

A Proposal for:

Cellular Phone Service

Prepared for:
STATE OF WEST VIRGINIA

October 18, 2011

RECEIVED

2011 OCT 18 AM 10:51

WV PURCHASING
DIVISION

State of West Virginia

Request for Quotation – Cellular Phone Service

This document contains Verizon Wireless Confidential Information. The information disclosed within this document by Verizon Wireless is intended for the sole purpose of providing information regarding Verizon Wireless' capabilities to provide the identified products and services. By receipt and acceptance of this document, the State of West Virginia ("the State") agrees that it will not use the Confidential Information for any other purpose except as expressly provided herein. Further, the State agrees that it will not disclose, disseminate or otherwise make available this Confidential Information to anyone, other than those employees who have a need to know in order to evaluate Verizon Wireless' response to the RFP. The State further agrees that in the event it utilizes a consultant for any purposes in connection with the review and evaluation of this proposal, whether the consultant is disclosed or undisclosed, that the State accepts liability for the consultant as its agent. Furthermore, the State agrees that it will take appropriate actions, by instructions, agreement or otherwise, to satisfy its obligations hereunder.

All the information, statements and proposals in this document are correct and accurate to the best of our present knowledge but are not intended (and should not be taken) to be contractually binding unless and until they become the subject of separate, specific agreement between the parties.

State of West Virginia

Request for Quotation – Cellular Phone Service

October 14, 2011

Krista Ferrell
State of West Virginia
Dept of Administration
Purchasing Division
2019 Washington Street East
Charleston, WV 25305

Dear Ms. Ferrell:

I am very pleased to submit Verizon Wireless' response to the State of West Virginia's ("the State") recent RFQ. Our proposal presents a number of cost-effective wireless services and calling plans designed to meet your specific requirements. With Verizon Wireless, the State's mobile workforce will be able to make calls, send email and download files on the nation's most reliable high-speed broadband wireless network. By selecting Verizon Wireless, the State will be among the most loyal wireless customers in the industry because more people select and stay with us than any other wireless carrier.

We look forward to working with you to provide the State with our industry-leading wireless solutions and customer service. This proposal will remain valid for 90 days. Should you have any questions or need further clarification on any aspect of this proposal, please contact me or your Government Account Manager, David Ombres who can be reached at 304-590-0100 or via e-mail at David.Ombres@VerizonWireless.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Loccisano".

WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

GENERAL TERMS & CONDITIONS REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
5. Payment may only be made after the delivery and acceptance of goods or services.
6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at www.state.wv.us/admin/purchase/vrc/hipaa.htm and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor. *

*Verizon Wireless takes exception to # 13. "Exceptions to General Terms and Conditions" is attached hereto and incorporated herein by reference.

14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

Exceptions to General Terms and Conditions

Verizon Wireless takes exception to # 13 of the General Terms and Conditions. Although the State has stated that each vendor is to sign and submit a HIPAA Business Associates Agreement (BAA) if an Agency meets the definition of a Cover Entity and will be disclosing Protected Health Information to the vendor, it is our position that this Agreement is not applicable to Verizon Wireless.

The U.S. Department of Health and Human Services (DHHS) has indicated, in connection with the issuance of the HIPAA Privacy Regulations, that an entity is not a Business Associate of a Covered Entity if it is functioning merely as a "conduit" for PHI of the Covered Entity. 65 Fed. Reg. 82476 (December 28, 2000). DHHS defined a "conduit" as an entity that "transports information but does not access it other than on a random or infrequent basis as may be necessary for the performance of the . . . service, or as required by law". Since Verizon Wireless does not access PHI except on a random or infrequent basis as necessary to service the system, we believe that Verizon Wireless is merely a "conduit" of that PHI and does not fit the definition of "Business Associate" under the HIPAA Privacy Regulations.

The security of our confidential customer information is a continuous consideration for Verizon Wireless. Towards that end, we require employees to sign confidentiality agreements; utilize Code Division Multiple Access (CDMA) technology that we believe offers far greater security than other technologies such as Time Division Multiple Access (TDMA) and Global System for Mobile Communications (GSM); implemented an authentication, authorization and accounting system that enhances the confidentiality of data transmissions using Verizon Wireless' 1x Radio Transmission Technology and third generation wireless products; and utilize CDMA IS 95 technology for the security of our text messages.

It is Verizon Wireless' position that the provision of wireless communication services does not require Verizon Wireless to access PHI in order to comply with our potential contractual obligations to the State: additionally, the scope of such agreement would not state that Verizon Wireless requires access to the information that your users are transmitting through the devices they use in combination with Verizon Wireless' service. On that basis alone, it is our contention that the Agreement requirements do not extend to Verizon Wireless.

If you should have any questions or need further clarification on any aspect of our position regarding the Business Associate status of Verizon Wireless, please contact Verizon Wireless through your Verizon Wireless Account Manager. If necessary, Verizon Wireless is willing to provide a formal letter further clarifying our position so that the State may have a copy for your files.

We have reviewed the Request for Quotation Blanket Open End Statewide Contract and General Terms & Conditions that you provided with your RFQ. While our review has helped us to better understand your contractual expectations, we believe that a document created specifically for the provision of cellular phone service is a better starting point for discussing a contractual agreement. Upon award, we will consider additional reasonable terms and conditions to meet your requirements. Until such time, Verizon Wireless reserves our right to modify the Blanket Open End Statewide Contract, General Terms & Conditions, and include additional reasonable terms and conditions for the provisions of cellular phone service as required by this RFQ.

Verizon Wireless Response: RFQ CPHONE11 – Integrated Cellular Communications

**REQUEST FOR QUOTATION: CPHONE11
STATEWIDE CONTRACT
INTEGRATED CELLULAR COMMUNICATIONS**

The Acquisition and Contract Administration Section of the Purchasing Division, hereinafter referred to as "State", is soliciting bids, to establish a statewide contract for integrated cellular communications (cellular) technology. This Contract shall extend to include state agencies, community colleges, institutions, counties, municipalities, public schools, and other local government entities.

1.0 PURPOSE

The purpose of this RFQ is to request bids from responsible vendors with the intent to award a statewide contract to provide cellular communication services, accessories and equipment for use by State employees. These cellular communication services shall include the wireless transmission of voice and/or data. Cellular communication equipment, accessories, and devices are included, as well as the related warranty and support services. Cellular equipment shall include devices such as netbooks and tablets that have integrated cellular service and bundled with a cellular data plan.

Our primary goal is to leverage the State of West Virginia's buying power to ultimately reduce our overall costs, while meeting our requirements and maintaining an acceptable level of quality.

Verizon Wireless Response:

Verizon Wireless acknowledges.

2.0 DEFINITIONS

The below terms shall be herein defined as:

- A. "Vendor": the successful bidder(s)
- B. "Manufacturer": the company who produces the equipment.
- C. "Contract": the binding agreement that is entered into between the State of West Virginia and the Vendor to provide the services as herein specified.
- D. Mandatory Requirements: The terms "must", "will", "shall", "minimum", "maximum", or "is/are required" identify a mandatory item or factor. Decisions regarding compliance with any mandatory requirements shall be at the sole discretion of the State. Failure on the part of the Vendor to meet any of the mandatory specifications shall result in the disqualification of the bid.
- E. Agency: any entity seeking goods/services under this "Contract"
- F. Cellular communications: A mobile device that uses a network of short-range transmitters located in overlapping cells throughout a region, with a central station making connections to regular lines
- G. GOOD Technology: Push e-mail and mobile device management and security products for mobile phones.

- H. Smartphone: A cellular telephone with built-in applications and Internet access. Smartphones provide digital voice service as well as text messaging, e-mail, Web browsing, still and video cameras, MP3 player, video viewing and often video calling.
- I. Roaming - Geographic West Virginia, and bordering counties located in adjoining states, will be considered the "home area", or local call footprint, for all services related to this RFQ. "Roaming charges/long distance" will apply only when the user is outside of the "home area/local call footprint". Roaming is defined as the area beyond the bordering counties in adjoining states within the continental United States.

Verizon Wireless Response:

Verizon Wireless acknowledges.

2.1 BACKGROUND

The State of WV presently utilizes approximately 4900 cellular telephones, with air-time usage of approximately 21 million minutes annually, and approximately 1400 data devices (Good technology, MS Windows, RIM Blackberry and similar data devices).

Verizon Wireless Response:

Verizon Wireless acknowledges.

3.0 SCOPE OF WORK

- 3.1 The vendor will provide an equipment package that shall include a handset (choice of candy bar or flip phone style), AC power adapter/charger, battery, user manual and related maintenance and support services provided by the manufacturer's warranty.

Verizon Wireless Response:

Verizon Wireless acknowledges. Please refer to the Pricing and Equipment Offer in the Attachments section of this response. Verizon Wireless handsets are typically packaged with a standard battery and AC plug-in charger. Additional accessories such as a swivel holster may be packaged with certain handsets. Accessories provided may vary by device. Please visit www.verizonwireless.com for additional information on accessories. While included with most devices, a User's Guide is not provided with every phone. Interactive user's manuals can be accessed at <http://support.vzw.com/phones/?newphone=1>

As part of the wireless handset equipment package, the State will receive the manufacturer's consumer warranty, typically one (1) year in length. If equipment is within the warranty period, warranty-covered costs for defect or failure should be covered by the manufacturer. Some equipment may need to be returned directly to the manufacturer for repair under the warranty guidelines. Verizon Wireless will reasonably assist the State with obtaining repair or replacement of equipment under warranty. However, Verizon Wireless is not an equipment manufacturer.

In the event that the subscriber's equipment is no longer covered under the manufacturer's warranty, additional charges for repair may apply, and it may be more cost efficient for the subscriber to purchase new equipment.

Verizon Wireless offers a two-year Extended Limited Warranty for an additional monthly fee, available in select markets. Please see your Verizon Wireless Account Manager for further details.

3.2 Equipment package handsets shall include vibrate functionality and E911 compatibility.

Verizon Wireless Response:

With most handsets offered by Verizon Wireless your employees can choose between an audible ringer, vibrate or both.

Since December 31, 2003, all of the handset models Verizon Wireless sells are GPS-capable of transmitting their E911 location. All Verizon Wireless handsets have GPS capabilities to be used in conjunction with E911 services.

Verizon Wireless has an audible tone to confirm that 911 has been properly dialed. The tone can be enabled or disabled and also has a vibrate setting for emergency dialing. This feature was added by device manufacturers to assist blind subscribers in making 911 calls and is consistent with manufacturers' obligation under the 1999 Wireless Communications and Public Safety Act to make devices accessible to and usable by people with visual impairments.

The Federal Communications Commission (FCC) requires wireless carriers to provide Enhanced 911 call identification capability when requested by each of the state/local Public Safety Answering Points (PSAPs) nationwide (most are arms of local government). Verizon Wireless provides Basic 911 call routing throughout our nationwide network. However, with Basic 911 service, PSAPs cannot automatically read the mobile phone number of the caller or their location, and need to rely on the caller to provide this information. The FCC Basic 911 rules require wireless carriers to route all 911 calls to designated emergency call takers – the PSAPs - without procedures intended to identify and intercept calls from non-subscribers.

The FCC's Phase I Enhanced 911 rules require wireless carriers to automatically provide PSAPs with the telephone number of the 911 caller and the location of the cell site used to originate the 911 call. Phase I enhancements automatically provide the mobile number and approximate call location (cell site identification) to PSAPs who have upgraded their equipment to be able to receive and use the enhanced location data.

Phase II Enhanced 911 rules require wireless carriers to automatically provide the telephone number of the 911 caller and far more precise location information, in most cases to within 50 to 100 meters. Phase II enhancements automatically provide the mobile number and the latitude-longitude location of the mobile caller to PSAPs who have upgraded their equipment to be able to receive and use the enhanced location data.

Wireless carriers decide between handset-based or network-based location technologies to provide Phase II E911 service. Verizon Wireless chose a handset-based location because a device-based location solution provides the most accurate capability and better coverage over varied terrain.

We have successfully implemented extensive network components, purchased modified handsets, and completed a complex series of tasks associated with providing enhanced 911 Phase I and Phase II location services to Public Safety. We provide an Assisted Global Positioning System that works in coordination with an Advanced Forward Link Trilateration (AGPS/AFLT) handset solution to serve the designated 911 centers, also known as PSAPs. This system supports Phase II E911 Service requests and has several benefits. It relies on enhancements to the wireless handset and underlying network to provide superior location services.

Verizon Wireless continues to meet the schedule set by the FCC in October 2001. As of September 1, 2010, we have deployed Phase I E911 service to approximately 72% of the 6,138 PSAPs in the United States. Of the 49 states in which Verizon Wireless provides coverage, we have deployed Phase II E911 service in 68% of the PSAPs.

The deployment of network upgrades in Verizon Wireless' markets is in advance of PSAPs' requests. Approximately 93% of the PSAPs capable of receiving 911 calls now receive enhanced 911 that displays the caller's phone number and address to the call taker.

Until all PSAPs upgrade their systems, calls made from subscribers' E911-capable handsets to 911 call centers will go through and appear with only the data the PSAP is capable of receiving. These 911 call centers will not be able to read or use the Global Positioning System (GPS) generated location information and may still need to rely on the mobile caller to tell them where they are located. The State's subscribers are encouraged to contact their local police or fire department if they have questions about local 911 capability to accept and use the E911 data from mobile calls in their area.

