GENERAL TERMS & CONDITIONS REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
5. Payment may only be made after the delivery and acceptance of goods or services.
6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

SAFETY10 Specifications

Purpose

The West Virginia Division of Purchasing, "State", is soliciting quotations for a blanket, open-end statewide contract to provide safety supplies to all West Virginia State Agencies, and political sub-divisions. Attached is a list of the most common safety items that the State purchased in the previous year.

Award

1. The lowest cost, most complete bid meeting specifications shall be awarded a contract. The discount from list shall remain the same during the entire contract period, including any renewals. The award shall be based on the entire catalog.
2. Vendor shall quote a percentage discount from the lowest price listed in the price list(s)/catalogs submitted. The state prefers a single percentage discount from the price list / categories, but will consider bids containing different percentage discounts for different brands, lists or categories of supplies. Vendors **MAY** submit alternate bids using a separate or additional catalog(s). All items in the discount category must have the exact same discount. (For example, if a Eye Wear product on the pricing page has a discount of 40%, EVERY Eye Wear product sold must have the 40 % discount.) Bids must plainly and clearly indicate the different classes of products with percentage discount for each. Bids that are not clearly identified, by easily identified classes, may be disqualified. Bids that have multiple discounts by category **MUST** list a discount for a miscellaneous category that would be applied to any product not identified by a category discount shown. For evaluation purposes, an estimate of quantity has been inserted to give the miscellaneous category a value in the bid evaluation. **NOTE:** The category discount must be for all items in that category. Bidders shall not offer greater discounts for items on the pricing pages than the category discount offered for that item.

Bidders should mark the items in the catalogs that appear on the pricing pages, to assist in the evaluation and verification of the bids. This is an excel document and will be available electronically after the mandatory pre-bid. Failure to indicate the minimum order quantity on the pricing sheets shall require the vendor to ship any quantity of that product ordered, regardless of size.

Additional Information

All pricing is firm for a period of one (1) year. If the manufacture should change or discontinue a model number, then the vendor shall provide an alternate model with the same performance and construction features at the original bid price.

If bidding "or equal" brand, samples and specification sheets should be received prior to bid date.

The item(s) as specified is (are) shown only as an example of the quality level and operational characteristics requested by the agency and not intended to mean the only acceptable brand. Vendors who are bidding alternates must so state and include pertinent literature and specifications. Failure to provide information for any alternates may be grounds for rejection of the bid.

If any proprietary, trade, brand, or manufacture's name or part number is used herein in describing the required equipment, it shall be understood to indicate the minimum standard of composition and quality required, and shall not be construed to exclude equipment that equals or exceeds the functional capability and quality of the named equipment.

The equipment bid herein shall be of standard manufacture and shall be new and shall be of the current production model.

Verification of product quality is the responsibility of the vendor. The State of West Virginia may require certified mail test data, certifications or samples for testing of material bid.

Vendor may request that the catalog be updated at renewal. Purchasing reserves the right to demand the net prices remain firm from original bid. If new catalog is accepted, certified spreadsheet reflecting any price changes shall be required comparing the original net price to the changed cost. If new Catalog is submitted for such renewal, such catalog must be the catalog published by vendor that contains the lowest prices quoted in any catalog published by vendor and one that is used by the general public. If the Purchasing Division extends the offer to renew, and feels there are significant price increases, Purchasing reserves the right to re-bid the contract. If new catalog is accepted and the vendor rearranges the catalog and item classification changes, the highest discount of the two (the old and the new) shall apply to all items.

Orders shall be delivered within five (5) working days after orders are received. Emergency orders shall be delivered within one (1) working day after orders are received. Spending units must be advised in writing if orders will be delayed for

any reason. Vendor shall carry an adequate stock to insure such delivery service for the duration of the contract.

Nonconforming products and materials shall be returned to the vendor at no expense to the State of West Virginia at any time during the life of this contract.

All items stating a "**must**" or "**shall**" are mandatory requirements. Failure to provide or meet any of these mandatory requirements shall be grounds to disqualify the entire quotation.

Bidders should sign and complete the contract coordinator information at the end of the pricing pages.

