WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

- 1. Awards will be made in the best interest of the State of West Virginia.
- 2. The State may accept or reject in part, or in whole, any bid.
- 3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
- 4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
- 5. Payment may only be made after the delivery and acceptance of goods or services.
- 6. Interest may be paid for late payment in accordance with the West Virginia Code.
- 7. Vendor preference will be granted upon written request in accordance with the West Virginia Code.
- 8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
- 9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
- 10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
- 11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
- 12. BANKRUPTCY: In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
- 13. HIPAA BUSINESS ASSOCIATE ADDENDUM: The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
- 14. CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf.
- 15. LICENSING: Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
- 16. ANTITRUST: In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or Fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

- 1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
- 2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
- 3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
- 4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
- 5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

- 1. Awards will be made in the best interest of the State of West Virginia.
- 2. The State may accept or reject in part, or in whole, any bid.
- 3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
- 4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
- 5. Payment may only be made after the delivery and acceptance of goods or services.
- 6. Interest may be paid for late payment in accordance with the West Virginia Code.
- 7. Vendor preference will be granted upon written request in accordance with the West Virginia Code.
- 8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
- 9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
- 10. The laws of the State of West Virginia and the Legislative Rules of the Purchasing Division shall govern the purchasing process.
- 11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
- 12. BANKRUPTCY: In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
- 13. HIPAA BUSINESS ASSOCIATE ADDENDUM: The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
- 14. CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf.
- 15. LICENSING: Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
- 16. ANTITRUST: In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or Fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

- 1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
- 2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
- 3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
- 4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
- 5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

1. Attachment A: GSD116661 Bid Form

2. Attachment B: GSD116661 Location Schedule

Bidders can arrange site visits prior to the bid opening date by contacting Dave Parsons, Operations & Maintenance Manager, GSD, at (304)558-0689 or email David.K.Parsons@wv.gov.

SECTION 1: DEFINITIONS

- A. The Department of Administration, General Services Division, State Capitol Complex, Building 1, Room MB-60, Charleston, West Virginia 25305, shall be referred to as "the Agency."
- B. The successful bidder or vendor shall be called the "Contractor."
- C. The "Contract" shall refer to the binding agreement that is entered into between the State of West Virginia and the Contractor to provide the services as herein specified.
- D. "Agency Representative" shall be defined as the person designated by the Director of the General Services Division as having authority to act on behalf of the General Services Division.
- E. Days designated by W.Va. Code §2-2-1 as legal holidays (i.e. new Year's Day, Martin Luther King's Birthday, President's Day, Memorial Day, West Virginia Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, Lincoln's Day, and Christmas Day).

F. "Testing" means the Contractor shall perform a water quality test upon the completion of an ordered treatment to ensure water quality meets the technical specifications required in Section 3.

SECTION 2: SCOPE OF WORK

The Contractor shall provide monthly water treatment, testing, and quarterly Legionella testing service as set forth and in accordance with all applicable federal, state, and local regulations in buildings owned and operated by the West Virginia Department of Administration. The water treatment program is to include all boiler systems, cooling towers, chillers, water loops, condensate lines and tanks or other systems identified by General Services.

2.1 Regular Maintenance Services:

The Vendor shall establish a monthly preventative program to eliminate or minimize corrosion and the formation of adherent mineral deposits in the boilers, steam lines, valves, heat exchangers, traps, condensate systems and heat transfer surfaces of related equipment.

The Vendor shall also establish a monthly preventative program to eliminate or minimize corrosion, the formation of adherent mineral deposits, algae and slime formation and bacterial growth on heat transfer surfaces in re-circulating water line circuits including cooling towers, closed chilled water and hot water systems and closed —loop heat pump systems.

The Vendor shall provide on-site scientific expertise to analyze problems relating to water treatment discovered during maintenance activities.

2.2 Quarterly Legionella Testing:

The Vendor will perform monthly testing on all specifications (section G) with the exception of <u>Legionella</u> which will be performed quarterly in accordance with AIHA and ASTM guidelines. <u>Legionella</u> will be tested at all closed loops, towers and all other sites in which towers are present. Test results will be provided to GSD at no additional cost. All testing cost associated with this contract should be incorporated into the bid form.

2.3 Equipment and Chemicals:

All equipment and chemicals used for water treatment must be in conformance with all applicable federal, state, and local regulations. Vendors shall utilize a water-usage based program utilizing meters and post-bleed controllers.

All chemical feed equipment is to be installed by the vendor at no additional charge to The State of West Virginia and maintained by the vendor during the duration of the service contract. Equipment is to be installed within 45 days from the effective date of the contract. The Contractor shall provide staff and materials to maintain proper systems treatment by manual means until such time equipment is installed.

The Contractor shall furnish the following information prior to award of the contract:

- Detailed list of the equipment to be used and method of delivery into the various systems
- Copies of all MSDS of chemicals/products to be utilized shall be furnished to the safety department prior to introduction of product onto the premises.

All discharges into the sewage system from cooling tower bleed-off, boiler blow down or system draining must meet all federal, state and local regulations. The use of molybdates is prohibited.

2.4 Costs

Treatment and Testing Services: The Contractor shall provide an all inclusive flat monthly rate for all services to be included under this Contract. This monthly rate shall include all Treatment and Testing Services. The Contractor shall be responsible for all treatment chemicals associated with the performance and specifications, located in of this Contract. The Contractor shall be responsible for all mileage and travel costs, including travel time, associated with the performance of this Contract.

All travel costs must be incorporated into the monthly cost bid.

2.5 Facility Access:

The Agency will permit access to the facilities and will allow the Contractor to utilize shop facilities. Access keys will be provided to the Contractor and inventoried by the Agency. The Contractor must sign for all access keys and return them upon expiration of this Contract.

| | | |
| | | |

Work will be performed during normal business hours, 8:00am to 5:00 pm. Monday through Friday excluding State recognized holidays.

2.6 Facilities

The Agency maintains buildings throughout the State, with the majority located in the Charleston metro area. A listing of facilities for which service may be requested is located in Attachment B. The Agency reserves the right to not request service in any of the buildings covered by this Contract. Statewide buildings may be added to this list during the life of the Contract only by mutual agreement of both the Agency and the Contractor, through formal change order. The Contractor shall service added buildings under the same terms and conditions contained herein.