3.3 The following service features shall be standard and will be included at no additional charge:

3.3.1 Unlimited mobile to mobile (within Vendor's network)

Verizon Wireless Response:

With Verizon Wireless' Mobile to Mobile Calling your employees can make or receive calls to/from any of Verizon Wireless' more than 90 million subscribers anytime from within the Nationwide and National Mobile to Mobile Calling Rate and Coverage Area without using their Anytime Voice Minutes. Unlimited Mobile to Mobile Calling is included with most of our Nationwide Calling Plans at no additional charge. Exceptions are:

- Nationwide Plus Canada Plans – include 1,000 national Mobile to Mobile Minutes.
- Nationwide Plus Mexico Plans – include 1,000 national Mobile to Mobile Minutes.
- Nationwide Flat Rate Plans – no Mobile to Mobile Minutes are included.

Additionally, Verizon Wireless currently offers Friends and Family®. Friends & Family is a calling feature that allows customers unlimited voice calling to and from the numbers they call the most – anytime, anywhere in the U.S.¹, choose numbers on any network – even landlines.

Friends & Family for Business Subscribers

Combined with our great network and Mobile to Mobile calling, Friends & Family for Business is a new, high-value feature that provides unlimited calling to those you do business with the most (vendors/colleagues/even the State's conference call bridge numbers) – add up to 10 Friends & Family numbers to be shared by the lines on the account, depending on your eligible plan type.

Friends & Family for Business is included on the following calling plans:

- Nationwide for Business Plans and Nationwide Single Line Plans with 900 Anytime Minutes or more (Basic Single, Select Single)
- Nationwide for Business Plan with Share Option with 450 Anytime Minutes or more (Basic Share, Select Share)
- Nationwide Email for Business Plans with 900 Anytime Minutes or more (Basic Single, Select Single)
- Nationwide Email for Business Plans with Share Option with 450 Anytime Minutes or more (Basic Share, Select Share).
- Nationwide Small Business SharePlans with 1400 Anytime Minutes or more.

New activations and existing business subscribers on qualifying plans automatically get Friends & Family for Business. The State's SPOC can manage Friends & Family for Business numbers via My Business Account for each qualifying line. Changes to Friends & Family numbers become effective the following day. An email will be automatically generated and sent to the State's SPOC when a change to Friends & Family eligibility is made.

¹ Only on calls from Nationwide Coverage Area to designated domestic U.S. landline or wireless numbers (excluding Directory Assistance or subscriber's own wireless or Voice Mail access numbers).

Friends & Family for Employee Subscribers

The Friends & Family option allows employee subscribers to select 5 or 10 numbers for their calling group. With Friends & Family, your employee subscribers do not need to use their Anytime Minutes to call the people they talk with the most, even if those people are on another wireless carrier's network or use a landline.

Details:

- Single line subscribers on a qualifying Nationwide Single Line plan with 900 or more Anytime Minutes can select up to 5 numbers for their Friends & Family calling group.
- Family SharePlan subscribers on a Nationwide plan with 1,400 or more Anytime Minutes can select up to 10 numbers for their calling group to be shared among plan members.
- Creation and maintenance of Friends & Family calling groups is available via My Verizon allowing employee subscribers to make updates at any time.
- New numbers added to Friends & Family calling groups will take effect the day after being added.

Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.2 Unlimited nights and weekends

Verizon Wireless Response:

Verizon Wireless offers unlimited Night and Weekend Minutes on most of our Nationwide Calling Plans, which enable your employees to make or receive a call in a calling plan's rate and coverage area during the following hours: 9:01 p.m. Friday through 5:59 a.m. Monday and 9:01 p.m. - 5:59 a.m. Monday through Friday without using the plan's Anytime Minutes.

Exceptions are:

- Nationwide Plus Canada Plans – include 1,000 U.S. Night and Weekend Minutes.
- Nationwide Plus Mexico Plans – include 1,000 U.S. Night and Weekend Minutes.
- Nationwide Flat Rate Plans – no Night and Weekend Minutes are included.

Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.3 Call Waiting

Verizon Wireless Response:

Call waiting is a standard feature included, at no additional monthly access fee, in our Pricing Program. Use of some of our standard features may incur usage charges, such as airtime charges, and the availability of these features may vary. Please refer to the Verizon Wireless Pricing and Equipment Offer attachment for details.

Call Waiting:

An alert tone announces an incoming call when a cellular subscriber is already on the phone. After the subscriber hears the tone, the subscriber has approximately 30 seconds to answer before the second caller hears a standard message or is forwarded to the subscriber's Voice Mailbox. If the subscriber answers the call the first call is put on hold while the second is taken. This feature allows cellular subscribers to be more productive and accessible to the people who need to reach them.

3.3.4 Three-way Calling

Verizon Wireless Response:

Three-Way Calling is a standard feature included, at no additional monthly access fee, in our Pricing Program.

Three-Way Calling:

Three-Way Calling allows the subscriber to speak with two parties at once while on one cellular call. Airtime and other charges, which may include toll or long distance charges, apply for both calls during the three-way call. With this feature, there is no need to make several calls trying to relay information to third parties. Please refer to the Verizon Wireless Pricing and Equipment Offer attachment for details.

3.3.5 Call Forwarding

Verizon Wireless Response:

Call Forwarding is a standard feature included, at no additional monthly access fee, in our Pricing Program.

Call Forwarding (not available in all areas):

Call Forwarding enables calls to be transferred to another phone number. The subscriber's wireless phone will not ring. Airtime and other charges, which may include toll or long distance charges, apply. This is especially helpful if a subscriber's cellular number is the one people are most accustomed to dialing. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.6 No Answer Transfer/Busy Transfer

Verizon Wireless Response:

No Answer/Busy Transfer is a standard feature included, at no additional monthly access fee, in our Pricing Program.

No Answer/Busy Transfer:

The subscriber can have incoming calls answered by another phone whenever their wireless phone is busy or remains unanswered after three or four rings. With this option, the subscriber's phone will ring unless the subscriber is on the phone. This is a great alternative to call waiting if a subscriber cannot be disturbed or interrupted but still needs to have calls answered. Airtime and other charges, which may include toll or long distance charges, apply. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.7 Voicemail with Message Indicator

Verizon Wireless Response:

Basic Voice Mail and Message Waiting Indicator are standard features included, at no additional monthly access fee, in our Pricing Program.

Basic Voice Mail:

Verizon Wireless' Voice Mail service allows callers to leave a message when the cellular number they have called is in use or unavailable. The service gives subscriber the option to either record a greeting in their own voice, or simply record their name to be used in a standard system greeting. Callers are able to designate their message as "urgent," and if they do so, then these messages will float to the top when they are being retrieved. Customers are also able to retrieve messages from any touch-tone phone.

Message Waiting Indicator:

Message Waiting Indicator, is used in conjunction with Caller ID and Voice Mail to provide subscribers with the visual ability to see who called and allows them to see if they have any Voice Mail messages. If the subscriber leaves the phone powered off, the indicator telling them that there are messages waiting will be activated as soon as the subscriber turns the phone on. This option works only on phones that are equipped with Message Waiting Indicator. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.8 Caller ID

Verizon Wireless Response:

Caller ID is a standard feature included, at no additional monthly access fee, in our Pricing Program.

Caller ID:

Caller ID allows cellular subscribers to see the telephone number of an incoming caller (for all unblocked numbers). Based on this information, subscribers can then make the decision to either answer the call or leave it unanswered and perhaps default to Voice Mail. This service is available to subscribers with specific equipment.

Caller ID Blocking:

This service allows subscribers to prevent their phone number from being displayed on the called party's handset. Subscribers have the option to block their number on a per-call basis or continuously. This feature may not be available when roaming or when calling certain toll-free numbers or 911. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.9 Basic Text Messaging

Verizon Wireless Response:

Verizon Wireless takes exception to this requirement. Text Messaging is a service that allows customers to send and receive text messages. Text Messaging includes Short Message Service (SMS up to 160 characters) and Enhanced Messaging Service (EMS up to 1120 characters). Domestic Text Messaging (including messages sent and received from customers of foreign wireless carriers in Canada, Mexico & Puerto Rico) charges are incurred at a \$0.20 per message sent or received. International Text Messages cost \$0.25/message sent and \$0.20/message received. Verizon Wireless offers subscribers a number of Text Messaging options including calling plans with unlimited messaging, Mobile to Mobile Messaging, Text Messaging bundles and pay-per-message.

A Basic Messaging bundle is available for a \$5 monthly access fee, which includes 250 domestic Text, Picture and Video Messages. Overage rate is \$0.10 per message. Airtime charges apply when sending and receiving Picture and Video Messages.

Verizon Wireless also offers several Optional Messaging Packages that include Unlimited Mobile to Mobile messaging for a monthly fee.

Mobile to Mobile Messaging Package

Mobile to Mobile Messaging provides Unlimited Text, Picture and Video Messaging to and from other Verizon Wireless subscribers within the National Enhanced Services Rate and Coverage Area.

Users may choose from packages starting as low as \$10.00 monthly access. Additional Text, Picture and Video allowances/charges apply for sending or receiving instant messages, Text Alerts, emails and Text/Picture/Video Messages to non-Verizon Wireless subscribers.

MONTHLY ACCESS	MOBILE TO MOBILE MESSAGING	ADDITIONAL TEXT, PIX, & FLIX MESSAGING MONTHLY ALLOWANCE	OVERAGE RATE PER MESSAGE
\$10.00	Unlimited	500	\$0.10 Sent/Received
\$20.00	Unlimited	5000	\$0.10 Sent/Received

Note: Sent messages are billed per address.

International Text Messages are not included and cost \$0.25/message sent and \$0.20/message received.

Unlimited Messaging

Unlimited Messaging is available with our Nationwide for Business Talk & Text Plans and select Voice and Data Bundle Plans and includes unlimited² text, picture and video messaging to anyone on any network in the U.S.

Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

3.3.10 State-wide service with no roaming charges or long distance fees within West Virginia and the bordering counties of adjoining states.

Verizon Wireless Response:

All Verizon Wireless Nationwide plans offer subscribers the ability to make or receive calls with no roaming or long distance charges while in the Nationwide Rate and Coverage Area.

3.4 Vendor shall activate service on new equipment within 72 hours of request or shipping.

Verizon Wireless Response:

Equipment orders placed through My Business Account are shipped within 48 hours and delivered using standard 2-day shipping free of charge. Special shipping instructions - such as priority overnight mail or next day shipping - may incur a charge. Your Account Manager will handle urgent requests on a case-by-case basis. Title and risk of loss pass to you and acceptance occurs upon receipt of equipment at the address designated on the order.

The equipment arrives preprogrammed and ready to activate (equipment arrives inactive in the event the shipment may be lost or stolen). Once the equipment is received *228 must be dialed and the prompts followed in order to activate the phone.

In no event shall the failure to meet the above shipping goals subject Verizon Wireless to any penalties or damages of any kind.

3.5 Vendor shall provide the following services at no additional cost. This list is not meant to be all inclusive and vendors may, at their discretion, add other services.

3.5.1 Upgrades or downgrades to service plans as needed, with no limits.

Verizon Wireless Response:

Although subscribers can generally change their calling plans and/or features at any time without incurring additional fees and without extending their contracts, certain promotional offers or custom calling plans may require a new individual line term commitment or compatible equipment. Similarly, the purchase of discounted new equipment after an initial activation may also require a new line term commitment.

² Unlimited Messaging is available in the National Enhanced Services Rate and Coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico. Messaging is subject to Text, Picture, and Video Messaging Terms and Conditions. Messaging bundle benefits do not apply to international messages.

3.5.2 Cancellation of service without early termination fees;

Verizon Wireless Response:

Verizon Wireless agrees to waive Early Termination Fees for the State of West Virginia government subscribers.

3.5.3 Provide Local Number Portability with no penalty.

Verizon Wireless Response:

Verizon Wireless led the wireless industry by supporting Local Number Portability (LNP), which enables wireless subscribers to retain their mobile numbers when switching their wireless service providers, even before the FCC mandated it. Verizon Wireless upgraded its network, trained and educated its employees on LNP, and staffed a new state-of-the-art call center to handle LNP requests. Since LNP became available, wireless subscribers from coast-to-coast have enjoyed the freedom to move their phone numbers to other wireless carriers, and they have overwhelmingly chosen Verizon Wireless as their new carrier.

To port lines in to Verizon Wireless, a subscriber will need to provide the billing name and address, the account number from the old carrier and their State's federal tax ID number. It is important that the existing service not be cancelled before Verizon Wireless begins the porting process. Once Verizon Wireless has all of the required information, it will submit the port requests for those lines.

Any number that a subscriber wants to port must first be eligible for porting. Eligibility is based on the geographic locale of the number (the number must remain associated with the same geographic area and Verizon Wireless must be licensed to provide service in that area) and the number must be active with the old wireless carrier.

The porting timelines are as follows:

- Wireless port request completion timeline is 3 to 24 hours.
- Wireline port request completion timeline is 4 to 10 business days.