Vendor Responsibilities

1. Successful vendor shall provide catalogs/price lists, etc. at no charge, upon request by any state agency or political subdivision. Additional price lists/ catalogs may be required from the vendor at any time. These shall be provided at no cost to the State.
2. Contractor shall carry an adequate stock to insure such delivery service for the duration of the contract. Excessive out of stock and back orders will not be tolerated. Substitutions of products shall only be accepted if cleared by the agency prior to shipping of such substitution.
3. Each delivery shall be placed as requested in any one location at the delivery site. Dock deliveries are not acceptable unless so requested by the agency. All deliveries must be made during normal working hours for the delivery location. All orders (including back orders) shall not be invoiced until the actual item is delivered. Agencies shall have 30 days in which to return un-opened/un-used items at no charge. Normal returns may be done during a future delivery from the vendor. Agencies may request non-ordered items to be picked up within five days of delivery, even if there are no deliveries within this five-day time frame.
3. Successful vendor must be able to accept orders via phone, fax, internet, USPS.
4. Credits must be handled quickly and efficiently, promptly replacing incorrect items and processing credits in a timely manner..

5. Internet Access – Vendor must be able to provide internet ordering access. The successful bidder shall be responsible for training agency personnel in using their internet site for placing orders and coordinating the return pick ups. Successful vendor must be able to ensure the discounts shall be given through the internet site.
6. Vendor must send packing slip in each order.

Reports

Successful vendor shall provide quarterly reports and annual summaries showing the quantities, dollar value, agencies and political subdivisions which have used this contract. Additionally, the reports must show the method of order placement (internet, fax, etc.) both by the percentage and dollar amount. Successful vendor shall also be able to provide report showing the top 100 items purchased during the contract period. This report is mandatory and failure of the successful bidder to supply such reports may be grounds for cancellation of contract.

VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with West Virginia Code, §5A-3-37. (Does not apply to construction contracts). West Virginia Code, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the West Virginia Code. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. Application is made for 2.5% resident vendor preference for the reason checked:

- ___ Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
___ Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
___ Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,

2. Application is made for 2.5% resident vendor preference for the reason checked:

X Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

3. Application is made for 2.5% resident vendor preference for the reason checked:

___ Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

4. Application is made for 5% resident vendor preference for the reason checked:

___ Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,

5. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:

X Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,

6. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:

X Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: AIR GAS

OVERVIEW SIZE & FIT REVIEWS

MORE IDEAS

The Utah Brogue™ overshoe is made from 100% waterproof premium rubber, which has both tear and abrasion resistance, and comes in an easy-to-clean satin finish. Designed to fit over heavy-soled, protective toe or high-vamp work boots, it has a nylon net lining for easy on/off and a large adjustable calf. Fits size for size over leather boots.

Features

- Ozone-resistant, vulcanized rubber offers 100% waterproof protection.
- Outsole is a diamond chevron pattern, offering traction in wet conditions and is designed not to track mud or dirt.
- 14" height.
- 4.4 lbs per pair.

Willson® Fuse™ Safety Glasses With Gunmetal Frame And Clear Hard Coat Lens

[Enlarge Image](#)

The Fuse™ delivers exceptional coverage with both style and comfort. The 9-base wrap-around design provides optimum field of vision without distortion. The gunmetal frame is lightweight and durable for all-day wear. Adjustable saddle nosepads and soft flexible temple tips provide a comfortable fit. Lenses are made from optical grade polycarbonate with a protective hardcoat to maximize the life of the eyewear. Clear and TSR® Gray lens options are also available with Fog-Ban® anti-fog coating to prevent fogging. A great metal frame style at a knockout price.

AOSafety® Single Use E-A-R® Classic® Cylinder Shaped PVC And Foam Metal Detectable Uncorded Earplugs (1 Pair Per Poly Bag, 200 Pair Per Box)

E-A-R® Classic® earplugs were the first foam earplugs ever and are the most popular in the world. Today, they are still the leading seller across the world because of their outstanding advantages including: Excellent protection with an NRR 29dB; Easy to use cylindrical shape; Soft, low pressure for all day comfort; Non-allergenic, moisture resistant and non-flammable; Yellow for high visibility. E-A-R® Classic® earplugs are proven performers. Their proven size has been tested to be the right size to fit the widest range of ear canals while the cylindrical shape has been shown to protect better than tapered plugs. E-A-R® is the only manufacturer to make its own foam, so it can regularly test for optimum and consistent performance. No wonder they've been the most requested hearing protector in the world for over 30 years.