SECTION 3: WATER QUALITY TECHNICAL SPECIFICATIONS

- 3.1 Closed hydronic systems, including hot-water heating and chilled water, shall have the following water qualities:
 - A. pH: Maintain a value within 9.0 to 10.5
 - B. "P" Alkalinity: Maintain a value within 100 to 500 ppm.
 - C. Boron: Maintain a value within 100 to 200 ppm.
 - D. Chemical Oxygen Demand: Maintain a maximum value of 100 ppm.
 - E. Soluble Copper: Maintain a maximum value of 0.20 ppm.
 - F. TDS: Maintain at 3000 ppm with a maximum of 5000 ppm.
 - G. Ammonia: maintain a maximum value of 20 ppm.
 - H. Free caustic alkalinity: Maintain a maximum value of 20 ppm.
 - I. Microbiological Limits:
 - 1) Total Aerobic Plate Count: Maintain a maximum value of 1000 organisms/ml.
 - 2) Total Anaerobic Plate Count: Maintain a maximum value of 100 organisms per ml.
 - 3) Nitrate Reducers: Maintain a maximum value of 100 organisms per ml.
 - 4) Sulfate Reducers: Maintain a maximum value of 0 organisms per ml.
 - 5) Iron Bacteria: Maintain a maximum value of 0 organisms per ml.
- 3.2 Steam boiler systems and steam condensate systems shall have the following water qualities:
 - A. Steam Condensate:
 - 1) pH: Maintain a value within 7.8 to 8.4

- 2) Total Alkalinity: Maintain a value within 5 to 50 ppm.
- 3) Chemical Oxygen Demand: Maintain a maximum value of 15ppm.
- 4) Soluble Copper: Maintain a maximum value of 0.20 ppm.
- 5) TDS: Maintain a maximum value of 100 ppm.
- 6) Ammonia: Maintain a maximum value of 20 ppm.
- 7) Total Hardness: Maintain a maximum value of 2 ppm.
- B. Steam boilers operating at 15 psig and less shall have the following water qualities:
 - 1) "OH" Alkalinity: maintain a value within 200 to 400 ppm.
 - 2) TDS: Maintain a value within 600 to 3000 ppm.
- C. Steam boilers operating at more than 15 psig shall have the following water qualities:
 - 1) "OH" Alkalinity: 200 to 400 ppm.
 - 2) TDS: Maintain a value within 600 to 1200 ppm to a maximum 30 times return water TDS.
- 3.3 Passivation for galvanized steel for the first 60 days of operation.
 - A. pH: Maintain a value within 7 to 8.
 - B. Calcium Carbonate Hardness: Maintain a value within 100 to 300 ppm.
 - C. Calcium Carbonate Alkalinity: Maintain a value within 100 to 300 ppm.

SECTION 4: RELEASE ORDERS AND INVOICING

4.1 Release Orders

Prior to beginning any work the Agency will issue a written release order to the Contractor. This release order shall have a unique number and reference the master contract number for the master contract. Issuance of the release order to the Contractor shall be considered authorization to perform said service. No work other than that specified on the individual release order shall be undertaken by the Contractor.

The Contractor shall provide the Agency with valid email addresses and fax numbers to which release orders may be communicated.

4.2 Invoices

Invoices shall be submitted to the Agency for payment monthly (in arrears) and must include the following information:

- 1. Copies of all service orders or inspection reports signed and dated by the Agency Representative (prior to their submittal with invoices for payment).
- 2. FEIN number, complete address of vendor, Agency release order number, and master contract number.

Invoices shall be mailed to the following address:

Department of Administration General Services Division State Capitol Complex Building 1, Room MB-68 1900 Kanawha Blvd. E. Charleston, West Virginia 25305

Should the Contractor be requested by the Agency or volunteer to submit invoices electronically, invoices must meet the digital requirements of the WV State Auditor's Office.

SECTION 5: ADDITIONAL TERMS AND CONDITIONS

5.1: The relationship of the Contractor to the State of West Virginia shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by the parties to this Contract. The Contractor, as an independent contractor, is solely liable for the acts and omissions of its employees and agents. The Contractor will be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Contract. Neither the Contractor nor any employees or sub-contractors of the Contractor shall be deemed to be employees of the State for any purposes whatsoever. The wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension or other deferred obligations, and licensing fees, etc., and the filing of all necessary documents, forms and returns pertinent to all of the foregoing are the Contractor's responsibility. The Contractor shall hold harmless the State of West Virginia and the Agency and shall provide the State of West Virginia and

the Agency with a defense against any and all claims including but not limited to, the foregoing payments, withholdings, contributions, taxes, social security taxes and employer income tax returns. The Contractor shall not assign, convey, transfer, sub-contract, or delegate any of its responsibilities and obligations under this Contract to any person, corporation, partnership, association, or entity without express written consent of the Agency.

- 5.2: Indemnification: The Contractor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against (1) any claims or losses for services rendered by any subcontractor, person or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) any claims or losses resulting to any person or entity injured or damaged by the Contractor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by federal or state statutes or regulations; and (3) any failure of the Contractor, its officers, employees or sub-contractors to observe state and federal laws, including but not limited to labor and wage laws.
- 5.3: The Contractor further agrees to comply with the Civil Rights Act of 1964 and all other applicable federal, state, and local government regulations.
- 5.4: All work, materials, and equipment shall comply with the rules and safety regulations of all codes and ordinances of local, state and federal authorities. At a minimum, the services and repairs shall comply with the current editions in effect 30 days prior to receipt of bids of the following codes:
- 5.5: The Contractor shall procure all necessary permits and licenses to comply with all applicable laws, federal, state, or municipal, along with all regulations, and ordinances of any regulating body.
- 5.6: The Contractor shall pay any applicable sales, use, or personal property taxes arising out of this Contract and the transactions contemplated thereby. Any other taxes levied upon this Contract, the transaction, or the equipment, or services delivered pursuant hereto shall be borne by the Contractor. It is clearly understood that the State of West Virginia is exempt from any taxes regarding performance of the scope of work of this Contract.

SECTION 6: AWARD CRITERIA

The State of West Virginia shall award this Contract according to the following award criteria. Failure to bid any of the factors in the formulation of the total bid will result in the disqualification of the entire quote (however, bids of "\$0.00" will be acceptable as indication that the vendor intends to not charge for the listed services).

The following formula shall be used to award the Contract:

A + B = C (Your Bid, Annual Cost of Services)

The following is a sample bid tabulation, only for reference:

January 27, 2011

Department of Administration Purchasing Division Building 15 2019 Washington Street, East Charleston, WV 25305-0130

SUBJECT:

RFQ #GSD116661

Monthly Water Treatment Services Bid Opening Time 1:30PM 01/27/2011

Artesian Laboratories, Inc. is the current vendor for this water treatment contract. We are pleased the water treatment systems at all the various General Services Division state locations have been treated with successful results over the course of the current contract and the two (1) one year extensions. Artesian has always met the service frequency expected and always submitted all the State paperwork and service reports as required on a timely basis to all personnel. We have submitted a more complete description of the water treatment systems and scope of the work at each location in our Cost Proposal page. The list as presented in the bid is very simplistic. The work required to treat all these systems is much more complicated to do a proper job.

We would like to point out that as any unforeseen problem may arise Artesian is able to respond immediately to the situation. The advantage Artesian has is that service personnel are local and chemical inventories are maintained in Charleston. This makes emergency on site visits and the ability to replenish any one of the chemicals the Statehouse may need only ten minutes away guaranteeing superior response and delivery time. It may be noted that Artesian has successfully maintained inventories over the past three years so that emergency deliveries have been avoided.

