RECLAMATION: RESTORATION OF LAND THE WEST VIRGINIA PURCHASING DIVISION, FOR THE THE AGENCY, THE WEST VIRGINIA DEPARTMENT OF ENVIRONMENTAL PROTECTION, IS SOLICITING BIDS FROM QUALIFIED CONTRACTORS FOR A CONTRACT TO PROVIDE ALL LABOR AND MATERIALS TO PERFORM RECLAMATION ON THE MINING OPERATION OF PRINCESS SUSAN COAL COMPANY UNDER REVOKED PERMIT NUMBER(S)S-6-85 ON A SITE OF APPROXIMATELY 25 ACRES LOCATED NEAR CEDAR GROVE, WEST VIRGINIA, (KANAWHA CO.). THE RECLAMATION SHALL BE PERFORMED UNDER THE GUIDANCE AND GENERAL SUPERVISION OF THE AGENT ASSIGNED TO THE PROJECT FOR THE STATE OF WEST VIRGINIA, DEPARTMENT OF ENVIRONMENTAL PROTECTION. A MANDATORY ON-SITE PREBID CONFERENCE SHALL BE HELD ON 06/16/2010 @ 10:00 AM. ALL INTERESTED PARTIES ARE REQUIRED TO ATTEND THIS MEETING. FAILURE TO ATTEND THE MANDATORY PRE-BID SHALL RESULT IN DISQUALIFICATION OF THE BID. NO ONE PERSON MAY REPRESENT MORE THAN ONE BIDDER. AN ATTENDANCE SHEET WILL BE MADE AVAILABLE FOR ALL POTENTIAL BIDDERS TO COMPLETE. THIS WILL SERVE AS THE OFFICIAL DOCUMENT VERIFYING ATTENDANCE AT THE MANDATORY PRE-BID. FAILURE TO PROVIDE YOUR COMPANY AND REPRESENTATIVE NAME ON THE ATTENDANCE SHEET WILL RESULT IN DISQUALIFICATION OF THE BID. THE STATE WILL NOT ACCEPT ANY OTHER DOCUMENTATION TO VERIFY ATTENDANCE. THE BIDDER IS RESPONSIBLE FOR ENSURING THEY HAVE COMPLETED THE INFOR

GENERAL TERMS & CONDITIONS REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
5. Payment may only be made after the delivery and acceptance of goods or services.
6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or Fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

REV. 5-26-09 PURCHASING CONTINUATION SHEET
VENDOR:

SCOPE OF WORK

The successful bidder shall provide appropriate equipment, materials, labor and any technical services needed for the successful reclamation of Princess Susan Coal Company, Permit S-6-85, and any disturbance associated with such operation. The General Performance Standards (GPS) shall apply to all items in Scope of Work.

Work necessary on this site will include the following items, but is not limited to these:

1. Upon mobilization to the site, which will be directed in a written Notice to Proceed, the access roads shall be developed in accordance with bid item #3.0. If, fuel and lubricants are to be stored on site, bid item #2.0 shall be in place before fuel is delivered. Project sign is to be obtained and installed.
2. Storm water management in the form as described in bid item #6.0 shall be installed at locations as directed by the DEP on-site representative.
3. Concurrent and continuous reclamation shall begin at point A as shown on the site plan and shall end at point B. Backfill is required for all areas. Regrading and topsoiling is required for all areas. Revegetation and soil improvements are required for all areas. Reclamation is to be according to the attached specifications, plans, and clarifying discussions at the Pre-Bid Conference.
4. Construction stakeout as necessary to carry out work. (Bid Item #4.0)
5. Check for and locate all utilities within the work area to provide and maintain a safe working area in addition to preventing damage to the utility.
6. Construct approximately three hundred linear feet (300LF) limestone rip rap channel number one A (#1A) at the toe of valley fill next to access road. Channel 1A will be lined with eighteen inches (18") of six inch to twelve inch (6"-12") limestone rip-rap choked down with one and a half inch (1 1/2") limestone crusher run. The cost of the stone and excavation will be inclusive in the cost of limestone rip rap channel (1A) (see attached specifications and/or plans).
7. Install two (2) wet mine seals at Site B points shown on site plan. The mine seal sites will be graded to a 2' horizontal to 1' vertical slope using soil capable of supporting vegetation. A grass lined one foot (1') V-ditch will be constructed from the upper mine seal discharge pipe to the lower mine seal discharge pipe. The cost of the stone, pipe, non-woven filter fabric, grass lined V-ditch, and regrading will be inclusive to the cost of the mine seal (see attached specifications and/or plans).
8. Construct approximately four hundred linear feet (400LF) of two foot (2') limestone rip-rap V-ditch number one-B (1B) beginning at mine seal discharge pipe two (2) above hollow and emptying into natural stream channel in hollow below mine seals. Two sections of V-ditch #1B will be grouted rip-rap (approximately 150' total length) with 100% penetration of all voids in r ip-rap as shown on site plans. Non-grouted sections of V-ditch #1B will be constructed using standard limestone rip-rap choked down with one and a half inch (1 1/2") limestone crusher run. Grouted sections will use sandstone or limestone rip-rap and will be "keyed" in at starting and ending points. Cost of the grout, excavation and stone will be inclusive to the cost of V-ditch #1B (see attached specifications and/or plans).
9. Construct approximately sixty linear feet (60LF) of sandstone underdrain at the point designated on the western side of site B. The underdrain will discharge into two foot (2") V-ditch number one B (#1B). Underdrain is to be constructed by excavating a four foot (4') by four foot (4') trench. Placing a layer of non-woven filter fabric in

BUYER CB-23		REQ. OR PO # DEP 14397

WV-36a STATE OF WEST VIRGINIA
REV. 5-26-09 PURCHASING CONTINUATION SHEET
VENDOR:

the trench and filling trench with three inches (3") to six inches (6") sandstone rip-rap. The filter fabric will be wrapped 360° around the rip-rap and will have a one foot (1') overlap at any joints in the fabric. Underdrain will be installed as to have a positive discharge in to 2' V-ditch #1B. Cost of the stone and non-woven fabric will be inclusive to the cost of the underdrain (see attached specifications and/or plans).

10. Construct a rock check dam in the hollow immediately to the south of 2' V-ditch 1B as shown on the site C plan. The rock check dam will be constructed of three inch (3") to six inch (6") screened sandstone. Check dam will be keyed in 6" and will have a two foot (2') top width. Check dam will be formed in a v shape with the point of the v facing limestone rip rap channel number two C (#2C). Check dam will be constructed as to direct any water flowing down hollow into limestone channel 2C. The cost of the excavation and stone will be inclusive in the cost of check dam (see attached specifications and/or plans).

11. Construct approximately three hundred linear feet (300LF) of limestone rip rap channel number two C (#2C) at the toe of the rock check dam. Channel 2C will be lined with eighteen inches (18") of six inch to twelve inch (6"-12") limestone rip-rap choked down with one and a half inch (1 1/2") limestone crusher run. The cost of the stone and excavation will be inclusive in the cost of limestone rip rap channel (2C) (see attached specifications and/or plans).

12. Construct approximately three hundred fifty linear feet (350LF) of limestone rip rap channel three D (3D) at point shown on SITE D plan. A limestone rip-rap spillway with drive-thru will be constructed to receive water from existing wetland at the road berm and will discharge into limestone rip rap channel 3D. Channel 3D will be lined with eighteen inches (18") of six inch to twelve inch (6"-12") limestone rip-rap choked down with one and a half inch (1 1/2") limestone crusher run and will discharge into the natural stream channel below Channel 2C. The cost of the excavation, stone, and drive-thru will be inclusive to the cost of limestone rip rap channel 3D (see attached specifications and/or plans).

13. Construct approximately fourteen hundred linear feet (1400LF) of limestone rip-rap channel four E (4E). Channel 4E will start at the area designated as the access road fill and will discharge water into the natural stream channel in the hollow below site E as shown on SITE E plan. A thirty linear foot (30LF) long section will be constructed to receive water from the reworked rock core. A limestone check dam will be constructed in channel 4E just to the south of the first discharge point. A drive-thru will be installed at each point where channel 4E intersects the existing access road. The cost of the excavation, drive-thrus, stone and check dam will be inclusive to the cost of channel 4E (see attached specifications and/or plans).

