RE: Expression of Interest
Buyer: CB-23; Req. #DEP 15220
Hawkinberry Hollow Portals and Subs Design
Marion County, WV

Dear Mr. Bowman:

Hornor Brothers Engineers is pleased to provide this response to your RFQ for professional engineering services for the referenced project. Attached are one original, one convenience copy and one copy on a CD. Hornor Brothers Engineers is a full service civil engineering and survey firm that has been in continual business for over 100 years. Our firm is experienced in designs for site development, grading and drainage which are the key elements of this project.

In September 2008 we completed the design and participated in the pre-construction conference for the Stanley Subsidence II AML Enhancement project in Harrison County for which we were the designers of record. Construction was successfully completed in the fall of 2009. We worked closely on that project with personnel from the AML office in Philippi, as well as Danny Pritt in Charleston. We are interested in expanding our practice into more of the AML reclamation projects, especially those near our office in Clarksburg. The referenced project is located within 25 miles of our office.

If there is a need for sub-surface investigation, we would propose to use NGE, formerly known as Novel Geo-Environmental, as our geotechnical subconsultant. They are well known to the AML office, having performed geotechnical services on many projects throughout the state.

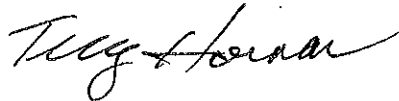

Mr. Chuck Bowman
Department of Administration
Req #DEP15220
November 19, 2010
Page 2

If selected for the project, we would be able to begin work immediately. We appreciate your consideration of our qualifications and look forward to the opportunity to work with the West Virginia Department of Environmental Protection on this important project.

If you should have any questions about the information provided, please let me know.

Yours truly,

HORNOR BROTHERS ENGINEERS

WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

GENERAL TERMS & CONDITIONS
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)

1. Awards will be made in the best interest of the State of West Virginia.
 2. The State may accept or reject in part, or in whole, any bid.
 3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
 4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
 5. Payment may only be made after the delivery and acceptance of goods or services.
 6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
 7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
 8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
 9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
 10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
 11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
 12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
 13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
 14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
 15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
 16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.
- I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

staff as requested by the AML Consultant Qualification Questionnaire (CQQ), Attachment "B" and the AML and Related Project Experience Matrix (RPEM), Attachment "C".

Electronic copies of the above referenced documents Attachment "B" and Attachment "C" are available online for registered vendors at:
<http://www.state.wv.us/admin/purchase/newbul.htm>

1.4 Inquiries:

Additional information inquiries regarding this EOI must be submitted in writing to the State Buyer with the exception of questions regarding proposal submission, which may be oral. The deadline for written inquiries is identified in the Schedule of Events, Section 1.16. All inquiries of specification clarification must be addressed to:

Chuck Bowman, Buyer Supervisor
Purchasing Division
P.O. Box 50130
Charleston, WV 25305-0130
Fax: (304) 558-4115
Email: charles.a.bowmanjr@wv.gov

The firm, or anyone on the firm's behalf, is not permitted to make any contact whatsoever with any member of the evaluation committee. Violation may result in rejection of the EOI. The State Buyer named above is the sole contact for any and all inquiries after this EOI has been released.

1.5 Vendor Registration:

Firms participating in this process should complete and file a **Vendor Registration and Disclosure Statement** (Form WV-1) and remit the registration fee. Firm is not required to be a registered vendor in order to submit an EOI, but the **successful firm must register and pay the fee prior to the issuance of an actual contract.**

1.6 Oral Statements and Commitments:

Firm must clearly understand that any verbal representations made or assumed to be made during any oral discussions held between firm's representatives and any State personnel are **not binding**. Only the information issued in writing and added to the Expression of Interest specifications file by an official written addendum is binding.

1.7 Economy of Preparation:

EOI's should be prepared simply and economically, providing a straightforward, concise description of firm's abilities to satisfy the requirements of the EOI. Emphasis should be placed on completeness and clarity of content. Example projects referred to in a firm's EOI's submittal should address projects that are similar in scope to that of the EOI. **Firms must complete the CQQ and RPEM as included in Section 4.2 of this EOI. (Proposals must be no more than 100 pages).**

1.8 Labeling of the Sections: The response sections should be labeled for ease of evaluation.

1.9 Submission:

1.9.1 State law requires that the original expression shall be submitted to the Purchasing Division. All copies to the Purchasing Division must be submitted prior to the date and time stipulated as the opening date. All expressions will be date and time stamped on the Purchasing Division official time clock to verify time and date of receipt.

1.9.2 Firms mailing expressions should allow sufficient time for mail delivery to ensure timely arrival. The Purchasing Division **CANNOT** waive or excuse late receipt of an expression which is delayed and late for any reason according West Virginia State Code §5A-3-11. Any EOI received after the bid opening time and date will be immediately disqualified in accordance with State law and the Legislative Rule 148-CSR-1.

Submit:

One original plus one convenience copy and one copy on CD to:

Purchasing Division
2019 Washington Street, East
P.O. Box 50130
Charleston, WV 25305-0130

The outside of the envelope or package(s) should be clearly marked:

Buyer: CB-23
Req #: DEP15220
Opening Date: 12/02/2010
Opening Time: 1:30 pm

1.10 Rejection of Expressions:

The State shall select the best value solution according to §5G-1-3 of the West Virginia State Code. However, the State reserves the right to accept or reject any or all expressions and to reserve the right to withdraw this Expression of Interest at any time and for any reason. Submission of, or receipt by the State of Expressions confers no rights upon the firm nor obligates the State in any manner.

1.11 Incurring Costs:

The State and any of its employees or officers shall not be held liable for any expenses incurred by any firm responding to this EOI for expenses to prepare, deliver, or to attend the short-list interviews.

1.12 Addenda:

If it becomes necessary to revise any part of this EOI, an official written addendum will be issued by the State to all potential firms of record.

1.13 Independent Price Determination:

A contract will not be considered for award if the negotiated price was not arrived at independently without collusion, consultation, communication, or agreement as to any matter relating to prices with any competitor.

1.14 Price Quotations: No "price" or "fee" quotation is requested or permitted in the response.**1.15 Public Record:****1.15.1 Submissions are Public Record.**

All documents submitted to the State Purchasing Division related to purchase orders/contracts are considered public records. All EOI's submitted by firms shall become public information and are available for inspection during normal official business hours in the Purchasing Division Records and Distribution center after the expressions have been opened.

1.15.2 Written Release of Information.

All public information may be released with or without a Freedom of Information request, however, only a written request will be acted upon with duplication fees paid in advance. Duplication fees shall apply to all requests for copies of any document. Currently the fees are \$0.50/page, or a minimum of \$10.00 per request, whichever is greater.

1.15.3 *Risk of Disclosure.*

The only exemptions to disclosure of information are listed in West Virginia Code §29B-1-4. Primarily, only trade secrets as submitted by a firm are the only exemption to public disclosure. The submission of any information to the State by a firm puts the risk of disclosure on the firm. The submission of any information to the State by a vendor puts the risk of disclosure on the vendor. The State does not guarantee non-disclosure of any information to the public.

1.16 **Schedule of Events:**

Release of EOI.....	11/04/2010
EOI Opening Date.....	12/02/2010

1.17 **Mandatory Pre-bid Conference:** NA

1.18 **Bond Requirements:** N/A

1.19 **Purchasing Affidavit:**

West Virginia State Code §5A-3-10a (3) (d) requires that all firms submit an Affidavit regarding any debt owed to the State and licensing and confidentiality certifications. The Affidavit **must** be signed and submitted prior to award. It is preferred that the Affidavit be submitted with the EOI.