Please note: Actual processing time may vary depending on the complexity of the port, and the previous service provider. Multiple ports may extend the processing time. While there may be some delay in the porting process, any eligible line should port in from the old wireless carrier.

During the porting process, subscribers may occasionally have a short period of mixed services where they are able to make calls immediately upon activation of the Verizon Wireless device, and may still be able to receive incoming calls on the former service provider's phone until the port is complete.

Verizon Wireless does not currently charge a fee for porting numbers to or from our service. Important Note: Any subscriber who ports a line from Verizon Wireless to another carrier will be responsible for any accrued charges, and any applicable early termination fee, if ported before the end of their line term commitment.

For more information, please visit:

<http://www.verizonwireless.com/b2c/LNPControllerServlet>

3.6 At least one device should come equipped with one or more of the following features:

3.6.1 Bluetooth turned off, as the default setting

Verizon Wireless Response:

Verizon Wireless currently offers several handsets that support Bluetooth technology and we support the following Bluetooth profiles:

- Headset - for connecting to a Bluetooth headset
- Hands-Free - for connecting to a Bluetooth hands-free car kit
- Data Syncing – to allow the handset to synchronize files or other data with other data devices - Phonebook to PC, Calendar to PC (on select Bluetooth handsets)
- Dial-up Networking (DUN) - to allow the handset to be used as a data modem by another device, such as a laptop or PDA for dial-up Internet access (on select Bluetooth handsets)
- Data Networking – to allow the handset to network with other data devices -Serial Port and/or LAN (on select Bluetooth handsets)
- Data File Transfer – to allow handset to transfer files or other data with other data devices (on select Bluetooth handsets)

Verizon Wireless offers several devices that have the Bluetooth function turned off as the default setting.

3.6.2 Camera

Verizon Wireless Response:

Verizon Wireless currently offers several camera equipped devices. Please refer to the Pricing and Equipment Offer in the Attachments section of this response or visit www.VerizonWireless.com.

3.6.3 GPS integrated

Verizon Wireless Response:

Verizon Wireless currently offers several devices featuring GPS capabilities. Please refer to the Pricing and Equipment Offer in the Attachments section of this response or visit www.VerizonWireless.com.

3.6.4 Hands-Free capable

Verizon Wireless Response:

Approximately two-thirds of the handsets offered by Verizon Wireless offer an optional earbud/portable hands free kit. Approximately one-third of the handsets currently offered by Verizon Wireless have optional hands free kits that may be installed in an automobile. Please contact your Verizon Wireless Account Manager for further details on the specific devices with this functionality.

3.6.5 Speakerphone

Verizon Wireless Response:

Verizon Wireless currently offers several devices with a speakerphone option. Please refer to the Pricing and Equipment Offer in the Attachments section of this response or visit www.VerizonWireless.com.

3.6.6 Wi-Fi

Verizon Wireless Response:

Verizon Wireless currently offers several devices with Wi-Fi capability. Please refer to the Pricing and Equipment Offer in the Attachments section of this response or visit www.VerizonWireless.com.

Many of Verizon Wireless' new Smartphones not only run on the nation's most reliable 3G data network but they are also Wi-Fi capable. Wi-Fi networks are generally short-ranged and provide wireless Internet access to localized public areas (often called "hotspots"), such as airports, hotels and coffee shops.

Additionally, for laptops, we offer Verizon Wi-Fi service as a complement to our Mobile Broadband plans and Global Data Options. Your employees can use Wi-Fi when it's available, and connect to the Internet using Mobile Broadband or Global Data Options when no hotspots are available.

Verizon Wi-Fi hotspot service offers your employees more ways to stay connected and manage their monthly Mobile Broadband plan allowances. Verizon Wi-Fi is available to Mobile Broadband and Global Data Option³ subscribers at no additional cost in thousands of hotspots across the U.S., Canada and Mexico⁴.

There are two ways your employees can locate Verizon Wi-Fi hotspots - by checking the list of hotspots at <http://www.verizonwireless.com/Wi-Fi> or by selecting the "Wi-Fi Locations" tab in their VZAccess Manager software. VZAccess Manager will check weekly for new Verizon Wi-Fi hotspots and alert your employees to download the updated list⁵.

Many commercial Wi-Fi hotspots may offer Internet speeds comparable to Mobile Broadband⁶. To better manage their Mobile Broadband plan allowances, your employees can connect to Verizon Wi-Fi, when available. Your employees should first ensure, however, that their computers have current security measures in place when connecting to any unencrypted connections like Wi-Fi hotspots.

Note: Verizon Wi-Fi does not support third-party Wi-Fi connection clients/software, such as Microsoft Wireless Connection Software or OEM Connection Managers.

- 3.7 The successful vendor(s) shall be available to meet with the Office of Technology on a regular basis (monthly or quarterly, at the State's discretion) to discuss the utilization of this contract and any relevant issues.**

Verizon Wireless Response:

Verizon Wireless currently offers Quarterly Business Reviews (QBRs) to many of our Government customers. A QBR is a high-level organizational review of services, behavior and practices with Verizon Wireless. Our QBRs are free of charge and are presented quarterly, encompassing the previous 13-month period. Included in the QBR presentation are analysis reports to show overall usage. Verizon Wireless also provides personalized

³ Verizon Wi-Fi hotspot service is not currently accessible to prepaid customers, Smartphone customers, Mobile Broadband Connect devices, customers with Alltel devices and plans, and those with Mac OS computers. For a list of supported Verizon Wi-Fi devices please visit www.vzam.net

⁴ Access is available in additional countries. (e.g., Honduras, Bahamas, Dominican Republic, Puerto Rico, U.S. Virgin Islands, and Costa Rica).

⁵ VZAccess Manager Version 7.2 or higher is required for Verizon Wi-Fi access. To download the latest version, select Check for Updates from the Help menu in VZAccess Manager or visit www.vzam.net.

⁶ Verizon Wi-Fi hotspots are not owned or operated by Verizon Wireless. Verizon Wireless is not able to estimate upload or download speeds at these locations.

recommendations on price plans and equipment based on analysis of the data. Please see the response to section 4.3.2 below for further details.

3.8 DATA SERVICES

3.8.1 Vendor shall provide "air cards" that allow for cellular data services for laptop or notebook computers.

Verizon Wireless Response:

The following devices support our Mobile Broadband and NationalAccess services:

- USB Modems can connect to virtually any laptop, notebook, netbook or tablet with a compatible Type A USB port.
- Mobile Broadband Built-In is available on select laptops, notebooks, netbooks and tablets with an embedded chipset that can connect wirelessly to our Mobile Broadband and NationalAccess services without the need for a separate modem.

Mobile Broadband Connect enables your employees to wirelessly connect to the Internet on a laptop, notebook, netbook or tablet tethered to a compatible Smartphone or Basic Phone. Mobile Broadband Connect requires a connector cable and VZAccess Manager software, which are included with all Smartphones. The cable and software are available for purchase for Mobile Broadband Connect-capable Basic Phones.

Mobile Hotspots

Samsung 4G LTE Mobile Hotspot

The Samsung 4G LTE Mobile Hotspot (SCH-LC11) is the next generation of Mobile Hotspots. This device offers the ability to connect up to five Wi-Fi compatible devices at once on Verizon Wireless' 4G LTE data network and your employees can seamlessly transition between our 4G LTE and 3G networks while they are on the go - with no need for additional drivers or connection software.

Verizon Wireless MiFi 4510L 4G LTE Mobile Hotspot

Unleash the power of 4G LTE with the award-winning Mi-Fi 4510L - the next generation intelligent mobile hotspot. You'll be able to conduct business where and when it happens, without limitations - instantly, securely and easily on up to five WiFi-enabled devices.

MiFi 2200 Intelligent Mobile Hotspot

The MiFi 2200 Intelligent Mobile Hotspot lets your employees create a personal Wi-Fi cloud capable of sharing the reliability and high-speed Internet connectivity of the Verizon Wireless 3G Mobile Broadband network with up to five Wi-Fi-enabled devices such as notebooks, netbooks, cameras, gaming devices or portable media/MP3 players.

The MiFi 2200 is small enough to fit in a pocket, measuring 3.5" x 2.3" x 0.4" and weighing 2.05 ounces. It combines a variety of features into its streamlined form factor, including integrated internal CDMA and Wi-Fi antennas, advanced security and authentication technologies. When one device is connected through Wi-Fi, the MiFi 2200's rechargeable battery provides up to four hours of active use and 40 hours of standby time on a single charge.

MiFi 2200 Intelligent Mobile Hotspot OTA

- The MiFi 2200 Intelligent Mobile Hotspot OTA version works the same way as the MiFi 2200 - it provides a wireless hub for up to five Wi-Fi-enabled devices at one time and has the same compact, lightweight form-factor, and rechargeable battery. MiFi 2200 OTA will activate wirelessly (tethering the device is no longer necessary) and VZAccess Manager has been removed from the activation process.

Fivespot Global Ready 3G Mobile Hotspot

Your employees can be their own 3G mobile hotspot whether traveling around the block or around the world with the Verizon Wireless Fivespot™ Global Ready 3G Mobile Hotspot. The Fivespot is the first global-ready 3G mobile hotspot and enables your employees to connect and share their data connection with up to five Wi-Fi-enabled devices including, netbooks, tablets and gaming devices within the United States and around the globe - the Fivespot comes with a pre-installed SIM card and provides global data service in more than 206 countries when subscribing to a Global Option.

The Fivespot supports:

- CDMA 1xEV-DO Rev. A/Rev. 0: 800/1900 MHz
- WCDMA/HSDPA/HSUPA: 850/1900/2100 MHz
- GSM/GPRS/EDGE: 850/900/1800/1900 MHz

The MiFi 2200 and Fivespot are available in Verizon Wireless Communications Stores and online at www.verizonwireless.com

3.8.2 When agency acquires data services, the vendor shall provide the following features at no additional charge:

- Unlimited Data
- Unlimited Text Messages

Verizon Wireless Response:

Verizon Wireless offers a broad range of wireless data services to help your employees work more effectively. Please refer to the Verizon Wireless Pricing and Equipment Offer in the Attachment section of this response for Unlimited Data and Unlimited Text Messaging options.

3.8.3 Data services that are required by the State shall include Internet access and e-mail utilizing integrated cellular handheld devices and non-standard cellular telephones. The requested data services shall be able to access e-mail service from the providing vendor or interface with the State's Microsoft Exchange e-mail system.

Verizon Wireless Response:

Verizon Wireless offers several wireless email solutions to your employees, providing access to government email, calendar, address book, "to do" lists, contact information and the Internet.

Verizon Wireless' email solutions provide the following functions:

- Government Email. Secure mobile access to enterprise email. Wirelessly synchronize email to a device.
- Personal Information Management (PIM). Access up to date calendar information, "to do" list items, and contact lists from enterprise email applications.
- Wireless Internet Access. Access public Internet sites using a wireless device.
- Instant Messaging. Easily download leading instant messaging products.
- Mobile Enterprise Portal. One user interface access point to all of subscribers' mobile enterprise applications, based on their preferences.

State of West Virginia

Request for Quotation – Cellular Phone Service

BlackBerry

BlackBerry is an always on, always connected email solution that provides quick easy access to email, contacts, calendar, and task lists while on the go.

BlackBerry Enterprise Server (BES) software provides a secure two-way link between the BlackBerry device and government data by providing standard HTTP connectivity to government applications, Internet, and Intranet services. The State can purchase the BES directly from Verizon Wireless. The server maintains a link to the messages in your employees' desktop email program mailbox, and offers the following features:

- When an employee forwards a message from the device, the entire original message is forwarded, including all attachments.
- After the first portion of the message is delivered to the device, the employee can request more of the message to be delivered (up to 32 KB). The first portion of the message ranges up to a maximum of 2 KB.
- When an employee includes the original message in a reply from the device, the entire original message is appended to the reply.

BlackBerry BES Express (BESX) is an entry-level version of BES (BlackBerry Enterprise Server). BESX is designed for small/medium businesses with an in-house email server solution with up to 75 BlackBerry device users, who collaborate using the organization's messaging server. Additional users can be supported if BESX is installed on a dedicated server.

Exchange ActiveSync

Exchange ActiveSync is a push-based email solution for companies using Windows Mobile (Exchange ActiveSync) or Palm Smartphones in conjunction with Microsoft Exchange Server 2003, or newer, with no additional software requirements. ActiveSync allows mobile devices to synchronize information over the air directly with the State's Exchange Server. Your employees can access their information by synchronizing their mobile device to an Exchange server, without having to be constantly connected to a mobile network.

Government Email

If you use Microsoft Exchange, IBM Lotus Notes, Google Apps or hosted IMAP servers for your business email, you'll find that the Government Email client enables your employees to wirelessly connect to their email, contacts, calendar and other data in real-time using select 3G Multimedia and Basic Phones – there's no need for Smartphones – and with Government Email there is no need for additional middleware, CALs (Client Access Licenses) or third-party servers.

Good for Enterprise

Good for Enterprise is a standards-based wireless messaging and application access system that provides mobile field forces with a two-way wirelessly synchronized connection to the Microsoft Exchange Server, IBM Lotus Domino and other critical applications such as Enterprise Resource Planning. Good for Enterprise supports Microsoft Windows Mobile 6.1 and 6.5, Android, and Apple® iPhone® 4 devices.