14. Rework the existing rock core at the eastern side of SITE E by removing and burying sandstone boulders and replacing the boulders with thirty six inch (36") limestone rip-rap. The section of reworked rock core will be approximately fifty feet (50') in length as measured on the surface. The cost of the excavation and stone will be inclusive to the cost of reworking the rock core (see attached specifications and/or plans).

15. Construct a limestone fill/underdrain at point designated as SITE F on site plan. Construct approximately one hundred linear feet (100LF) of two foot by two foot (2' x 2') limestone underdrain from the inside of the access road curve to the discharge point at the out slope of the bench. The underdrain will be constructed of three inch to six inch (3"-6") limestone rip-rap which will be wrapped 360° with non-woven filter fabric. The limestone fill section will be created by filling from the inside of the curve in the existing access road to the tree line with an eighteen inch (18") layer of three inch to six inch (3"-6") limestone rip-rap. The area will be graded prior to the placement of the rip-rap, to drain to the start of the two foot by two foot (2'x 2') limestone underdrain and channel 5F. The cost of the excavation, non-woven filter fabric, grading and stone will be inclusive to the cost of limestone fill/underdrain (see attached specifications and/or plans).

BUYER CB-23	REQ. OR PO NO. DEP 14397
SPENDING UNIT WEST VIRGINIA DEPARTMENT OF ENVIRONMENTAL PROTECTION/SPECIAL RECLAMATION	

WV-36a STATE OF WEST VIRGINIA
REV. 5-26-09 PURCHASING CONTINUATION SHEET
VENDOR:

16. Construct approximately one hundred linear feet (100LF) of limestone channel five F (5F) directly on top of two foot by two foot (2' x 2') limestone underdrain. Channel 5F will receive surface water from the limestone fill area and will discharge water at the out slope of the bench as shown in SITE F plans. Channel 5F will be lined with eighteen inches (18") of three inch to six inch (3"-6") limestone rip-rap. Channel 5F will have a drive-thru installed at the point where the existing access road intersects with channel 5F. The cost of the stone, excavation, and drive-thru will be inclusive to the cost of channel 5F (see attached specifications and/or plans).

17. Construct approximately three hundred twenty five linear feet (325LF) of channel six G (6G). Three hundred linear feet (300LF) of channel 6G will be constructed on top of the existing rock core as shown in SITE G site plan and will discharge into the existing sump. Channel 6G will be lined with eighteen inches (18") of six inch to twelve inch (6"-12") limestone rip-rap choked down with one and a half inch (1 1/2") limestone crusher run. The original ground on each side of channel 6G will be graded to allow surface water to enter the channel. An additional twenty five linear foot (25LF) section of channel 6G will be constructed with eighteen inches (18") of six inch to 12 inch (6" - 12") limestone rip-rap beginning at the drive-thru and will discharge into existing streambed. The cost of the excavation and stone will be inclusive to the cost of channel 6G (see attached specifications and/or plans).

18. Rework the existing sump at the end of the rock core / channel 6G by excavating out any accumulated sediment and vegetation to a depth of eighteen inches (18") below the grade of the existing culvert pipe. The sump embankment will also be removed down to the existing culvert. A new sump embankment will be constructed using standard limestone rip-rap with a drive-thru installed on top of the embankment. The drive-thru will be constructed of six inches (6") of three inch to 6 inch (3" - 6") limestone rip-rap choked down with three inch (3") limestone crusher run on top of the standard limestone rip-rap embankment. The sump will be lined with eighteen inches (18") of six inch (6") limestone rip-rap. Sump will discharge through existing road culvert as well as limestone underdrain. The cost of the excavation, drive thru, underdrain, and stone will be inclusive to the cost of reworking the existing sump at Site G (see attached specifications and/or plans).

