PART 2 OPERATING ENVIRONMENT

2.1 Location:

The Division currently has the same law enforcement authority in Kanawha county as members of the West Virginia State Police. (§15-2D-3) Expansion of the Divisions jurisdictional authority to include all State Property has been enacted.

2.2 Background:

The Division of Protective Services (DPS) of the Department of Military Affairs and Public Safety (MAPS) was created by Legislative action and the passage of Senate Bill 1, (July 14, 1998). The Division is a bonafide law enforcement agency including a certified police force (Capitol Police) with uniformed officers who are certified as Police Officers by the standards of the Governor's Commission on Crime. The purpose of the Division is to provide safety and security to individuals who visit, conduct business or work at the Capitol Complex or other State facilities.

PART 3 PROCUREMENT SPECIFICATIONS

3.1 Scope of Work

The scope of work shall be to provide adequate levels of qualified, trained security guards for coverage of the State Capitol Complex Campus and other locations as identified by the Agency or other spending units. For 24 hour per day, seven days a week, 52 weeks per year, security guards may be posted in the Divisions Command Control Center, Perimeter Guard Houses and as walking rovers internal and external to buildings on the campus. The requirements set forth in this section pertain to the form and substance in which the work shall be administered. The successful contractor/vendor shall be responsible to adhere to these requirements and shall notify the Agency within a timely manner (five business days) of any noncompliance.

3.1.A Non Capitol Complex Locations

The State of West Virginia operates facilities in all 55 counties of West Virginia. At present the Division of Protective Services has responsibility to offer services at the State Capitol Complex and in Kanawha County. However, other State entities across the state may procure services from this contract during the life of the contract. There are currently no known service levels. (See 3.24.16). Guards are currently posted at the Environmental Protection building in Kanawha City, the Motor Vehicles building in Kanawha City, the Natural Resources building in South Charleston, the State Office Building in Huntington, Barbourville Veterans Home, various Highways locations across the State and various Health and Human Resource locations across the State. This list is not considered to be inclusive, but merely an example of locations that could be served. Any guard assigned to any State entity under the auspices of this contract must meet the criteria of specification 3.11

3.2 Independent Contractor

The contractor and its agents shall offer services to the agency as an independent contractor and shall accept the requirements of these specifications as the requirements of an independent contractor necessary to perform the function of a commercial guard service at a professional and sustained level of adequate service.

3.3 Turnover Control

The contractor shall exercise reasonable and responsible diligence in providing the Agency with security guards who are qualified to perform the services required. In this regard, the contractor shall make all reasonable efforts to minimize attrition among trained qualified security guards to the extent that turnover in the security force shall not exceed 25% per annum or 30% in one quarter. Should turnover exceed these limitations the Contractor shall, at their own expense, provide all training previously provided as necessary to make the replacing security guard possess a level of skill equal to the security guard who has terminated service. Notwithstanding the above provision, if the Agency requires the removal of a security guard for reasons other than the ability to competently perform required services; non- or malfeasance in the performance of duties or matters relating to fidelity of an individual security guard, the contractor shall bear the training expense beyond that required for basic qualifications and on-the-job training.

3.4 Transitional Staffing

On the date of the initiation of the Contractor providing services to the Agency, the Contractor agrees to retain no less than 50% of the workforce of the previous contract holder for a period of 180 days and to provide compensation and benefits to the retained employees at a level equal to or above the compensation and benefits of the previous contractor. This transitional period will allow the contractor to quickly ramp up to service levels currently expected by the agency with minimal disruption of service.

3.5 Overtime

The contractor must agree to abide by all federal, state, or municipal minimum wage and labor laws.

3.6 Liquidated Damages:

According to West Virginia State Code §5A-3-4(8), Vendor agrees that liquidated damages shall be imposed at the rate of \$100.00 per day for failure to meet the below requirements. This clause shall in no way be considered exclusive and shall not limit the State or Agency's right to pursue to any other additional remedy to which the State or Agency may have legal cause for action including further damages against the Vendor.

- Failure to comply with wage and hour regulations
- Failure to maintain percentage maximum on turnover control except for those instances in which the agency and contractor mutually agree that the turnover is justified
- Failure to comply with pre-employment qualifications and investigations regarding applicants.
- Failure to report an incident
- Failure to comply with federal, state, and county regulatory requirements
- Failure to perform services for any reason

3.7 Replacement of Equipment Provisions

The Agency may from time to time, make equipment available for the use of the security guards in the performance of the contracted services. The contractor shall bear the cost of repair and/or replacement of such equipment rendered inoperative because of misuse, or abuse of the contract employee using the equipment, (or failing to provide reasonable care and security,) or due to a failure to provide the contract employee with training sufficient to operate the equipment in a normal, safe, and effective manner. This provision shall not apply to equipment failure mutually agreed by the Agency and the contractor as having occurred as a result of normal use or wear.