Artesian is once again pleased to quote the water treatment bid package to the State of West Virginia that includes the Statehouse Complex and other outlying associated locations. In an effort to be as thorough as possible we have included pertinent information about our company, our capabilities and experience. See the tabbed sections.

Below find the following explanations that more thoroughly address several sections of the bid package.

| | | |
| | | |
| | | |

2.3. Equipment and Chemicals:

The Contractor shall furnish the following information prior to award of the contract:

 Detailed list of equipment to be used and method of the delivery into the various systems:

The Artesian chemical programs will continue with the same methods currently in place. For cooling water systems we use LMI chemical feed pumps. We use Advantage MicroTron MCFB cooling tower controllers for automatic addition of the scale/inhibitor chemical. This controller also includes an automatic blowdown feature.

The heating and cooling closed loops have/will have chemicals added through a shot feed system. The WV Rehab Center (Institute) will need new equipment for their many systems. As a cost savings measure for the State we have quoted this new equipment separately instead of building it into the cost of the water treatment program. It would have been much more expensive over the course of the initial year and the two (2) one year extensions to build in the cost. The chemicals will be applied by the Artesian representatives.

Boiler systems are controlled through manual blowdowns through the use of skimmers and bottom blowdown. The chemicals will be fed as they are now, through the use of a feed and bleed procedure. This automatically feeds the chemicals into the boiler systems. No handling of the chemicals is necessary or required of the state employees. The newer boilers in Building 5 have automated blow down controls.

Please see the Equipment tab for additional information.

• Copies of all MSDS of chemicals/products to be utilized shall be furnished to the safety department prior to introduction of product onto the premises.

For your reference, all Artesian MSDS sheets are included with this bid package in the MSDS tab. The safety department and all locations on the current bid have copies already. MSDS sheets for the new WV Rehab Center (Institute) location, personnel there will be supplied with this information before chemicals are delivered.

All discharges into the sewage system from cooling tower bleed-off, boiler blow down or system draining must meet all federal, state and local regulations. The use of molybdates is prohibited.

| | | |
| | | |
| | | |
| | | |
| | | |

The Artesian products being used at all WV General Services Division locations <u>do not</u> have molybdate in their formulations. All system discharges meet federal, state and local regulations.

2.4 Costs

see the Cost Proposal tab

EXHIBIT 1:

PURCHASING CARD ACCEPTANCE: The Sate of West Virginia currently utilizes a Visa purchasing card program which is issued through a bank. The successful vendor must accept the State of West Virginia Visa purchasing card for payment of all orders placed by any state agency as a condition of award.

Artesian Laboratories accepts all bank issued Visa cards.

It is important to note that Artesian Laboratories' background is impressive in that we have been incorporated in West Virginia for twenty-eight years. The company is is a charter member of The Association of Water Technologies. We have provided services to major corporations, university and institutional accounts throughout the United States as well within the state. We are not a one-dimensional operation. Artesian Laboratories, Inc. has a depth of water treatment experience that is hard to match. The professionals who work in your facilities have an average of twenty-five years experience in the industry. These individuals have worked in West Virginia and the region in the water treatment industry their entire careers. We can guarantee the State both consistent service personnel and unmatched years of experience that no other company bidding will be able to offer.

Artesian Laboratories appreciates the opportunity to present this proposal in order to continue to do business with the State of West Virginia. We look forward to favorable consideration and hope that you will contact us if there is additional information necessary or questions that need to be answered.

Very truly yours,

enclosures

ARIES LAND PROXESS CHEMICALS GROUP

Water Treatment Solutions

Since 1983, Artesian Laboratories, Inc. has been serving the needs of industry and has grown to be one of the largest regional companies in the field of water treatment and water management. Artesian products and services include a full line of water treatment chemicals and the feeding and control equipment needed to maximize their performance. Our goal is to assist customers in operating an efficient and economical facility. We can help reduce operating costs and acheive environmental objectives through application of our advanced water treatment technology and specialized service.

Boiler Water Treatment

Artesian offers a range of boiler treatment products evolving from chelant, polymer and revolutionary new suquestrant technology. Artesian products and know-how are providing excellent results in many industries, including paper, steel, refineries and utilities. All the benefits of these synthetic materials are offered in Artesian Boiler Treatment Programs.

Using the most modern technology, Artesian provides boiler water treatment programs designed to give maximum heat transfer efficiency throughout the entire boiler system.

An Artesian fuel treatment program utilizing proven chemical additives can improve fuel handling and combustion efficiency while offering protection to the equipment involved. Specialty tank and equipment cleaning formulations are also included in Artesian's fuel treatment product line.

Six-step Program for Total Boiler Water Management

SOURCE WATER ANALYSIS:

By sampling and testing incoming water, Artesian determines its chemistry and content. Seasonal and other influent variables are also noted.

PRE-TREATMENT EQUIPMENT ENGINEERING:

Artesian determines needs for precipitating, clarifying, filtering, softening, ion exchange, reverse osmosis, deaeration and monitoring equipment to treat source water, dissolved minerals and gases.

CHEMICAL CONTROL:

Boiler water balance is controlled by a coordinated chemical program that prevents scale, inhibits corrosion and solubilizes or conditions sludge to facilitate its removal through blowdown.

PREVENTING STEAM CONTAMINANTS:

Boiler water carry-over into steam lines through foaming (oil, detergents, etc.) or priming (sudden steam demand) creates heat loss/equipment damage. Artesian anti-foams facilitate clean, dry steam.

CONDENSATE TREATMENT:

Condensed steam is highly corrosive. Dissolved oxygen and carbon dioxide attack iron and copper, creating impurities which insulate boiler surfaces, cause overheating and tube failure, and interfere with the proper water conditioning process in the boiler. Artesian neutralizing treatments prevent condensate corrosion.

EVALUATING EFFLUENT SOURCES FOR MAKE-UP WATER:

Discharges, including blowdowns and process water, can be analyzed to determine treatment costs in preparing the water for reuse. Waste-water treatment reduces ultimate disposal costs.

William J. Bradford

210 37th Street Vienna, WV 26105 304-295-0618

P. O. Box 3718 Charleston, WV 25337 304- 343-4763

Mr. Bradford has worked in the water treatment industry for twenty two years. His experience is in the industrial, commercial and institutional applications for boiler and cooling water technology. Mr. Bradford also specializes in heat transfer fluid technology as well as pump and control equipment operation and repair.

Mr. Morgan has worked in the specialty chemicals aspect of the water treatment industry for thirty five years. His experience is heavily in the industrial sector but is well versed in commercial and institutional applications for boiler and cooling water technology. Mr. Morgan has also been working in municipal and industrial wastewater treatment for many years. He was employed by a national water treatment company for seven years.

2/13/83 - Present

Artesian Laboratories, Inc., Charleston, West Virginia Owner - President

- Co-founder of this industrial water treatment chemical sales corporation in 1983. Has been the sole owner since 1984 and has developed the business into one with a major market share in the region.
- Responsible for the management and direct sales and service of the companies product lines.
- Develops the speciality chemical formulations for specific customer needs and requirements with industry experts.
- Manages strategic planning, profitability analysis and capital asset expenditures.