19. Construct a four foot by four foot (4' x 4') sandstone underdrain as shown on SITE H site plan. Underdrain will be constructed of six inch (6") limestone rip-rap and will be wrapped with non-woven filter fabric, 360° around the sandstone rip-rap with a one foot (1') overlap of the filter fabric. Underdrain shall be covered with a minimum of six inched (6") of soil except where the underdrain intersects the access road which will be covered with road surfacing material. The underdrain will discharge any collected water into a limestone fill. The cost of the stone, excavation, and non-woven filter fabric will be inclusive to the cost of the underdrain (see attached specifications and/or plans).

20. Construct a limestone fill area at the point designated on the SITE H site plan. The limestone fill will receive water from the four foot by four foot (4' x 4') sandstone underdrain as well as surface runoff. The center of the limestone fill shall be swaled to allow high surface water flows to discharge over the bench out slope. The fill will be constructed by excavating a triangle shaped area to a depth of four feet (4') (see typical attachment). The bottom six inches (6") will be filled with three inch (3") limestone crusher run. The remaining three and one half foot (3 1/2') will be filled with standard limestone rip-rap. The cost of the excavation and stone will be inclusive to the cost of the Site H limestone fill (see attached specifications and/or plans).

21. Construct six (6) additional limestone fills at the points designated on site plan and at the direction of the on-site DEP personnel. The center of the limestone fill shall be swaled to allow high surface water flows to discharge

VENDOR:

over the bench out slope. The fills will be constructed by excavating a triangle shaped area to a depth of three feet (3') (see typical attachment). The bottom six inches (6") will be filled with three inch (3") limestone crusher run. The remaining two and one half feet (2 1/2') will be filled with standard limestone rip-rap. The cost of the excavation and stone will be inclusive to the cost of the limestone fill (see attached specifications and/or plans).

22. Construct approximately two hundred fifty linear feet (250LF) of limestone channel number seven (#7) at the point designated on the site plan. Channel will be constructed by excavating to the width and depth shown on the typical. The channel will be lined with a six inch (6") layer of three inch (3") limestone crusher run with twelve inches (12") of standard limestone rip-rap. Channel number seven (#7) will receive surface water from the existing hollow and will discharge water into the existing road ditch. A drive-thru will be installed at the intersection with the access road. The cost of the stone, drive-thru, and excavation will be inclusive to the cost of channel number seven (#7) (see attached specifications and/or plans).

23. Construct approximately four hundred fifty feet (450') of Site A access road. The access road will begin at the existing access road and will end at limestone channel 1A. A layer of woven filter fabric will be placed on the constructed roadbed prior to placing six inches (6") of three inch (3") limestone crusher run. The crusher run shall be compacted by three (3) passes with a D-6 or larger dozer. The cost of the excavation, woven filter fabric, and stone shall be inclusive to the cost of the site A access road (see attached specifications and/or plans).

24. Construct approximately six hundred feet (600') of site C access road. The access road will begin at the existing access road and will end at end of channel 2C. A layer of woven filter fabric will be placed on the constructed road bed prior to placing six inches (6") of three inch (3") limestone crusher run. The crusher run shall be compacted by three (3) passes with a D-6 or larger dozer. The cost of the excavation, woven filter fabric, and stone shall be inclusive to the cost of site C access road (see attached specifications and/or plans).

25. Construct approximately five hundred feet (500') of site E access road. The access road will begin at the existing access road and will end at end of Channel 4E. A layer of woven filter fabric will be placed on the constructed road bed prior to placing six inches (6") of three inch (3") limestone crusher run. The crusher run shall be compacted by three (3) passes with a D-6 or larger dozer. The cost of the excavation, woven filter fabric, and stone shall be inclusive to the cost of site E access road (see attached specifications and/or plans).

26. Rework approximately ten thousand six hundred feet (10,600') of existing access road to a minimum ten foot (10') width around the entire bench. Existing access road will be regraded to provide positive drainage. A layer of woven filter fabric will be placed on the roadbed followed by a six inch (6") layer of three inch (3") limestone crusher run. The crusher run shall be compacted by three (3) passes with a D-6 or larger dozer. The cost of the excavation, woven filter fabric, and stone shall be inclusive to the cost of reworking the access road (see attached specifications and/or plans).

