Attn: Eric J. Coberly, P.E., Chief

Re: Sugarcamp Run Burning Refuse Design  
DEP15064  
Expression of Interest

Dear Mr. Coberly:

E. L. Robinson Engineering Co. (ELR) is pleased to submit this proposal in response to your request to perform professional engineering design services, and construction monitoring services associated with the design of the Sugarcamp Run Burning Refuse Design project located in Nicholas County.

We have completed plans and specifications for numerous reclamation and waterline projects for WVDEP/AML over eleven years. In addition, we have completed numerous projects with ODNR over the past five years. We have descriptions of these projects in the attached proposal. Please note that the majority of staff that worked on these projects are still with ELR.

The ELR staff has combined experience in the design of nearly 100 AML projects.

We are able to assemble multiple design teams with our current staff. The Charleston office has:

- A. Thirteen (13) registered professional engineers (civil or mining), two (2) Landscape architects, four (4) engineers in training as well as several CADD technicians that may be used on these teams.
- B. ELR Corporate experience in designing more than forty (40) abandoned mine land remediation projects. Personal experience on nearly one hundred (100) AML projects. This number does not include surveying/mapping/drilling projects.

E. L. Robinson Engineering Co. has grown from 13 employees in 1996 to over 80 employees today. Throughout this growth period we have continued to meet project deadlines while providing a high quality engineering product.

Our office location in Charleston is centrally and conveniently located in respect to the WVDEP offices and the referenced project.

We at E.L. Robinson Engineering Co. look forward to serving your agency under this contract. If you have any questions or need clarification, please feel free to contact me at (304) 776-7473.

Sincerely,  
E. L. Robinson Engineering Co.  
By:

Richard W. Watts, P.G.  
Project Manager

## Executive Summary

For more than 10 years, E.L. Robinson Engineering Company has been a prime and preferred engineering and surveying consultant to the WV Division of Environmental Protection, Office of Abandoned Mine Lands and Reclamation (WVDEP/AML) program. We have provided this Executive Summary to directly respond to the Expression of Interest and provide ease for the evaluators to score this proposal.

### **Understanding of Project Requirements**

E.L. Robinson Engineering Co. fully understands the requirements for this project and is committed to giving the WVDEP/Office of Abandoned Mine Lands and Reclamation the time and attention that is necessary for the reclamation project. Professional services may include: civil; structural; geological; surveying and mapping; preparation of all necessary permit applications; construction monitoring and other services that may be required.

### **Firm's Capacity**

E.L. Robinson Engineering Co. approaches all engineering projects with the same attention to detail and fiscal responsibility to ensure the client receives the most cost effective plan, design and operationally functional project possible. Our approach truly makes the WVDEP/AML engineering staff an integral part in the design of the project. We want to make sure that the review staff is comfortable with the design concept before the project is submitted for review. During this process, we evaluate all technical alternatives to determine the most cost effective plan and technically acceptable project for the WVDEP/AML staff.

E.L. Robinson Engineering Co. has more than 50 professionals on staff and individuals experienced in mine reclamation. This capacity allows for the development of innovative and alternative methods to address complex issues involved in reclamation projects of this nature. Our QA/QC process also allows for a different perspective to be brought to the project before submission to the client and for review. E.L. Robinson Engineering Co. has the capacity to take this project from conception to completion with a wide variety of experienced professionals with in-house staff for planning, design, permitting, bidding and construction monitoring.

E.L. Robinson Engineering Co. will work diligently to deliver the highest quality, cost effective solution that the WVDEP/AML deserves. We have extensive knowledge in mine reclamation and are currently working with WVDEP/AML and Ohio DNR on similar projects. We have an excellent understanding of the requirements for this type of project and a good working relationship with NEPA, permitting and regulatory issues.

E.L. Robinson is familiar with the project area and the type of project for which you are seeking engineering services. We believe that we have a thorough understanding of the work to be provided to the WVDEP/AML for the subject reclamation project.

We are anxious to become an extension of your staff by providing prompt planning, design and construction monitoring services as needed. We interact with the various review and permitting agencies. As you will see from our resumes, we are uniquely diversified to provide quality engineering services to your agency.

E.L. Robinson will work closely with the WVDEP/AML and all regulatory and permitting agencies to complete this project. We feel that our extensive knowledge and experience in the planning and design of similar projects are significant assets in developing a cost-effective solution to your reclamation project.

The scope of services will include but are not limited to:

- Conceptual engineering and identification of permitting requirements
- Surveying and contour mapping
- Geotechnical services
- Design
- Preparation of plans and specifications
- Participation in the pre-bid meeting
- Participation in the pre-construction meeting
- Preparation of all necessary permit applications
- Construction monitoring
- Other services that may be required by the WVDEP/AML

## Our Project Team

Our firm has put together a project team that is experienced in the design and construction of mine reclamation projects and has the capacity to perform the project's scope in a timely and efficient manner.

**Mr. Rich Watts, P.G.** will be assigned as the Project Manager.

**Mr. John Kelly, II, E.I.** will be assigned the CADD designer and principal production person for the project. He has performed this role for numerous mine reclamation projects.

**Mr. Timothy Cart, P.E., Mr. Randall Lackey, P.E. and Mr. Mark McGettigan, P.E.** will be assigned as the Project Engineers.