IBM Lotus Notes Traveler

If the State uses Lotus Domino servers your employees can also use our Lotus Notes Traveler with their Windows mobile device to stay productive while on-the-go. Advantages for your employees include: over-the-air installation, folder support, Notes-style addressing, encrypted mail support and remote security management.

3.8.4 The vendor must support at least one of the following mobile operating systems:

- GOOD technology supported devices
- MS Windows Activesync
- RIM Blackberry

Integrated cellular equipment provided under this contract shall include such items as netbooks and tablets that have integrated cellular service.

Verizon Wireless Response:

Verizon Wireless supports all of the listed mobile operating systems. Please refer to Verizon Wireless' response to section 3.8.3 above.

4.0 REQUIREMENTS: ORDERING, SERVICE, SUPPORT, REPORTING AND BILLING

4.1 ORDERING

4.1.1 Agencies shall prepare a written state contract order form WV-39 and submit to Office of Technology contract administrator for approval at WVOT.CELL@WV.GOV. Each WV-39 should clearly denote the quantity and commodity/commodities to be purchased.

Verizon Wireless Response:

Verizon Wireless acknowledges.

4.1.2 If approved by the contract administrator the Agency will receive said approval via email.

Verizon Wireless Response:

Verizon Wireless acknowledges.

4.1.3 Once the contract administrator approves the order the administrator submits the WV-39 created by the Agency to the Vendor for the approved commodity/commodities covered by this contract.

Verizon Wireless Response:

Verizon Wireless acknowledges.

4.1.4 The Vendor(s) shall provide activation of new service, or portability services at no additional charge.

Verizon Wireless Response:

Verizon Wireless acknowledges. Verizon Wireless will not charge your government subscribers activation fees.

On Machine to Machine lines of service the activation fee per line with Month to Month and one-year line terms is \$15.00 and on two-year line terms the activation fee is \$10.00.

Verizon Wireless does not currently charge a fee for porting numbers to or from our service. Important Note: Any subscriber who ports a line from Verizon Wireless to another carrier will be responsible for any accrued charges, and any applicable early termination fee, if ported before the end of their line term commitment.

4.2 SUPPORT

4.2.1 Vendor(s) shall provide a toll-free support number coverage 24x7x365, staffed by technical personnel, to answer any service-related questions, including, but not limited to: parts, service, and administrative support.

Verizon Wireless Response:

Our Business and Government Customer Operations teams are trained to address your employees' inquiries related to Verizon Wireless services. They operate out of five full-service centers across the country. Their locations and hours of operation are generally as follows:

- Midwest - Warrendale, Pennsylvania and Dublin, Ohio available weekdays 7:00 a.m. to 9 p.m. ET;
- Northeast - Hanover, Maryland available weekdays 7 a.m. to 9 p.m. ET;
- South - Alpharetta, Georgia available weekdays 7 a.m. to 9 p.m. ET; and
- West - Rancho Cordova, California available weekdays 7 a.m. to 9 p.m. PT.

The Business and Government Customer Operations team assigned to the State's account is determined by the geographical area of your location and can be reached via a toll- and airtime-free number.

In the event your employees seek assistance after your Business and Government Customer Operations team's hours, the Verizon Wireless Customer Care team is available from 6 a.m. to 11 p.m. in each time zone and can be reached toll-free at 800-922-0204 and airtime-free at *611, from the wireless phone. Customer Care is not specifically trained to support our government accounts, but can address many of your employees' inquiries.

If you are experiencing a technical issue with your service or equipment, the Verizon Wireless technical support staff is available 24 hours a day, 7 days a week and can also be reached toll-free at 800-922-0204.

Your authorized contact also has the option of contacting your Verizon Wireless Account Manager for assistance in managing your account.

4.2.2 The Vendor shall repair or replacement of any malfunctioning units, must be with equipment equal to, or better than, the original unit.

Verizon Wireless Response:

Verizon Wireless will reasonably assist the State with obtaining repair or replacement of equipment under warranty. However, Verizon Wireless is not an equipment manufacturer. As part of the wireless handset equipment package, the State will receive the manufacturer's consumer warranty, typically one (1) year in length. If equipment is within the warranty period, warranty-covered costs for defect or failure should be covered by the manufacturer. Some equipment may need to be returned directly to the manufacturer for repair under the warranty guidelines.

In the event that the subscriber's equipment is no longer covered under the manufacturer's warranty, additional charges for repair may apply, and it may be more cost efficient for the subscriber to purchase new equipment.

Verizon Wireless offers a two-year Extended Limited Warranty for an additional monthly fee, available in select markets. Please see your Verizon Wireless Account Manager for further details.

- 4.2.3 If requested by the State, vendor(s) shall provide free replacement of standard (basic) telephones and cellular data cards at the end of the devices' normal life cycle as mutually agreed upon by the vendor and the State.

Verizon Wireless Response:

We've simplified our upgrade policy. State employees will be eligible for promotional pricing beginning month 10 of a one-year line term as well as any special offers we may make available. Of course, your employees may purchase equipment at non-discounted full retail pricing at any time. Verizon Wireless may make certain equipment available at no charge; however, Verizon Wireless does not guarantee that we will always be able to offer equipment at no charge through the term of the resulting agreement. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

- 4.2.4 If vendor(s) implements technologies that render the State's voice or data devices inoperable, or otherwise non-functional, vendor(s) will provide replacement devices free of charge prior to the new services becoming available.

Verizon Wireless Response:

As new technology becomes commercially available, the State may add new plans, features and equipment that take advantage of the technology's functionality. If new equipment is needed, then the State may order new equipment in accordance with the terms and conditions for equipment upgrades as outlined in section 4.2.3 above and the agreement between the State and Verizon Wireless.

Verizon Wireless will continue to support existing technologies as we continue to expand our 4G technology platform. We have not scheduled a "sunset" date for any of our digital CDMA technologies. In December 2010, we launched our 4G LTE network in select markets including Charleston, WV. As we roll out our 4G LTE network across the country, we will continue to support 2G and 3G technologies on the Verizon Wireless network for the foreseeable future. The only technology that has reached the end of its operational lifespan is our analog service, which was shut down on February 18, 2008 pursuant to the FCC analog sunset order.

Additionally, as we continue the integration of the Alltel and Verizon Wireless data networks, in 2012, we will begin integrating the legacy Alltel data network into the Verizon Wireless data network. As a result of this integration, Alltel data devices and services utilized today will need to be changed in order to continue service after the data network integration is complete, approximately June 2012. Verizon Wireless will keep impacted customers informed of milestones during the integration process.

4.3 REPORTING

- 4.3.1 Vendor(s) shall furnish monthly availability and reliability statistics to the West Virginia Office of Technology for West Virginia's "home area". This must include the percentage of time the network was not 100% available in the home area and the percentage of dropped calls in home area per user. The report should be in Excel format.

Verizon Wireless Response:

Verizon Wireless takes exception. Recognizing that reliable wireless service is critical to your business, Verizon Wireless has established extensive preventive maintenance measures, network monitoring and system backup capabilities. These measures, coupled with our internal performance processes, enable us to provide our customers with levels of wireless service reliability that distinguish us from other national wireless carriers.

Verizon Wireless is pleased to offer the National Network Service Level Agreement Reporting program. This program offers the State the ability to receive monthly reports that illustrate our continued commitment to providing the nation's most reliable network. All performance metrics, measured against applicable targets, are reported as "Pass/Fail", with actual metrics reported for missed targets. All reported metrics are measured on a 24x7 basis, including periods of normal network maintenance, and reported nationally as a monthly average.

Customers qualifying for this program will receive performance reports that include the following information:

Voice:

- Call Set Up Success: greater than or equal to 98.0%.
- Lost Calls: less than or equal to 2.0%.

1X Data:

- Session Set Up Success: greater than or equal to 98.0%.
- Dropped Sessions: less than or equal to 2.0%.
- Average User Data Rate (downlink): greater than or equal to 80 Kbps.
- Average User Data Rate (uplink): greater than or equal to 80 Kbps.
- Latency (roundtrip radio link): less than or equal to 400 milliseconds.

EV-DO Data

- Session Set Up Success: greater than or equal to 98.0%.
- Dropped Sessions: less than or equal to 2.0%.
- Average User Data Rate (downlink): greater than or equal to 750 Kbps.
- Average User Data Rate (uplink): greater than or equal to 500 Kbps.
- Latency (roundtrip radio link): less than or equal to 150 milliseconds.

Short Message Service (SMS)

- Text Message Delivery: Delivery within 20 seconds, greater than or equal to 98.0% of the time.

Cell Site Availability:

- Availability greater than or equal to 99.9%.

In no event shall the failure to meet the stated service goals subject Verizon Wireless to any penalties or damages of any kind.

Please note that these reports contain Verizon Wireless confidential information and are protected by our agreed confidentiality terms and conditions

- 4.3.2 Vendor(s) will provide a free quarterly optimization calculation, as applicable and requested by the State. There shall not be any additional charge or commitment for moving a user into a more appropriate plan. Optimization recommendations must be communicated through a quarterly report. The State will use this information for evaluating the State's cell phone usage, as provided by the vendor.**

Verizon Wireless Response:

Verizon Wireless currently offers QBRs to many of our Government customers. A QBR is a high-level organizational review of services, behavior and practices with Verizon Wireless. Our QBRs are free of charge and are presented quarterly, encompassing the previous 13-month period. Included in the QBR presentation are

analysis reports to show overall usage. Verizon Wireless also provides personalized recommendations on price plans and equipment based on analysis of the data. In addition, QBRs accomplish the following:

- Provide a periodic high-level update of key wireless program metrics.
- Help ensure best possible value for your agency's wireless expense.
- Identify specific areas that need further focus, such as:
 - Lines that could benefit from price plan optimization
 - Identification of obsolete devices
 - New ways that wireless technology can support your agency's mission
- Clarify and resolve outstanding issues, making it easier to do business with Verizon Wireless.

QBR topics for discussion include:

- State Support
- Account Support
- Lines In Service
- Voice and Data Breakout
- Billing and Lines of Service
- Monthly Airtime Overages
- Account Analysis
- Activations
- Deactivations
- Accounts Receivables
- Equipment Inventory
- Next Steps.

In addition to QBRs, Verizon Wireless can provide monthly ad hoc reports to satisfy any additional information requirements.

The State may also access the Business Account Analysis (BAA) function in My Business Account. By using BAA, you can identify opportunities to save money and see valuable recommendations and pertinent account information - all in one view. BAA can save you time usually spent reviewing and researching accounts by highlighting your employees' usage habits, equipment needs and upgrade opportunities.

4.3.3 Vendor(s) shall provide to the state an additional monthly report that shows total minutes of usage by billed telephone number (BTN), in addition to billing the user agencies.

Verizon Wireless Response:

Online Reporting

Verizon Wireless offers My Business Account to assist you in managing your wireless usage, evaluating trends and creating reports. My Business Account is designed in an easy-to-use, accessible format. You can manipulate and export data into your required formats through the use of Microsoft applications.

With My Business Account you can:

- Receive online reporting in a consolidated manner or broken out by account or wireless number.
- View individual phone information, such as airtime usage and call detail.
- Modify mobile number information to allow for specific, customized analysis.

My Business Account provides approximately 40 comprehensive templated reports, such as:

- Account Reports - These reports can provide information on multiple or individual accounts.

20 Longest Calls	Cost Summary by Call Type
20 Most Expensive Calls	Cost Summary By Month
20 Most Called Numbers	Cost Summary By Time Period
20 Most Expensive Called Numbers	Summary Usage
20 Most Called Countries	

- Wireless Number Report - These reports can provide usage and cost information for a single MDN.

Top 10 Most Expensive Calls	Calls By Call Origination
20 Most Dialed Calls	Charges By Call Origination
Calls By Call Type	Minutes By Call Origination:
Charges By Call Type	<ul style="list-style-type: none"> Calls By Rate Period
Minutes By Call Type	<ul style="list-style-type: none"> Charges By Rate Period
Minutes by Destination	<ul style="list-style-type: none"> Calls By Destination
Minutes By Rate Period	<ul style="list-style-type: none"> Device Report⁷

- Advanced reports are also available.

Additional Charges	National Mobile to Mobile Calling/Mobile to Mobile Network Report
Airtime Charges Detail	Memo Bill
Airtime Charges Summary	Monthly Usage
Call Detail	View Structure
Data Usage	Top 20 Out of Network Calls
Deactivated Mobile Number Report	Suspended Mobile Number Report
Grand Total	Global Summary Report
Raw Data Download [available by request]	

You can add or remove fields from existing template reports. You can also create customized reports for the way the State does business, including just the information you need – selecting from over 300 different reporting fields and order the fields in any sequence you want for your reports. You can save and schedule reports in advance, and receive an email when they are ready to be downloaded. You can also share saved reports with others within the State or keep them private and change sharing status as needed.