1992 - 1999

Atlantic Process Mining Chemicals, Inc., Charleston, WV

- Co-founder of this water treatment chemical sales corporation that markets to the coal mining industry.
- Sold company in 1999

1976 - 1982

Mogul Corporation Division of the Dexter Corporation. Eastern Regional Sales Manager - Process Chemicals

- Managed sales force and local office.
- Responsible for budgeting, marketing and direct sales.
- Territory was the eastern half of the United States.

PROFESSIONAL EXPERIENCE:

Panelist participant in the Industrial Wastewater Enforcement and Compliance seminar during the Clean River Taiwan conference held on January 12, 1995 in Taipei, Taiwan, R.O.C. Delegation member on the West Virginia Project Harvest trade mission to Japan and Taiwan, January 5 - 15, 1995 led by Senator

Mr. Morgan received extensive training from Mr. Paul Puckorius, a leading expert in the water treatment field. He has also participated in training for speciality chemical applications by the nations leading companies in their specific fields which include; American Cyanamid, Sybron, International Biochemicals, Purolite, Pulsafeeder, Ecowater and Vinings Chemicals.

FIRE AND EXPLOSION HAZARD DATA SECTION 6

EXTINGUISHING MEDIA..... Not Combustible

SPECIAL FIRE FIGHTING PROCEDURES... NA

UNUSUAL FIRE & EXPLOSION HAZARDS... Material is alkaline. Beware of exploding drums due to expansion.

REACTIVITY DATA SECTION 7

PRODUCT STABILITY..... Stable

Conditions to Avoid..... NA

CHEMICAL INCOMPATIBILITY..... Strong acids and oxidizers.

HAZARDOUS DECOMPOSITION PRODUCTS... None Known

Will Not Occur HAZARDOUS POLYMERIZATION ...

HEALTH HAZARD DATA SECTION 8

SKIN CONTACT... Alkaline components may cause irritation upon extended contact.

EYE CONTACT.... Immediate irritation upon contact which may result in chemical burns.

INHALATION..... Unlikely route of exposure with normal handling.

Irritation and chemical burns possible upon ingestion

EMERGENCY AND FIRST AID PROCEDURES

SECTION 9 If irritation persists or develops, SKIN.......Remove contaminated clothing and flush exposed skin with soap and water. get medical attention. Launder contaminated clothing before reuse.

EYES......Immediately flush eyes with large amounts of water for 15 minutes and get medical attention.

INGESTION....If swallowed, DO NOT INDUCE VOMITING. Get medical attention immediately. Never give anything by mouth to an

unconscious person. Aid in breathing, if necessary, and get medical attention .Move to fresh air. INHALATION.

ENVIRONMENTAL DATA 10

SPILL OR LEAK PROCEDURES... Avoid skin contact. Neutralize with appropriate material and absorb with sand or inert material. Place in suitable container for disposal. Flush neutralized residues with water to

sanitary sewer.

WASTE DISPOSAL METHOD..... Corrosive. Dispose of in accordance with all federal, state and local regulations.

HAZARDOUS WASTE 40CFR261... Yes. Hazardous Waste Number: D002

CONTAINER DISPOSAL..... Empty containers may contain residuals. Thoroughly clean, then offer for recycling , reuse, or

disposal in accordance with governmental regulations

SPECIAL PROTECTION INFORMATION SECTION 11

RESPIRATORY PROTECTION.....Respirator not required with most applications.

VENTILATION......Local exhaust is generally sufficient to minimize exposure.

PROTECTIVE CLOTHING...... Neoprene gloves, apron, boots - as necessary to prevent skin contact.

EYE PROTECTION......Chemical goggles.

OTHER PRECAUTIONS.......Safety shower and eyewash fountains should be easily accessible

SUPPLIER INFORMATION

FIRE AND EXPLOSION HAZARD DATA

FLAMMABILITY LIMITS IN AIR (% V)... NA

EXTINGUISHING MEDIA..... Not Combustible

SPECIAL FIRE FIGHTING PROCEDURES... Oxides of sulfur may be liberated in very hot fire. Wear self-contained breathing

apparatus.

UNUSUAL FIRE & EXPLOSION HAZARDS.

SECTION

PRODUCT STABILITY..... Stable

Conditions to Avoid...... Temperatures above 212°F (100°C)

CHEMICAL INCOMPATIBILITY..... Strong acids, strong oxidizers

HAZARDOUS DECOMPOSITION PRODUCTS... Oxides of sulfur

SECTION 8

HEALTH

SKIN CONTACT... May cause irritation. Can be corrosive to the skin upon prolonged contact.

EYE CONTACT.... May cause irritation upon contact. Can be corrosive causing severe burns.

INHALATION..... May cause breathing difficulties in sensitive individuals particularly asthmatics.

SECTION 9

EMERGENCY AND FIRST AID PROCEDURES

If irritation persists or develops, SKIN......Remove contaminated clothing and flush exposed skin with soap and water.

get medical attention. Launder contaminated clothing before reuse.

EYES......Immediately flush eyes with large amounts of water for 15 minutes and get medical attention.

INGESTION....If swallowed, INDUCE VOMITING. Get medical attention an mediately. Never give anything by mouth to an unconscious person.

. Move to fresh air. Aid in breathing, if necessary, and get medical attention.

SECTION 10

ENVIRONMENTAL DATA

SPILL OR LEAK PROCEDURES... Neutralize with appropriate alkaline material. Absorb onto inert material and place in suitabl

container for proper disposal. Flush neutralized residues to sanitary sewer.

WASTE DISPOSAL METHOD..... Dispose of in accordance with all federal, state and local regulations.

HAZARDOUS WASTE 40CFR261... NA

CONTAINER DISPOSAL..... Empty containers may contain residuals. Thoroughly clean then offer for recycling, reuse, or

dispose of in accordance with regulations

SECTION 11

SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION.....NIOSH/MSHA approved can or cartridge respirator for gas and vapor as needed to maintain P.E.L.

VENTILATION.....Local and/or mechanical exhaust to maintain exposure below P.E.L.

PROTECTIVE CLOTHING...... Neoprene gloves, full chemical suit, boots - as necessary to prevent skin contact.

EYE PROTECTION......Chemical goggles and/or full face shield.

.....Safety shower and eyewash fountains should be easily accessible

SECTION I-PRODUCT INFORMATION

Chemical Name: Mixture*

Chemical Family: Microbiocide/Slimicide

Formula: Mixture

CAS Number: None

OT Hazard Class: Class 8 (Corrosive)

OT Proper Shipping Name: Corrosive Liquid, Acidic, Organic, NOS, Contains 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-

sothiazolin-3-one), Class 8, UN3265, PG II.

SECTION II-PHYSICAL DATA

oiling Point: 212 degrees F. Specific Gravity (H₂O=1): 1.03 apor Pressure (mmHg): 17 mm Hg

Vapor Density (air=1): 0.62 ater Solubility: Soluble

pH (**as is**): 3.0 (approx) vaporation Rate (n-butyl acetate=1): < 1</pre>

Volatiles: 95-96% (water)

ppearance and Odor: Pale yellow liquid with a mild odor.

