Region VII: Gilmer, Barbour, Lewis, Braxton, Upshur and Webster counties.

Region VIII: Tucker, Randolph, Pendleton and Pocahontas counties.

Region IX: Nicholas, Fayette, Greenbrier, Summers and Monroe counties.

Region X: Raleigh, Wyoming, McDowell and Mercer counties.

VENDOR ELIGIBILITY: Vendors must be an established refiner, distributor or dealer for a minimum of three (3) years and must provide to the Purchasing Division the locations of all facilities that will be delivering to any of the ten regions within West Virginia and a list of equipment available to perform all the requirements of the contract. It is preferred the required information be submitted with the bid. Failure to provide the required information at the request of the Purchasing Division shall result in disqualification of the bid.

UNLEADED GASOLINE shall comply with the most recent ASTM D 4814-07a or the most current edition of the Standard Specifications for Automotive Gasoline. The minimum anti-knock octane for Unleaded Gasoline is 87. E-10, Ethanol Blend (87 Octane minimum) shall be an acceptable substitute fuel for unleaded gasoline. Whenever E-10 is delivered, it must be noted as E-10 Blended Fuel on the vendor's invoice.

DIESEL Fuel Oil shall comply with ASTM D 975-09 or the latest edition except the Minimum Cetane Rating shall be 40. The cloud points are as follows:

**FUELTW011 - Tank Wagon Delivery of:
Gasoline, E-10, Diesel, Winterized Diesel, & Heating Fuels
Specifications**

**TYPE II +10F
TYPE II ULTRA LOW SULFUR**

Diesel Fuel Oil shall be an ultra low sulfur all-purpose diesel fuel oil intended for the use in all automotive type diesel engines under all normal conditions of service. Fuel shall be free from water, grit, acid, and fibrous or other foreign matter likely to clog or injure pumps, nozzles, or valves.

SPECIAL REQUIREMENT OF THE DIVISION OF HIGHWAYS: During the period of November 1 to February 28, diesel motor fuels shall be blended with a permissible diesel additive to reduce operability parameters (cloud point, cold filter plug point) and to increase winter operability, maintaining state/federal mandated regulatory specifications for on-road diesel fuel.

HEATING OIL: These specifications cover the grades #1, #2, #4, and #5 fuel oils for various types of fuel burning equipment. Must meet specifications of ASTM Heating Oil D396-09 or the latest edition.

The fuel oils herein specified shall be hydrogen oils free from grit, acid and fibrous or other foreign matter likely to clog or injure the burner or valves. If required, the oil shall be strained by being drawn through filter or wire of 16 mesh to the inch. (U.S. Standard sieve 16, ASTM 1, 190 microns). The clearance area through the strainers shall be at least twice the area of the suction pipe and strainers shall be in duplicate.

The various grades of fuel oil shall conform to the detailed requirements for Fuel Oils "National Bureau of Standards" CS-12-48, dated September 25, 1948, or the latest edition: It is the intent of these specifications that failure to meet any requirements of a given grade does not automatically place an oil in the next grade unless in fact it meets all requirements of the lower grade.

The technical requirements of the National Bureau of Standards Commercial Standard CS-12-48 are identical in substance with tentative specifications for fuel oil, American Society of Testing Materials D396-48T latest edition.

All fuel oil not meeting specifications is not acceptable to any of the localities and must be removed from tank at vendor's expense. No additional product may be added to change the grade of the product.

No allowances shall be made for any reproducibility factors in the prescribed test methods. The supplier will allow samples to be taken prior to discharging of product into localities tanks. Samples will be taken without prior notices.