Raw Data Download

If the State would like to create custom reports, the raw data from your bills is available online. Raw data download (RDD) is a representation of your Verizon Wireless bills and does not include any of the reporting structures you design in My Business Account. The download provides a holistic view of all of your statement data, and it is delivered in a .zip file with four individual .txt files. The .txt files are:

- Account Summary - Represents the account summary section of a statement.
- Account and Wireless Charges Detail Summary - Represents the wireless number charges section of a statement.
- Account and Wireless Summary - Represents the wireless number summary section of a statement.
- Wireless Usage Detail - Represents the usage section of a statement.

RDD is available after the bill statement date for the account with the latest bill cycle. For example:

- If the State has four accounts, each with the following differing statement dates: the 1st, 6th, 15th and 28th of the month, RDD should be available around the 7th of the next month.

⁷ Device report includes user name, wireless number, make/model of device, and upgrade eligibility date.

- If the State has accounts, all with the same statement date, for example the 6th of the month, RDD should be available on the 13th of the month.

While these reports will meet the vast majority of your requirements, additional non-standard reporting options may be available. Your Verizon Wireless Account Manager can provide further details.

4.4 BILLING

- 4.4.1 State Agencies shall have the ability to change rate plans on a particular line without any fee or charge to the agency.

Verizon Wireless Response:

Although subscribers can generally change their calling plans and/or features at any time without incurring additional fees and without extending their contracts, certain promotional offers or custom calling plans may require a new individual line term commitment. Similarly, the purchase of discounted new equipment after an initial activation may also require a new line term commitment.

- 4.4.2 It will be the responsibility of the successful vendor(s) to bill the individual spending units based on their individual requirements. Options may include:
- A separate bill per service line requested
 - Aggregate billing by agency geographic location
 - Aggregate billing for the spending unit (Time aggregation would only be expected at the aggregated bill level and not across spending units.)

Verizon Wireless Response:

Verizon Wireless can bill and invoice separately your departments that are set up as separate accounts. The State may order equipment and services under the respective accounts, and such equipment and services can be billed to the specified account. Within each account, the State may further allocate services to individual cost centers, and such cost centers will be available for detailed billing analysis within My Business Account.

Upon request, your specific invoicing points may be built into the reporting hierarchy. Changes to the hierarchy are currently supported within Verizon Wireless' customer care organization.

4.4.3 This billing shall be provided in a pre-approved format, as agreed upon by both the vendor(s) and the State. These bills will be delivered to the State on a pre-arranged delivery date, mutually agreed upon by the State and the vendor(s). Billing at a minimum should detail, for each line active on that bill, the following:

- | | |
|---|--|
| • User Name | • Plan level |
| • * Cellular Number | • *Date and time of call or data transaction |
| • Office (landline) Number | • *Number called |
| • Supervisor's Name | • *Duration of call or size of data transmission |
| • Supervisor's Office (landline) Number | • *Cost of call or data transmission |
| • Department | • *Overage charges, if applicable |
| • *Agency Name | • *Fees |
| • Unit Name | |
| • Org. Number | |
| • *Bill to address | |

*Denotes mandatory detail

Verizon Wireless Response:

My Business Account is the online self-service tool for Verizon Wireless business and government customers. My Business Account enables you to view and pay your bills, create business structures, view select reports and maintain your account. Additionally, your designated employees can purchase equipment, accessories and service using My Business Account's functionality.

My Business Account is organized by easy-to-use links. Simply click on the link you need based on what you want to accomplish. My Business Account has the following functionality:

- Administration – The Administration link enables your designated employees to perform several useful functions that help manage your account. From the Administration link, you can view the State's profile, manage billing accounts, create business or personal address books, go paperless and create business structures.
- More About Business Structures – A Business Structure is a customized hierarchical view of billing information. Business Structures are created by your designated employees directly in My Business Account. Business Structures enable you to organize your billing accounts by department, geographic territory, or in whatever way best meets your needs. By doing so, you will be able to see a cost summary for each Business Structure. For example, the State may have 50 mobile numbers and 10 billing account numbers. Your designated employees could create a Business Structure for your Marketing department, another for Finance and another for Sales, etc.
- Statements – The Statements link provides a quick, easy method for the State to review your balance, last payment and a summary of current charges. In addition, you can view usage and charges related to your entire account or a particular account. From the Statements page, you can easily view or print your bill in several flexible formats. You can also view unbilled voice, data and text message usage. You can view up to six previous statements.
- Payments – The Payments link enables you to apply payments to your account(s). You can use checking or savings accounts for a one-time payment. For recurring payments, a credit/debit card or a business checking or savings account can be used. The Payments link can also send email notifications to you if a payment is reversed or declined.
- Reports – The Reports link offers you the ability to pull data based on usage or cost. For example, you can view the "20 longest phone calls" or a "summary of cost by month". Additionally, your designated employees can pull a summary usage report that includes usage statistics at the mobile telephone number (MTN) level. You can receive usage details for such things as peak, off-peak and nights and weekends. Reports help you manage your account and make informed decisions about your service.

- **Help** – The Help link is a tool for the State's designated employees to demonstrate how to use My Business Account and to find answers to frequently asked questions. The My Business Account "Online Tutorial" can be found in the Help link and is a useful tool to train your designated employees on how to use the application. The Support link under Help provides interactive demos on how to set up Business Structures, make payments and manage users.
- **Account Maintenance** – Your designated employees can manage account activity online through the Account Maintenance link. The Account Maintenance link offers a range of functionality, such as updating account information, changing a voicemail password, completing a local telephone number change or checking the status of a port. Additionally, you can make ESN changes online and initiate device upgrades from this link.
- **Order Online** – Your designated employees can use the Web portal to order new devices and accessories when logged into My Business Account. The ordering site is customized with the State's name and reflects your pricing and equipment discount. This provides your designated employees greater flexibility in placing orders right from their own desktop via a single login.

Please see your Verizon Wireless Account Manager for more details about My Business Account or access the My Business demo through the following link:

http://www.verizonwireless.com/SMB/account_demo/index.html.

4.4.7 The State of WV will not pay activation fees, disconnection fees, early termination fees, upgrade fees, or roaming fees, within the designated "home area," as part of this contract.

Verizon Wireless Response:

Verizon Wireless agrees to waive the Activation Fees and Early Termination Fees for the State of West Virginia government subscribers. Please refer to the Verizon Wireless response to section 4.2.3 above for details on the upgrades. All Verizon Wireless Nationwide plans offer subscribers the ability to make or receive calls with no roaming or long distance charges while in the Nationwide Rate and Coverage Area. Please refer to the Pricing and Equipment Offer in the Attachments section of this response for details.

4.4.8 Vendor(s) must include, per telephone number and/or IP address, all fees (USF, Administrative Fees, etc.) listed separately, as part of the base monthly rate. These fees must be specifically identified in the vendor(s)' response. The state cannot pay any tax, fee or surcharge that is not specifically mentioned as part of the contract or is not included as part of the base monthly rate. The State of West Virginia is exempt from all Federal and West Virginia State taxes.

Verizon Wireless Response:

In addition to taxes, charges and fees that Verizon Wireless is required to collect, we also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include state-specific surcharges and surcharges that are imposed nationwide. Those nationwide surcharges include the Federal Universal Service Charge, the Regulatory Charge and the Administrative Charge. These surcharges are Verizon Wireless charges, not taxes, and are subject to change. Verizon Wireless will provide notice of Surcharge rate changes to the State. Once approved, the change will have retroactive effect. Because these surcharges are not taxes, your tax exemptions, if any, will not apply to these charges. So long as the customer has not elected to suppress bill notices, Verizon Wireless provides notice of surcharge rate changes on the monthly bill.

Federal Universal Service Charge

The FCC collects a fee from all wireless carriers for the Federal Universal Service Fund (FUSF). The FCC uses the FUSF monies to promote universally affordable telecommunications and information services to all

Americans, including low-income consumers, eligible schools, libraries and rural healthcare providers. The FCC allows carriers to pass through this fee to customers. The Federal Universal Service Charge (FUSC) collected by Verizon Wireless is a percentage of the customer's monthly bill and is used to defray the costs of the FUSF. The FUSC is collected on most items on the bill, other than data charges for broadband Internet access, equipment charges and taxes. As of October 1, 2011, the basic FUSC rate is 15.3% and changes quarterly. The FUSC rate for bundled minute plans is 3.42% if the customer does not exceed the included number of minutes. The 15.3% rate applies to long distance interstate calls that exceed the customer's included bundle of minutes. Other services, such as VOIP, are charged a lower FUSC rate.

Verizon Wireless provides notice of the rate change and will seek approval for those rate changes from the State. FUSC rates typically change on the first of the month of each quarter.

Regulatory Charge

The Regulatory Charge is an assessment that helps defray Verizon Wireless' ongoing costs of complying with various governmental mandates and assessments. Examples include:

- The cost of the license fees assessed by the FCC.
- Costs assessed by the FCC to administer local number portability requirements.

This charge is subject to change over time upon notice and is taxable in most jurisdictions. The Regulatory Charge is \$0.02 per line for broadband Internet access devices and is \$0.16 per line for all other services.

State E911 Fees

Verizon Wireless currently charges a State E911 Fee of \$3.00 per line of service excluding broadband Internet access devices.

Administrative Charge

The Administrative Charge is a Verizon Wireless charge - it is not a tax that we are required to collect. The Administrative Charge is \$0.06 per line for broadband Internet access devices and \$0.83 per line for all other services. The charge changes from time to time. Verizon Wireless collects the charge to help defray certain costs we incur, currently including:

- Charges we, or our agents, pay local telephone companies for delivering calls from our customers to their customers.
- Fees and assessments on network facilities and services.
- Certain costs and charges associated with proceedings related to new cell site construction.

This charge is subject to change over time upon notice and is taxable in most jurisdictions. For more information about these charges, please read the "What are Verizon Wireless' surcharges?" FAQ at: http://support.vzw.com/faqs/Account%20Management/faq_billing.html

West Virginia Public Service Commission Surcharge

The WV Public Service Commission Surcharge is currently 0.2918% for voice plans and 0% for Broadband Internet plans, subject to change.

5.0 Award

- 5.1 This contract may consist of awards to multiple vendor(s) required to cover all features as described in the RFQ and all geographic areas of West Virginia in which the State needs service. The vendor(s) is solely responsible for all work performed under the contract and shall assume prime contractor responsibility for all services offered and products to be delivered under the terms of this contract. The State will consider the vendor(s) to be the sole point of contact with regard to all contractual matters. The vendor(s) may enter into written subcontracts for performance of work under the contract; however, the vendor(s) is totally responsible for payment of all subcontractors.

Verizon Wireless Response:

Verizon Wireless acknowledges. Verizon Wireless does not anticipate engaging any subcontractors to fulfill the State's requirements; however, Verizon Wireless does engage third parties to provide roaming and Wi-Fi hotspot service for our customers.

5.2 Inter-State Agreements

The State reserves the right to utilize inter-state agreements, such as the Western States Contracting Alliance (WSCA), or GSA pricing schedule, to purchase equipment and service, outside of the terms and conditions of any contract resulting from an award of this RFQ.

Verizon Wireless Response:

Verizon Wireless acknowledges. Please note that the Verizon Wireless Pricing and Equipment Offer attachment does not include the WSCA or GSA-FSS pricing options and applicable terms and conditions at this time. Please contact your Verizon Wireless Account Manager for further details regarding pricing and terms and conditions related to both the WSCA and GSA-FSS contracts with Verizon Wireless.

5.3 Separate and Independent Government Agreements

The Vendor(s) may make the products and services requested in this RFQ available to county and local municipalities, as well as any other official boards and commissions deemed eligible as legitimate, governmental entities. If the Vendor(s) exercises this option, the State will not be liable for billing, management or any other services related to these separate, independent agreements.

Verizon Wireless Response:

Verizon Wireless acknowledges.

6.0 CHANGES AFTER THE AWARD

6.1 Upgrades

Due to continuing evolution of cellular technology and constant changes in each vendor's capabilities, the winning vendor(s) will have the opportunity to present the Chief Technology Officer information about new products, new services and new coverage areas offered for the State's consideration as well as proposed pricing. The Office of Technology will do an analysis of each proposal to ensure the products and services offered continue to meet the State's needs in a cost-effective manner. The Office of Technology will also compare these offerings with offerings available in the marketplace to ensure that the proposal is competitive, reasonable and proven. Only vendor(s) awarded contracts from the original RFQ may participate in this upgrade of the State's integrated cellular services. If the proposed change is accepted by the Office of Technology, they must be processed through and approved as a change order by the Purchasing Division.

Verizon Wireless Response:

Verizon Wireless acknowledges.

VERIZON WIRELESS

Information contained in this spreadsheet response is provided for review purposes only. Please be advised that this spreadsheet pricing is based on the Verizon Wireless Pricing and Equipment Proposal. While the data contained in this spreadsheet response was compiled from reliable sources, the information may be subject to errors and omissions. Verizon Wireless reserves the right to make any corrections necessary for accuracy and completeness. In the event of any ambiguities or inconsistencies between the information contained in the completed proposal, bid, and pricing spreadsheets, and Verizon Wireless' Pricing & Equipment Proposal, the information contained in Verizon Wireless' Pricing & Equipment Proposal and www.VerizonWireless.com shall prevail.