PART 2

OPERATING ENVIRONMENT

2.1 **Location:**

Directions to Hawkinberry Hollow Portals & Subsidence

Travel I-79 north to Fairmont. Travel to US 19 North and follow 19 North through Fairmont and Dakota. Just north of Dakota US 19 crosses railroad tracks and the road parallels the Monongahela River. From the railroad tracks that cross US 19, continue 0.2 mile to the first road on the left (CR 19/7, this road travels under a railroad trestle). Turn left traveling under the trestle and travel 0.7 mile to the end of the site (portal 7). The site begins at the first house on the left (subsidence cracks north of the house along the fence line).

2.2 **Background:**

Firms are to be licensed Architectural/Engineering Firms (A/E) and should be familiar with, and have a successful track record of design of similar projects. The anticipated contract will be for "full-service" A/E design. Aspects of the design are to include, but not be limited to, Civil, Structural, Geological and Hydrological.

*The successful A/E will be responsible for **Design** of the following:*

The site includes eleven deep mine portals and two subsidence cracks or fissures. Four of the mine portals are collapsed (portals 2,3,6 & 10) and seven are open enough to allow entry (portals 1,4,5,7,8,9 & 11). See attached map. Portal 1 is located above three homes in livestock pasture. The opening is 2'X4' and the residents below use the water from the portal for drinking and livestock. Portal 2, 3, 6 & 10 are collapsed and located within 100' of the county road. Drainage from the portals flows down the hill and into the county road ditch (~20 gpm for each). If a blowout were to occur, residents who live west of the portals would have no way to leave the hollow. Portals 4, 5, 7, 8, & 9 are located within 100' of the county road and their openings range from 1'X4' to 4'X5'. These portals can easily be seen from the road when the leaves are off. The area surrounding the portal openings is composed of broken and fractured material that is sloughing into the openings. Portal 11 is located in a livestock pasture and discharging ~ 25gpm. This opening is ~5'X10' and the rock above the portal is fractured sandstone. The sandstone above the portal is overhanging the entrance by 6'. If this rock were to fall on a person or livestock they would certainly be killed. Drainage from this portal has created a large swampy area in the pasture making it hard to navigate and unproductive.

Two Subsidence fissures are located east of portal 11 on the opposite side of the pasture along the fence line. These fissures are approximately 75' long and 2' wide, depth unknown.

Preliminary design documents will be due 60 days from the issuance of the Purchase Order.

PART 3 PROCUREMENT SPECIFICATIONS

3.1 General Requirements:

Firm must submit a completed CQQ (Attachment "B") and RPEM (Attachment "C") as per Section 4.2

3.2 Project Description:

Scope of Work – Hawkinberry Hollow Portals & Subsidence:

Prepare site by clearing and grubbing.

Upgrade access road.

Excavate, dewater and install wet seals in collapsed portals.

Excavate and construct bat gates at the open portal locations.

Construct drainage channel and install culverts to carry water safely off-site.

Remove and dispose of trash along the subsidence crack.

Excavate the subsidence cracks, grout if needed and cover with stable material.

Condition and revegetate all disturbed areas.

3.3 Special Terms and Conditions:

3.3.1 *Bid and Performance Bonds:* N/A

3.3.2 *Insurance Requirements:* \$1,000,000 General Liability per Occurrence
 \$2,000,000 Aggregate
 \$1,000,000 Automobile Liability
 \$1,000,000 Professional Liability
 Workers Compensation Certificate Upon Award
 West Virginia Statutory requirements including
 West Virginia Code §23-4-2 (Mandolidis)
 DEP15220 must be listed on Insurance Certificates

3.4 General Terms and Conditions:

By signing and submitting the EOI, the successful firm agrees to be bound by all the terms contained in Section Three (3) of this EOI.

3.4.1 *Conflict of Interest:*

Firm affirms that it, its officers or members or employees presently have no interest and shall not acquire any interest, direct or indirect which would conflict or compromise in any manner or degree with the performance or its services hereunder. The firm further covenants that in the performance of the contract, the firm shall periodically inquire of its officers, members and employees concerning such interests. Any such interests discovered shall be promptly presented in detail to the Agency.

3.4.2 *Prohibition Against Gratuities:*

Firm warrants that it has not employed any company or person other than a bona fide employee working solely for the firm or a company regularly employed as its marketing agent to solicit or secure the contract and that it has not paid or agreed to pay any company or person any fee, commission, percentage, brokerage fee,

gifts or any other consideration contingent upon or resulting from the award of the contract. For breach or violation of this warranty, the State shall have the right to annul this contract without liability at its discretion, and/or to pursue any other remedies available under this contract or by law.

3.4.3 *Certifications Related to Lobbying:*

Firm certifies that no federal appropriated funds have been paid or will be paid, by or on behalf of the company or an employee thereof, to any person for purposes of influencing or attempting to influence an officer or employee of any Federal entity, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan, or cooperative agreement.

If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the firm shall complete and submit a disclosure form to report the lobbying.

Firm agrees that this language of certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub recipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this contract was made and entered into.

3.4.4 *Vendor Relationship:*

The relationship of the firm to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by the parties to this contract. The firm as an independent contractor is solely liable for the acts and omissions of its employees and agents.

Firm shall be responsible for selecting, supervising and compensating all individuals employed pursuant to the terms of this EOI and resulting contract. Neither the firm nor any employees or contractors of the firm shall be deemed to be employees of the State for any purposes whatsoever.

The Firm shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties,

fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension or other deferred compensation plans, including but not limited to Workers' Compensation and Social Security obligations, and licensing fees, etc. and the filing of all necessary documents, forms and returns pertinent to all of the foregoing.

The Firm shall hold harmless the State, and shall provide the State and Agency with a defense against all claims including but not limited to the foregoing payments, withholdings, contributions, taxes, social security taxes and employer income tax returns.

The Firm shall not assign, convey, transfer or delegate any of its responsibilities and obligations under this contract to any person, corporation, partnership, association or entity without expressed written consent of the Agency.

3.4.5 Indemnification:

The firm agrees to indemnify, defend and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person or firm performing or supplying services, materials or supplies in connection with the performance of the contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the firm, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use or disposition of any data used under the contract in a manner not authorized by the contract, or by Federal or State statutes or regulations; (3) Any failure of the firm, its officers, employees or subcontractors to observe State and Federal laws, including but not limited to labor and wage laws.

3.4.6 Contract Provisions:

After the most qualified firm is identified, and fee negotiations are concluded, a formal contract document will be executed between the State and the firm. The order of precedence is the contract, the EOI and the firm's response to the EOI.

3.4.7 Governing Law:

This contract shall be governed by the laws of the State of West Virginia. The firm further agrees to comply with the Civil Rights Act of 1964 and all other applicable laws (Federal, State or Local Government) regulations.

3.4.8 Compliance with Laws and Regulations:

The Firm shall procure all necessary permits and licenses to comply with all applicable laws, Federal, State or municipal, along with all regulations, and ordinances of any regulating body.

The Firm shall pay any applicable sales, use, or personal property taxes arising out of this contract and the transactions contemplated thereby. Any other taxes levied upon this contract, the transaction, or the equipment, or services delivered pursuant here to shall be borne by the contractor. It is clearly understood that the State of West Virginia is exempt from any taxes regarding performance of the scope of work of this contract.

3.4.9 Subcontracts/Joint Ventures:

The State will consider the firm to be the sole point of contact with regard to all contractual matters. The firm may, with the prior written consent of the State, enter into written subcontracts for performance of work under this contract; however, the firm is totally responsible for payment of all subcontractors.