27. Regrade and revegetate all site disturbances using standard seed and fertilizer mixture with agricultural lime applied at a rate of three (3) tons per acre (see attached specifications and/or plans).

28. Existing access roads will be graded and maintained through the life of the contract to provide all weather access to permit area.

29. Remove all junk and debris from site and dispose of properly. Receipt or record showing proper disposal required with invoice.

BID ITEM TECHNICAL SPECIFICATIONS

1.0 MOBILIZATION/DEMOBILIZATION/PROJECT SIGN

A project sign shall be obtained or manufactured and installed as indicated on the attached specifications and details. Payment for this sign shall be incidental to the mobilization item. No separate payment will be made.

MOBILIZATION

This work shall consist of the performance of construction preparatory operations, including the movement of personnel, equipment and other facilities to the project site necessary to begin work on a substantial phase of the contract.

DEMOBILIZATION

Prior to demobilization, an inspection shall be conducted by the Department of Environmental Protection and the contractor to insure compliance with contract performance. Once compliance is ascertained, demobilization activities can be initiated and completed. Demobilization shall be totally completed before the invoice for payment shall be processed.

PAYMENT

The lump sum bid for this item shall not exceed 5% of the total bid for this permit. Payment shall be made in two 50% amounts, one upon completion of the mobilization and project sign items and the second payment at the completion of demobilization. No deduction shall be made nor shall any increase be made in the lump sum item amount, regardless of decreases or increases in the final total contract amount or any other reason.

2.0 SPILL CONTAINMENT AREA (S.C.A.)

Spill containment measures shall be used for fuel and lubricant storage areas. All containers, barrels, buckets, cans, etc., are to be legally disposed of off site. Used lubricants are to be disposed of according to state law to minimize pollution to the local surface and ground water supplies. Spills are the responsibility of the contractor and need immediate clean up and maintained at no expense to the State. This S.C.A. shall be constructed in accordance with the typical drawing specification. (See Attachment) Alternate containment measures will be considered for approval by the Program Manager if acceptable results can be shown. Fuel tanks manufactured with secondary containment are desirable. Minimum secondary containment is 110 percent. (Bid limited to \$1,000.00 maximum)

3.0, 20.1, 20.2, 20.3 HAULROAD/ACCESS ROAD UPGRADE

The contractor shall maintain and/or construct haulroad/access road(s) during the reclamation process to provide access on a well drained surface. Plan to upgrade the existing access road to the specifications and details as indicated in the Upgrade Access Road drawing. The access road on the reclamation site shall be graded, sloped, and maintained to drain to provide a road surface free of excessive mud and standing waters at all times while work is in progress. Upon completion of all reclamation activities, a final 3 inch layer of 1 ½ crusher run limestone shall be placed on the roadway. Roads which are below the project shall be guarded against rolling rock and removal of rocks done as necessary. Dust-control measures may be necessary if hauling creates airborne material. Snow removal is to be included in this item.

4.0 CONSTRUCTION STAKEOUT

This work shall consist of furnishing, placing, and maintaining construction layout stakes necessary for the proper execution of the work required under the Contract, production of as-built drawings, and of performing

BID BOND

KNOW ALL MEN BY THESE PRESENTS, That we, the undersigned, Barnes Exc., Inc.
of Sissonville, WV, as Principal, and United States Surety Company
of Timonium, MD, a corporation organized and existing under the laws of the State of
MD with its principal office in the City of Timonium, as Surety, are held and firmly bound unto the State
of West Virginia, as Obligee, in the penal sum of Five Percent of Amount Bid (\$ 5%) for the payment of which,
well and truly to be made, we jointly and severally bind ourselves, our heirs, administrators, executors, successors and assigns.