VERIZON WIRELESS

Verizon Wireless handsets are typically packaged with a standard battery and AC plug-in charger. Additional accessories such as a swivel holster may be packaged with certain handsets. Accessories provided may vary by device. Please visit www.verizonwireless.com for additional information on accessories. While included with most devices, a User's Guide is not provided with every phone. Interactive user's manuals can be accessed at <http://support.vzw.com/phones/?newphone=1>.

As part of the wireless handset equipment package, the State will receive the manufacturer's consumer warranty, typically one (1) year in length. If equipment is within the warranty period, warranty-covered costs for defect or failure should be covered by the manufacturer. Some equipment may need to be returned directly to the manufacturer for repair under the warranty guidelines. Verizon Wireless will reasonably assist the State with obtaining repair or replacement of equipment under warranty. However, Verizon Wireless is not an equipment manufacturer. In the event that the subscriber's equipment is no longer covered under the manufacturer's warranty, additional charges for repair may apply, and it may be more cost efficient for the subscriber to purchase new equipment.

Equipment package - cost of handset, AC Power Adapter/Charger, Battery and User Manual and related maintenance and support services provided by the manufacturer's warranty. Please add additional packages as necessary.

Plan Price - Monthly Cost of Plan (including all fees) *

Included Minutes - The number of minutes included in the Plan Bid

Additional Lines - Cost of each additional line if employees are sharing the minutes

Roaming Charges - Cost of Roaming Minutes if out of state. See Section 2.0 for definition of Roaming.

Overage Charges - Cost of minutes used over the minutes of the Plan as specified in Bid

SMS Text - Cost of Text messages, i.e., cost per message, per line, per 1000 mb)

Unlimited Data Package - The state requests only an unlimited data package

*Verizon Wireless' pricing does not include federal, state, local or foreign tax, fees, assessments or other charges (collectively "taxes"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Taxes and other fees vary by state and local areas and are subject to change without notice.

If any tax is required by law to be collected by Verizon Wireless, or by a serving carrier on a roaming call, then Verizon Wireless will include these taxes on the subscriber's Verizon Wireless bill. If Verizon Wireless incurs a tax or any other expense to comply with legal or governmental requirements, or other expense to provide or improve service to our customers, then Verizon Wireless can recover these surcharges from the subscriber by including them on the subscriber's bill. Surcharges may change without notice.

For more information, please visit the FCC's website at fcc.gov.

CPHONE11

COST SHEET 5 (of 5)

Please identify and describe any fees that will be added to your costs, i.e., USF fee.

Rates shown as of October 1, 2011.

FEES	DESCRIPTION
USF	As of October 1, 2011, the basic Federal Universal Service Fund (FUSC) rate is 15.3% and changes quarterly. The FUSC rate for bundled minute plans is 3.1% if the customer does not exceed the included number of minutes. The 15.3% rate applies to long distance interstate calls that exceed the customer's included bundle of minutes. The rate for Broadband Internet access plans is 0%.
Regulatory Charge	The Regulatory Charge is currently \$0.02 per line for broadband Internet access devices and is \$0.16 per line for all other services. This charge is subject to change over time upon notice.
State E911 Fees	Verizon Wireless currently charges a State E911 Fee of \$3.00 per line of service excluding broadband Internet access devices.
Administrative Charge	The Administrative Charge is currently \$0.06 per line for broadband Internet access devices and \$0.83 per line for all other services. Charge is subject to change periodically
WV Public Service Commission Surcharge	The WV Public Service Commission Surcharge is currently 0.2918% for voice plans and 0% for Broadband Internet plans, subject to change.
The charges listed above are subject to periodic change. Verizon Wireless will provide notice of rate changes to the State. Once approved, the change will have retroactive effect.	

CPHONE11:
Verizon Wireless Pricing &
Equipment Offer

Verizon Wireless Pricing and Equipment Proposal

Definitions:

Government Subscriber: An employee of Customer utilizing Wireless Service whose account is set up in Customer's name and for which Customer bears payment responsibility.

Equipment: Wireless telephones, data modems and similar devices and ancillary accessories used in conjunction with Wireless Service.

Wireless Service: Each and every radio service provided directly or indirectly by Verizon Wireless.

Eligible Plan(s): Any generally available Verizon Wireless voice, data or M2M plan with a monthly access fee of \$34.99 or higher that does not prohibit discounts.

Eligible Data Feature(s): Any generally available Verizon Wireless data feature with a monthly access fee of \$24.99 or higher, added to an Eligible Calling Plan, that does not prohibit discounts.

Machine to Machine Service ("M2M Service"): M2M refers to use of the Wireless Service for the transmission of data between wireless devices and computer servers or other machines, or between wireless devices, with limited or no manual intervention or supervision.

M2M Line(s): An individual line of M2M Service used under this Pricing and Equipment Proposal which is set up in Customer's name and for which Customer bears responsibility.

Plans, Features, Rates and Charges: The voice, data or M2M plan and any options, features or applications that are selected by the Customer determine the applicable rates, charges, allowance of minutes or megabytes and Wireless Service coverage area for each line. Some plans may have restrictions on the type of Equipment that can be activated on them. Information about retail plans, options, features, and applications (*i.e.*, those that Verizon Wireless makes generally available to consumers or business customers) and their terms and conditions may be obtained at Verizon Wireless stores, on verizonwireless.com or from Verizon Wireless business sales representatives. The voice, data or M2M plan monthly access fees and non-promotional allowance of minutes and/or megabytes for each line will not change during the Line Term as long as Customer does not change plans on that line. Other rates, charges and fees, including but not limited to charges for options, features, applications and 411 Connect, may be changed following 30 days' written notice. Verizon Wireless may discontinue any retail plans, options, features and applications for new activations without notice. If Customer changes or upgrades Equipment, Verizon Wireless may require it to change to a then-current plan that is compatible with the changed or upgraded Equipment. Customer may not activate Equipment purchase at a discount from Verizon Wireless on M2M Lines. Government discounts and pricing may not be available to purchases made through agents or at retail store locations.

Term of Lines ("Line Term"): The term for each line (the "Line Term") begins on the date Wireless Service is activated for that line and continues for the period required by the calling plan or Equipment selected for that line (usually 1 or 2 years). Line Term extensions are required when Customer: (a) takes advantage of promotions or services that require a Line Term extension; or (b) purchases or upgrades Equipment except for ancillary accessories used in conjunction with Wireless Service. When the Line Term expires, Wireless Service continues on a month-to-month basis. Activation fees are waived for Government Subscribers.

Early Termination Fees ("ETF"): Early termination fees are waived for the State of West Virginia Government Subscribers.

M2M Management Center: The Machine-to-Machine Management Center ("M2M Management Center") provides Customer with the ability to remotely monitor and manage its M2M devices. If Customer desires to access and use the M2M Management Center, it must so request in writing, and Verizon Wireless shall provision the M2M Management Center on Customer's account. Applicable rates and charges, if any, shall be set forth in this Addendum. The M2M Management Center may be provided by Verizon Wireless' third party supplier nPhase. The set-up time is estimated to take four to six weeks. The rights granted to Customer herein for access to and use of the M2M Management Center are specific to Customer and may not be transferred to another party without Verizon Wireless' prior written consent. Verizon Wireless and nPhase retain full and exclusive ownership of all intellectual property rights associated with the M2M Management Center including any alterations, modifications, improvements and derivative works thereof. The limitation of liability, limitation of damages and disclaimer of warranties sections of the Agreement apply to nPhase and to services provided hereunder by nPhase.

This Verizon Wireless offer supersedes all previous offers to the State of West Virginia.

Monthly Access Fee Discount on Eligible Plans and Eligible Data Features

Government Subscriber
Monthly Access Fee Discount

19%

Version 08032011

Custom State of West Virginia Regional Flat Rate Plan: Government Subscribers Only

The State of West Virginia Custom Mobile Broadband Calling Plan has been discounted and is not eligible for additional monthly access fee discounts.

Monthly Access Fee	\$9.99	
Monthly Allowance	0	
Per Minute Rate†	\$0.07 per minute	
NationalAccess Roaming*	\$0.50	
Domestic Long Distance†	Included	
	Optional Features	
Unlimited BlackBerry/PDA Data	\$44.99	
	500 Minutes	1000 Minutes
Mobile to Mobile	\$5.00	\$10.00
Night and Weekends	\$5.00	\$10.00

Note: These plans include a home airtime rate coverage area that encompasses the Verizon Wireless America's Choice network in the State of West Virginia only. See www.verizonwireless.com for important information about calling plans, features and options. *National Access Roaming applies when roaming outside the State of West Virginia (or near the state boarder accessing cell sites outside of the state boarder). †Domestic Long Distance applies within the home airtime rate coverage area. Megabytes sent or received (including advertising) will be aggregated each month, rounded up to the next full megabyte, and billed at \$1.99/ MB. Data sent or received using Mobile Web (including advertising), *Get it Now*, and other applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at \$1.99 per megabyte.

Custom State of West Virginia 3G/4G Mobile Broadband Plan: Government Subscribers Only

The State of West Virginia Custom Mobile Broadband Calling Plan has been discounted and is not eligible for additional monthly access fee discounts.

Monthly Access Fee	\$39.99	
Monthly Allowance	Unlimited	
Per Minute Rate†	\$0.25 per minute	
NationalAccess Roaming	\$0.002 per KB(Canada)/ \$0.005 per KB (Mexico)	
Domestic Long Distance	Included	

Notes: Current coverage details can be found at www.verizonwireless.com. See www.verizonwireless.com for important information about calling plans, features and options. Mobile Broadband Connect is currently available on select voice and data devices, and provides Mobile Broadband/NationalAccess service utilizing the device as a modem. A mobile office kit, VZAccess Manager Software, a cable for tethering and/ or a software update may be required. Bluetooth® is not supported with Mobile Broadband Connect. † Per Minute Rate applies to voice calls, IS-95 and other non- Mobile Broadband/NationalAccess data usage in the United States. If usage on a Data Plan or Feature that does not include a specific monthly megabyte allowance or that is not billed on a pay-as-you-use basis exceeds 5 gigabytes per account line during any billing period, we reserve the right to reduce throughput speed to a maximum of approximately 200 kilobits per second for up to thirty days. You may assess and monitor your own data usage during a particular billing period, including during the Return Period under your Worry Free Guarantee, by accessing My Account online, or by contacting Customer Service.

Custom State of West Virginia Americas Choice Voice Plans: Government Subscribers

The State of West Virginia Custom Voice Plans have been discounted and are not eligible for additional monthly access fee discounts.

Monthly Anytime Voice Minutes	Net Monthly Access Fee Non-Shared Minutes	Net Monthly Access Fee Shared Minutes
400	\$29.06	\$31.14
600	\$42.57	\$44.65
1000	\$55.03	\$57.11
Per Minute Rate (over allowance)	\$0.25 per minute	
Mobile to Mobile minutes [†]	Unlimited	
Night and Weekend Minutes	Unlimited	
Verizon Wireless Long Distance Rate	Included (for Domestic calls made within the 50 States)	
Unlimited Text Messages (Domestic) ^{††}	\$10.00 per line	
Unlimited Push-to-Talk	\$5.00 per line	
Wireless Priority Service (WPS)	\$0.00 per line	

Note: These plans include a home airtime area that encompasses the Verizon Wireless Americas Choice network. Our Americas Choice network includes Verizon Wireless' network and the network of select roaming partners. Please see map below for more information. Please see Calling Plan Features for included and additional features; Verizon Wireless Calling Plan Terms and Conditions apply. Long distance charges will apply when making or receiving calls outside the United States. Charges for International calls while Roaming domestically are billed separately as roaming and at the applicable international rate. International long distance (where available) will vary. International dialing and Directory Assistance calls will be categorized together and not detailed out on the monthly invoice. Charges for features will be categorized together, billed as other charges and not detailed. If the State of West Virginia Business SharePlan is not renewed, State of West Virginia's Government Subscriber lines will be migrated onto retail consumer pricing or Government pricing if available. Please see Calling Plan Features for included and additional features; Verizon Wireless Calling Plan Terms and Conditions apply.

[†]Mobile to Mobile minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless Subscriber line while in the Mobile to Mobile area. Mobile to Mobile minutes are per line and cannot be shared among multiple Government Subscribers within their market that are activated on the same account. Mobile to Mobile is not available to customers whose current wireless exchanges restrict the delivery of Caller ID. ^{††}Unlimited Messaging is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico.

1-Share Option: Sharing on these calling plans is for voice anytime minutes only. Customer must maintain a minimum of five (5) State of West Virginia Government Subscriber lines, all choosing a qualifying plan with Share Option. Verizon Wireless reserves the right to remove the Share Option from all Subscribers if the 5 Subscriber minimum is not met at any time. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Anytime Allowance Minutes apply first to that line. Unused Monthly Anytime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Anytime Allowance in order of highest usage. Data sent or received using Mobile Web (including advertising), *Get it Now*, and other applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at \$1.99 per megabyte.

Custom State of West Virginia Voice and Data Bundle Plans - Government Subscribers

The State of West Virginia Voice and Data Bundle Plans have been discounted and are not eligible for additional monthly access fee discounts.