SECTION III-COMPOSITION/INFORMATION ON INGREDIENTS

aterial Percent TLV (Units) -chloro-2-methyl-4-isothiazolin-3-one 1.11 None established

SECTION III-HAZARDOUS INGREDIENTS (Continued)

Inert Ingredients

98.52 None

* Additional information will be provided in a medical emergency to qualified medical personnel.

SECTION IV-FIRE AND EXPLOSION HAZARD DATA

Flash Point: None

Flammable Limits: Not applicable Lower: N/A

Upper: N/A

Extinquishing Media: Water, foam, CO2, or dry chemical.

Special Fire Fighting Procedures: Wear a MSHA/NIOSH-approved, pressure-lemand, self-contained breathing apparatus and full protective clothing. Use water spray to cool fire-exposed containers.

ire and Explosion Hazards: Avoid exposure to fumes & vapors from a fire s they can possibly include sulfur dioxide, hydrogen chloride and oxides f nitrogen.

SECTION V-HEALTH HAZARD DATA

hreshold Limit Value (TLV) for the Product: Not determined for mixture.

oes Product Contain OSHA, NTP or IARC Carcinogens above 0.1%? No.

IRST AID

YES: Immediately flush eyes with running water for at least 15 minutes, ifting the upper and lower eyelids occasionally. Get prompt medical ttent-ion.

KIN: Wash thoroughly with soap and water. Remove contaminated clothing.

MHALATION: Move to fresh air. See a doctor if breathing is difficult.

MGESTION: Since product is corrosive, DO NOT INDUCE VOMITING! If victimes conscious, give 2 glasses of water to drink and call a physician.

EVER give anything by mouth to an unconscious person.

ATURE OF HAZARD (PHYSICAL EFFECTS):

EYES: Severe eye irritant. Corrosive, can cause corneal injury.

SKIN: Can cause irritation or burns. Even at low concentrations, the material is a skin sensitizer (can cause allergic dermatitis reaction).

INHALATION: Irritating to the nose, throat and lungs. Inhalation of mists can cause severe irritation to the respiratory system.

INGESTION: Can be harmful or fatal if swallowed.

ACUTE OVEREXPOSURE: Irritating to the exposed areas.

CHRONIC OVEREXPOSURE: No data available for chronic effects.

POXICITY DATA

EYE CONTACT: A PRIMARY ROUTE OF ENTRY.
Eye (rabbit): Corrosive to eyes.

KIN CONTACT: A PRIMARY ROUTE OF ENTRY.

Acute Dermal Toxicity (rat): LD50 = 0.2000 mg/kg.

Primary Skin Irritation (rabbit): Persistent, well-defined to
moderate dermal irritation.

Sensitization: Can cause allergic skin reaction.

NHALATION:

cute Inhalation (rat): LC50 (mist) approximately 12.3 mg/l/(4 hr).

NGESTION:

cute oral toxicity (rat): LD50 is approximately 5500 mg/kg.

pecial Precautions: Individuals with diseases of the skin or respiratory ystem should not be exposed to this product unless fully protected.

SECTION VII-SPILL OR LEAK PROCEDURES

ECTION TO TAKE FOR SPILLS: Personnel cleaning up spills should wear impervious overshoes in addition to the usual protective clothing. The pilled material should be diked and absorbed with an inert solid such as lay or vermiculite. The absorbent (and surface soil to a depth ufficient to remove all microbiocide) is then shoveled into a pail or a rum and treated with enough decontaminant solution to wet the solids horoughly. Let these containers stand open for 48 hours to avoid ressure build-up, then seal and dispose of by burying as landfill. The econtaminant area is washed with additional decontaminant solution and lushed into a chemical or municipal sewer. Do not discharge spills or leaning run-offs into open bodies of water. Remove contaminated clothing romptly and launder before re-use. Wash skin with soap and water.

SECTION VII-SPILL OR LEAK PROCEDURES (Continued)

ISPOSAL METHOD: Dispose of in accordance with all local, state and

federal regulatory agencies. For discard, this is a hazardous waste: RCRA NUMBER D002; reportable quantity: 1 pound (CERCLA (Superfund) Section 103). In accordance with local, state and federal regulations, landfill contaminated solids in sealed drums. Puncture or otherwise damage empty plastic containers to prevent reuse.

SECTION VIII-SPECIAL PROTECTION INFORMATION

| Seneral ventilation Local Exhaust Respiratory | AL USE OK OK | Not recommende | SPECIAL THERMA SPRAY APPLICATIO dNot recommend dNot recommend | NS |
|---|--------------------|----------------|---|----|
| Protection (Code 1-4) | 1 | 4 | 4 | |
| odes for Respirator | | | - | |

Codes for Respiratory Protection:

- . None Needed
- . Particle-removing, air purifying respirator (dust mask)
- . Gas and vapor-removing, air purifying respirator (Canister)
- . Full face, positive pressure-demand type (air supplied)

YE PROTECTION: OSHA-approved chemical splash goggles and face shield.

ROTECTIVE GLOVES: Butyl rubber/nitrile.

THER PROTECTIVE EQUIPMENT: Impervious apron, eyewash, safety shower.

SECTION IX-SPECIAL PRECAUTIONS

ecautions to be taken in handling and storage: Wear eye and skin otect-ion. Use in a well-ventilated area. Do not freeze. Keep away from ildren and other unauthorized personnel. Material is corrosive and is a in sensitizer. Wash thoroughly after handling, and shower after the rk period. Empty drums can still contain hazardous residues; dispose of ums properly when empty. Keep lids on containers when not in use.

SECTION IX-SPECIAL PRECAUTIONS (Continued)

contaminant Solution: Sodium bisulfite solutions (about 11% solids cont) rapidly decomposes the product. Laboratory tests from the supplier

Emergency overview

White granuls or tablet-form product

Oxidizer

Causes irreversible eye damage and skin burns

May be fatal if inhaled

May be fatal if absorbed through skin

Potential Health Effects:

- Eye Contact

Severe irritation and/or burns can occur following eye exposure. Contact may cause impairment of vision and corneal damage.

Product Name CDB 90 Product id 9716 Revision date 20/01/2010 Supersedes 23/07/2006

Revision: 4

- Skin contact

Dermal exposure can cause severe irritation and/or burns characterized by redness,

Repeated skin exposure may cause tissue destruction due to the corrosive nature of the product.

- Inhalation

Irritating to the nose, mouth, throat and lungs.

It may also cause burns to the respiratory tract with the production of lung edema that can result in shortness of breath, wheezing, choking, chest pain, and impairment

Inhalation of high concentrations can result in permanent lung damage from the corrosive action of the lung.

- Ingestion

Irritation and/or burns can occur to the entire gastrointestinal tract, including the

stomach and intestines, characterized by nausea, vomiting, diarrhea, abdominal pain, bleeding and/or tissue ulceration.