3.4.10 Term of Contract:

This contract will be effective (date set upon award) and shall extend until the scope of work is complete or for one (1) consecutive twelve (12) month period. The contract may be renewed upon mutual consent for two (2) consecutive years one (1) year periods or until such reasonable time as may be necessary to obtain a new contract or to complete work.

3.4.11 Non-Appropriation of Funds:

If the Agency is not allotted funds in any succeeding fiscal year for the continued use of the service covered by this contract by the West Virginia Legislature, the Agency may terminate the contract at the end of the affected current fiscal period without further charge or penalty. The Agency shall give the firm written notice of such non-allocation of funds as soon as possible after the Agency receives notice. No penalty shall accrue to the Agency in the event this provision is exercised.

3.4.12 Contract Termination:

The State may terminate any contract resulting from this EOI immediately at any time the firm fails to carry out its responsibilities or to make substantial progress under the terms of this EOI and resulting contract. The State shall provide the firm with advance notice of performance conditions, which are endangering the contract's continuation. If after such notice the firm fails to remedy the conditions contained in the notice, within the time contained in the notice, the State shall issue the firm an order to cease and desist all work immediately.

The State shall be obligated only for services rendered and accepted prior to the date of the notice of termination. The contract may also be terminated upon mutual agreement of the parties with thirty (30) days prior notice.

3.4.13 Changes:

If changes to the original contract become necessary, a formal contract change order will be required. Prior to any work being performed, the change must be negotiated and approved by the State, the Agency and the firm. An approved contract change order is defined as one approved by the Purchasing Division and approved as to form by the West Virginia Attorney General's Office prior to the effective date of such amendment. **NO CHANGE SHALL BE IMPLEMENTED BY THE FIRM UNTIL THE FIRM RECEIVES AN APPROVED WRITTEN CHANGE ORDER.**

3.4.14 Invoices, Progress Payments, & Retainage:

The Firm shall submit invoices, in arrears, to the Agency at the address on the face of the purchase order labeled "Invoice To" pursuant to the terms of the contract. Progress payments may be made at the option of the Agency based on percentage of work completed if so defined in the final contract. Any provision for progress payments must also include language for a minimum 10% retainage until the final deliverable is accepted.

If progress payments are permitted, firm is required to identify points in the work plan at which compensation would be appropriate. Progress reports must be submitted to Agency with the invoice detailing progress completed or any deliverables identified. Payment will be made only upon approval of acceptable progress or deliverables as documented in the firm's report. Invoices may not be submitted more than once monthly and State law forbids payment of invoices prior to receipt of services.

The firm will invoice for completed work on an approved WVDEP form.

3.4.15 Liquidated Damages:

According to West Virginia State Code §5A-3-4(8), firm agrees that liquidated damages shall be imposed at the rate of N/A per workday, for failure to provide deliverables at the agreed upon date identified in the final contract. This clause shall in no way be considered exclusive and shall not limit the State or Agency's right to pursue to any other additional remedy to which the State or Agency may have legal cause for action including further damages against the firm.

3.4.16 Record Retention (Access & Confidentiality):

Firm shall comply with all applicable Federal and State of West Virginia rules and regulations, and requirements governing the maintenance of documentation to verify any cost of services or commodities rendered under this contract by the firm. The firm shall maintain such records a minimum of five (5) years and make available all records to Agency personnel at firm's location during normal

business hours upon written request by Agency within 10 days after receipt of the request.

Firm shall have access to private and confidential data maintained by Agency to the extent required for firm to carry out the duties and responsibilities defined in this contract. Firm agrees to maintain confidentiality and security of the data made available and shall indemnify and hold harmless the State and Agency against any and all claims brought by any party attributed to actions of breach of confidentiality by the firm, subcontractors, or individuals permitted access by the firm.

PART 4 EVALUATION & AWARD

4.1 Evaluation and Award Process:

- a) Expressions of Interest will be evaluated and awarded in accordance with **§5G-1-3 "Contracts for architectural and engineering services; selection process where total project costs are estimated to cost two hundred fifty thousand dollars or more."**

"In the procurement of architectural and engineering services for projects estimated to cost two hundred and fifty thousand dollars or more the director of purchasing shall encourage such firms engaged in the lawful practice of the profession to submit an expression of interest, which shall include a statement of qualifications, and performance data and may include anticipated concepts and proposed methods of approach to the project. All such jobs shall be announced by public notice published as a Class II legal advertisement in compliance with the provisions of article three [§59-3-1et seq.] A committee comprised of three to five representatives of the agency initiating the request shall evaluate the statements of qualifications and performance data and other material submitted by the interested firms and select three firms which in their opinion are the best qualified to perform the desired service. Interviews with each firm selected shall be conducted and the committee shall conduct discussions regarding anticipated concepts and the proposed methods of approach to the assignment. The committee shall then rank in order of preference no less than three professional firms deemed to be the most highly qualified to provide the services required, and shall commence scope of service and price negotiations with the highest qualified professional firm for architectural or engineering services or both. Should the agency be unable to negotiate a satisfactory contract with the professional firm considered to be the most qualified, at a fee determined to be fair and reasonable, price negotiations with the firm of second choice

shall commence. Failing accord with the second most qualified professional firm, the committee shall undertake price negotiations with the third most qualified professional firm. Should the agency be unable to negotiate a satisfactory contract with any of the selected professional firms, it shall select additional professional firms in order of their competence and qualifications and it shall continue negotiations in accordance with this section until an agreement is reached."