AOSafety® Single Use E-A-Rsoft™ FX Bell Foam And Polyurethane Uncorded Earplugs (1 Pair Per Poly Bag, 200 Pair Per Box)

E.A.Rsoft™ FX earplugs feature a patented shape to more effectively fit the ear canal. The result? Tests in an accredited NVLAP laboratory showed E.A.Rsoft™ FX earplugs provide the highest Noise Reduction Rating of any earplug in the industry-NRR 33 dB. You can't get any higher protection. E.A.Rsoft™ FX earplugs are made of a custom polyurethane foam formulation for slow recovery and increased softness in the ear canal. In a plug-to-plug comparison, a panel of wearers voted E.A.Rsoft™ FX earplugs the softest and best fitting earplug. If given the choice, they'd choose to wear E.A.Rsoft™ FX earplugs.

Bilsom® Leightning® L1 Noise Blocking Headband Earmuffs NRR 25

[Enlarge Image](#)

When you're in a tough industrial environment and need to block noise, Bilsom's Leightning series' steel wire construction provides high performance and robust durability. Leightning stands up to daily use and abuse without compromising comfort. Bilsom has optimized the Leightning series to deliver the highest level of comfort available, featuring an exclusive padded foam headband and super soft ear cushions that eliminate that "squeezing pressure" on the head.

Radnor® N95 Particulate Disposable Respirator With Adjustable Nose Clip - NIOSH 42CFR84 (20 Each Per Box)

Radnor® N95 Disposable Particulate Respirators come in three different styles to meet your respiratory needs. The Radnor® N95 disposable respirator is the standard respirator which can be used in most applications where the removal of airborne particulate is a must. For added breathability and comfort, use the Radnor N95 disposable respirator with exhalation valve. Use the Radnor® N95 disposable flame resistant respirator with exhalation valve to protect against containments when welding and when oil aerosols are not present. Whatever your needs are, you'll be able to find the right Radnor® mask for your application. All Radnor® N95 respirators are NIOSH 42CFR84 approved.

INFORMATION FOR YOUR SAFETY

A.F.S. Fire Extinguishers

The most current issue of NFPA-10 should be consulted for minimum recommended fire extinguisher types, placement and travel distances. Contact your representative to help you evaluate and implement these recommendations.

CLASS A Ordinary Combustibles:
wood, paper, cloth, trash, and other ordinary materials.

CLASS B Flammable Liquids:
gasoline, oils, paint lacquer and tar.

CLASS C Fire Involving Live Electrical Equipment

CLASS D Combustible Metals or Combustible Metal Alloys (No picture symbol)

Manufactured in compliance with NFPA 10 Standards

- 6 year warranty
- Fully rechargeable

- Leaves no powder residue
- 5 year limited warranty

A. ABC Dry Chemical Extinguishers

- Stored pressure ABC or Multi-Purpose extinguishers are used for common combustibles, flammable liquids and live electrical equipment
- Dependable drawn steel construction cylinders feature aluminum valves and include mounting brackets

| Part Number | Description | Ratings | Capacity | Price |
|-------------|---------------------------------------------------|------------|----------|--------|
| A61 B417 | Dry Chemical Extinguisher, Wall Bracket | 1A:10B:C | 2.5 lbs | 39.25 |
| A61 B417T | Dry Chemical Extinguisher, Vehicle-Marine Bracket | 1A:10B:C | 2.5 lbs | 40.00 |
| A61 B500 | Dry Chemical Extinguisher, Wall Bracket | 2A:10B:C | 5 lbs | 53.40 |
| A61 B500T | Dry Chemical Extinguisher, Vehicle-Marine Bracket | 2A:10B:C | 5 lbs | 54.06 |
| A61 B456 | Dry Chemical Extinguisher, Wall Bracket | 4A:80B:C | 10 lbs | 80.19 |
| A61 A411 | Dry Chemical Extinguisher, Wall Bracket | 20A:120B:C | 20 lbs | 156.32 |

B. Halotron I Fire Extinguishers

- Designed for use in computer rooms, telecommunications facilities, clean rooms, data storage areas, offices, boats and vehicles
- Stored pressure Halotron I is discharged as a rapidly evaporating liquid which leaves no residue
- EPA approved Clean Agent HCFC for Class A, B, and C hazards, it has a low GWP (Global Warming Potential), low ODP (Ozone Depletion Potential), and a low atmospheric lifetime
- Dependable drawn steel construction cylinders feature aluminum valves (Models 397 and 398 have a brass, chrome plated valve) and include mounting brackets