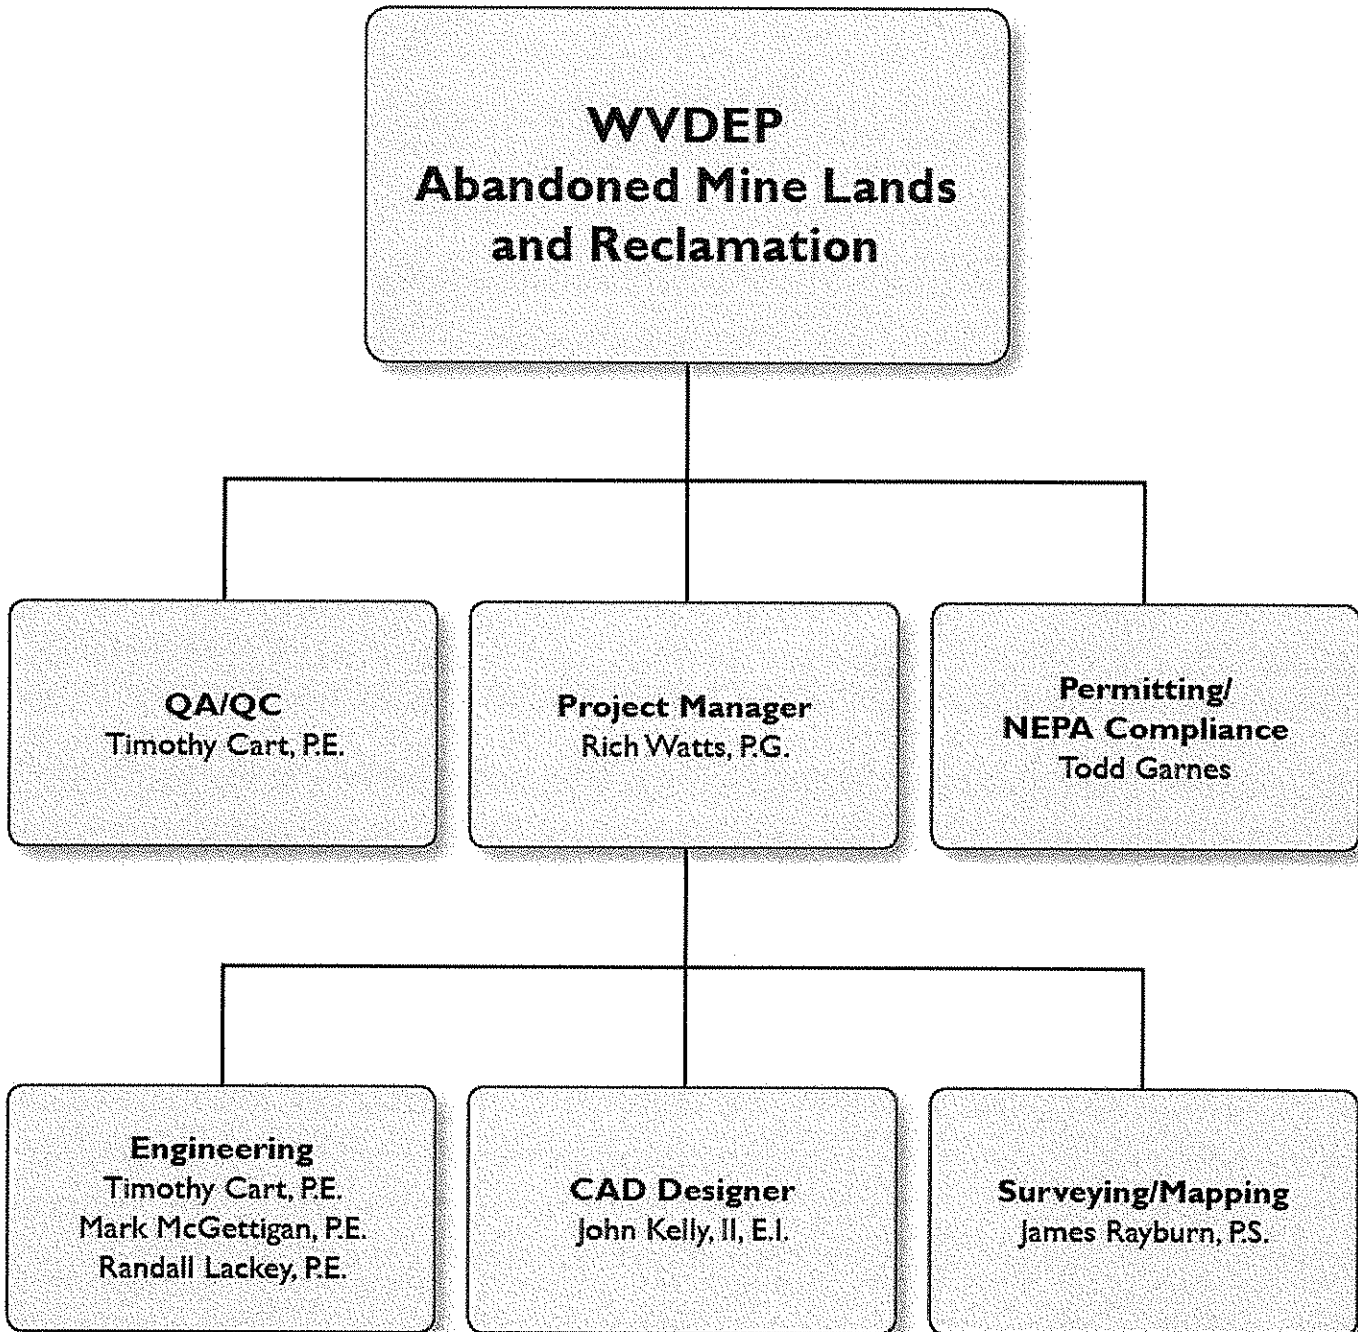

**Mr. James Rayburn, P.S.** will be assigned to oversee all surveying and mapping activities.

Our staff is well-qualified and experienced in related reclamation projects. They have the knowledge and capabilities to perform all of the tasks required for your project. In addition to your primary project team, other members of our organization may be called upon from time to time to provide their expertise and assistance to ensure this important project is completed on time and on budget.

Our team of construction inspectors, led by Ronnie Williams, offers years of experience with construction monitoring.

Also, our team of surveyors, managed by James Rayburn, P.S., provides the WVDEP/AML with the latest in technology and experience in surveying and mapping. By using GIS-based mapping and high-tech instrumentation, E.L. Robinson's survey team can evaluate any type of surface. Other services pertaining to surveying that our company specializes in are aerial photogrammetric consulting, hydrographic surveying, land surveying and GPS surveying.

## Our Capabilities

Over the past 30 years, E.L. Robinson Engineering Co. has focused its efforts on delivering quality projects to our clients and building strong relationships based on trust and partnership. We believe building lasting relationships with our clients is key to delivering exceptional service for many years to come.

E.L. Robinson provides WVDEP/AML with the capabilities, expertise and resources of one of the top-notch civil engineering firms in the region. Our offices are staffed with professionals experienced in AML reclamation mapping, permitting, design and construction monitoring projects with more than 50 employees, including 10 registered professional engineers, degreed design engineers, construction inspectors and a support team of administrative and technical personnel to assist the WVDEP/AML.

We are very familiar with the requirements of the permitting and regulatory agencies. This experience expedites the completion of projects.

As part of our commitment to quality, E.L. Robinson realizes that every project, client and location is very different. As a result, we look at each project independently to determine the most cost-effective solution. Specifically, we look at ways we can maximize the project benefit and minimize the construction cost while at the same time completing projects on time and within budget.

E.L. Robinson is well-qualified and experienced in mine reclamation projects. We are very familiar with the requirements of the project. We have demonstrated abilities in developing practical and cost-effective reclamation and improvement projects and are dedicated to meeting project schedules and budgets.