3.8 Documentation of Incidents

The contractor or his designee shall be responsible for providing both a written and oral report of any incident that occurs on any shift at the close of that shift period. This report shall be provided to the shift supervisor. An incident is defined as, but not limited to, the following:

Reports	Frequency

The contractor is advised that beyond the status of probationary guard, six distinct levels are recognized as existing in the assignment of contract employees to the Agency's service. A general description of each skill category is provided below in an ascending skill level from least skilled to most skilled. It is the agency's interpretation that probationary security guards must have successfully completed not less than the 12.5 hours of classroom training and the prescribed on-the-job training specified in section 3.1 to be considered qualified to fill the least-skilled category. Differential requirements of each skill level must be validated before a guard is assigned to work at that skill level. It is the requirement of the contractor to insure the validation is complete and accurate. At anytime, the Agency may request documentation of the validation process and sample for any individual assigned to the contract.

Skill Level 1: Probationary Security Guard

This skill level involves the delivery of services on a specific fixed post. The procedures for accountability, observation and inspection, courteous and efficient deportment, and documentation of activities are the essential skills that must be tailored to the post requirement. The posts are not a location or time where continual contact with the public will occur.

Skill Level 2: Security Guard II

This skill level involves a combination of fixed and mobile posts where the opportunity for normal business contact and confrontation experience will be more frequent. On an ascending level of capability, appearance, bearing and demeanor assume more significance because of the increased employee and public contact. A higher degree of technical knowledge is required in reference to the limitations in authority and the enforcement of site regulations and the scope of activities and areas with which the security officer must maintain a working knowledge. This skill level includes basic technical competence to operate technological systems utilizing keyboarding skills, mouse clicks, joy sticks or other technology tools. This skill level includes the ability to document events in written form, the ability to maintain a journal and to complete basic incident reports.

Skill Level 3: Security Guard III

This skill level involves a more complete knowledge of all post requirements and as such represents the essential passage of time necessary to gain the basic knowledge of a variety of posts. The technical skill required is representative of the peak of skill capability both in emergency response requirements, the handling of confrontations, and the successful interface of the protective force with agency employees, visitors, and contractors.

Skill Level 4: Security Guard IV

This skill level represents the requirement for a complete operational knowledge of the life/safety and security system and the responsibilities and response capabilities of each post in an active status. Beyond the high degree of technical and procedural knowledge is the requirement to exercise disciplined response decisions in directing security guards to meet the various normal and emergency service requirements that will occur.

Skill Level 5: Sergeant

This skill level requires a complete and thorough knowledge of the life/safety, security, and administrative system appropriate to the secure maintenance of the agency's site. A capability must exist to make disciplined response decisions in directing security guards to meet the necessities of developing emergency situations. The individual must be capable of executing command decisions that promote and maintain the best interests of the agency at all times. A capability to administer to the demands and necessities of the protective requirements on a given shift, while exercising due regard for individual skill levels and cost-effective staffing assignment, shall be exercised at all times.

Skill Level 6: Lieutenant/Captain

This skill level requires tested and proven supervisory capabilities. This person is required to have a working knowledge of all posts for all shifts. They will be required to participate with training, developing, and disciplining subordinates on an assigned shift. This skill level will require a capability to maintain control over performance and costs. This skill level includes the ability to review and if necessary edit documentation of events in written form and the ability to complete more complex reports such as monthly incident matrixes.

3.18 Performance Evaluation

The contractor shall be responsible for performing, documenting, and making available to the Agency a performance evaluation of each contract employee, no less than twice annually. - Technical knowledge and skill of performance requirements
- Procedural knowledge of agency requirements
- Leadership capability and potential
- Special areas of competence

3.19 On-site Supervisory Responsibilities (for each shift)

The contractor shall appoint a senior security guard who will be responsible to the designated Contract Monitor. The minimum acceptable skill level for this section shall be skill level 5: Sergeant.

3.20 Shift Continuity

The contractor shall insure that adequate resources are deployed for the contractor to coordinate multiple shift operations. When in this mode, security guards will not leave their post until relieved by the corresponding officer posted to the next shift.

3.21 Alternate Replacement Personnel

The contractor may, from time to time, identify a need for additional alternate security guards to fulfill a temporary service or relieve for vacations and sickness of permanent personnel. In such instances the contractor and Agency will evaluate the minimum skill requirements and pre-screening practices required based on the available lead time and the nature of temporary assignment to meet the service needs.