Monthly Anytime Voice Minutes	Net Monthly Access Fee Non-Shared Minutes	Net Monthly Access Fee Shared Minutes
400	\$49.84	\$51.91
600	\$63.33	\$65.42
1000	\$75.80	\$77.87
Overage Rate	\$0.25 per minute	
Mobile to Mobile Minutes	Unlimited	
Night and Weekend Minutes	Unlimited	
Domestic Long Distance	Included	
Text Domestic Messages[†]	Included (Unlimited)	
MB Allowance	Unlimited	
Wireless Priority Service (WPS)	\$0.00	
Unlimited Push-to-Talk	\$5.00	
Tethered Modem	\$10.00	

Notes: These plans include a home airtime area that encompasses the Verizon Wireless Americas Choice network. Our Americas Choice network includes Verizon Wireless' network and the network of select roaming partners. Please see map below for more information. See attached Verizon Wireless Voice and Data Calling Plan Terms and Conditions for important information about calling plans, features and options. [†]Unlimited Messaging is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. Messaging bundle benefits do not apply to international messages. A data plan or feature is required to use a BlackBerry device. 1-Share Option: Sharing on these calling plans is for voice anytime minutes only. Customer must maintain a minimum of five (5) State of West Virginia Government Subscriber lines, all choosing a qualifying plan with Share Option. Verizon Wireless reserves the right to remove the Share Option from all Subscribers if the 5 Subscriber minimum is not met at any time. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Anytime Allowance Minutes apply first to that line. Unused Monthly Anytime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Anytime Allowance in order of highest usage.

Wireless Priority Service (WPS) Access

WPS Access Feature Initiation Fee	\$0.00
WPS Access Monthly Access Charge	\$0.00
WPS Access Per Minute Charge	\$0.75

Wireless Priority Service Access (WPS Access) is subject to the terms and conditions of the resulting agreement and calling plan. A WPS Access function on a limited portion of the Verizon Wireless owned and operated 800/1900 MHz CDMA network, and is available only to individuals authorized by the Office of the Manager National Communications System (NCS). WPS Access provides end users with the ability to be placed into a queue for the next available wireless voice channel ahead of end users not subscribing to WPS Access. Verizon Wireless makes no assurances regarding waiting times associated with WPS, nor can Verizon Wireless ensure that WPS Access calls will be connected. The WPS Access charges, including the \$0.75/minute charge, are all in addition to the charges associated with your Verizon Wireless calling plan. Please contact your Verizon Wireless Government Account Manager for complete details on WPS Access.

Custom Nationwide for Business Share Plan: Government Subscribers Only

The Custom Nationwide for Business Calling Plan is NOT eligible for monthly access fee discounts

Monthly Access Fee With Sharing	\$19.99
Home Airtime Minutes	0
Overage Rate	\$0.25 per minute
Mobile to Mobile Calling Minutes	Unlimited
Night and Weekend Minutes	Unlimited
Domestic Long Distance	Included
Data Sent or Received*	\$1.99/ MB or per data package*

Notes: Current Nationwide Calling Plan coverage details can be found at www.verizonwireless.com. See attached Calling Plan and Feature Details for important information about calling plans, features and options. This calling plan requires Subscribers to choose a twelve (12) month Line Term or Line Term extension. Sharing on this Calling Plan requires all Subscribers to be on the same billing account. *3G Smartphones and 3G Multimedia Phones require a data package. Customer may not have more than 50% of their Total Subscriber Lines per Account on this Calling Plan; otherwise, Verizon Wireless reserves the right to migrate all additional Government Subscribers to the Nationwide for Business Share Plan with a Monthly Access Fee of \$34.99. Standard features can be added to this plan. Custom or non-standard features cannot be added to this plan.

Notes: Current coverage details can be found at www.verizonwireless.com. Anytime minutes, Night and Weekend Minutes, and per minute rates are for use from within the Nationwide Plus Canada rate and coverage area. Mobile to Mobile Calling Minutes are for use from within the Nationwide Plus Canada rate in coverage area in the U.S. and Puerto Rico. See attached Calling Plan and Feature Details for important information about calling plans, features and options. Roaming in Canada outside of the Nationwide Plus Canada Rate and Coverage Area is \$0.69 per minute. *Friends & Family eligibility varies on selected calling plan. In the Canadian Broadband and Canadian Enhanced Services Rate and Coverage areas, usage will be charged at the rate of \$0.002 per KB or \$2.05 per MB. These plans are not eligible for discounts on month to month activations. †3G Smartphones and 3G Multimedia Phones require a data package.

Nationwide Plus Mexico Calling Plans

Nationwide Calling Plans are eligible for monthly access fee discounts and promotions (when available) and include:

Unlimited U.S. Mobile to Mobile Calling Minutes
No Domestic Roaming or Long Distance Charges to Mexico and the U.S. (Including Puerto Rico)

1000 U.S. Night & Weekend Minutes

Monthly Anytime Voice Minutes	Monthly Access Fee	Friends & Family (Up to 5 numbers)	Per-Minute Rate After Allowance
450	\$54.99	Not Included	\$0.45
900	\$74.99	Included*	\$0.40
1350	\$94.99		\$0.35
2000	\$114.99		\$0.25
4000	\$164.99		\$0.25
6000	\$214.99		\$0.20
Data Sent or Received	\$1.99/ MB or per data package*		

Notes: Current coverage details can be found at www.verizonwireless.com. Anytime minutes, Night and Weekend Minutes, and per minute rates are for use from within the Nationwide Plus Mexico rate and coverage area. Mobile to Mobile Calling Minutes are for use from within the Nationwide Plus Mexico rate in coverage area in the U.S. and Puerto Rico. See attached Calling Plan and Feature Details for important information about calling plans, features and options. Roaming in Mexico outside of the Nationwide Plus Mexico Rate and Coverage Area is \$0.99 per minute. *Friends & Family eligibility varies on selected calling plan. In the Mexican Broadband and Mexican Enhanced Services Rate and Coverage areas, usage will be charged at the rate of \$0.005 per KB or \$5.12 per MB. Verizon Wireless reserves the right to migrate subscribers on the Nationwide Plus Mexico service to the Nationwide for Business Calling Plan if subscribers have less than half of their usage on the Verizon Wireless Nationwide and National Mobile to Mobile Service Rate and Coverage Area over three consecutive billing cycles. These plans are not eligible for discounts on month to month activations. †3G Smartphones and 3G Multimedia Phones require a data package.

Nationwide Unlimited Push to Talk Calling Plan

The Push to Talk Unlimited calling plan is NOT eligible for monthly access fee discounts.

Monthly Access Fee	\$29.99
Home Airtime Minutes*	0
One to One Push to Talk	Unlimited
Data Sent or Received	\$1.99/ MB or per data package†

Note: Current coverage details can be found at www.verizonwireless.com. See attached Calling Plan and Feature Details for important information about calling plans, features and options. Push to Talk terms and conditions apply. *Subscribers to the Push to Talk Unlimited Calling Plan cannot place or receive regular cellular wireless calls other than to 611 and 911. (These calls may be placed anywhere in the Nationwide Rate and Coverage Area). If the voice block feature is removed, subscribers will be charged \$0.25 per minute for non-Push to Talk voice calls. †3G Smartphones and 3G Multimedia Phones require a data package.

Data Package Requirements

The Data Packages are eligible for monthly access fee discounts and promotions, when available*

Data for Feature Phones and Smartphones

Machine to Machine Plans

Machine to Machine Plans with monthly access fees \$34.99 or higher are eligible for Monthly Access Fee Discounts, when available.

Monthly Access	Data Allowance	Overage Rate per MB	Share Option*	Data Roaming per KB (Canada)
\$5.00	1 MB	\$3 per MB	Tier 1: Lines on 1MB through 50MB plans may share data at no charge	\$0.002
\$7.00	5 MB			
\$10.00	25 MB		Tier 2: Lines on 250MB through 5GB plans may share data at \$10/line monthly fee.	\$0.002
\$15.00	50 MB			
\$25.00	250 MB			
\$50.00	5 GB			

Note: Machine to Machine coverage included the Verizon Wireless 4G, 3G and 3G Extended networks. Current data coverage details can be found at www.verizonwireless.com. *Customer must maintain a minimum of 5 lines on the Machine to Machine plans in order to share data. Sharing among M2M lines is available only among lines active on plans in the same sharing tier. Each sharing Line's unused KBs will pass to other sharing Lines that have exceeded their data allowance, during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines. Some accounts may require special handling, which may take 1 to 2 bill cycles, before sharing is available. Plan changes may not take effect until the billing cycle following the change request.

Mobile Broadband for Machine to Machine (M2M) Plan

Mobile Broadband for Machine to Machine (M2M) Plan is eligible for Monthly Access Fee Discounts, when available.

Monthly Access	Data Allowance	Overage Rate per GB	Data Roaming per KB (Canada)
\$50.00	5GB	\$10.00/GB	\$0.002
\$80.00	10GB	\$10.00/GB	

Note: Machine to Machine coverage included the Verizon Wireless 4G, 3G and 3G Extended networks. 4G and 3G Mobile Broadband coverage details can be found at www.verizonwireless.com. 4G service requires 4G equipment and 4G coverage. Typical 4G speeds: 5 to 12 Mbps download, 2 to 5 Mbps upload. When traveling in the 3G Coverage Area, you can expect download speeds of 600 Kbps to 1.4 Mbps and upload speeds of 500 to 800 Kbps. When traveling in the Extended 3G Coverage Area, you can expect download speeds of 400 to 700 Kbps and upload speeds of 60 to 80 Kbps. Outside the Mobile Broadband Rate and Coverage Area, the NationalAccess network allows connections at typical speeds of 60 to 80 Kbps. Current data coverage details can be found at www.verizonwireless.com. Government Subscribers must select a new twenty four (24) month individual Line Term.

Verizon Wireless Calling Plan Optional Features

Calling Plans and Associated Charges: Government Subscribers may activate Wireless Service on the calling plans included with this Agreement, as well as eligible Verizon Wireless consumer/retail calling plans, subject to the terms of this Agreement. On Family SharePlan® calling plans, monthly access fee discounts apply only to the primary line of service. Subscribers may take advantage of promotions or purchase Equipment at government pricing, but this may require a Line Term extension after initial activation. Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access and any activation fees are payable in advance and will not be refunded after activation of the Wireless Service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber first presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call otherwise disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free; however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on calling plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the calling plan's rate and coverage area, unless otherwise specified in the calling plan.

Customer's Cell Phone Number and Caller ID: Verizon Wireless will assign one Mobile Telephone Number ("MTN") to each subscriber line. Other than as required to port an MTN, Customer does not have any property right in the MTN and Verizon Wireless may change, reassign, or eliminate an MTN upon reasonable notice to Customer under certain circumstances, including fraud prevention, area code changes and regulatory or statutory law enforcement requirements.

Unlimited Messaging: Unlimited Messaging is included with the Talk & Text Plans, and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via

email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. Messaging bundle benefits do not apply to international messages.

Friends & Family: Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide Family SharePlans with 1400 minutes or more, subscribers can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

Verizon Wireless Calling Plan Included Features ¹	
Call Waiting ^{2,7}	Three Way Calling ^{2,7}
Call Forwarding ^{2,7}	No Answer/ Busy Transfer ⁷
Caller ID ^{3,7}	Basic Voice Mail ^{2,4,7}
411 Search ^{5,7}	Basic Text Messaging ⁶
Mobile Web ^{2,7,8}	International Calling/ Roaming ⁹

¹Not available in some areas.

²Airtime charges apply to all calls simultaneously and to forwarded/ transferred calls even if the call is sent to another wireless phone. Voice mail boxes not initiated within 60 days of activation are cancelled.

³When making a call, subscriber's MTN may be displayed to the receiving party with Caller ID capable Equipment. Caller ID service may not be available outside the rate and coverage areas, and may not be compatible with certain enhanced features. Caller ID can be blocked for most calls by dialing *67 before each call, or by ordering per-line call blocking where available. Calls to some numbers, such as toll-free numbers, cannot be blocked.

⁴Airtime charges apply to message retrieval.

⁵411 Search, directory assistance with automatic call completion is subject to a \$1.99 per call fee plus airtime and text charges if applicable. Directory assistance rates are subject to change.

⁶Text Messaging offered at the prevailing rate, currently \$0.20 per inbound and \$0.20 per outbound message per address \$0.25 for picture messages. Text message charges are subject to change.

⁷Feature not included on NationalAccess and Mobile Broadband Plans at no charge, but are available at the prevailing Verizon Wireless rates.

⁸Mobile Web Alerts are sent as Text Messages and are subject to Text Messaging pricing, terms and conditions. Mobile web is not available on Smartphones or the Email and Web for BlackBerry Plans. Unless a Mobile TV Select Package is subscribed to megabytes sent or received (including advertising) will be aggregated each month, rounded up to the next full megabyte, and billed at \$1.99/ MB. Complete terms and conditions for Mobile Web may be found at www.verizonwireless.com.

⁹International Calling/ Roaming prices start at \$.49 a minute (plus airtime). For complete terms and conditions for International Calling/ Roaming please visit verizonwireless.com/international.

