PURCHASING AFFIDAVIT

VENDOR OWING A DEBT TO THE STATE:

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

If this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code*. The vendor must make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code* and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the *West Virginia Code* may take place before their work on the public improvement is begun.

ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

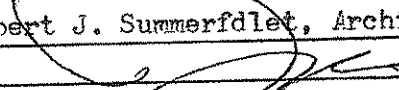

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

Vendor's Name: Robert J. Summerfield, Architectural Planning & Design
Authorized Signature:  Date: 9/15/09

RE: WV MHS&T- Mine Rescue & Training Facility
RFQ: HST1012

EXPRESSION OF INTEREST

We are pleased to present our Expression of Interest and Statement of Qualifications for the architectural and engineering services for a comprehensive mine rescue and training facility for the MHS&T. We understand the project will include a facility to house the rescue vehicles and other related equipment used to respond to mine emergencies and provide a training environment for the employees of the MHS&T.

We provide full-service A/E services to our clients. APD has produced many large and complex projects for a variety of government and private entities for more than thirty years. These projects have ranged in size and complexity from small ADA updates for existing buildings to large multi-million dollar projects for new construction. The location of our projects has ranged from Kentucky to the far reaches of the Eastern United States. It is our extensive training and experience that permits us to effectively and creatively undertake the design of various project types and building uses as we develop attractive, pragmatic and cost-effective building solutions for our clients.

Our team can provide site selection, review and recommendations, design development, construction drawings, bid documents, bid review and recommendation, on-site observation, progress meetings, punch list, final review and follow-up.

Our research has produced a broad foundation of resources for the implementation of the new MHS&T project. We appreciate the opportunity to serve you.

Sincerely,

Robert J. Summerfeldt, A.I.A.,
President, APD, Inc.

ARCHITECTURAL PLANNING AND DESIGN

RELEVANT EXPERIENCE & REFERENCES

Our operations are scaled to meet the demands of our clients as we demonstrate a broad range of capabilities. The following projects involve offices, training spaces, security and multi-functional uses for the most efficient, cost effective building plans.

- **Grayson Volunteer Fire Department, Grayson, KY** – The 10,000 square foot building consists of the fire department operations, educational rooms and training facility for first responders. The community center will accommodate the city council chambers and provide full services for civic and private functions including use of a commercial kitchen. Education and training spaces are included in areas as classroom settings, and meeting room. Contact and reference: Duane Suttles, Kentucky Fire Commission, 606-922-7671; Greg Felty, Grayson Fire Chief, 606-316-6377 and George Steele, Mayor, 606-474-6651.
- **Boyd County EMS, Ashland, KY** – Two stations were designed for the EMS within the Boyd County area while affiliated with a Kentucky architectural firm.
- **Kings Daughters Hospital, Ashland, KY** – Design and construction involved several areas of the campus including new patient lobby and registration as well as emergency room access. Street access for vehicles and pedestrians to immediate hospital patient service areas was a primary safety concern.
- **Medical building, Huntington, WV** – This facility has undergone close study in order to determine the most efficient use of the land. The Owner's options have been considered for use as condominiums, one-story or multi-story buildings, medical and/or retail. Architectural plans are in the Construction Document Phase for a 7200 square foot ground floor plan soon to be ready for bidding.
- **Private Hospital, Huntington, WV** – We are designing for additional patient rooms and an improved geriatric treatment for renovations to the existing building. Updating building code compliance and surveying the current status of the buildings' mechanical systems has been part of the requirements.
- **Citizens for Veterans Association, Memorial Park, Grayson, KY** – Construction is underway for various phases of the construction. The park includes specific areas designated for meditation and reverence, military services and education as well as separate areas for civic events and festive community gatherings. Contact and reference: Mr. Mike Malone, CVA, 606-252-0254.
- **Wurtland City Building, Wurtland, KY** – The project documents are complete and construction has been planned for a future date due to the current economic conditions. The facility will house the City of Wurtland's post office, water service, sewage service, police department and city administrative offices. It will include a meeting facility for city council and community functions. It is designed for multi-purpose uses to allow maximum flexibility for customers' use and municipal operations. Contact and reference: Councilman Wayne Melvin, 606-836-6291
- **Grayson Rural Electric Cooperative Corporation, Grayson, KY** – Renovation and addition to the main office with an emphasis on staff security and customer convenience. This project modified the existing 1929 structure to reconfigure the customer service facilities, and add approximately 6,000 square feet of administrative and engineering offices and a training area on the rear of the historic building. Contact and reference: Don Combs, Manager of Finance & Accounting, 606-474-5136.

Architectural Planning & Design

MANAGING PROJECT COSTS & TIME

These current projects are examples of carefully managing the Owner's budget.