| Part Number | Description | Ratings | Capacity | Price |

C. Carbon Dioxide Extinguishers

- CO₂ is a clean, non-contaminating, odorless gas discharged as a white cloud of snow which smothers a fire by eliminating oxygen
- Effective for flammable liquids and is electrically non-conductive
- Rust free aluminum cylinders, metal valve construction and includes wall brackets
- Meets many hospital medical equipment requirements

| Part Number | Description | Ratings | Capacity | Price |
|-------------|--------------------------------------------|---------|----------|--------|
| A61 322 | CO ₂ Extinguisher, Wall Bracket | 5B:C | 5 lbs | 172.64 |
| A61 330 | CO ₂ Extinguisher, Wall Bracket | 10B:C | 10 lbs | 250.94 |
| A61 332 | CO ₂ Extinguisher, Wall Bracket | 10B:C | 20 lbs | 363.21 |

D. Water Mist Extinguishers

- Best used for common combustible hazards where a potential electrical hazard exists
- Stored pressure water mist is discharged as a fine spray through a user friendly wand providing safety with no electrical conductivity back to the operator
- Use of de-ionized water extinguishing agent leaves no powder residue making them the best extinguishers for protection of hospital environments, valuable books and documents, telecommunications facilities and clean room manufacturing facilities (sold separately)
- Non-magnetic construction tested by an independent agency for use in MRI facilities
- Antiseptic white painted stainless steel cylinders with all metal construction includes non-magnetic wall bracket

| Part Number | Description | Ratings | Capacity | Price |
|-------------|------------------------------------------|---------|----------|--------|
| A61 B270NM | Water Mist Extinguisher, NM Wall Bracket | 2A:C | 1.8 gals | 177.55 |
| A61 B272NM | Water Mist Extinguisher, NM Wall Bracket | 2A:C | 2.5 gals | 194.43 |

E. Class D Extinguisher

- Contains a special blended Sodium Chloride based dry powder extinguishing agent for use in combustible metal fires
- Extinguish fires involving magnesium, sodium, potassium and sodium-potassium alloys, there is also data showing that zirconium, uranium, titanium and powdered aluminum fires can be controlled and extinguished with this unique extinguisher
- Dependable drawn steel cylinders with all metal valve construction, feature an extension applicator to keep the operators hands away from the extreme heat

| Part Number | Description | Capacity | Price |
|-------------|-----------------------------------------------------------------------------------------------------------------|----------|--------|
| A61 B570 | Class D Extinguisher, Wall Bracket | 30 lbs | 445.66 |
| A61 B571 | Class D Extinguisher, Wall Bracket (contains a copper extinguishing agent specifically for lithium alloy fires) | 30 lbs | 797.55 |

OSHA Standards and Regulations

Logging, farming and work environments such as grounds maintenance that require the use of chain saws and other power equipment tools are among the occupations with the highest incidents of occupational injuries. Not only is the incidence rate high in these industries, but the severity of the accidents that occur are often very dramatic. The U.S. Consumer Products Safety Commission reported over 42,800 chain saw injuries to both professionals and amateurs during 1994.

OSHA's Logging Operation Safety Rule (29 CFR 1910.266) became effective on February 9, 1995. The logging Rule covers all aspects of logging: work rules and procedures, equipment and equipment maintenance, training, record keeping, safe work practices and the mandatory use of safety equipment. The ruling makes the employer responsible for providing the safety equipment and enforcing its use. The logging standard specifically requires the use of the following equipment by chain saw operators: gloves, boots, leg protection, safety caps, hearing, eye and face protection and first aid kits. All this equipment (except boots) shall be provided by the employer at no cost to the employee.

New 2008 ASTM Leg Protection Standard

In 2008 new regulations governing test standards for Chainsaw Leg Protective Clothing have been enacted. This revision to ASTM F-1897-2008 increases the performance requirement for chainsaw test speed, to 2750 fpm (from 2500 fpm). Elvex's R&D program to meet higher chainsaw speed requirement, began years ago, with the objective to increase cut resistance, while providing comfort, and limiting excess weight. Through earlier experience with commercial products, we had already established a performance threshold exceeding 2500 fpm. Now with ASTM's standard change to 2750 fpm, Elvex's design is fully developed, tested, and proven to increase cut resistance for chains operating at the higher contact speed. The result is a new generation Elvex ProChaps tested by Underwriter's Laboratories in accordance with ASTM F-1414, Measurement of Cut Resistance to Chain Saw Lower Body Protective Clothing.