Such demonstrations can be seen in our recent and past work on reclamation projects, including:

- **Jacob's Fork Complex – substantially complete December 2008**
- **Rhodell Refuse and Portals – substantially complete October 2008**
- **Gilmer B Sites 3-8 – substantially complete September 2008**
- **Ohio DNR Emergency Reclamation – 19 sites completed**
- **Toney Fork Landslide Emergency – complete February 2006**
- **North Matewan – complete February 2005**
- **Big Creek "C" Refuse – complete July 2004**
- **Charleston Romeo Landslide – complete May 2004**
- **Gooney Otter Refuse – complete January 2004**
- **Chapmanville (Gorby) Mine Blowout – December 2003**
- **Tuppers Creek (Layne) Landslide – July 2003**
- **Rich Fork (Thaxton) Landslide – July 2003**
- **Maidsville (Tennant) Landslide – February 2003**

| NAME & TITLE (Last, First, Middle Int.)  |  | YEARS OF EXPERIENCE   |  |
| J. Todd Garnes   |  | YEARS OF AML RELATED DESIGN EXPERIENCE: 5   | YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE: 5 |
| Brief Explanation of Responsibilities  |  |   |  |
| Mr. Garnes experience surveying and providing CADD Design for mine reclamation projects and waterline and sewer extrusions. He has provided construction inspection services for landslides and subsidence projects in Ohio. Mr. Garnes has performed numerous water feasibility studies, which involved interviews, water sampling and analysis, mapping, mine research, and development of final reports.  |  |   |  |

| NAME & TITLE (Last, First, Middle Int.)  |  | YEARS OF EXPERIENCE   |  |
| Thomas Rayburn, P.S.   |  | YEARS OF AML RELATED DESIGN EXPERIENCE: 30  | YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:   |
| Brief Explanation of Responsibilities  |  |   |  |
| Mr. Rayburn has experience in mine mapping and surveying, formulated short term and long range mining plans for all types of coal mining, designed mine drainage and water supply systems for underground and surface mines, designed mine ventilation plans and systems which include precision pressure quality surveys and computer simulation of ventilation systems. He has performed slope stability analysis and hydrology calculations, provides computer analysis for mining applications, work with leases and land management as well as reclamation and environmental permits. By utilizing "state of the art" electronic total stations and/or GPS (Satellite) equipment, he performs control surveys for aerial mapping and collects data and develops GIS for utility mapping. Mr. Rayburn has also performed surveying and mapping for large scale highway projects. |  |   |  |

| <p>Brief Explanation of Responsibilities<br/>Mr. LeRose is experienced in developing major highway and right of way plans; Bridge Construction Inspections; Core Drilling Operations; Groundwater Sampling/Monitoring; UST Removal/Replacement and Mine Permitting/Reclamation. Specific major highway design and right of way plan development projects include: Meadowbrook Road, a 2 mile design of new four lane highway; US 52 (I-73), a 3.5 mile design and ROW plans for a new four lane highway with two major interchanges; design of 2 mile section of Appalachian Corridor H from Davis to Bismark; design of 5.2 mile section of Corridor H from Grant/Hardy County line to Moorefield.</p> |  |  |  |
| <p>While working on these projects, he has gained experience in major drainage design, site grading design, utility relocation, MOT, signing and pavement stripping. He has performed quantity calculations for pavement, drainage, seeding, pollution control quantities, and other items associated with roadway plans. He is also experienced in the development of ROW plans, including deed plots and legal descriptions.</p>  |  |  |  |

14. PROVIDE A LIST OF SOFTWARE AND EQUIPMENT AVAILABLE IN PRIMARY OFFICE WHICH WILL BE USED TO COMPLETE A DESIGN SERVICES

Various computer hardware and software including: Microstation, InRoads, AutoCAD, ELRSoil, Microsoft Office applications, Haested, Water CADD, Culvert Master, Flow Master

Various surveying equipment:

Instruments - Topcon Total Station (6), Trimble Robotic DR200+ (2)

GPS Equipment - Trimble 5700 Receiver (6), Trimble TSCe Controller/Handheld (5)  
\*all equipment lists have various misc. survey equipment to go along (poles, tape measures, data collectors, etc.)

Riegl LMS - 360 3D Laser Scanner - surface imaging system based upon accurate distance measurement by means of electro-optical range measurement and a two axis scanning mechanism.

## 12A Abandoned Mine Land Reclamation Experience

**Project:** **Jacob's Fork Complex**  
Boone County, WV  
**Year:** 2008-2009  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Field surveying and mapping, subsurface investigation, design work for mine seals, drainage, and reclamation.

---

**Project:** **Rhodell Refuse & Portals**  
Wyoming County, WV  
**Year:** 2008  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Performed survey, drilling, design for refuse and spoil regarding and mine drainage control.

---

**Project:** **Gilmer B Site 3.8**  
Gilmer County, WV  
**Year:** 2008  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Performed survey, drilling, design for refuse and spoil regarding and mine drainage control.

---

**Project:** **Gouge Landslide Emergency**  
Scott Town, OH  
**Year:** September 2007  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site survey, drilling and prepared landslide abatement design.

---

**Project:** **Brown Landslide Emergency**  
Rayland, OH  
**Year:** August 2007  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site survey and prepared landslide abatement design.

---

## 12A Abandoned Mine Land Reclamation Experience

---

**Project:** **Rodgers Subsidence Emergency**  
Wellston, OH  
**Year:** January 2007  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site survey and prepared subsidence abatement design.

---

**Project:** **McAdams Subsidence Emergency**  
Stark County, OH  
**Year:** April 2006  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed investigation and prepared report of findings.

---

**Project:** **Athens Rt. 13 Refuse Fire Emergency**  
Athens County, OH  
**Year:** March 2006  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site survey, prepared abatement design and monitored on site construction for fire extinguishment.

---

**Project:** **Toney Fork Landslide Emergency**  
Boone County, WV  
**Year:** February 2006  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Performed site survey, drilling and prepared plans and specifications to stabilize an emergency landslide area.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** Cox Refuse Fire Emergency  
Gallia County, OH  
**Year:** December 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed abatement design for fire extinguishment.

---

**Project:** Lavender Refuse Fire Emergency  
Meigs County, OH  
**Year:** November 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed abatement plan and monitored construction.

---

**Project:** Goetz Subsidence Emergency  
Columbiana County, OH  
**Year:** November 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed investigation and prepared report of findings.

---

**Project:** Adkins Landslide Emergency  
Gallia County, OH  
**Year:** December 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed surveying, drilling, landslide abatement and construction monitoring.

---

**Project:** North Matewan (Sipple Drainage)  
Mingo County, WV  
**Year:** February 2005  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design for drainage project abatement.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** Phalen Landslide Emergency  
Martins Ferry, OH  
**Year:** January 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site surveying and landslide abatement design.

---

**Project:** Baisden Subsidence Emergency  
Jackson, OH  
**Year:** January 2005  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed drilling to develop subsidence abatement solutions.

