**VENDOR ACKNOWLEDGEMENT PROCEDURE:** The vendor must e-mail agency upon receipt of order showing order received, and giving tentative delivery information. **Receipt of the vendor's acknowledgement showing the vendor's scheduled delivery date/time is important, as this allows the agency to insure staff will be available for the scheduled delivery.**

Since the product pricing is subject to weekly changes, the state agency is to verify pricing information provided by OPIS. The actual price is computed as follows:

Average rack price from OPIS report + State Excise Tax for Motor  
Fuel (if applicable) + Federal UGT Fee.  
+ Vendors mark-up as quoted in contract  
= price per gallon delivered.

**DELIVERIES:** The State has sole discretion to determine Method of Delivery, by tanker truck or tank wagon. Such Method of Delivery shall be specified at the time of order based on the order volume. Normal use requirements will be ordered three (3) working days in advance of the required delivery date. Vendors SHALL complete fuel deliveries within the three (3)

working day period of order placement. The three (3) working day period shall start the next business day after receipt of order. Unless prior arrangements have been made, deliveries shall be made during normal work hours (7:30 am to 3:30 pm), Monday through Friday.

Emergency requirements or situations which cannot be scheduled in advance will necessitate 24 hour delivery. Cost for 24 hour emergency delivery shall be at a fixed up-charge fee. Vendors should enter the fixed up-charge fee on the pricing page and submit with bid.

Deliveries shall include a legible metered delivery ticket which has been processed through a meter certified and sealed by the State of West Virginia, Division of Weights and Measures, and stamped with quantities, location, time (a.m./p.m.) date, driver and product. When bulk deliveries are made the driver shall stick the tank before and after product is delivered and enter the readings onto the delivery ticket.

A copy of the delivery ticket, signed by both the driver and a person from the receiving facility, should be left at the location receiving the fuel.

Delivery tickets must include the location where delivery was made, the product(s) delivered, the blended percentages, the number of gallons delivered, and the rack price or prices for blended fuels.

Vendors must have the capability to deliver to above ground storage tanks utilizing a remote fill system on the tank.

Delivery errors by the vendor's delivery personnel or agents/sub contractors shall be the responsibility of the vendor and must be corrected to the agency's satisfaction.

A penalty fee of \$250 (reduction of invoice), can be imposed for failure to provide delivery of fuel within the three (3) working day period of order placement, unless such delay is attributable to terminal allocations. Vendors can submit documentation related to allocation issues to avoid the penalty.

NOTE: All fuel deliveries shall be metered at the point of delivery and shall issue a printed ticket, to meet the Division of Labor requirements:

West Virginia Code 47-1-11 adopts NCWM Hand Book 130 part "Uniform Engine Fuels...Regulation". Section 3 of that Regulation, subparagraph 3.1.1 concerns documentation. A Bill of Lading from the terminal source locations is acceptable and shall contain quantities, location, time (a.m./p.m.) date, driver, and product.

**DELAY OR FAILURE TO DELIVER:** The vendor shall not be liable in damages for the delay of shipment or failure to deliver caused by fire, flood, Acts of God, Acts of Government, Act of an alien enemy, or by any other circumstances which in the opinion of the state agency is beyond the control of the contractor. The state agency may, in its discretion purchase the product on the market until such time product becomes available by the supplier.

In the event the vendor is unable to drop fuel due to an error by the ordering agency a flat fee of \$250.00 may be charged.

**INVOICING:** Vendors of DOH fuel deliveries are encouraged to utilize a paperless invoice process, submitting the following information via e-mail to the DOH ordering locations:

- B. Fuel types, total quantities, unit prices, applicable taxes, total prices, and the terminal source of supply for all deliveries.

If that fuel terminal location was not quoted as a potential source of supply, the agency shall reimburse the wholesale vendor the OPIS price for that terminal location as well as the additional transport expenses associated with the deliveries and documented by the vendor.

Government entities other than the WVDOH, utilizing this contract, must have the option of formulating their invoicing procedures with the successful vendors.

**REPORTING REQUIREMENTS:** Winning bidders shall be required to submit quarterly reports to the Equipment Division in a format which shall be supplied. This report shall show the quantity and cost of each product and the location (district/non-DOH deliveries separated and combined by location) to which it was delivered, and a total of each product for each quarter.