The Condition of the above obligation is such that whereas the Principal has submitted to the Purchasing Section of the
Department of Administration a certain bid or proposal, attached hereto and made a part hereof, to enter into a contract in writing for
DEP 14397 - Princess Susan Coal - According to Plans & Specifications

NOW THEREFORE,

(a) If said bid shall be rejected, or
(b) If said bid shall be accepted and the Principal shall enter into a contract in accordance with the bid or proposal attached
hereto and shall furnish any other bonds and insurance required by the bid or proposal, and shall in all other respects perform the
agreement created by the acceptance of said bid, then this obligation shall be null and void, otherwise this obligation shall remain in full
force and effect. It is expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall, in no event,
exceed the penal amount of this obligation as herein stated.

The Surety, for the value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no
way impaired or affected by any extension of the time within which the Obligee may accept such bid, and said Surety does hereby
waive notice of any such extension.

IN WITNESS WHEREOF, Principal and Surety have hereunto set their hands and seals, and such of them as are corporations
have caused their corporate seals to be affixed hereunto and these presents to be signed by their proper officers, this

14th day of July, 2010

POWER OF ATTORNEY

AMERICAN CONTRACTORS INDEMNITY COMPANY UNITED STATES SURETY COMPANY U.S. SPECIALTY INSURANCE COMPANY

KNOW ALL MEN BY THESE PRESENTS: That American Contractors Indemnity Company, a California corporation, United States Surety Company, a Maryland corporation, and U.S. Specialty Insurance Company, a Texas corporation (collectively, the "Companies"), do by these presents make, constitute and appoint Gregory T. Gordon, Larry D. Kerr, Allan L. McVey, Patricia A. Moye, Kimberly J. Wilkinson

its true and lawful Attorney(s)-in-fact, each in their separate capacity if more than one is named above, with full power and authority hereby conferred in its name, place and stead, to execute, acknowledge and deliver any and all bonds, recognizances, undertakings or other instruments or contracts of suretyship to include riders, amendments, and consents of surety. This Power of Attorney is granted under and by authority of the following resolutions adopted by the Boards of Directors of the Companies:

Be it Resolved, that the President, any Vice-President, any Assistant Vice-President, any Secretary or any Assistant Secretary shall be and is hereby vested with full power and authority to appoint any one or more suitable persons as Attorney(s)-in-Fact to represent and act for and on behalf of the Company subject to the following provisions:

Attorney-in-Fact may be given full power and authority for and in the name of and on behalf of the Company, to execute, acknowledge and deliver, any and all bonds, recognizances, contracts, agreements or indemnity and other conditional or obligatory undertakings and any and all notices and documents canceling or terminating the Company's liability thereunder, and any such instruments so executed by any such Attorney-in-Fact shall be binding upon the Company as if signed by the President and sealed and effected by the Corporate Secretary.

Be it Resolved, that the signature of any authorized officer and seal of the Company heretofore or hereafter affixed to any power of attorney or any certificate relating thereto by facsimile, and any power of attorney or certificate bearing facsimile signature or facsimile seal shall be valid and binding upon the Company with respect to any bond or undertaking to which it is attached.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed and their corporate seals to be hereto affixed, this 25th day of July, 2008.

AMERICAN CONTRACTORS INDEMNITY COMPANY UNITED STATES SURETY COMPANY U.S. SPECIALTY INSURANCE COMPANY Corporate Seals

By:

[Signature] Peter W. Carman, Vice President

State of Maryland County of Baltimore SS:

On this 4th day of December, 2008, before me, Jean Grzymala, a notary public, personally appeared Peter W. Carman, Vice President of American Contractors Indemnity Company, United States Surety Company and U.S. Specialty Insurance Company, who proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of Maryland that the foregoing paragraph is true and correct. WITNESS my hand and official seal.

Signature [Signature] My commission expires the 15th day of December, 2012

I, Carol T. Nevin, Assistant Secretary of American Contractors Indemnity Company, United States Surety Company and U.S. Specialty Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of a Power of Attorney, executed by said Companies, which is still in full force and effect; furthermore, the resolutions of the Boards of Directors, set out in the Power of Attorney, are in full force and effect.

In Witness Whereof, I have hereunto set my hand and affixed the seals of said Companies at Baltimore, Maryland this 14th day of July, 2010

RFQ No. Dep 14397

STATE OF WEST VIRGINIA
Purchasing Division,

PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