---

**Project:** Parsons Landslide Emergency  
New Philadelphia, OH  
**Year:** December 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site review and report concerning landslides relation to mining and potential solutions.

---

**Project:** Treadway Landslide Emergency  
Rayland, OH  
**Year:** October 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed site surveying, drilling and landslide abatement design.

---

**Project:** Big Creek "C" Refuse  
Logan County, WV  
**Year:** July 2004  
**Client:** WVDEP-AML  
**Description:** Performed surveying and drilling for design.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** **Imboden Landslide Emergency**  
Rutland, OH  
**Year:** June 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed drilling and surveying to develop landslide abatement solutions and cost estimates.

---

**Project:** **Titus Road Landslide Emergency**  
Rutland, OH  
**Year:** June 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed surveying, drilling and prepared plans and specifications to stabilize and emergency landslide area.

---

**Project:** **Jefferson County Road 26 Landslide Emergency**  
Winterville, OH  
**Year:** May 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed surveying, drilling and prepared plans and specifications to stabilize and emergency landslide area.

---

**Project:** **Charleston Romeo Landslide**  
Kanawha County, WV  
**Year:** May 2004  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide abatement.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** **Roush Landslide Emergency**  
Pomeroy, OH  
**Year:** March 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Prepared plans and specifications to stabilize an emergency landslide area.

---

**Project:** **Lewis Landslide Emergency**  
Pomeroy, OH  
**Year:** March 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Performed surveying, drilling, prepared plans and specifications to stabilize an emergency landslide area, and provided construction monitoring.

---

**Project:** **Moran Subsidence**  
Clinton, OH  
**Year:** January 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Prepared plans and specifications to stabilize an emergency subsidence area.

---

**Project:** **Ron Bobar Subsidence**  
Flushing, OH  
**Year:** January 2004  
**Client:** ODNR-AML  
1855 Fountain Square  
Columbus, OH  
**Description:** Investigation and report of an emergency subsidence area.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** Gooney Otter Refuse  
Wyoming County, WV  
**Year:** January 2004  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and site design for refuse regarding project.

---

**Project:** Chapmanville (Gorby) Mine Blowout  
Logan County, WV  
**Year:** December 2003  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide regrading and retaining wall design.

---

**Project:** Tuppers Creek (Layne) Landslide  
Kanawha County, WV  
**Year:** July 2003  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide abatement.

---

**Project:** Maidsville (Tennant) Landslide  
Monongalia County, WV  
**Year:** February 2003  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide abatement.

---

**Project:** Whittington Hill (Walker Landslide)  
Kanawha County, WV  
**Year:** June 2002  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design for an emergency landslide.

---

## 12A Abandoned Mine Land Reclamation Experience

**Project:** **Minden Refuse Pile Reclamation Project**  
Fayette County, WV  
**Year:** September 2001  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design for emergency project to upgrade drainage control.

---

**Project:** **Jeffrey Mine Complex Reclamation Project**  
Boone County, WV  
**Year:** July 2001  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design regrading refuse.

---

**Project:** **Hot Coal Reclamation Project**  
Raleigh County, WV  
**Year:** October 2000  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Performed surveying and design for regrading refuse.

---

**Project:** **Bull Run #27**  
Preston County, WV  
**Year:** October 2000  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design for regrading refuse.

---

**Project:** **Rich Fork (Thaxton) Landslide**  
Kanawha County, WV  
**Year:** July 2003  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide abatement.

---

**Project:** **Maidsville (Tennant) Landslide**  
Monongalia County, WV  
**Year:** February 2003  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design of landslide abatement.

## 12A Abandoned Mine Land Reclamation Experience

---

**Project:** Whittington Hill (Walker Landslide)  
Kanawha County, WV  
**Year:** June 2002  
**Client:** WVDEP-AML  
**Description:** Performed surveying, drilling and design for an emergency landslide.

---

**Project:** Minden Refuse Pile Reclamation Project  
Fayette County, WV  
**Year:** September 2001  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design for emergency project to upgrade drainage control.

---

**Project:** Jeffrey Mine Complex Reclamation Project  
Boone County, WV  
**Year:** July 2001  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design regrading refuse.

---

**Project:** Hot Coal Reclamation Project  
Raleigh County, WV  
**Year:** October 2000  
**Client:** WVDEP-AML  
Charleston, WV  
**Description:** Performed surveying and design for regrading refuse.

---

**Project:** Bull Run #27  
Preston County, WV  
**Year:** October 2000  
**Client:** WVDEP-AML  
**Description:** Performed surveying and design for regrading refuse.

---

## 12B Soil Analysis Geotechnical Experience

### **US-52 Kermit By-Pass**

Solicited Bids from core boring contractors and performed core borings for highway and bridges for a planned four-lane highway in Mingo County West Virginia.

Designed cuts performed slope stability analysis and settlement analysis for several major fill areas, designed foundations for a total of six bridges.

### **Meadowbrook Road**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a planned four-lane highway in Harrison County West Virginia.

Designed cuts performed slope stability analysis and settlement analysis for several major fill areas, designed foundations for a bridge spanning the West Fork River.

### **US 60 Coal River Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge, which spans the Coal River in Kanawha County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the existing fill slopes.

### **US 60 CSX-Overpass Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge that spans mainline tracks of the CSX Railroad in Kanawha County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the existing fill slopes.

### **Indian Creek Bridge Boone County West Virginia**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge that spans the Coal River in Boone County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill slopes.

### **Camp Creek Bridge – Lavalette**

Layout and directed core boring operations using WVDOH forces for a replacement bridge on US 152 in Wayne County West Virginia. Prepared Geotechnical report with recommended foundation alternatives.

## 12B Soil Analysis Geotechnical Experience

### **Jackson Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge that spans Middle Island Creek in Tyler County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill slopes.

### **Tallman Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge that spans Middle Island Creek in Tyler County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill slopes.

### **Corridor H-Section 7 (Foreman to Moorefield)**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a planned four-lane highway in Hardy County West Virginia.

Designed cuts performed slope stability analysis and settlement analysis for several major fill areas, designed foundations for a bridge spanning the South Branch of Potomac River.

### **Corridor H-Section 12 Section 01(Davis to Bismarck)**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a planned four-lane highway in Tucker/Grant Counties West Virginia.

### **Corridor H-Section 12 Section 03 (Davis to Bismarck)**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a planned four-lane highway in Tucker/Grant County West Virginia.

Designed cuts performed slope stability analysis and settlement analysis for several major fill areas, designed foundations for a bridge spanning the West Fork River.

### **I-79 Lodgeville Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge and road-widening project. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill slopes.

