not conform with reasonable production standards. Production standards will be based on historical performance data under similar circumstances.

Only vendors who show evidence of employment of qualified and experienced operators who have satisfactory performance reputation in this specialized field will be considered.

### **Basis of payment**

The vendor will invoice the Office of Oil and Gas upon completion of plugging work and reclamation. In the event that a job exceeds a 30-day work period, vendors will be permitted to submit monthly invoices for actual services rendered. Invoices will then be submitted monthly or upon completion of the project, whichever occurs first.

The invoice shall be itemized showing hours worked and all related expenses.

### **Fiscal Funding**

It is understood that if the Office of Oil and Gas is not allocated funds for the future succeeding fiscal periods for the continued procurement of the services covered by this agreement, the Office of Oil and Gas shall be obligated to pay all charges incurred through the end of such fiscal period at which time this agreement shall automatically terminate. No penalty shall accrue to the Office of Oil and Gas in the event the provision for non-appropriation of funds is exercised. This provision shall not be construed so as to permit the Office of Oil and Gas to terminate the agreement in order to acquire similar services from another vendor or source.