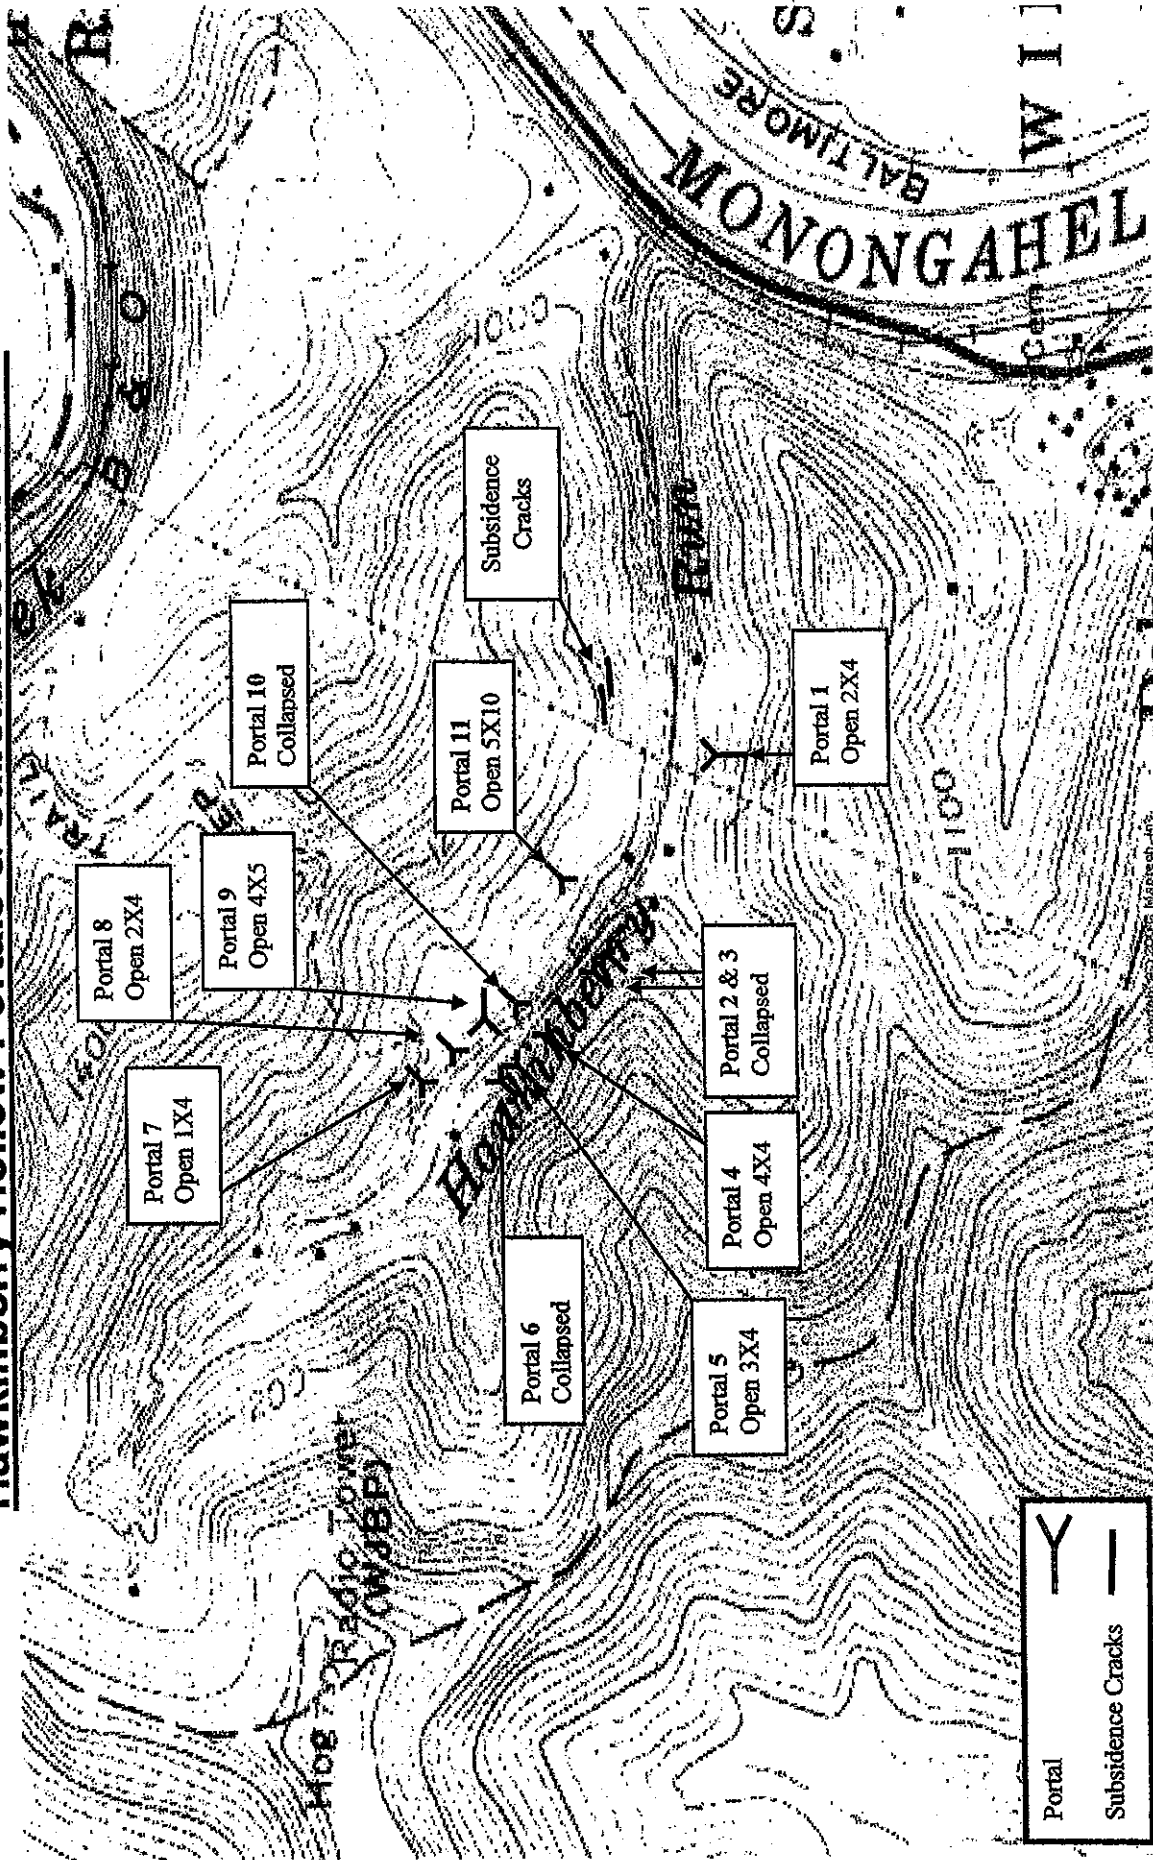

- b) The evaluation criteria and assigned point values are as follows:
- | | |
|--|-----------|
| A. WV Registered Professional Engineers (Civil or Mining)
In the Primary Office: | 20 points |
| B. Reclamation Engineering design experience of the Primary
Office's WVRPE as it relates to the specific project problem
Areas: | 25 points |
| C. Available WV-AML Design Teams within the Primary office
(A Design team should consist of one Project Engineer (Civil
or Mining), one CAD person and availability of other support
personnel a required by the particular project): | 20 points |
| D. The Oral Interview (See Section 4.3 of this EOI): | 35 points |
- 4.2 (a) AML Consultant Qualification Questionnaire (CQQ) must be completed to be eligible (See Attachment "B").
- (b) AML and Related Project Experience Matrix (RPEM) must also be completed to be eligible (See Attachment "C").
- 4.3 Interviews as stated in 4.1 "Evaluation and Award Process" will be conducted with the three firms selected as the most qualified by the WVDEP Selection Committee. The Committee will schedule the interviews.

The format for the interviews will be a 15-30 minute PowerPoint presentation consisting, at a minimum, of the following:

- Corporate/personnel experience as it relates to the project or projects
- Proposed project management plan
- Key personnel available for the proposed work
- Proposed subcontractors (mapping, geotechnical, etc.)
- Product quality control
- Project cost control

12. A. _____s your firm's personnel experienced in Abandoned _____e Lands Remediation/Mine Reclamation Engineerin

YES Description and Number of Projects: Three (3) projects, Stanley Subsidence II AML Enhancement Project, Harrison County (construction complete); Century-Volga PSD Brushy Fork Waterline Extension Project, Barbour County (construction complete); Summit Park PSD Waterline Replacement Project, Harrison County (under construction).
NO

B. Is your firm experienced in Soil Analysis? _____

YES Description and Number of Projects: _____

NO Is your firm experienced in hydrology and hydraulics? _____

YES Description and Number of Projects: We have performed waterline pipe hydraulic analysis as part of the design process for more than 50 water system expansion or replacement projects. We have also performed hydrological studies of pre and post runoff and storm water management for many site development projects. The most recent of these is the new United Hospital Center in Harrison County. Please see the site development section of our company profile for additional projects that required hydrological and hydraulic analysis associated with surface and storm water management.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping? _____

YES Description and Number of Projects: _____

NO Our firm does not have in-house aerial photography. However, we assist in providing aerial photography using a third party source on some of our projects. We typically work with Keddal Aerial Mapping. We also have an in-house land surveying crew that provides feature location and contour surveys.

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in evaluation of aquifer degradation as a result of mining.) _____

YES Description and Number of Projects: Waterline design comprises the biggest part of our business. Hornor Brothers has experience with the design and project administration for more than 50 new or replacement waterline projects. Please see the waterline section of our company profile for a detailed description and photographs of more recent projects which are attached as a part of this proposal.