## 12B Soil Analysis Geotechnical Experience

### **I-79 Simpson Creek Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge and road-widening project. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill.

### **I-79 Meadowbrook Road Over Pass**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge and road-widening project. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill.

### **Ripley Town Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge that spans Mill Creek in Jackson County West Virginia. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill slopes.

### **Ripley Route 21 Road Widening**

Performed slope stability analysis of a landslide area and designed a method to stabilize the area so the existing roadway could be widened. Developed Plans and specifications, which were included in the bid, package for the road-widening project.

### **I-64 Cross Roads Overpass Bridge**

Solicited Bids from core boring contractors and performed core borings for highway and bridge for a replacement for a bridge and road-widening project. Prepared geotechnical report with recommended foundations and performed slope stability analysis of the proposed fill.

### **I-79 Left Hand Fork Bridge**

Reviewed existing core boring data, and performed slope stability analysis on the existing bridge abutment that had moved. Reviewed data from slope inclinometers and design pile lagging and rock buttress to stabilize the embankment.

## 12C Hydrology and Hydraulics

**Project:** Blennerhassett Island Bridge Over Ohio River  
**Year:** 1999-2003  
**Client:** Michael Baker Jr., Inc.  
5088 Washington Street, West  
Charleston, WV 25313

**Contact:** Pi Amin, P.E.  
Vice President Michael Baker Jr, Inc. (Southwest Region)  
304-769-0821

**Description:** Prepared an analysis of the hydraulic impact of the proposed bridge on the Ohio River flow, and prepared an appropriate hydraulic report. The analysis utilized HEC-RAS and as a part of the hydraulic report, a scour analysis was performed. E. L. Robinson Engineering Co. developed a computer model of the Ohio River using hydrographic survey mapping provided by our survey group.

Two – Dimensional Hydraulic was also developed to model complex flows for various bridge configurations and to provide more accurate predictions of hydraulic behavior anticipated in the area. The 2-D and 3-D models allow derivation of design details and design analyses and provide more accurate simulations of scour hole geometry.

---

**Project:** US 52 Mainline Bridge  
KY 40 Bridge/Kermit Bypass over Marrowbone Creek  
**Year:** 2000  
**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the Kermit Bypass Project over Marrowbone Creek and a partial relocation of the creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

## 12C Hydrology and Hydraulics

**Project:** Bridge No. 2922.1 NB & SB  
I-79 Over Left Hand Creek & US 119

**Year:** 2000

**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the placement of a retaining wall for slope protection of the Left Hand Fork Bridge over Left Hand Creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

ELR also prepared Section 404 permitting documents outlining the effects a temporary cofferdam, which would be used during the construction phase, would have on the outlying areas upstream of the projects.

**Project:** Bridge No. 2448.1 – Simpson Creek Bridge  
I-79 Over Simpson Creek

**Year:** 2000

**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the widening of the Simpson Creek Bridge over Simpson Creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

ELR also prepared Section 404 permitting documents outlining the effects temporary cofferdams, which would be used during the construction phase, would have on the outlying areas upstream of the projects.

## 12C Hydrology and Hydraulics

**Project:** Bridge No. 10059 – Ripley Town Bridge  
US 33 Over Mill Creek

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the replacement Ripley Town Bridge over Mill Creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program. ELR also prepared Section 404 permitting documents outlining the effects temporary causeways, which would be used during the construction phase, would have on the outlying areas upstream of the projects.

---

**Project:** Bridge No. 4732 – Jackson Bridge  
WV 18 Over Point Pleasant Creek

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Office of the District Engineer, District 6  
903 3<sup>rd</sup> Street  
Moundsville, WV 26041

**Contact:** Daniel W. Sikora, P.E., District Engineer  
304-843-4008

**Description:** Prepared an analysis of the hydraulic impact of the replacement Jackson Bridge over Point Pleasant Creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

## 12C Hydrology and Hydraulics

**Project:** Bridge No. 4636 – Indian Creek Bridge  
CR 3/25 Over Big Coal River

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Office of the District Engineer, District 1  
1334 Smith Street  
Charleston, WV 25301

**Contact:** John W. Dawson, P.E., District Engineer  
304-558-3001

**Description:** Prepared an analysis of the hydraulic impact of the Indian Creek Replacement Bridge over the Big Coal River and prepared the appropriate hydraulic and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-2 program and the FHWA WSPRO program.

---

**Project:** Bridge No. 4769 – Tallman Bridge  
CR 24 Over Middle Island Creek

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Office of the District Engineer, District 6  
904 3<sup>rd</sup> Street  
Moundsville, WV 26041

**Client:** Daniel W. Sikora, P.E., District Engineer  
304-843-4008

**Description:** Prepared an analysis of the hydraulic impact of the replacement Tallman Bridge over Middle Island Creek and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

## 12C Hydrology and Hydraulics

**Project:** Bridge No. 10058 – Meadowbrook Road Bridge  
CR 24 Over West Fork River

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the new Meadowbrook Road Bridge over the West Fork River and prepared the appropriate hydraulics and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process and the Harrison County Flood Insurance Study model of the West Fork River was also used. Computer modeling was prepared using the USACE 1-D HEC-RAS program.

Prepared Section 404 permitting documents outlining the effects temporary sheet piling, which would be used during the construction phase, would have on the outlying areas upstream of the projects.

---

**Project:** Bridge No. 4426 – Lower Gassaway Bridge  
WV 4 Over Elk River

**Year:** 1999

**Client:** West Virginia Department of Transportation  
Division of Highways  
Building 5  
1900 Kanawha Blvd. East  
Charleston, WV 25305

**Contact:** James Sothen, P.E., Director, Engineering Division  
304-558-0501

**Description:** Prepared an analysis of the hydraulic impact of the Lower Gassaway Replacement Bridge over the Elk River and prepared the appropriate hydraulic and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-2 program and the FHWA WSPRO program.

## 12C Hydrology and Hydraulics

- Project:** Bridge No. 4574 – Camp Creek Bridge  
WV 52 Over Camp Creek
- Year:** 1998
- Client:** West Virginia Department of Transportation  
Division of Highways  
Office of the District Engineer, District 2  
P.O. Box 880  
Huntington, WV 25712
- Contact:** J. Wilson Braley, P.E., District Engineer  
304-528-5625
- Description:** Prepared analyses of the hydraulic impact of the Camp Creek Bridge over Camp Creek and prepared the appropriate hydraulic and scour reports. E. L. Robinson Engineering's survey unit developed the cross sections and mapping that were utilized in the analysis process. Computer modeling was prepared using the USACE 1-D HEC-2 program and the FHWA WSPRO program.