Ingestion causes severe damage to the gastrointestinal tract with the potential to

Potential environmental effects

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic

NFPA Ratings (Scale 0-4)

Health = 3, Fire = 0, Reactivity = 2.

Special Hazard Warning: OXIDIZER

HMIS Ratings (Scale 0-4)

Health = 3, Fire = 0, Reactivity = 2

3. Composition / information on ingredients

E Hirst-aid measures

Eye contact

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a

poison control center or doctor for treatment advise.

Skin contact

Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advise.

Revision: 4

Inhalation

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison

control center or doctor for further treatment advise.

Ingestion

Call poison control center, or doctor immediately for treatment advise.

Have person sip a glass of water if able to swallow.

Do not induce vomiting unless told to do so by the poison control center or doctor.Do

not give anything by mouth to an unconscious person.

Note to physician

Probable mucosal damage may contraindicate the use of gastric lavage.

5. Fire - fighting measures

Suitable extinguishing media Extinguishing media not to be

used

Fire fighting procedure

Water

Do not use dry chemical extinguisher containing ammonia compounds.

Cool containers with water spray. Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) in positive pressure mode. On small fires, use water spray or fog.

On large fires, use heavy deluge or fog streams. Flooding amounts of water may be

required before extinguishment can be accomplished.

Unusual fire and explosion hazards

When heated to decomposition, may release poisonous and corrosive fumes of nitrogen trichloride, chlorine, nitrous oxides, cyanates, carbon monoxide and carbon

6. Accidental release measures

Personal precautions

For small spills in a well-ventilated areas, wear a NIOSH approved half-face or full face tight fitting respirator or a loose fitting powered air purifying respirator equipped with chlorine cartridges. Chemical goggles should be worn when using a half-face respirator. In addition to respiratory protection, wear coveralls, chemical resistant gloves, chemical resistant footwear; and chemical resistant headgear for overhead

For clean-up of large spills, or small dry spills in confined areas, wear full-face respirator with chlorine cartridges or a positive pressure supplied air respirator. Additionally, body protection should be impervious clothing covering entire body to prevent personal contact with material.

CAUTION - Protection concerns must also address the following: If this material becomes damp/wet or contaminated in a container, the formation of nitrogen trichloride gas may occur and an explosive condition may exist.

Methods for cleaning up

Hazardous concentrations in air may be found in local spill area and immediately downwind. If spill material is still dry, do not put water directly on this product as a gas evolution may occur.

- Soil

Do not contaminate spill material with any organic materials, ammonia, ammonium

Clean up all spill material with clean, dry dedicated equipment and place in a clean

- Water

This material is heavier than and soluble in water. Stop flow of material into water as soon as possible. Begin monitoring for available chlorine and pH immediately.

- In air

Vapors may be suppressed by the use of water fog.

7. Händling and storage

Handling

Avoid bodily contact.

Do not take internally.

Upon contact with skin or eyes, wash off with water.

Storage

Store in a dry, cool, well-ventilated area away from incompatible materials (see "materials to avoid").

Product has an indefinite shelf-life limitation. Do not store at temperatures above

Available chlorine loss can be as little as 0.1% per year at ambient temperatures.

| March o | | |

Ventilation requirements

Use local exhaust ventilation to minimize dust and chlorine levels where industrial

Otherwise, ensure good general ventilation.

Personal protective equipment:

- Respiratory protection

When dusty conditions are encountered, wear a NIOSH/OSHA full-face respirator with chlorine cartridges for protection againts chlorine gas and dust/mist pre-filter.

- Hand protection

- Eye protection

Use chemical safety glasses to avoid eye contact.

- Skin and body protection

Where industrial use occurs, chemical goggles may be required.

Body covering clothes and boots

Hygiene measures

Avoid contact with skin, eyes and clothing.

10. Stability and reactivity

Stability

Stable under normal conditions. Do not package in paper or cardboard.

NOTE: Contact with small amounts of water may result in an exothermic reaction

with the liberation of toxic fumes.

Materials to avoid

Organic materials, reducing agents, nitrogen containing materials, other oxidizers,

acids, bases, oils, grease, sawdust, dry fire extinguishers containing

monoammonium compounds.

Conditions to avoid

Hazardous decomposition

products

Heating above decomposition temperature

Nitrogen trichloride, chlorine, nitrous oxides, cyanates, carbon monoxide, carbon

Hazardous polymerization

Will not occur

11. Toxicological information

Acute toxicity:

- Rat oral LD50

- Rabbit dermal LD50

- Eye irritation (rabbit) - Dermal irritation (rabbit) 490 mg/kg >2000 mg/kg

Corrosive Corrosive

Dermal sensitization

Not a sensitizer

Chronic toxicity

Prolonged exposure may cause damage to the respiratory system.

Chronic inhalation exposure may cause impairment of lung function and permanent

Mutagenicity

Not mutagenic in five Salmonella strains and one E.coli strain with or without

mammalian microsomal activation.

Carcinogenicity

Not classified by IARC, OSHA, EPA.

Not included in NTP 11th Report on Carcinogens

Reproductive toxicity

There are no known or reported effects on reproductive function or fetal

development.

Toxicological investigation indicates it does not affect reproductive function of fetal

Information Sheet

Advantages of LMI Electronic Pumps

- PRESSURE LIMITED No mechanical linkage. When
 the back pressure exceeds the strength of the magnetic
 force developed by the power coil, the pump stops stroking. No damage will occur to the pump.
- CONSTANT DISCHARGE VELOCITY / BETTER
 VALVE ACTION Actual speed of each discharge stroke
 remains the same, no matter how low the stroke frequency
 is set. Sharp valve action is not sacrificed when pump
 speed is reduced.
- WIDE RANGE ABILITY Both stroke length and stroke frequency are adjustable and have a multiplying effect. A practical adjustability range of 200 to 1 is common.
- EASY ADAPTABILITY TO AUTOMATIC CONTROL-Standard Series A7, B7, and C7 pumps are equipped to respond to an external switch closure such as that delivered by the LMI Flowmeter - Pulser. They can also respond to standard analog 4-20mA signal by means of the LMI Micropace MP-100 or DPC-40 controller.
- SIMPLICITY OF MOVING UNIT Only one moving unit, the armature-diaphragm assembly. Requires no lubrication in service. No rotating masses such as motor or reduction gears.

- MODULAR CONSTRUCTION Components and major assemblies are easily replaced. No soldering is required to replace any part of the LMI pump.
- TOTALLY ENCLOSED Corrosion proof glass fiber reinforced polypropylene housings keep pump protected from chemicals and atmosphere.
- LOW CONSUMPTION OF ELECTRICAL ENERGY -LMI pumps use power only during the discharge portion of each stroke, thus causing minimum electrical consumption and low heat generation. No ventilation is required.
- INDEPENDENT OF POWER LINE FREQUENCY LMI pumps can operate with any line frequency from 25 to
 66 Hz without change in output or damage to the pump.