PROJECT NAME	INITIAL PROJECTED COST	FINAL COST
HEADSTART CENTER	\$137,750.00	\$130,778.60
RURAL ELECTRIC COOPERATIVE	\$572,271.00	\$561,209.16
FIRE DEPARTMENT	\$1,250,000.00 BUDGET	\$1,167,129.00 BID AWARD

These projects are examples of carefully managing the Owner's time schedule.

PROJECT NAME	TIME FRAME
HEADSTART CENTER	The project successfully completed construction <i>before</i> the Owner's designated date. Work was coordinated with the school system's semester and holiday breaks.
COMMERCIAL BANK	The construction progressed without disrupting any banking business hours.
BANK ONE	The complete renovation of the Barboursville bank was designed and built within a 120 day limit.

ARCHITECTURAL PLANNING AND DESIGN

PROJECT DESIGN TEAM

ARCHITECTURAL PLANNING & DESIGN – We are a full-service architectural firm located in Huntington, West Virginia. We have a diverse practice mainly in West Virginia, Kentucky, and Ohio. We are skilled in new construction, renovations and additions in virtually all types of building construction projects and building uses. Our firm consists of:

Robert J. Summerfeldt, A.I.A. – Registered Architect – Owner and principal architect with thirty-five years of experience in the field and a resident of the Tri-State area since 1975. He is widely experienced in all types and sizes of design and construction projects.

Jackie Clevenger, Assoc. A.I.A. – She has been with the firm since 1996. She is widely experienced in architectural design and construction, interior and lighting design. Ms. Clevenger has worked in construction related services in the area since 1977. Her family has a history in the mining industry.

HARPER ENGINEERING – St. Albans, WV – Mechanical and electrical engineering.

TERRADON, Inc.- Poca, WV – Civil engineering and landscape architecture.

CAS ENGINEERING- Alum Creek, WV – Structural engineering.

FLOYD HAYMOND, F H SERVICES – Ashland, KY – Cost estimating.

COL. (RET.) DAVID M. DAVISON A-US – South Charleston, WV – Consultant on logistics and equipment.

Full resumes are attached.

PROJECT AND FIRM LOCATION

With our offices in Huntington and our consultants in Kentucky and West Virginia, we are competitively located and ideally suited to undertake this project. Our high standards of dedication to each project will be a great asset to the needs of the MHS&T for the comprehensive facility to house rescue vehicles and related equipment as well as provide facilities for staff training on the methods of mine rescue.

EEO and DBE POLICIES

APD does not discriminate in any way on the basis of gender, race, creed, age, national origin, religious or sexual orientation in our personnel or consultant selection processes. We include women-owned businesses, Disadvantaged Business Enterprises and military veterans whenever their specialties match the project's needs.

We are proposing to work very closely with you during this planning, design and construction project, ensuring that the finished product looks good, functions as intended and has been produced at the lowest reasonable cost. As you consider the selection of your architect/engineering team, we trust you see that we at Architectural Planning & Design can provide these services with unparalleled personal and attentive service, making your participation in this project a successful experience. We are very much looking forward to working with you.

A West Virginia Certified DBE Consultant
Certified in the Practice of Structural Engineering

EXPERIENCE

West Virginia, State Capitol Complex, Governor's
Mansion: Structural analysis and design in addition to
evaluation report for modifications and renovations to
several areas of mansion. Building is on State Historic
Register.

West Virginia, State Capitol Complex, Main Capitol
Building Dome: Exploratory investigation of structural
steel components of Lantern Level of dome and
development of contract documents for repairs. Building
is on State Historic Register.

West Virginia, State Capitol Complex, Main Capitol
Building Parapet: Exploratory investigation of
limestone/brick parapet/balustrade of Main Capitol
Building to determine cause of movement/cracking/leaks.
Work is currently under contract. Building is on State
Historic Register.

West Virginia, Hampshire County Courthouse
Elevator: Designed structure for incorporation of
elevator into existing courthouse building.

West Virginia, Upshur County Courthouse: Designed
renovations to 3-story building addition, renovations to
existing 1899 building main entrance and dome structure.

West Virginia, Eastern West Virginia Regional
Airport: Designed foundations and structural steel
framing for new 2-story terminal building.

West Virginia, Star USA Federal Credit Union:
Designed foundations and roof framing for new one-story
commercial building.

West Virginia, Kanawha County Schools: Structural
design of additions to George Washington, Sissonville,
Herbert Hoover, South Charleston and Nitro High
Schools.

West Virginia, State Capitol Complex, Building 3:
Structural design and construction administration of
repairs to limestone canopy.

West Virginia, Fairmont Water Plant: Designed
reinforced concrete structures for new water treatment
facility.

Structural Engineering, Inc.

Firm Profile

CAS Structural Engineering, Inc. — CAS Structural Engineering, Inc. is a West Virginia Certified Disadvantaged Business Enterprise structural engineering firm located in the Charleston, West Virginia area.

