Region VI: Tyler, Wetzel, Marshall, Ohio, Brooke and Hancock counties.

Region VII: Gilmer, Barbour, Lewis, Braxton, Upshur and Webster counties.

Region VIII: Tucker, Randolph, Pendleton and Pocahontas counties.

Region IX: Nicholas, Fayette, Greenbrier, Summers and Monroe counties.

Region X: Raleigh, Wyoming, McDowell and Mercer counties.

VENDOR ELIGIBILITY: Vendors must be an established refiner, distributor or dealer for a minimum of three (3) years and must provide to the Purchasing Division the locations of all facilities that will be delivering to any of the ten regions within West Virginia and a list of equipment available to perform all the requirements of the contract. It is preferred the required information be submitted with the bid. Failure to provide the required information at the request of the Purchasing Division shall result in disqualification of the bid.

UNLEADED GASOLINE shall comply with the most recent ASTM D 4814-07a or the most current edition of the Standard Specifications for Automotive Gasoline. The minimum anti-knock octane for Unleaded Gasoline is 87. E-10, Ethanol Blend (87 Octane minimum) shall be an acceptable substitute fuel for unleaded gasoline. Whenever E-10 is delivered, it must be noted as E-10 Blended Fuel on the vendor's invoice.

**FUELTT11 – Truck Transport Delivery of:
Gasoline, E-10, Diesel, Winterized Diesel, & Heating Fuels
Specifications**

DIESEL Fuel Oil shall comply with ASTM D 975-09 or the latest edition except the Minimum Cetane Rating shall be 40. The cloud points are as follows:

**TYPE II +10F
TYPE II ULTRA LOW SULFUR**

Diesel Fuel Oil shall be an ultra low sulfur all-purpose diesel fuel oil intended for the use in all automotive type diesel engines under all normal conditions of service. Fuel shall be free from water, grit, acid, and fibrous or other foreign matter likely to clog or injure pumps, nozzles, or valves.

SPECIAL REQUIREMENT OF THE DIVISION OF HIGHWAYS:

During the period of November 1 to February 28, diesel motor fuels shall be blended with a permissible diesel additive to reduce operability parameters (cloud point, cold filter plug point) and to increase winter operability, maintaining state/federal mandated regulatory specifications for on-road diesel fuel.

NOTE: Any alternative fuel that becomes available may be added to contract at the discretion of West Virginia Division of Highways.

HEATING OIL: These specifications cover the grades #1, #2, #4, and #5 fuel oils for various types of fuel burning equipment. Must meet specifications of ASTM Heating Oil D396-09 or the latest edition.

The fuel oils herein specified shall be hydrogen oils free from grit, acid and fibrous or other foreign matter likely to clog or injure the burner or valves. If required, the oil shall be strained by being drawn through filter or wire of 16 mesh to the inch. (U.S. Standard sieve 16, ASTM 1, 190 microns). The clearance area through the strainers shall be at least twice the area of the suction pipe and strainers shall be in duplicate.

The various grades of fuel oil shall conform to the detailed requirements for Fuel Oils “National Bureau of Standards” CS-12-48, dated September 25, 1948, or the latest edition: It is the intent of these specifications that failure to meet any requirements of a given grade does not automatically place an oil in the next grade unless in fact it meets all requirements of the lower grade.

**FUELTT11 – Truck Transport Delivery of:
Gasoline, E-10, Diesel, Winterized Diesel, & Heating Fuels
Specifications**

The technical requirements of the National Bureau of Standards Commercial Standard CS-12-48 are identical in substance with tentative specifications for fuel oil, American Society of Testing Materials D396-48T latest edition.

All fuel oil not meeting specifications is not acceptable to any of the localities and must be removed from tank at vendor's expense. No additional product may be added to change the grade of the product.

SAMPLING, INSPECTION, AND TESTS: Sampling, inspection and testing shall be in accordance with Federal Specifications to obtain a fuel which meets the detailed requirements as specified and determined in the Department of Highway Laboratory. No allowances shall be made for any reproducibility factors in the prescribed test methods. The supplier will allow samples to be taken prior to discharging of product into localities tanks. Samples will be taken without prior notices.

PRICING: The State of West Virginia will accept bids only by Region locations. Vendors must bid a firm fixed mark-up price per gallon on fuel delivery with product price tied to the OIL PRICE INFORMATION SERVICE (OPIS) publication. All prices quoted shall be the delivered price to any location within the ten regions.

**Pricing will be based on the Weekly OPIS on the DAY OF ORDER.
The OPIS Weekly Average is posted every Friday morning.**

FIRM FIXED MARK-UP PER GALLON: Vendors shall bid only a firm fixed mark-up (percentages not acceptable) for business profit and expenses in supplying the product to the State Agencies and Political Subdivisions. Product cost shall be the average rack price of the products as published (for the preceding week) for the vendor supply terminal location in the OIL PRICE INFORMATION SERVICE as published by United Communications Group 11300 Rockville Pike, Suite 1100, Rockville, MD. 20852. Telephone number (800)929-4824.

NOTES: Under no circumstances will the West Virginia Division of Highways accept, or pay for, quantities of fuel in excess of the quantity requested via the telephone or electronic order.

Should fuel products become unavailable from a quoted terminal location, (in the event of an Emergency Declaration by the Governor) the wholesale fuel vendor shall have the option to pull fuel products from the next closest terminal location. If that fuel terminal location was not quoted as a potential source of supply, the agency shall reimburse the wholesale vendor the OPIS price for that terminal location as well as the additional transport expenses associated with the deliveries and documented by the vendor.

Government entities other than the WVDOH, utilizing this contract, must have the option of formulating their invoicing procedures with the successful vendors.

REPORTING REQUIREMENTS: Winning bidders shall be required to submit quarterly reports to the Department of Transportation in a format which shall be supplied. This report shall show the quantity and cost of each product and the District/Region (separate reports for DOH and non-DOH) of delivery, and a total of each product for each quarter. This report **SHALL** also be sent to the Purchasing Division, Attention: jo.a.adkins@wv.gov.

AWARD: The award will be a single award per Region/District (1 through 10). Pricing will be from the source fuel was pulled from (terminal location).