Prolar™

Prolar™ Protective Pads

Prolar is Elvex brand name for our exclusive chain saw protective pad development. Prolar is not a static product, but is going through continuous development, in order to improve the compromise between comfort and performance. The Prolar protective pads combine a unique fibre composition with special weaving to create one of the most effective chain saw protective pads on the market. The unique "explosive" action of Prolar works by jamming the chain against the bar and the sprocket. Prolar combines light weight and flexibility for superior user acceptance with highly effective protection.

Elvex Prolar pads have been tested in accordance with the APA and ASTM Standards, by Underwriters Laboratories. The Prolar pads have passed the performance requirements, including the 2,750 feet per minute chain stopping capability. This test establishes a pass or fail and does not establish maximum performance.

CHAIN SAW PROTECTION

ProVest™

Elvex ProVest™

Elvex ProVest is the first genuine chain saw resistant upper body protection. It is intended to offer limited protection from chain saw kick back injuries. Arborists, landscapers and utility company employees are the potential beneficiaries of this protection.

- The upper body protection concept has been patented, U.S. Pat. # 5,101,511.
- Prolar protection is provided on the shoulders and the front of the chest. The water resistant sleeveless jacket has extended shoulders and large front and back vents. A longer back panel helps repel water and debris.
- An inside zippered pocket is provided.
- High visibility orange top and blue bottom makes an attractive looking product. The vest is made from 420 denier Nylon.

Available in Medium, Large and Extra Large: JE-50M (38"-40"), JE-50L (42"-44"), JE-50XL (46"-48").

ProChaps™

90 Series ProChaps™ with Calf Protection

Elvex best selling chap model has sold in hundreds of thousands. A long list of unique standard features explains the popularity of this design.

- Patented asymmetric design provides extended protection on the left side of each leg, where most injuries occur (US Pat. #5,095,544).
- The 90 series chaps conform to ASTM requirements as well as APA Class A requirements.
- Lightweight, flexible and strong 420 denier Nylon cover fabric.
- Easy on, easy off apron-style design.
- Quick release buckles for waist and legs.
- A zippered front pocket is a standard feature not found on other brands.

Available in safety orange color in four lengths: JE-9028, JE-9033, JE-9036 and JE-9039. The last two digits of the product number indicate the length in inches, waist to bottom, not the inseam.

94 Series ProChaps™

Elvex 94 Series ProChaps, are designed for the professional chain saw user. In addition to meeting the requirements of the ASTM Standard, Elvex 94 Series chap maintains the quality and features, which have made the Elvex brand name famous.

- Lightweight Prolar protective pads add comfort and prevent heat buildup.
- Patented asymmetric design.
- 1,000 denier Cordura Nylon cover fabric, which is more abrasive resistant.
- Three sets of leg straps and buckles help the stiffer cover fabric conform comfortably to the legs.
- A zippered front pocket is standard.

Elvex 94 Series ProChaps are available in orange safety color in 28, 33, 36 and 39 inches lengths, model numbers JE-9428, JE-9433, JE-9436 and JE-9439. The last two digits of the product number indicate the length in inches, waist to bottom.

ProChaps

91 Series ProChaps™ with Calf Protection

Certain work conditions may require extra precaution, with regards to lower leg protection. Elvex ProChaps with wrap around calf protection, provide the solution for these situations.

- This model maintains all basic features of Elvex 94 series chaps, while it also maximizes lower leg protection.
- The outer shell is made of 1,000 Denier Cordura nylon, designed for durability even in severe environments.
- Each leg is secured by a total of three sets of buckles. The wrap-around section, below knees, is secured by two sets of buckles.

Available in three sizes: JE-9133, JE-9136 and JE-9139. The last two digits describe the total length of the garment, from waist to bottom.

ArborChaps™ One-size-fits-all

Users have long asked us to provide a lower cost chap, and the trade has frequently requested a universal size chap to help control their inventory. The ArborChap may just be the answer to these requests, since it addresses both of these concerns. We stripped the ArborChap of some features such as the zippered pocket, but we maintained all the safety features that really count.

- Patented asymmetric design for better protection where most injuries occur.
- Elvex famous Profar protective pads, no compromise on safety.
- Universal size, three sets of belt loops allow length adjustment from 33 to 36 inches.
- Easy on, easy off apron style design, with two sets of leg straps and buckles.
- Hunter green 420 denier Nylon cover fabric, with attractive black Nylon edging.

Available in one universal size only: JE-8000, Elvex ArborChaps

RFQ No. SAFETY 10

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