Providing structural engineering design and/or analysis on a variety of projects throughout the state of West Virginia, CAS Structural Engineering has experience in excess of 20 years on the following types of building and parking structures:

- Governmental Facilities (including Institutional and Educational Facilities)
- Industrial Facilities
- Commercial Facilities

Projects range from new design and construction, additions, renovation, adaptive reuse and historic preservation (including use of The Secretary of the Interior's Standards for Rehabilitation) to evaluation studies/reports and analysis.

CAS Structural Engineering utilizes AutoCAD for drawing production and Enercalc and RISA 2D and 3D engineering software programs for design and analysis. Structural systems designed and analyzed have included reinforced concrete, masonry, precast concrete, structural steel, light gauge steel and timber.

Carol A. Stevens, PE is the firm President and will be the individual responsible for, as well as reviewing, the structural engineering design work on this project. While CAS Structural Engineering, Inc. has only been in business for seven years, Carol has over 20 years of experience in the building structures field, working both here in West Virginia and in the York, Pennsylvania vicinity.

CAS Structural Engineering, Inc. is covered by a \$1 million errors and omissions liability policy.

Objective

Introduction

Education

1999 – 2001 U.S. Army War College Carlisle, PA
Masters of Strategic Studies

1968 – 1974 West Virginia University Morgantown, WV
BS Chemical Engineering

Professional experience

1979 - Present E.I. DuPont de Nemours & Co., Inc. Belle, WV
Six-Sigma Black Belt (1/2004 to Present)

Leads business process improvement projects in the logistics, supply chains and sourcing.

Logistics Consultant (11/1993 to 12/2003)

Managed finished product distribution for four product lines of chemicals produced at DuPont's Belle WV plant. Responsible for the safe and cost effective global distribution of approximately 240 millions pounds per year of hazardous chemicals with an annual operating budget of \$20 million.

Senior Engineer (7/1990 to 11/1993)

Coordinated plant site's Total Quality Management improvement programs and training. Facilitated Continuous Flow Manufacturing/Integrated World-Class Technology improvement teams in manufacturing areas.

Areas Supervisor – Capital Work Force (11/1988 to 7/1990)

Supervised the site's central capital and mechanical planning and scheduling group and project management engineers. (8 to 10 professionals)

Area Supervisor – Mechanical (2/1984 to 11/1988)

Supervised the central mechanical shops providing vessel and pipe fabrication, machining, welding and electrical & instrument repair and insulation services. (Five – 1st Line Supervisors and 150 mechanics)

Process/Area Engineer (7/1979 to 2/1984)

Provided process-engineering support for manufacturing operations and project engineering for major powerhouse electrical, instrument and mechanical upgrading.

1974 – 1979 Westvaco Fine Papers Luke, MD
Technical and Design Engineering

Provided technical support to operations, design engineering, project, and construction management.

**Military Service
(1970 to 2003)**

Colonel, Corps of Engineers

Served as a citizen-soldier in the WV Army National Guard. Completed service as the Assistant Adjutant General for Installations and Homeland Security. Duty assignments include command of an Engineer detachment, company, battalion, and group plus staff assignments primarily in operations.

Military schools include: the Special Forces Enlisted Qualification Course, Officer Candidate School, Infantry Officer Basic Course, Jumpmaster Course, Infantry and Engineer Officer Advances Courses, Command and General Staff College, Reserve Component National Security Issues Seminar, Defense Strategy Course, Military Personnel Officer Correspondence Course, Engineer Pre-Command Course, and the US Army War College.

US decorations and badges: Legion of Merit, Meritorious Service Medal, Army Commendation Medal, Army Achievement Medal, National Defense Service Medal, Humanitarian Service Medal, Army Service Ribbon, Army Reserve Component Overseas Training Ribbon, Special Forces Tab and Parachutist Badge.

Army Engineer Association's Bronze De Fleury Medal.

DESIGN-BUILD AWARD

LEED CERTIFIED

EPA STAR ENERGY AWARD

TERRADON was responsible for providing all site/civil engineering design for the new headquarters building for the West Virginia Division of Environmental Protection. This is a 187,000 SF building, and is expected to be recognized as the first Green Building in the State of West Virginia by the United States Green Building Council. The LEED (Leadership in Energy and Environmental Design) certification approach was utilized for the design of the project. TERRADON designed an innovative stormwater management system and other site features for this, one of the highest visibility projects in the state.

The collaborative effort between the design

professionals and the use of green strategies helped the client reach their goal of a cohesive structure that shows no boundary between building and site with respect to energy efficiency and environmental sensitivity. The state now possesses a facility that not only will take them well into the future, but also will save the taxpayers money along the way in operation costs.

TERRADON was presented with a Gold Award from the American Council of Engineering Companies, Honor Award from the American Society of Landscape Architects, and a Design-Build Award from the Design-Build Institute of America for the design of this project.