ARTESIAN LABORATORIES, INC P.O. BOX 3718 CHARLESTON, WV 25037 8 Post Office Square Acton, MA 01720 USA TEL: (978) 263-9800 FAX: (978) 264-9172 http://www.lmipumps.com

ANOTHER IMPORTANT LMI ADVANTAGE

The unique, built-in Four Function Valve for Liquid Ends in Series 60, 70, 80, 90, 150 and 190

- 1. Positive Anti-Syphon
- 2. Back Pressure
- 3. Priming Aid Line Pressure Release
- 4. Pressure Relief

Valve components are of corrosion resistant CFR PVDF, PVC/Polypropylene, or all Polypropylene. Diaphragms are molded Teflon® - Faced with Viton® backing, or PFA.

A positive diaphragm-type **ANTI-SYPHON** function makes it possible to meter liquids "down hill"; even into the suction side of a pump.

The **BACK PRESSURE** function permits metering into atmospheric discharge (open tank) without over pumping due to discharge velocity.

The **PRIMING - LINE PRESSURE RELEASE** function makes it easy to de-pressurize the discharge line without loosening tubing or fittings. You can **prime** your LMI pump while it is connected to a pressurized line.

The **PRESSURE RELIEF** function is not required on electronic pumps, but is important on any mechanical, motor driven pump. It is designed to open at approximately 175 psi.

FOUR FUNCTION VALVE MOLELS - add an "S" as a suffix to the end of the pump model number for any Series 60, 70, 80, 90, 150 or 190 pump equipped with a Liquid End, and your pump will come equipped with a built-in Four Function Valve.

ARTESIAN LABORATORIES, INC P.O. BOX 3718 CHARLESTON, WV 25337

-Data Sheet-

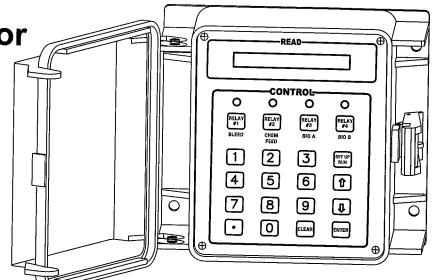

MicroTron Tower Controller

Microprocessor

Control of:

> Conductivity

- **>** pH
- > ORP
- **▶** Chemical Feed
- **➢ Biocide Control**

Key Features

- 12 Bit Input Resolution
- Simple Step Through Menu
- One Point Calibration
- Raised Dome Keypads
- Relay Test Keys
- Non-Volitile Memory
- No Battery Required
- User Defined Security Code
- 2 Year Warranty
- Remote Communication Option
- Expanded Set Up Parameters
- Prewired Configuration

Application

The MicroTron series of controllers provide a wide range of options and features for a custom tailored unit to meet your unique systems needs.

MicroTron controllers can be configured with conductivity control of bleed, pH and/or ORP control. Selectable chemical feed timers and biocide timers are also available plus many more options and features (see reverse side).

The MicroTron series of controllers for recirculating water systems, such as cooling towers, offer the most flexibility in features and functions for the price.

Base Functions

All MicroTron controller model numbers can be broken down as follows and will always start with an M or L.

- MicroTron controller with VFD display M
- MicroTron controller with LCD display L
- Conductivity control with temperature C
- Adds make-up conductivity function C-2
- Single programmable feed timer
- Dual programmable feed timers F-2
- Triple programmable feed timers F-3
- Single 28 day timer В
- Dual 28 day timer B-2
- Triple 28 day timer B-3
- Ρ pH control
- P-2 pH control with dual set points
- ORP control

MicroTron controls have a maximum of 5 relay outputs. Each letter designation above (except M and L) uses one relay. Letters with a -2 or -3 indicate the use of more relays. (C-2 uses only one relay)

Example Model Number: MCFB-2

Options

Your unit may be supplied with one or more options listed at the end of the model number, for example MCFB-2EHJ. This list represents our most popular options. For a complete list of options, consult the factory.

- Conduit Connections Α
- On/Off Power Switch (Adds Lower Enclosure) **A-6**
- **A-7** Lower Enclosure
- C-1 0-5V Non-Isolated Output:
- Single 4-20 mA Non-Isolated Output C-4
- Single Isolated 4-20 mA Output C-6
- 220 V Service (Must be conduit unit) D
- Mounted Flow Switch Assembly 150 psi E
- G Serial Line Connection
- Serial Line Connection With Modem Н

- Tank Low Level Alarm with Level Wand(s) X
- Bleed Flow Alarm (requires a Flow Switch) Υ
- Accepts 2 Water Meter Inputs **Z-6**
- Lockout Chem Feed with Low Cond. Alarm

Specifications

Electrical

- input: 115 VAC, 50/60 Hz
- Control: 115 VAC, 15 Amp Total Capacity Prewired units are supplied with an eight foot power cord and 11" output receptacles.

Operational

- Display: VFD 1 x 16 florescent alphanumeric LCD 1 x 16 backlit alphanumeric
- Conductivity Control: 0-5000 µS/cm scale
- **pH**: 0-14 scale
- ORP: +/- 1000 millivolts scale
- Accuracy: +/- 1%
- Feed Timers (Selectable):

Pulse: 99 min, 59 sec run time, 1-99 counts % of Time: 1-99 minute cycle, 1-99% on time Feed with Bleed: Limit timer 0-99 minutes Post Feed Bleed: 1-99% of bleed cycle with 0-99.59 minute limit timer

Biocide Timer: 28 day programmable

Enclosure

Heavy duty NEMA 4X type high impact thermoplastic with padlockable gasketed Lexan viewing door.

Environment

Ambient temperature: 0° to 125°F (-17 to 52°C) 0 to 100% Relative humidity:

Electrodes

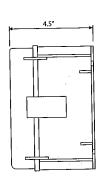

Standard electrodes are supplied in 3/4" SCH 80 PVC female slip tees with quick release nut.

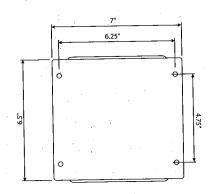

- Conductivity: TE-4A 150 psi / 140°F(58°C) Max TPE-2 100 psi / 140°F(58°C) Max :Hq
- ORP:

TOE-2 100 psi / 140°F(58°C) Max

Approximately 6 lbs. Shipping Weight:

Dimensions: W 7" x H 6.5" x D 4.5"

By-Pass & Filter Feeders

By-Pass Feeders

Neptune By-Pass Feeders are a convenient method of introducing treatment chemicals into closed circulating water systems.

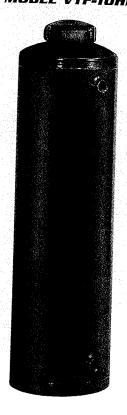

Neptune By-Pass Feeders are ideal for use with chilled water treatment such as air conditioning systems or hot water treatment in heating systems or large engine water jackets.