## 12D Aerial Photography and Contour Mapping Experience

E.L. Robinson Engineering Co. has worked with various clients to develop contour mapping of sites and areas that otherwise could not be determined. With the use of aerial photography and state of the art technology, E.L. Robinson Engineering Co. has developed maps from photographs for numerous projects including but not limited to:

- City of Beckley
- City of Charleston
- Corridor D
- Corridor H
- Cross Lanes Connector
- Eldora
- Frazier's Bottom
- Glenwood
- Hatfield Cemetery
- I-70 Washington Avenue (Wheeling, WV)
- I-64 Glade Creek
- Jackson Mill
- King Coal
- KY 40 Connector
- Logan Run
- New River Parkway
- Ohio River Crossing
- Pinegrove
- Parkersburg
- Powell Creek
- Prince
- PSI-Baker/Ft. Henry Bridges
- Racetrack
- White Sulphur Springs
- Veterans Park

## 12D Aerial Photography and Contour Mapping Experience

E.L. Robinson Engineering Co. has completed the preliminary mapping, within the past five years, for West Virginia Department of Environmental Protection for the projects listed below:

### 2003-Present

All ELR AML Projects  
WV and OH

### 2002

Community of Preston  
Rhodell Refuse Portals  
Vivian Refuse Maintenance  
Glen Rogers Waterline  
Sundial (Hatfield) Refuse Pile

**Edward L. Robinson, P.E., P.S.**  
*President*

**Education**

M.S. Civil Engineering  
University of West Virginia, (COGS),  
1981

B.S. Civil Engineering  
West Virginia Institute of  
Technology, 1969

**Registrations**

Registered Professional Engineer in West Virginia, Kentucky, Ohio, Pennsylvania, North Carolina, South Carolina, Virginia, Georgia, Maryland and Colorado.

Registered Professional Surveyor in West Virginia.

**Professional Memberships**

- American Society of Civil Engineers
- National Society of Professional Engineers

**Professional Experience**

Mr. Robinson founded E. L. Robinson Engineering Co. in 1978 with four employees. Initially the firm provided land surveying and land development services.

Under his leadership, E. L. Robinson has entered the new millennium as a multi-disciplined professional services firm that

utilizes the latest technology in the design of highways, bridges, structures, environmental, civil, and geotechnical projects as well as global position satellite surveying, right-of-way, construction inspection and architectural services.

The firm now employs more than 90 engineers, architects, surveyors and support personnel and has been converted to an employee owned company through an Employee Stock Ownership Plan (ESOP).

**Representative Projects**

Engineering Review of the following projects:

- **US Route 52 - Kermit Bypass:** This project consisted of 2.5 miles of four-lane divided highway, 3,000 LF of four-lane access road design, two 4-ramp intersections, one set of twin structures, one single bridge, and 2,900 LF of stream relocation, all of which resulted in 10 million cubic yards of excavation and an estimated total construction cost of \$88 million.
- **Corridor H - Davis to Bismark:** This project consisted of 1.75 miles of four-lane divided highway, one bridge, two at-

grade intersections, and a 6' x 6' concrete box culvert. This project has an estimated total construction cost of \$9 million.

- **Corridor H - Foreman to Moorefield:**  
This project consisted of 5 miles of four-lane divided highway, almost 3 miles of access road design, a truck escape ramp, one set of twin structures, one single bridge, a box culvert, and naturalized stream design. This project resulted in 10 million cubic yards of excavation and an estimated construction cost of \$75 million.
- **CAMC 33<sup>rd</sup> Street Relocation:**  
Engineering design and construction management for the relocation of 33<sup>rd</sup> street and site development for a five story clinical teaching facility in Charleston, WV.

#### Offices Held

- Current Member of West Virginia University Board of Governors
- Current Chairman of WVUIT Advisory Board
- President of West Virginia Council of Engineering Companies
- Chairman Transportation Committee - WV Association of Consulting Engineers
- State Director of West Virginia Society of Professional Engineers
- President of West Virginia Society of Professional Engineers

- Assistant Treasurer of the American Society of Civil Engineers
- National Director of the ASCE representing WV, NC, SC and VA
- President of West Virginia Section of ASCE

#### Honors Awarded

- Honorary PhD, *Doctor of Science* - West Virginia Institute of Technology 2002
- Engineering Entrepreneur of the Year - Ernst & Young, 2001
- National Entrepreneur of the Year Finalist - Ernst & Young, 2001
- Engineer of the Year - American Society of Civil Engineers, 1998
- Engineer of the Year - West Virginia Society of Professional Engineers, 1997
- Alumnus of the Year - West Virginia University Institute of Technology, 1992

**Timothy B. Cart, P.E., P.S.**  
*Project Engineer*

**Education**

B.S. Civil Engineering  
West Virginia University, 1981

**Registrations**

Registered Professional Engineer in West Virginia and Ohio

Registered Professional Surveyor in West Virginia

**Professional Memberships**

- American Society of Civil Engineers

**Professional Experience**

Mr. Cart has over 25 years of experience in providing consulting engineering services. Clients served have included Industrial, Public and Private Institutions and State and Federal Agencies.

Mr. Cart has served as Project Engineer on numerous geotechnical investigations over the years. These projects have included highways, bridges, industrial sites and private development.

He has designed numerous waterline extensions and sewer collection systems. These extensions have included providing service to many residential as well as industrial customers. The sewer collection systems have included design of systems to collect sewage from residential and industrial sites. Mr. Cart served as a project

engineer on several major waste water treatment plant upgrades for industrial clients in the Kanawha Valley. He has designed several plants to serve industrial as well.

Mr. Cart has performed over 100 Abandoned Mine Land Reclamations projects throughout Appalachia. These projects have been mainly in Ohio, West Virginia and Eastern Kentucky. These projects have involved draining flooded mine workings, support of ground experiencing or subject to Mine subsidence and the stabilization of landslides.

Mr. Cart has designed numerous retention and retaining ponds for sites. These designs have involved the determination of storm runoff and design of structures to safely retain and pass the required storm peak flows.

His experience includes permitting activities for projects which have included:

- Railroad Occupancy Permits for Utilities
- NPDES Permits for Industrial and Public Wastewater Facilities
- Highway Permits for Utility Occupancy and Access Road Tie Ins
- Health Department Permits for Water and Sewer Projects

- US Corps of Engineers Permits - Nationwide and Individual
- West Virginia Public Lands Permits

Mr. Cart has recently been involved in the design of a 100 acre Industrial Site and 8 acre Industrial/Commercial Site in Mingo County. These projects are currently under construction and are located near Appalachian US 119 Corridor G.

## **Richard W. Watts**

*Project Manager/Geologist*

### Education

B.S.in Geology, Marshall University,  
1977 M.S.in Geography, Marshall University,  
1994

### Professional Registrations

Registered Professional Geologist, Kentucky,  
1993, No.159 Certified Professional  
Geologist, Virginia, 1992, No.856

### Professional Memberships

Geological Society of America Association of  
Engineering Geologists

### Teaching Experience

Instructor, 1998 - Marshall University  
Engineering Geology Program - Soil and  
Rock Mechanics

### Professional Experience

Mr. Watts has more than 31 years of  
experience in providing consulting services  
as a senior geologist. He has also served as  
project manager on numerous projects.

Mr. Watts is primarily an engineering  
geologist whose range of project experience  
has encompassed numerous projects  
concerning geologic investigation, rock and  
soils engineering, landslides, land  
reclamation, forensic damage investigations,  
hydrogeology and the coal industry.

He has performed hundreds of slope stability  
analyses for landslides and other projects  
involving the design of stable slopes. In  
addition, he has performed several studies  
involving landslide prediction to aid clients in  
land use and safety planning. Projects  
involving rock slope stability have included  
the analysis of the stability of high rock cuts for  
surface mining operations and highways.

Geotechnical experience has included  
numerous projects involving soils,  
foundations, landfills and damage studies.  
These projects have encompassed such areas as  
pile driving, caisson installation, earth fill  
placement, subsurface exploration, site  
reconnaissance, grout and concrete placement  
and quality control.

### AML and Coal Industry Projects:

Work on more than 50 Abandoned Mine Land  
Reclamation projects, including:

- Mine subsidence, refuse piles and  
draining mine portals.
- Coal seam mineability studies.
- Coal refuse embankment and slurry  
pond design.
- Coal permitting, exploration and drill  
log correlations.
- Roof and floor studies and pillar  
strength evaluations.

**John R. Kelly, III**  
*Engineer Intern*

**Education**

B.S. Civil Engineering  
West Virginia University, 1998

**Computer Skills**

AutoCAD, Microstation, COM624-P,  
Inroads, Hec-Ras, and ELRSOIL

**Professional Memberships**

- American Society of Civil Engineers

**Professional Experience**

Mr. Kelly has performed layout and inspection of core drilling operations for bridges and roadway projects. He has also designed numerous mine reclamation projects as well as assisted in completion of water feasibility studies.

Mr. Kelly has performed construction inspections of waste water treatment facilities and has experience with roadway design, design of foundations, and retaining walls.

**Representative Projects**

Mr. Kelly has designed cut slopes for large scale roadway projects such as:

- Kermit Bypass, Mingo County, WV
- Meadowbrook Road, Harrison County, WV
- US-35, Mason County, WV
- Corridor H, Section 7, Hardy County, WV

**James T. Rayburn, P.S.**

*Chief Surveyor*

**Education**

A.S. Mechanical Engineering,  
West Virginia Institute of Technology,  
1970

**Registrations**

Registered Professional Surveyor in West  
Virginia

**Professional Memberships**

American Congress on Surveying and  
Mapping

The American Association for Geodetic  
Surveying (AAGS)

Member Organization of ACSM.

Cartography and Geographic Information  
Society (CaGIS)

Geographic and Land Information Society  
(GLIS)

National Society of Professional Surveyors  
(NSPS)

West Virginia Association of Land  
Surveyors, Inc.

**Professional Experience**

Mr. Rayburn currently serves as Manager of Surveying for E.L. Robinson Engineering (ELR) and has more than 30 years of Design Surveying and Construction Surveying experience. The responsibilities include management of surveying and control for various design projects, including highways, buildings, and bridges. In addition, Mr. Rayburn manages and performs work consisting of courthouse research for property ownership resolution for the above mentioned project types. This includes preparation of property resolution maps, deed descriptions for property acquisitions required for project plan preparation. Mr. Rayburn has experience in Geodetic Control Surveys, 3D Laser Scanning, Photogrammetric Control, Topographic Surveys, Cemetery Surveys, Boundary Surveys, Construction Stakeout, Subdivision Surveys, along with Hydrographic surveys of river and lake bottoms. A few of the more notable surveying projects performed by ELR under the supervision of Mr. Rayburn, has been the Blennerhassett Bridge Project, 11 continuous miles of Corridor H design surveys, GPS Control for the West Virginia Statewide Mapping and Addressing Board Project, 3D Laser Scan and mapping of the

CAMC Parking Garage partial collapse, and 3D Laser Scanning of I64/I77 Retaining Wall for Monitoring.

### Representative Projects

#### Design Surveys

- **Corridor H (WVDOT) Hardy County, WV:** Lead Surveyor for Design Surveys, Right of Way Staking, etc. for approximately 11 miles of Corridor H in Hardy County, WV. This was for Sections 6 & 7 of Corridor H, both Sections of which are now under construction. Estimated construction cost of \$150 million dollars.
- **WV Route 10 (WVDOT) Logan to Man WV, Logan County, WV:** Lead Surveyor for Design Surveys for a section approximately five miles in length from Man, WV, to Rita, WV, including the Man Bridge. Also provided control surveying for the entire project length of approximately 12 miles. The approximate five miles section of roadway is now under construction at an estimated cost of \$51 million dollars.
- **Blennerhassett Bridge, Corridor D (WVDOT), Wood County, WV :** Lead Surveyor for Design Surveys for this landmark Bridge Project which is now under construction at an estimated cost of \$120 million dollars.
- **James Ramsey Bridge (WVDOT) Potomac River, Shepardstown, WV:** Lead Surveyor for Design Surveys for this Bridge Project which is now completed at an estimated cost \$15.5 million dollars. This project involved working in an environmentally historic area, which adjoined a National Park.
- **US Route 35 (WVDOT) Mason County, WV:** Lead Surveyor for Design Surveys for two Design Sections each approximately 2.5 miles in length from Lower Five Mile Road to Upper Nine Mile Road. Also provided control surveying for the entire US 35 design project length of approximately 22 miles.
- **I64/US 35 (WVDOT) I64 to US 34 Crooked Creek, Putnam County, WV:** Lead Surveyor for Design Surveys, Right of Way Staking, etc. for approximately four miles of US 35 including Interstate 64 Ramps and Flyovers in Putnam County, WV. This included the I64 Bridges and Flyovers, which is now under construction.
- **ATB-Parrish Road (ODOT) Ashtabula County, Ohio:** Project Design Surveyor for rail grade separation project. Project involved roadway realignment, 900' new bridge, new waterline, storm and sanitary sewers. Project is currently under construction. Estimated construction cost: \$8.6 million.
- **PIC-23-3.21 and Various (ODOT) Pickaway County, Ohio:** Project Design Surveyor for ODOT Project PIC-23-3.21 and Various. Project involves deck replacements along 11 miles of US 23 in Pickaway County. Project includes large diameter culvert liner, interchange upgrade that includes mainline profile correction, ramp reconstruction, and addition of barrier wall and storm drainage. Project is currently under design (90%). Project scheduled for construction in 2007. Estimated construction cost: \$12 million.
- **ATB-90-22.06 (ODOT) Ashtabula County, Ohio:** Project Design Surveyor for Interstate Reconstruction Project. Project includes total pavement replacement, bridge widening, and contra - crossover maintenance of traffic, culvert replacements and storm sewer rehabilitation and sign replacements. Project is currently under design (50%) and scheduled for construction in 2011. Estimated construction cost: \$36 million.