NO

F. Is your firm experienced in Acid Mine Drainage Evaluation and Abatement Design? _____

YES Description and Number of Projects: _____

NO

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES RESPONSIBLE FOR AML PROJECT DESIGN (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)		YEARS OF EXPERIENCE	
Paul A. Hornor III, President		28	
Brief Explanation of Responsibilities			
Paul A. Hornor III is responsible for the management and execution of most of the firm's assignments. Primary activities include the overall planning, design and project management of water, sewer, and land development projects in West Virginia.			
EDUCATION (Degree, Year, Specialization)			
BS, 1982, Civil Engineering			
MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS: WV Society of		REGISTRATION (Type, Year, State)	
Professional Engineers; American Society of Civil Engineers; National Society of Professional Engineers; WV Rural Water Association; American Water Works Association; American Council of Engineering Companies of WV; WV Association of Land Surveyors		Professional Engineer, 1987, WV #10281 Professional Surveyor, 1995, WV #1565	
13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES RESPONSIBLE FOR AML PROJECT DESIGN (Furnish complete data but keep to essentials)			
NAME & TITLE (Last, First, Middle Int.)		YEARS OF EXPERIENCE	
Thomas D. Corathers, P.E.		27	
Brief Explanation of Responsibilities			
Thomas D. Corathers, Project Manager, is responsible for the general oversight of the office engineering and technical and surveying work. His primary activities include planning, design, review and project management of land development, drainage, site design, sidewalk, streetscape and paving projects.			
EDUCATION (Degree, Year, Specialization)			
BSET, 1982, Civil Engineering Technology			
MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS		REGISTRATION (Type, Year, State)

19. Use this space to provide any additional information or description of resources supporting your firm's qualifications to perform work for the West Virginia Abandoned Mine Lands Program.

Hornor Brothers Engineers is a well-established civil engineering firm which operates primarily in north-central West Virginia. Over our many years of business, we have performed the design for all sizes of site development projects, from individual home sites to a 10,000,000 cubic yard excavation and embankment for the runway extension at Benedum Airport in Harrison County. We have completed the design, and construction is complete, on \$16,000,000 worth of site development at the new UHC replacement project along Jerry Dove Drive and I-79 in Bridgeport.

We are accustomed to providing the full breadth of engineering services associated with site development projects, including permit applications (Division of Culture and History, U.S. Army Corps of Engineers, and Division of Environmental Protection), preparation of highly detailed construction plans and specifications, identification of necessary rights-of-way, bidding, construction administration and inspection, and project closeout activities.

Most of these projects incorporate designs for excavation, embankment, drainage (open and closed conduits), utilities, access roads, stormwater detention, sediment and erosion control and site restoration. These are many of the same components that would be a part of this and many other AML reclamation projects. We completed the design of an AML reclamation project for the Stanley Subsidence II site in Harrison County in 2009. In doing so we established a good working relationship with personnel in the AML offices in Philippi and Charleston. Our related experience and close proximity to the project site would be important assets to the DEP on this project. If selected we would be able to begin work immediately.

20. The foregoing is a statement of facts.

PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentally established by a county or municipality; any separate corporation or instrumentally established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (**West Virginia Code §61-5-3**), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

COMPANY PROFILE

INTRODUCTION

The consulting firm of Hornor Brothers Engineers, located in Clarksburg, West Virginia, is a family owned and operated organization which was founded in 1902. Its principals are Paul Allen (Trey) Hornor III, Paul Allen Hornor, Jr. and John W. Hornor. For over 100 years the firm has practiced civil engineering as it relates to public works and the environment. Throughout its history, Hornor Brothers Engineers (HBE) has combined the expertise of an experienced, professional engineering staff with a thorough knowledge of north central West Virginia to provide our customers with value driven results. We remain flexible, yet qualified to meet the needs of our clients in an ever-changing world, and continue to uphold our high standards of service in providing effective engineering solutions.

Through professional and personal interaction, Hornor Brothers Engineers' staff is available to identify project requirements, coordinate timely reviews and manage work tasks and other issues that need to be addressed, so that quality service on time and within budget can be completed to the client's satisfaction.

OVERVIEW OF ENGINEERING AND RELATED SERVICES

The firm specializes in land surveying, site development planning, the design and construction management of water and wastewater projects, airport development and other municipal and public works. We have considerable experience in working with most state and federal funding and regulatory agencies. The following is a complete list of the engineering and related services for which Hornor Brothers Engineers is qualified and capable.

Airport Facilities	Funding Applications	Municipal Engineering
Civil Engineering	General Consulting	Project Management
Coal-Related Consulting	Geographic Information Systems (GIS)	Pumping Facilities
Construction Inspection Services	Highways and Roads	Site Evaluations
Land Surveying & Mapping	Industrial Site Development Facilities	Subdivision Development
Drainage Systems	Infrastructure Investigations and Reports	Wastewater Collection Systems
Economic Feasibility Studies	Land Surveying and Mapping	Water Distribution and Storage

LAND SURVEYING

Land surveying plays a major role in Hornor Brothers Engineers' scope of business. HBE has performed survey work for over 10,000 individual property owners and hundreds of commercial and industrial clients. These services include contour and feature location maps, lot and farm surveys, subdivisions, gas well locations, to name a few. These surveying capabilities compliment the firm's other areas of business, such as project design, and enable us to handle a maximum amount of project responsibility internally. The service areas for all the firm's water system expansion projects are surveyed on the ground to produce highly detailed construction mapping. HBE utilizes a handheld GPS unit, total station instruments with data collector and CADD capabilities, which help provide for timely, sharp, finished plats and drawings.

MUNICIPAL PROJECTS

Hornor Brothers Engineers has performed a wide range of municipal services including the design and construction phase services for small dams and reservoirs, tennis courts, city streets, conventional sidewalks, drainage systems, and all the project components associated with downtown streetscape improvements. The firm has also prepared multiple parking lot project designs, for United Hospital Center, Fairmont State College, and the City of Clarksburg among others.

Our history of successful projects with Fairmont State College, the United Hospital Center, and the cities of Clarksburg and Bridgeport and others is a reflection of our quality of performance in this area of development. See the following representative photographs and descriptions for several of the firm's various municipal projects.

**FAIRMONT STATE COLLEGE
STUDENT PARKING EXPANSION PROJECT**
Project Cost: \$394,000; Completed: 1997

**FAIRMONT STATE COLLEGE
NEW TENNIS COURTS PROJECT**
Project Cost: \$553,000; Completed: 1999

**UNITED HOSPITAL CENTER EMPLOYEE PARKING
EXPANSION PROJECTS (Phases 1&2)**
251 New Spaces; Total Construction Cost: \$718,000

SLIP REMEDIATION AND RELATED PROJECTS

Hornor Brothers Engineers is frequently called upon for the design of remedial site work or restoration, and related minor development. Typical design and construction elements can include pavement and sub-base repair, excavation and embankment, pile and lagging walls, subsurface drainage systems, surface drainage systems, erosion and sediment control, and landscaping.

The following are brief descriptions of several completed projects for which Hornor Brothers Engineers provided design only or both design and construction phase engineering services.

1. Project Name	Location	Owner	Contact Person	Cost
United Hospital Center Retaining Wall and Widening of Emergency Room Access Road	Clarksburg Harrison County, WV	UHC P.O. Box 1680 Clarksburg, WV	Geoff Marshall, V.P. Engineering Support Services (304) 624-2227	\$ 166,590.00

Project Description: This project was designed in order to widen the emergency room access road at the United Hospital Center campus. The design involved 90 lf of drilled and grouted piles with concrete lagging, wales, controlled fill, catch basin, drainage pipe, guardrails and safety fencing.