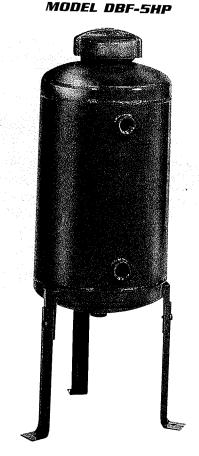

Neptune offers two styles of By-Pass Feeders: A vertical style with dish bottom in and a vertical style with dish bottom out.

A new high pressure cap rated to 300 psi is now available. The first closure improvement in over a decade.

BY-PASS FEEDERS – VERTICAL STYLE
DISH BOTTOM IN
MODEL VTF-10HP
MODEL VTF-10HP
DISH BOTTOM OUT

Filter Feeders

The Neptune Filter Feeder combines chemical addition and filtering in one piece of equipment. It is a convenient way to introduce powders or liquid chemicals into hot or cold water closed circulating systems.

- Eliminates need for separate By-Pass Feeder and filter.
- Filtration can be achieved at the same time as chemical addition.
- Extended neck with top inlet allows simple installation of filter or dissolving basket.
- Filter bags are available in coarse and fine grades. (Order separately.)
- Filter bags are quickly and easily replaced.

By-Pass Feeders NEW! NEW! The first closure improvement in over a decade!

Neptune offers two styles of quick opening, wide-mouth caps.

Both caps offer better sealing with less force and eliminate the need for tools. Cap design binds cap tightly when under pressure, making

it impossible to remove the cap by hand until pressure is bled from the tank.

STANDARD CAPThree lug, ⅓ turn design rated to 200 psi.

HIGH PRESSURE CAP
Coarse thread, 2½ turn design rated to 300 psi.

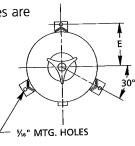

4" FILL CAP

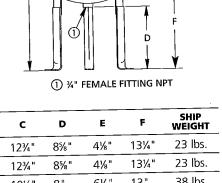

Vertical Style – Dish Bottom Out

The "DBF" series features wide-mouth caps manufactured by Neptune. These caps utilize a square section "O" ring seal and will *close easily by hand*. Advantages of this series are demountable leg extensions and a *full bottom drain*.

Specifications

- Working pressure: to 300 PSI max. at 200°F
- Tank shell:
 2 gallon unit 11 gauge steel
 5 gallon unit 10 gauge steel
- Tank heads:
 2 gallon unit 11 gauge steel
 5 gallon unit 9 gauge steel
- Cap: cast iron with Buna N "□" ring.
 Wide mouth, easy open/easy close.

| MODEL NUMBER | APPROX. | MAX. PRESSURE* | A | В | c | D | E | F | WEIGHT |

| DDE-JUL | J Gallons | 300 ps. | | | | | | | |

^{*}At 200°F Max.

Filter Bag Kits

Available for all "VTF" and "DBF" models. Kit includes bag, bag frame, tubing and connectors. The addition of a filter bag allows the By-Pass Feeder to function simultaneously as a side stream filter. (A clean bag is rated at approximately 30 microns.)

VTF-2 with filter bag kit installed

| MODEL | FOR USE ON |
|--------|--------------------------------|
| FBK-2 | VTF-2, VTF-2HP, DBF-2, DBF-2HP |
| FBK-5 | VTF-5, VTF-5HP, DBF-5, DBF-5HP |
| FBK-10 | VTF-10HP only |

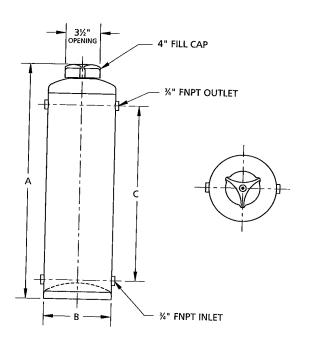

Vertical Style – Dish Bottom In

The "VTF" series is the most popular and economical of the by-pass feeders available from Neptune. The series uses the same easy close caps described in the "Dish Bottom Out" style.

Specifications

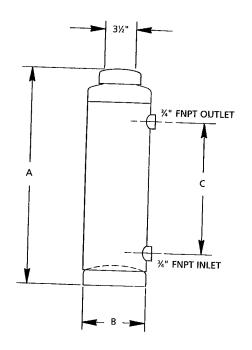

- Working pressure: to 300 PSI max. at 200°F
- Tank shell:
 2 gallon unit 11 gauge steel
 5, 10 & 12 gallon units 10 gauge steel
- Tank heads:
 2 gallon unit 11 gauge steel
 5, 10 & 12 gallon units 9 gauge steel
- Cap: cast iron with Buna N "□" ring. Wide mouth, easy open/easy close.

Filter Feeders

MODEL FTF-5HP

Features

- Stainless steel dissolving basket holds and fully supports the filter bag inside.
- Standard connections are 3/4". Larger 11/2" connections are available for high flow applications where reduced nozzle velocity is desirable.

ALL MODELS

| MODEL NUMBER | APPROX. | MAX. PRESSURE* | DIAM. | CONN. SIZE | ANCHOR BOLT PLATE A B |

*At 200°F Max.

Optional Leg Set with anchor bolts fits Models FTF-5HP and FTF-5150HP. Elevates feeder 9". Order "FTF-LEGS".

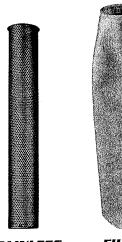

- Model FTF-5150HP features oversize 1½"inlet and outlet connections. Can be used for system cleanup with high volume pumps where high flow rates are desired for fast clean-up or flush-out prior to start-up.
- Working pressure: 300 PSI max. at 200°F
- Tank shell: 10 gauge steel Tank heads: 9 gauge steel Cap: cast iron with Buna N "□" ring
- "CL" Models feature a welded base to allow bolting to the floor or other mounting surface. Four holes for %" bolts are provided on each Anchor Bolt Plate.

Filter Bags

(Not included with basic unit. Both bag types fit all "FTF" models.)

(4) 7/16" HOLES ANCHOR BOLT PLATE FOR "CL" MODELS **MODEL FTF-2CL**

VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with **West Virginia Code**, §5A-3-37. (Does not apply to construction contracts). **West Virginia Code**, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the **West Virginia Code**. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

| accord Division | ance with the West Virginia Code . This certificate for application is to be used to request such preference. The Purchasing n will make the determination of the Resident Vendor Preference, if applicable. |
|-----------------------|--|
| 1. X | Application is made for 2.5% resident vendor preference for the reason checked: Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or, |
| 2. X | Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or, |
| 3. | Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or, |
| 4. X_ | Application is made for 5% resident vendor preference for the reason checked: Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or, |
| 5. | Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or, |
| | Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years. |
| requiren against s | inderstands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the nents for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency cted from any unpaid balance on the contract or purchase order. |
| autnorize he requi | nission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and es the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid ired business taxes, provided that such information does not contain the amounts of taxes paid nor any other information by the Tax Commissioner to be confidential. |
| and acc | penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true surate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate is during the term of the contract, Bidder will notify the Purchasing Division in writing immediately. |

STATE OF WEST VIRGINIA Purchasing Division

PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (**West Virginia Code** §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
