MV11 General Specifications/Information

This RFQ is to supply 2011 (or latest model year if successful vendor desires) vehicle to the State of West Virginia Agencies and political subdivisions. An award shall be made for each Vehicle Class to the lowest, responsible bidder meeting specifications using the base price of the vehicle bid, including delivery cost and life-cycle costing, pursuant to the changes in the West Virginia Code. The life-cycle costing to be used shall be the gasoline consumption for 100,000 miles. This will only apply to vehicles < 8,500 GVWR.

Gasoline Costing Information:

100,000 ÷ MPG Average (25% - City – 75% Highway)
Gasoline shall be based on \$3.00 per gallon.

For example, if a vehicle were to average 25 MPG under the 25% city - 75% highway, the life cycle costing would equal \$12,000.00. (100,000 ÷ 25 X \$3.00) The cost of the gasoline (based on \$3.00/gallon) shall be added to the base price and shall be added to the cost shown on the bid for evaluation purposes.

Financial Information

Vehicles may be purchased from this contract by any West Virginia State agency or political subdivision. West Virginia State agencies will either remit payment directly or use a third-party financing company on contract with the State of West Virginia. The Department of Administration, Fleet Management Office (FMO) usually arranges for third-party financing. This arrangement requires the vendor to submit invoices to the Department of Administration, who, in turn forwards those to the third-party financing company for prompt payment.

The time required for third party financing does not differ from the time required for payment directly from the state as both are normally made within 30 days of receipt of vehicle meeting specifications and appropriate invoice. The time period is provided as an estimate only and is not guaranteed. Actual times required to process payment may vary.

Standard options shall be included in the base price of each class with the exception of XM Radio, Sirius and On-Star, these shall be deducted from ALL vehicle classes.

Options:

MV11 General Specifications/Information

Option pricing shall be submitted with the bid, but will not be part of the evaluation process. **All option pricing shall be at dealer cost. Bidders must sign the Certification and return preferably with the bid. No awards shall be processed without such Certification.**

Options other than those stated in the final contract may occasionally be requested. Those options may be considered by the State only if the dealer prices these items at dealer cost and furnishes proof of dealer cost prior to the purchase order being submitted by the agency. Dealer must provide verification of these prices from the manufacturer.

"Option Packages" (ex. Tow Package) must specify what items are included.

Pricing

Use the attached pricing pages for your quotation. Vendors should add their name to each page. All vehicles should be quoted FOB Dunbar, West Virginia. Vendor may add an additional per mile charge for delivery to other locations, but should be aware that additional charges may impact the award.

Prices must remain firm for the life of this contract. **Note:** This contract is in effect for a term of one year or until such time as the vendor notifies the Purchasing Division that the model year build out date has been reached (unless the vendor chooses to supply next model vehicles at price quoted), or until contracts are issued for the next model year.

Delivery Information

Deliveries **must** be made Monday through Friday 9 a.m. to 3:30 p.m.

Vehicles delivered to Surplus Property will be inspected in a timely manner. Ordering agencies will inform the dealers if the vehicles do not meet specifications outlined in the purchase order. Additionally, they will work with the appropriate vendor to resolve any issues.

Please contact Surplus Property, Gene Young, at 304-766-2626 to make delivery arrangements. Mr. Young must be contacted five (5) working days in advance of requested delivery date for authorization.

All deliveries of vehicles to other agencies (list attached) require 24-hour notice prior to delivery.

Equipment Specifications and Requirements

NOTE: All vehicles must be pre-drilled with hardware to meet specifications that require both front and rear license plate prior to delivery. This is a

MV11 General Specifications/Information

requirement under West Virginia State Law. Any vehicle delivered without such holder shall be rejected until the dealer corrects the deficiency.

NOTE: Options listed on the vehicle classification bid sheets must be quoted with initial bid. These include such things as delivery costs, deduct for pick-up of vehicles at dealership and optional beds for chassis cabs.

NOTE: When options are priced, back-up alarms must be listed if they are available from the manufacturer for that particular vehicle.

All vehicles shall be gasoline powered unless otherwise stated. Diesel, hybrid, Flex Fuel, etc. may be specified on various models.

Vehicles must have all equipment found on the manufacturer's base model plus all other items, packages, etc., needed to meet the specifications for each order class placed against the contract.

All equipment/options must be manufacturer installed except tow hooks. Any other non-manufacturer installed options must be approved by the Purchasing Division.

All vehicles shall have the full manufacturer's warranty.

Prior to delivery, all vehicles must include the following:

1. Complete lubrication;
2. Fill crank case with oil;
3. Adjustment of engine to proper operating condition;
4. Inflate tires to proper pressure;
5. Verification of perfect operation of all mechanical and performance features;
6. Front end alignment and balancing of all tires;
7. Wash and clean inside and out including removal of all unnecessary tags, stickers, papers, etc. Fleet Management does not want stickers in windows.
8. Owners manual;
9. Full tank of fuel. Bi-Fuel, hybrid, FFV, etc. vehicles must include all tanks full upon delivery. This may require dealer to top off tanks immediately prior to delivery to Surplus Property or other approved location;
10. Temporary West Virginia License if required;
11. Valid West Virginia Inspection Sticker affixed to windshield. The vehicle must be inspected in the month delivered, thus providing a minimum of 11 months and maximum of 12 months before the next inspection must occur;
12. No dealer insignia or other advertising shall be affixed to the vehicle or appear on mud flaps, bumpers, deck lids, etc. Vehicles delivered with such advertising may be rejected.

MV11 General Specifications/Information

Reports:

Successful vendors shall be required to submit a report July 15, 2011 detailing the number of vehicles by class and total amount of sales to that date under the MV11 contract. It would be helpful if this report included the agency/political sub making the purchase. Submit report to: jo.a.adkins@wv.gov.