2. Project Name	Location	Owner	Contact Person	Cost
City of Clarksburg Pile and Lagging Wall at 4 th Street	Glen Elk Section of Clarksburg Harrison County, WV	City of Clarksburg 222 W. Main Street Clarksburg, WV	Anthony Bellotte, Director of Public Works 623-	Unknown. This was part of a larger project.

Project Description: As part of Clarksburg's Phase III streetscape project, a driven pile and concrete lagging wall was designed to support a section of sidewalk along Clark Street and to prevent the failure of a portion of Hogan Alley at the intersection of Hogan Alley and Clark Street in the Glen Elk section of Clarksburg.

3. Project Name	Location	Owner	Contact Person	Cost
Davis Funeral Home Slip Remediation Measures	Near WV Route 98 Between Clarksburg & Nutter Fort Harrison County, WV	Davis Funeral Home 1 Olen Thomas Drive Clarksburg, WV	Randy Amos (304) 854-8347	\$ 110,000.00

Project Description: Hornor Brothers designed remedial measures to correct an embankment slip. These corrective measures included rock stabilization along the toe of the slip area, dump rock ditches, French drains and underdrains, repair of existing asphalt pavement and resetting existing preformed curb and gutter.

4. Project Name	Location	Owner	Contact Person	Cost
United Hospital Center Embankment Project	Clarksburg Harrison County, WV	UHC P.O. Box 1680 Clarksburg, WV	Geoff Marshall, V.P. Engineering Support Services (304) 624-2227	\$ 108,000.00

Project Description: This project was designed in order to restore an old borrow site to the original contour. The design involved approximately 4600 cubic yards of controlled fill, associated underdrains to alleviate groundwater problems and rock stabilization. Surface erosion concerns were addressed by utilizing vegetative cover (grass), trees and biodegradable matting.

5. Project Name	Location	Owner	Contact Person	Cost
Maplewood Community Slip Remediation and Drainage Project	Bridgeport Harrison County, WV	Maplewood Community, Inc. UHC P.O. Box 1680 Clarksburg, WV	Geoff Marshall, V.P. Engineering Support Services (304) 624-2227	Unknown, onsite contractor performed this work in conjunction with an ongoing project at Maplewood

Project Description: Hornor Brothers designed corrective measures for an embankment slip that consisted of removal of slip material, installing underdrains to remove subsurface water and re-establishing the grade to its original contour. Drainage measures consisted of 8", 18" and 24" pipe and drop inlets to alleviate surface water problems.

SITE DEVELOPMENT

Hornor Brothers Engineers also provides complete engineering services for the development of industrial parks and residential subdivisions. Our services include staking out the lots and designing the earth moving, streets, sidewalks, drainage systems, and water and sewer systems for the industrial or residential client. Hornor Brothers Engineers has been involved in the development of numerous industrial parks and subdivisions around north-central West Virginia. Sometimes this requires the complete turnkey services described above, and in other cases just the layout of lots or the design of water and wastewater systems. A listing of recent and/or larger, recognizable site development projects includes the following:

Subdivision Projects	County	Industrial/Commercial Site Projects	County
Heritage Farms	Harrison	UHC New Hospital Site	Harrison
Deerbrook	Barbour	Fed Ex Site	Harrison
Bennett Manor	Harrison	Harrison-Marion Regional Airport	Harrison
Auburn Village	Harrison	Benedum Airport Industrial Park	Harrison
Heavenly Trails	Marion	Midway Industrial Park	Harrison
Timber Ridge	Marion	Lewis County Industrial Park	Lewis
Bridgeport Public Safety Facility	Harrison		

On the following pages, see representative photographs and descriptions for several of the firm's various site development projects.

BRIDGEPORT, WEST VIRGINIA
2006 – 2010**

In 2002, Hornor Brothers Engineers teamed with Gresham, Smith & Partners of Nashville, Tennessee to serve as the civil design firm for the new United Hospital Center. This project started construction in 2006 and the facility is slated to open in 2010.

Hornor Brothers Engineers was responsible for the initial surveys, preparation of the site plans, design of 2.1 million cubic yard engineered embankment and excavation, temporary and permanent erosion, sediment and storm water management systems, site infrastructure, consisting of paved roadways, paved parking, storm drainage, water distribution system and sanitary sewer system. The civil site development also included sidewalks and several decorative block retaining walls. Pictures of the site work in various stages can be seen on the following pages.

HARRISON – MARION REGIONAL AIRPORT - BRIDGEPORT, WEST VIRGINIA

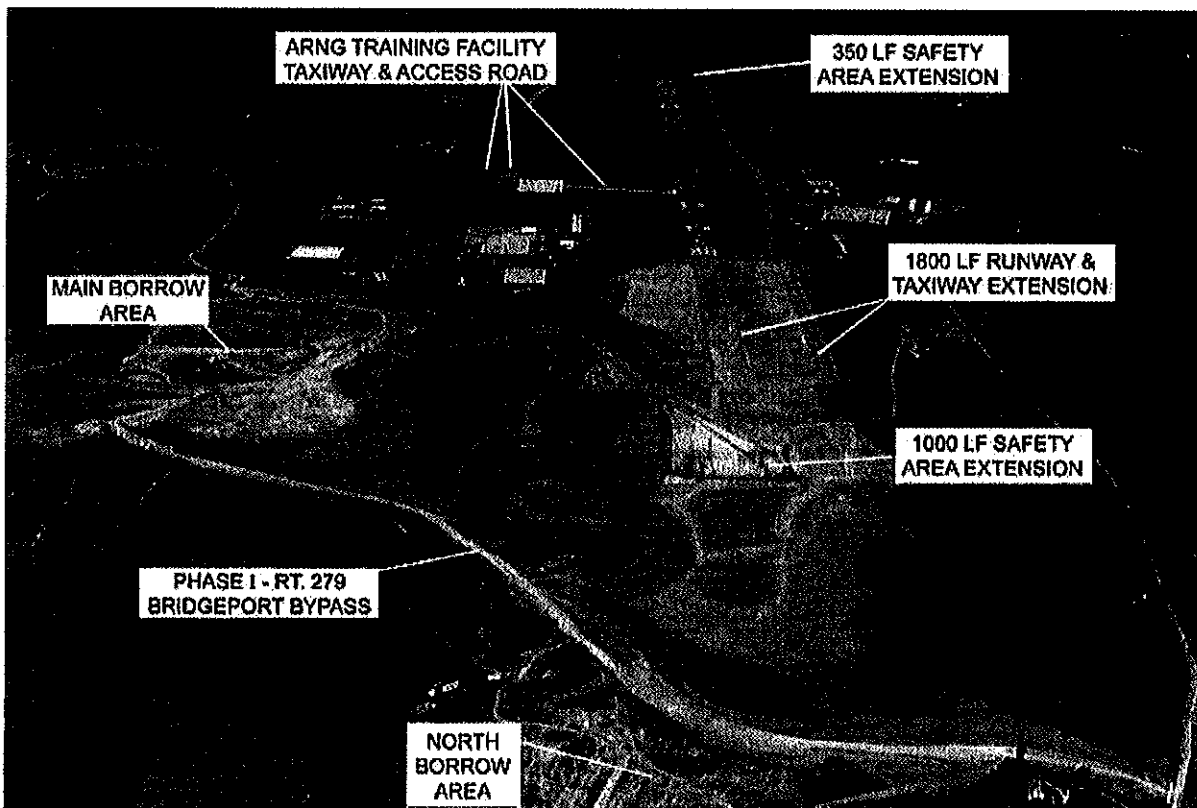

Hornor Brothers Engineers has a rich and long history of over 65 years with the Harrison-Marion Regional Airport, which began as the Harrison County Airport in 1937. As the airport changed over the years, Hornor Brothers Engineers was the firm predominantly responsible for the improvements and additions to the facility. The years of 1960-1975 were the main development years for the airport. During this period of time there were nine major construction projects. From 1977 to 1995 there were 15 smaller projects, all funded primarily by the Federal Aviation Administration.

In 1993, Benedum Airport Authority embarked on a large and ambitious project to extend its main runway and parallel taxiway. Major design components of the project included a 10,000,000 cubic yard excavation and embankment; a 2,500 foot long, 72-inch structural steel culvert; runway and taxiway pavement and lighting; repaving the existing runway; fencing; utility line relocations; storm drainage system and a new instrument landing system.

The Benedum Airport Authority also hired Hornor Brothers Engineers to provide engineering design, inspection and construction management services for the construction of a 4,400 foot long (0.833 miles) access highway. This section of highway is known as Route 279, North Bridgeport Bypass.

Also, the West Virginia Army National Guard (ARNG) hired Hornor Brothers Engineers to provide all phases of engineering design and inspection for the construction of the Eastern ARNG Aviation Training Site Fixed Wing Detachment at Benedum Airport. This facility consisted of a 37,200 sq. ft. training facility hangar with classroom, administrative and aircraft maintenance space, flexible and rigid paving for aircraft parking, new taxiway access to the main runway and the existing Tee Hangars, all supporting utilities, drainage structures and new access highway from U.S. Route 50. Following are pictures of the above referenced projects.

COMPLETED IN 1996**

SEWER PROJECTS

For more than 50 years, Hornor Brothers Engineers has been involved in design and construction phase engineering for storm and sanitary sewers. During this period the firm has designed significant portions of the wastewater collection systems in the cities of Clarksburg and Bridgeport. More recently, this has included sewer collection systems in and around the North-Central Regional Airport, Heritage Farms Subdivision, G.A.L. Properties, Energy Plaza Partners, Valley View Subdivision, Beckwith Machinery, Woodland Hills Subdivision – Phase 2, HC Industrial Park, Pheasant Ridge Subdivision, Auburn Village Subdivision, Bennett Manor Subdivision, the new UHC Hospital campus and the new sewer serving the new Doddridge County High School from the Town of West Union.

The firm offers services in the area of sanitary sewer collection that includes expertise in planning, funding applications, design, construction inspection, project management and startup. The following project in Lumberport is an example of a completed project for which Hornor Brothers Engineers provided all of these services.

LUMBERPORT AREA PUBLIC SERVICE SEWER DISTRICT WASTEWATER COLLECTION & TREATMENT PROJECT

The LAPSSD is comprised of the Town of Lumberport and the communities of Haywood and Cambria. This project was funded by an EPA grant and WV Infrastructure and Jobs Development Council loan. The design utilized innovative/alternative technology in that collection is primarily achieved through a small diameter, variable-grade gravity system. The 160,000 gpd wastewater plant treats septic tank effluent. The collection system serves approximately 650 customers and consisted of 112,000 ft. of 8", 6", and 4" SDR 35 sewer pipe, ductile iron river crossing pipe, 8 septic tank effluent pumping (STEP) stations, one main lift station and 390 septic tanks of varying sizes.

WATER PROJECTS

In the last 40 years, water distribution and design has comprised a large portion of Hornor Brothers Engineer's business. Water projects have ranged in size from small line extensions on existing systems, to the development of complete water facilities where there was no central system. HBE specializes in the redesign and rehabilitation of aging, undersized systems that have been unable to keep up with subsequent growth.

The firm offers services in the area of water resources that include expertise in feasibility studies, funding applications, design, construction inspection, project management and start-up. See pictures of various water facilities and construction activity associated with some of our larger projects on the following pages. A comprehensive list of the larger projects whose design and construction inspection Hornor Brothers Engineers has completed in more recent years includes the following:

CLIENT/PROJECT	YEAR COMPLETED	TOTAL COST
Adrian Public Service District, Upshur County (5 th Project)	2010	\$ 6,516,000
Mt. Hope Water Association, Upshur County (6 th Project)	2008	\$ 191,000
Town of West Union, Doddridge County High School	2007	\$ 1,360,000
Wetzel County Public Service District No. 1 (3 rd Project)	2007	\$ 4,079,000
Huttonsville Public Service District, Randolph County	2006	\$ 6,500,000
Bingamon Public Service District, Marion County	2006	\$ 1,300,000
Century-Volga Public Service District, Barbour County (3 rd Project)	2005	\$ 1,900,000
Adrian Public Service District, Upshur County (4 th Project)	2004	\$ 3,485,000
Town of West Union, Doddridge County	2003	\$ 810,000
Mt. Hope Water Association, Upshur County (5 th Project)	2002	\$ 3,500,000
Montana Water Association	2002	\$ 930,000
Adrian Public Service District, Upshur County (3 rd Project)	2001	\$ 3,100,000
Gilmer County Public Service District, Gilmer County (3 rd Project)	2000	\$ 1,300,000
Wetzel County Public Service District No. 1, Wetzel County (2 nd Project)	1999	\$ 2,700,000
Century-Volga Public Service District, Barbour County (2 nd Project)	1999	\$ 2,800,000
Adrian Public Service District, Upshur County (2 nd Project)	1997	\$ 2,800,000
Gilmer County Public Service District, Gilmer County (2 nd Project)	1995	\$ 1,812,000
Haymond Public Service District, Taylor County (2 nd Project)	1994	\$ 175,000
Clarksburg Water Board, Harrison County	1993	\$ 4,400,000
Wetzel County Public Service District No. 1, Wetzel County	1993	\$ 736,000

Current projects in various stages of design or construction and their projected completion dates include the following:

CLIENT/PROJECT	PROJECTED COMPLETION DATE	TOTAL COST
City of Bridgeport, Harrison County	2010	\$ 350,000
Town of West Union, Greenwood Extension, Doddridge County	2010	\$1,257,000
Century-Volga Public Service District, Barbour County (4 th Project)	2010	\$2,389,000
Summit Park Public Service District, Harrison County	2010	\$1,200,000
Whitmer Water Association, Randolph County	2011	\$3,428,000
Mannington Public Service District, Marion County	2011	\$5,556,000
Mannington Public Service District, Marion County (Tank Project)	2011	\$ 932,000
Wetzel County Public Service District No. 1, Wetzel County (4 th Project)	2012	\$3,644,000
Adrian Public Service District, Upshur County (6 th Project)	2012	\$5,500,000
Huttonsville Public Service District, Randolph County (2 nd Project)	2013	\$6,925,000

ADRIAN PUBLIC SERVICE DISTRICT, UPSHUR COUNTY
 Part of Phase III Water Project
 Total Project Cost = \$3,100,000; Completed 2001

50 GPM Wilsontown Booster Station

43,000 Gallon Salem Ridge Water Storage Tank

The Adrian Public Service District has been a valued client of Hornor Brothers Engineers for approximately 30 years. As part of a master plan, the original system was designed with adequate capacity to serve future phases of development. As of 2010 the District had completed a total of five water system expansion projects comprising more than 120 miles of waterline, seven water storage tanks and eight water booster pumping stations which serve nearly 2,000 water customers in southern Upshur County. The PSD currently has under design a Phase VI project consisting of 120,000 ft. of new water lines, a new storage tank, new booster station and related appurtenances to serve approximately 165 potential customers.

