Also, a primary location (main office) of where most of the services will be completed must be identified. Quotations will be considered only from those offerors who can meet the minimum qualification criteria set forth in Section D herein. Offerors should be careful not to include in their quotation items that are beyond the scope of services required in this RFQ. The quote should provide the State with the most favorable terms from a technical and cost standpoint. Also, required shall be a bid bond or certified check in the amount of 5 percent (5%) of the total bid.

The State reserves the right to reject any or all quotations, or to advertise separately with any source(s) considered qualified for the performance of services described in this RFQ, or for other services as may be required by the State for correcting problems arising from abandoned mine lands.

SECTION C – SCOPE OF SERVICES

Background

DEP is mandated by the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, to reclaim lands and water affected by coal mining that impose social and economic costs on residents, impair environmental quality, prevent or damage the beneficial use of land or water resources or endanger the health and safety of the public.

Also, all tests and testing shall be accomplished according to ASTM applicable standards. All laboratories used for testing shall have the proper State qualifications/certifications. Offeror must provide a chain-of-custody form for all samples and obtain certifiable results for any and all testing.

I. Subsurface and Surface Investigations

The type of subsurface investigations an offeror must be capable of providing include the following:
