DPS 1013 Bid Specifications Digital Paging Services

General Information

The West Virginia State Police is seeking bids to establish a contract for digital (alpha and numeric) paging service throughout West Virginia, inclusive of all 55 counties. The ideal vendor would be able to provide 100% saturation coverage (alpha or numeric messaging) for the entire state on a year round basis. Failing this, prospective vendors should clearly state, in unequivocal terms, exactly what their respective coverage areas are,

- 1. The West Virginia State currently owns approximately 150 Motorola Brand pagers which operate on 152.4800 MHz frequency. Prospective vendors must be able to provide service utilizing this equipment on the same frequency, with no reprogramming of the units required. If another frequency or different equipment is required, it should be clearly stated in your proposal that pagers will be provided at no additional charge.
- 2. Prospective vendors are encouraged to include lesser coverage options and/or spot coverage options in addition to their wide area coverage, as some agency personnel will not need statewide coverage.

The charges and prices requested are the only fees which will be payable under this contract. Vendors shall not include any "one time set-up fees" or extra charges for alpha service. Any charges of this nature shall be included in the prices quoted.

Bid evaluation will be based on the best value to the State and the State reserves the right to make multiple or split awards based on the best value. An award will be made for each and every item (#1 through #10) assuming

DPS 1013 page 2 – Bid Specifications

acceptable bids are received. Since a separate award may be made for each and every coverage, estimated usage will <u>not</u> be a factor in bid evaluation Vendors are encouraged to submit quotes for any regional coverage they offer. Bids will not be rejected for failure to provide all coverage's sought.

**REGIONAL CALLING AREAS (Charleston, Clarksburg and Hagerstown, MD) are taken from the April 2009-2010 edition of the Verizon Telephone Book covering Kanawha and Putnam Counties as per the attachment.