PRICING: The State of West Virginia will accept bids only by Region locations. Vendors must bid a firm fixed mark-up price per gallon on fuel delivery with product price tied to the OIL PRICE INFORMATION SERVICE (OPIS) publication. VENDOR ACKNOWLEDGEMENT PROCEDURE: The vendor must e-mail agency upon receipt of order showing order received, and giving tentative delivery information. **Receipt of the vendor's acknowledgement showing the vendor's scheduled delivery date/time is important, as this allows the agency to insure staff will be available for the scheduled delivery.**

**FUELTW011 - Tank Wagon Delivery of:
Gasoline, E-10, Diesel, Winterized Diesel, & Heating Fuels
Specifications**

Since the product pricing is subject to weekly changes, the state agency is to verify pricing information provided by OPIS. The actual price is computed as follows:

Average rack price from OPIS report + State Excise Tax for Motor Fuel (if applicable) + Federal UGT Fee.
+ Vendors mark-up as quoted in contract
= price per gallon delivered.

DELIVERIES: The State has sole discretion to determine Method of Delivery, by tanker truck or tank wagon. Such Method of Delivery shall be specified at the time of order based on the order volume. Normal use requirements will be ordered three (3) working days in advance of the required delivery date. Vendors SHALL complete fuel deliveries within the three (3) working day period of order placement. The three (3) working day period shall start the next business day after receipt of order. Unless prior arrangements have been made, deliveries shall be made during normal work hours (7:30 am to 3:30 pm), Monday through Friday.

Emergency requirements or situations which cannot be scheduled in advance will necessitate 24 hour delivery. Cost for 24 hour emergency delivery shall be at a fixed up-charge fee. Vendors should enter the fixed up-charge fee on the pricing page and submit with bid.

Deliveries shall include a legible metered delivery ticket which has been processed through a meter certified and sealed by the State of West Virginia, Division of Weights and Measures, and stamped with quantities, location, time (a.m./p.m.) date, driver and product. When bulk deliveries are made the driver shall stick the tank before and after product is delivered and enter the readings onto the delivery ticket.

A copy of the delivery ticket, signed by both the driver and a person from the receiving facility, should be left at the location receiving the fuel.

Delivery tickets must include the location where delivery was made, the product(s) delivered, the blended percentages, the number of gallons delivered, and the rack price or prices for blended fuels.

Vendors must have the capability to deliver to above ground storage tanks utilizing a remote fill system on the tank.

**FUEL TW011 - Tank Wagon Delivery of:
Gasoline, E-10, Diesel, Winterized Diesel, & Heating Fuels
Specifications**

Delivery errors by the vendor's delivery personnel or agents/sub contractors shall be the responsibility of the vendor and must be corrected to the agency's satisfaction.

A penalty fee of \$250 (reduction of invoice), can be imposed for failure to provide delivery of fuel within the three (3) working day period of order placement, unless such delay is attributable to terminal allocations. Vendors can submit documentation related to allocation issues to avoid the penalty.

NOTE: All fuel deliveries shall be metered at the point of delivery and shall issue a printed ticket, to meet the Division of Labor requirements.

DELAY OR FAILURE TO DELIVER: The vendor shall not be liable in damages for the delay of shipment or failure to deliver caused by fire, flood, Acts of God, Acts of Government, Act of an alien enemy, or by any other circumstances which in the opinion of the state agency is beyond the control of the contractor. The state agency may, in its discretion purchase the product on the market until such time product becomes available by the supplier.

In the event the vendor is unable to drop fuel due to an error by the ordering agency a flat fee of \$250.00 may be charged.

INVOICING: Vendors of DOH fuel deliveries are encouraged to utilize a paperless invoice process, submitting the following information via e-mail to the DOH ordering locations:

- A. Delivery ticket number(s) for fuel delivery, date and time of delivery and DOH location of the delivery.
- B. Fuel types, total quantities, unit prices, applicable taxes, total prices, and the terminal source of supply for all deliveries.
- C. It is the intent of the Division of Highways to utilize the State Purchasing Card for all vendor reimbursement of fuels purchased.

NOTES: Under no circumstances will the West Virginia Division of Highways accept, or pay for, quantities of fuel in excess of the quantity requested via the telephone or electronic order.

Government entities other than the WVDOH, utilizing this contract, must have the option of formulating their invoicing procedures with the successful vendors.