**Construction Surveys**

- **Corridor D (WVDOT) Wood County, WV:** Lead Surveyor for Highway/Bridge Construction Monitoring surveys for the following segments of Corridor D and related relocation projects:
  - Godbey Athletic Field Relocation Construction
  - Godbey Colt Field and Soccer Field Construction
  - West WV 47-East WV 47 Highway/Bridge Construction
  - East Buckeye-West Little Kanawha River Highway/Bridge Construction
- **Interstate I-79 Widening and Median Barrier (WVDOT) Harrison County, WV:** Lead Surveyor for construction layout surveys for the widening of I-79 from the Meadowbrook Exit, north to the Jerry Dove Exit approximately three miles in length, as a subcontractor to the prime contractor.
- **CAMC 33<sup>rd</sup> Street Relocation and Building Expansion, Charleston, WV:** Lead Surveyor for construction layout surveys for 33<sup>rd</sup> Street relocation along with ancillary items including sidewalks, drainage and utilities. Also layout surveys for building expansion project.
- **Saturn Dealership, Hurricane, WV:** Lead Surveyor for Saturn Dealership site development and access roads at Hurricane Interchange of Interstate 64.
- **Arch Coal WV Mining Operations:** Lead Surveyor as a subcontractor to Arch Coal operations for Valley Fill Construction (Up to 27 million cubic yard fills), mine haul road layout, drill line staking, and dragline pit layout.

## **Randall L. Lackey, P.E.**

*Project Engineer*

### **Education**

B.S. Civil Engineering  
West Virginia University Institute of  
Technology, 1999

### **Registrations**

Registered Professional Engineer in West  
Virginia, Ohio and Kentucky

### **Professional Memberships**

- American Society of Civil Engineers
- Society of American Military Engineers

### **Computer Skills**

C++, AutoCAD, MathCAD, Microstation,  
MS Excel, MS Word, MS Project,  
MS PowerPoint, Windows, MDX, MERLIN,  
BRASS Systems, SIMON, HEC-RAS, RC  
Pier, and HY8

### **Professional Experience**

Prior to joining E.L. Robinson Engineering Co., Mr. Lackey worked with the WV Division of Highways as an Engineering Co-op Technician. As part of his co-op experiences, he performed calculations for steel, flowrate and roadway. He performed roadway and guardrail design and construction inspection for bridge and roadway projects.

### **Representative Projects**

Mr. Lackey has been intricately involved in the hydraulic design process of the Blennerhassett Island Bridge Project, which will connect West Virginia to Ohio as well as span the Ohio River and Blennerhassett Island. Included in this project are the following: Preparation of flood plain analysis for existing, temporary, and various post construction conditions, scour analysis using FHWA approved publications, analyzing the affects that debris flow will have on the bridge as well as Blennerhassett Island, and studying the potential for lateral channel migration and understanding the affects the migration would have on the design on the bridge substructure.

Mr. Lackey has also been involved with the hydraulic design process of the Corridor H South Branch of the Potomac River Bridge. Included in this project are the following: Preparation of flood plain analysis for existing, temporary, and various post construction conditions, scour analysis using FHWA approved publications, analyzing the affects that debris flow will have on the bridge, studying the affects the proposed conditions

will have on the Town of Moorefield, WV flood level, and studying the potential for lateral channel migration and understanding the affects the migration would have on the design on the bridge substructure.

Mr. Lackey has also performed hydraulics and scour computations for Ripley Town Bridge, Jackson Bridge, Beaver Creek Bridge, Walnut Bottom Bridge, Tallman Bridge, Meadowbrook Road Bridge, Simpson Creek Bridge, Kermit Bypass Bridges and culverts, Left Hand Fork Bridge, and Corridor H Bridges over Walnut Bottom Run and an unnamed tributary.

Mr. Lackey has prepared Section 404 permitting analysis and paperwork for Ripley Town Bridge, Simpson Creek Bridge, Meadowbrook Road Bridge, and the Left Hand Fork Bridge. Along with this work, Mr. Lackey has prepared CLOMR analysis and documentation for Horseshoe Village Subdivision and for The Ohio State University Medical Center's two proposed bridges that connect the University with OH SR 314 over the Olentangy River.

Mr. Lackey has performed calculations for deck drainage, performed girder design and analysis, pier design and analysis, prepared design study reports, type, size and location reports and final plans on many of E.L. Robinson's Division of Highways projects.

**Mark Allen McGettigan, PE,**  
*Project Engineer*

**Education**

M.S.E. Engineering Management/Environmental  
Engineering,  
Marshall University December 2007

B.S. Civil Engineering Technology,  
Fairmont State College, 1999

**Registrations**

Registered Professional Engineer in West  
Virginia

**Professional Memberships**

- American Society of Civil Engineers

**Professional Experience**

Successfully worked on and managed numerous Phase I and II ground water quality investigations and feasibility studies for the West Virginia Department of Environmental Protection.

Mr. McGettigan has taken several large water and wastewater projects from the initial development phase through the construction phase. This includes writing the preliminary engineering report, developing funding scenarios, designing the system, developing the plans and specifications, developing the bid documents/overseeing the bid process and managing the construction inspection.

Developed specifications and managed construction inspection for land development and utility construction projects.

**Representative Projects**

Mr. McGettigan has been the design engineer on the following projects:

- Lavalette Public Service District's U.S. Route 52 Waterline Extension Project.
- Lavalette Public Service District's Crockett and Millers Fork Waterline Extension Project.
- Lavalette Public Service District's State Route 37 Waterline Extension Project.
- Crum Public Service District's Mill Creek Waterline Extension Project.

STATE OF WEST VIRGINIA  
Purchasing Division

**PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, Limited Liability Company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**EXCEPTION:** The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

**WITNESS THE FOLLOWING SIGNATURE**

Vendor's Name: E.L. Robinson Engineering Co.

Authorized Signature: *Rickard W. Watts* Date: 6/9/10

State of West Virginia

County of Kanawha, to-wit:

Taken, subscribed, and sworn to before me this 9 day of June, December, 2010.

My Commission expires October 5, 2016.