CENTURY-VOLGA PUBLIC SERVICE DISTRICT, BARBOUR COUNTY
Total Project Cost = \$2,800,000; Completed: 1999

150 GPM Water Booster Station Located in Audra State Park
Phase II

100,000 Gallon Storage Tank on Talbott Road
Near U.S. Route 33 (Phase II)

Century-Volga Public Service District, another well-established client, has also utilized the expertise of Hornor Brothers Engineers for more than 25 years. The pictures on this page illustrate a booster station and water storage tank built during the Phase II project in 1999.

Since then, two additional water system expansion projects have been designed and constructed, including the Brushy Fork waterline extension project, completed near the end of 2010. This latest project served 88 households and included a new storage tank and constant run booster pump station. As with previous projects, actual costs under ran the project budget, and the PSD will be able to make additional improvements to their system with the remaining contingency money in 2011.

MT. HOPE WATER ASSOCIATION, UPSHUR COUNTY

Total Project Cost = \$3,500,000; Completed 2002

Part of Phase V Water Project

150 GPM Little Sand Run Booster Station

105,000 Gallon Water Storage Tank on Tallmansville Road Near Mt. Carmel Church Road

The Mt. Hope Water Association has been a valued client for over 35 years. The illustrations above are representative of a project that connected onto the end of the Association's existing system, which was comprised of four previous projects. A sixth project, the addition of a new 100,000 gallon storage tank, was completed in 2009. Hornor Brothers Engineers has designed every phase and part of this water system since the first phase was initiated in 1970.

WETZEL COUNTY PUBLIC SERVICE DISTRICT NO. 1

Total Project Cost = \$2,700,000; Completed 1999

250 GPM Water Booster Station on Route 20

388,000 Gallon Storage Tank Off Route 20 West of Reader

The project illustrated above consisted of approximately 99,000 feet of 8", 6", 4" and 2" waterlines and served 350 customers. Hornor Brothers designed the original, existing system with this Phase II and future projects in mind. Treated water for the PSD is purchased from the City of New Martinsville. In 2007 the PSD completed the construction of a \$4,079,000 Phase III project which served an additional 268 customers in the Pine Grove, Barker, and Jacksonburg areas. Currently under design by Hornor Brothers Engineers is a \$3,644,000 Phase IV project which will extend water to serve 98 potential homes along State Run, Eight-Mile Ridge, Chiselfinger Ridge and Richwood Run.

HUTTONSVILLE PUBLIC SERVICE DISTRICT, RANDOLPH COUNTY

Total Project Cost = \$6,500,000; Completed 2006

390 New Customers: 175,000 ft. of Waterline

158,000 Gallon Becky's Creek Storage Tank and Site Under Construction

Background – New Master Meter Station
Foreground – Foundation for Chemical Feed Station

Typical Thrust Blocks for Tee and Hydrant Assembly

In addition to the project depicted in these photographs, the Huttonsville Public Service District has again retained Horner Brothers Engineers for design and construction phase engineering services associated with a second large water system expansion project serving the communities of Valley Head, Mingo and other areas. This project will serve 330 potential customers and is currently in the preliminary design phase.

Connection of 10" HDPE River Crossing Pipe (Directionally Drilled) to 10" C-900 Pipe at Tygart Valley River

MONTANA WATER ASSOCIATION
Total Project Cost = \$930,000; Completed 2002

The Montana Water Association Project was comprised of the replacement of undersized waterlines and the addition of this storage tank and a new water booster pump station. The larger lines and tanks also provided reliable fire protection to a 40 year old water system which had never had it before.

BINGAMON PUBLIC SERVICE DISTRICT
Total Project Cost = \$1,300,000; Completed 2006

The Bingamon Public Service District water system improvement project was comprised of the replacement of approximately 20,000 ft. of old and undersized waterlines. A new 100,000 gallon water storage tank was included, as well as fire protection for the communities of Peora and Wyatt. Additionally, the PSD's two main booster pumping stations were refurbished and fitted with greater pumping capacity.

CLARKSBURG WATER BOARD

Total Project Cost = \$4,400,000; Completed 1994
Two 1,000,000 Gallon Storage Tanks
Part Of FBI Water Project

Completed in 2003
Main Street Waterline Replacement Project
New 12" Ductile Iron Pipe Installation

The Clarksburg Water Board extended its waterline north from Clarksburg for the purpose of connecting to the following six major customers in 1994: Enlarged Hepzibah PSD, City of Bridgeport, FBI Fingerprint Identification Complex, City of Shinnston, Summit Park PSD and Tri-County Water Association. The extension consisted of 62,000 feet of 20", 16", 12" and 8" ductile iron pipe. Also included were three 1,000,000 gallon water storage tanks, approximately 30 new residential customers and a 2,000 GPM booster station.

The Clarksburg Water Board distribution system had 8" existing waterlines along Main Street and Pike Street in Clarksburg that were over 110 years old. Carrying capacity had diminished, maintenance had increased, and the Board decided to replace these lines with new 12" ductile iron pipe. Three separate waterline replacement projects, one in 1992, another in 2003, and the third in 2004 accomplished the replacement and upgrading of those antiquated lines. The replacement involved complex excavation and line placement to work around the many other utilities inherent with a downtown area.

TOWN OF WEST UNION

Total Project Cost = \$810,000; Completed 2003
New 250,000 Gallon Storage Tank

The Town of West Union obtained a West Virginia Infrastructure and Jobs Development Council loan to make various improvements to its existing municipal water system, including the replacement of old and undersized waterlines, non-functioning valves and fire hydrants and its original water storage tank. Interestingly, the new 250,000 gallon tank constructed as a part of this project, replaced an existing concrete storage tank previously designed by Hornor Brothers Engineers nearly 70 years earlier.

The Town also retained Hornor Brothers Engineers for a water and sewer system expansion project to the new Doddridge County High School with a project cost of \$1,360,000 which was completed in 2007, and a waterline extension project west to the communities of Duckworth and Greenwood at a cost of \$1,257,000 which was completed in 2010.

Trey Horn or, President of Hornor Brothers Engineers, combines over 20 years of design expertise with his family owned and operated company of over 100 years to help meet the needs of clients in north central West Virginia area. He upholds the highest standards in providing reliable, professional service to our customers with value driven results.

CURRENT RESPONSIBILITIES

As President of the firm, Trey is responsible for the management and execution of most of the firm's engineering assignments, assuring professional work and timely execution. Primary activities include the overall planning, design and project management of water, sewer, and land development project in West Virginia.

Paul A. Hornor III, P.E.
President

PROJECTS

Trey has been involved with the development and design of the following completed projects:

Water Systems

PROJECT	COUNTY	
Adrian Public Service District	Upshur	5 Projects
Century-Volga Public Service District	Barbour	3 Projects

Professional Surveyor, West Virginia, 1990

AFFILIATIONS

West Virginia Association of Land Surveyors

EXPERIENCE

Years Experience with HBE: 18
Years Experience with Other Firms: 2

John Hornor, Survey Manager, has experience which includes waterline construction inspector duties and AutoCad operator experience for survey plats, water system mapping and site development drawings. John is also experienced as a field survey party chief for all types of land surveys, including property and topographic surveys, Alta surveys, elevation certificates, and construction stakeout.

CURRENT RESPONSIBILITIES

John directs the work of a three-person field survey crew, which includes meeting with clients to review the scope of work, courthouse research, site visits and the preparation of plats and descriptions. He also oversees the field survey operations for water and sewer projects and subdivision layout.

John W. Hornor, P.S.
Surveyor Manager