Calling Plan Optional Features

Unlimited Mobile to Mobile Messaging (Text, Picture, & Video Messaging)	Optional Feature Access Fee	Additional Messages	Overage Rate

Verizon Wireless Calling Plan Optional Features

	\$19.99 per user	\$29.99 per user	\$49.99 per user
	Monthly Access per Advanced Device†		
	Limited	Basic	Premium**
	\$15.00 per user	\$20.00 per user	\$30.00 per user

Optional Feature rates and packages are subject to change. Other Optional Features may be available please see your Account Manager or visit www.verizonwireless.com for information. *The Push to Talk Feature is available when combined with a calling plan with a monthly access fee of \$34.99 or higher. ** Field Force Manager Premium is not available on all devices. † Requires an Eligible Data Package with a Business Email Feature.

Visual Voice Mail: Visual Voice Mail is only available in the national Enhanced Services Coverage Area and only on select devices. Basic Voice Mail required. Not compatible with Text Messaging Block. Data charges apply during application download and standard messaging rates apply for messages initiated from the application. Accessing Voice Mail, Call Forwarding, Call Return, Personal Operator and other features are subject to airtime, long distance, roaming charges and taxes and Mobile to Mobile Calling minutes do not apply.

Push to Talk: Push to Talk calls may only be made with other Verizon Wireless Push to Talk subscribers, and only from the National Enhanced Services Rate and Coverage Areas. For optimal Push to Talk performance, all callers on a Push to Talk session must have an EV-DO Rev. A capable device and be receiving EV-DO service. A Push to Talk call is terminated by pressing END or will automatically time out after ten (10) seconds of inactivity. You cannot prevent others who have your wireless phone number from entering you into their Push to Talk contact list. Only one person can speak at a time during Push to Talk calls. When using your phone keypad to make a Push to Talk call, you must enter the ten-digit phone number of the called party. Presence information may not be available for all Push to Talk contacts. The timeliness of presence information may be impacted by the network registration status of a Push to Talk contact. Your Push to Talk service cannot be used for any applications that tether your phone to computers or other devices for any purpose. Push to Talk-capable phone and feature required. Push to Talk subscribers cannot use Push to Talk or other data products and services (i.e. Picture Messaging, Mobile Web, Get It Now, Mobile Broadband Connect, etc) while roaming on other carriers' networks at this time.

Mobile to Mobile Calling: Mobile to Mobile Calling minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless subscriber while in the Nationwide Rate and Coverage area. Mobile to Mobile calls must originate and terminate while both Verizon Wireless subscribers are within the Mobile to Mobile Calling area. Mobile to Mobile Calling is not available (i) to fixed wireless devices with usage substantially from a single cell site, (ii) for data usage including Push to Talk calls, Picture or Video Messaging (iii) if Call Forwarding or No Answer/Busy Transfer features are activated, (iv) for calls to Verizon Wireless customers using any of the VZGlobal® services, (v) for calls to check Voice Mail, (vi) in those areas of Louisiana and Mississippi where the users roaming indicator flashes, (vii) in Canada and Mexico and (viii) to users whose current wireless exchange restricts the delivery of Caller ID or Caller ID Block is initiated. Mobile to Mobile Calling minutes will be applied before Anytime Minutes.

Night and Weekend Minutes: Apply to calls made in a calling plan's rate and coverage area only during the following hours: 9:01pm Friday through 5:59am Monday and 9:01pm to 5:59am Monday through Friday.*

*NOTE: If both Night and Weekend and Mobile to Mobile Calling minute allowances apply to a given call, Mobile to Mobile Calling minutes will apply before Night and Weekend minutes. However, if either allowance is unlimited, the unlimited allowance will always apply first.

Text Messaging: Text Messaging includes Short Message Service (SMS up to 160 characters) and Enhanced Messaging Service (EMS up to 1120 characters). Enhanced Text Messages sent to most SMS handsets will be delivered as multiple Text messages of up to 160 characters each. Subscribers have the option to have text messages disabled entirely without affecting voicemail or other related services. Text Messaging plans do not include Operator Assisted Messaging or International Messaging, which is available for 25¢ per message sent and 20¢ per message received; see www.vtext.com for details and countries. Verizon Wireless is not responsible for information sent using Text Messaging or Enhanced Text Messaging. Verizon Wireless cannot guarantee that messages will be received and is not responsible for messages that are lost or misdirected. Messages not delivered after 5 days are

automatically deleted. Airtime charges do not apply to the sending or receiving of text messages. When sending messages from Equipment, the sender's MTN will always be sent to the destination, even if Caller ID is used to block voice calls.

Mobile to Mobile Messaging: Cannot be combined with any other package that includes a Text or Picture & Video message allowance. Mobile to Mobile Messaging applies only to Text/ Picture/ Video messages sent to and received from other Verizon Wireless subscribers' wireless phones while both wireless subscribers are within the National Enhanced Services Rate and Coverage Area. Additional messages apply to PIX Place, VTEXT/ Text Alerts/ getAlerts, Instant Messaging (IM), Email, Premium Text Services, and Text/Picture/Video messages sent to non-Verizon Wireless customers, and these messages will be decremented from the subscriber's Additional Message allowance or billed as overage. Additional Messages may not be applied toward International Text Messaging, which costs 25¢ per message sent and 20¢ per message received; please see www.vtext.com for additional details and countries.

Multi-Media Messaging (MMS): Multi-Media Messaging (MMS) includes picture and video messaging and is only available within the National Enhanced Services Rate and Coverage Area. In addition, MMS messages are \$0.25 per message, per address. In addition to the MMS per message charges, MMS uses calling plan Anytime Minutes or kilobytes. Canceling an MMS message after pressing SEND may result in sent messages that contain only partial content. Subscriber will be charged for outgoing MMS message, even if not received by the intended recipient, or even if only partial content is delivered. Subscriber will not be charged for incoming MMS message unless received. An MMS message that cannot be delivered within 5 days will be deleted. MMS is not available for use with a Mobile Office Kit. Camera phones are prohibited in some places. Subscribers are solely responsible for complying with all applicable laws, rules, regulations and policies regarding camera phone use.

International Long Distance (I-DIAL): International Long Distance is available but may be subject to a 90-day payment history with Verizon Wireless. International long distance rates will vary and do not apply to calls to Canada, Puerto Rico, the U.S. Virgin Islands and some U.S. Protectorates, or to credit card or operator-assisted calls. Current international long distance rates can be found at www.verizonwireless.com and are subject to change.

Verizon Wireless International Long Distance Value Plan: I-DIAL required to call most countries. Value Plan feature is not available on all Calling Plans. Rates are subject to change without notice. Standard International Long Distance rates apply only on calls made from the Verizon Wireless network. Rates and service availability may vary when your phone's banner displays "Extended Network." Value Plan rates apply only on calls made from your Calling Plan's Rate and Coverage Area. If a subscriber's Calling Plan's Rate and Coverage Area includes Canada, calls made from that area to Canadian phone numbers, as applicable, will be billed per the Calling Plan. For Value Plan subscribers, calls made from the Verizon Wireless network to countries not included in the Value Plan will be billed at standard International Long Distance rates. Additional surcharges may apply when calling certain destinations, see www.verizonwireless.com/international for details.

International Roaming (Global Phone/Global Data Optional Features / GlobalEmail): International roaming requires digital or tri-mode CDMA phone with current software. Global Phone requires CDMA/GSM- capable phones and compatible SIM card. I-Dial required for GSM roaming, and for CDMA roaming in many destination. Rates, terms and conditions apply only when roaming on participating GSM and CDMA networks in published destinations. Availability of service, calling features, and Text messaging varies by country and network and may be restricted without notice. Premium text messaging programs that are accessible domestically are also accessible when roaming internationally and charges will be in addition to text messaging roaming charges. Where available calls placed to directory assistance, entertainment lines and any third-party services are billed (along with applicable toll charges) in addition to roaming rates.

Verizon Wireless Calling Plan Optional Features

Message waiting indicator service is not available where text messaging is not available. Availability of services and features, including the ability to make and receive international calls, varies by serving carrier and location and may be restricted without notice. See verizonwireless.com/international for rates and destinations, which are subject to change without notice. Existing subscribers who purchase a Global Phone may have to set up a new voice mailbox and, if so, will lose access to previously stored messages upon activation of Global Phone. Voice mail messages will be time-stamped Eastern Time. Calls to voice mail will appear on the bill as calls to the subscriber's MTN or to 000-000-0086. Taxes, surcharges and other regulatory fees may apply and may vary by country. Billing for airtime used when roaming may be delayed up to two billing cycles. By using Equipment outside the United States, subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that may result from subscriber's failure to comply with Foreign Laws.

Roaming in CDMA countries outside of the US: CDMA Roaming rates are available at www.verizonwireless.com. Roaming in CDMA countries is only available in "CDMA" mode where service is available. Where Text messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received, and applies when roaming in most foreign countries. Text messaging rates are subject to change. An update to Equipment software is required to roam in S. Korea.

Roaming in GSM countries: CDMA/GSM Global Phone, activated in the United States with compatible subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published Global Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. See www.verizonwireless.com for coverage and airtime rates. Service in certain countries may be blocked without prior notice. Where Text messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. Text messaging rates are subject to change. Text messages cannot exceed 140 characters and may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. Check www.vtext.com for the most current list of participating foreign carriers. Text messages cannot be sent to e-mail addresses.

Field Force Manager (FFM): FFM is only available within the National Enhanced Services Rate and Coverage Area. Activation may be subject to a twenty-four hour delay and billing begins 2 days after ordering this service. Monthly access includes unlimited data usage for Field Force Manager. Limited Monthly Access plan and Basic Monthly Access plan for advanced devices are not eligible for business discounts. FFM is available only to Government Subscribers is intended for authorized employees/users in the course of legitimate government business. Unauthorized or improper use could be a violation of law and may carry civil and criminal penalties. By subscribing to and/or using this service Customer agrees, represents and warrants that: 1) use of FFM by its Government Subscribers will be solely for lawful use and for no other purpose, 2) Verizon Wireless is authorized to access, collect, gather, use and disclose personal location information for all devices with FFM in order to deliver the services, and 3) all disclosures and/or consents from individual Government Subscribers in possession of the devices being tracked and/or monitored will be obtained as required by applicable law, regulation or policy (including but not limited to those relating to individual privacy rights). FFM requires a supported GPS enabled wireless device, specified Calling Plan or Data Plan, downloadable application, valid e-mail address and Internet access for activation and use. Data usage for FFM is included in the monthly subscription fee. FFM may prevent use of other features and services; any incompatible features and services must be cancelled in order to use FFM. Verizon Wireless does not guarantee the accuracy of information transmitted, disclosed, displayed or otherwise conveyed or used. Service could be interrupted or disrupted due to atmospheric conditions, inaccurate ephemeris data and other factors associated with use of satellites and satellite data. Always use caution when displaying and disseminating personally identifiable

information about yourself or your location to third parties. Do not attempt to enter or change information while driving. Please observe the Verizon Wireless "Drive Responsibly" policy, which can be found at www.verizonwireless.com. From time to time customers with Limited or Basic service may inadvertently be able to access, view and/or use certain features associated with Basic and/or Premium features of FFM, in order to utilize these features on a regular and ongoing basis, fees associated with the Basic or Premium plan shall apply. Downloading the Field Force Manager application will require approximately 2 MB of data. Data sent or received will be aggregated each month, rounded up to the next megabyte and billed at \$1.99/MB. Megabyte charges will not be incurred for using the application after download to the device. FFM is available on select devices only.

Data Plans and Feature

Data Plans and Features: Monthly Megabyte allowances apply only to Mobile Broadband data transmissions. Other data (Quick 2 NetSM or dial-up) transmissions and voice calls will be billed at the per-minute overage rate according to the plan. For optional data features, "other data" will be billed as Anytime Minutes or at the per-minute overage rate according to the underlying calling plan. Mobile Broadband data sessions require Mobile Broadband capable Equipment and must be placed within Mobile Broadband service area. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the subscriber pressing or clicking SEND or CONNECT button. Customer must maintain virus protection when accessing the service.

Permitted Uses: Wireless Email and Data Plans and Features may be used for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing government intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

Prohibited Uses: While most common uses for Internet are permitted by a subscriber's Data Plan, there are certain uses that cause network capacity issues and interference with the network. These are not uses intended for Data Access plans and are therefore prohibited. Examples of prohibited uses include the following: (i) server devices or host computer applications, including, but not limited to, continuous Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing applications that are broadcast to multiple servers or recipients such as they could enable "bots" or similar routines (as set forth in more detail in (iii) below) or otherwise denigrate network capacity or functionality; (ii) as a substitute or backup for private lines or dedicated data connections; (iii) "auto-responders," "cancel-bots," or similar automated or manual routines which generate amounts of net traffic that could disrupt net user groups or email use by others; (iv) generating "spam" or unsolicited commercial or bulk email (or activities that facilitate the dissemination of such email); (v) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless Services or other parties' Internet-based resources, including the generation or dissemination of viruses, malware, or "denial of service" (DoS) attacks; (vi) accessing, or attempting to access without authority the information, accounts or devices of others, or to penetrate, or attempt to penetrate, security measures of Verizon Wireless' or another entity's network or systems; or (vii) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time. This means, by way of example only, that using these Data Plans or Features for P2P file-sharing services, web broadcasting, or for the operation of servers, telemetry devices and/or Supervisory Control and Data Acquisition devices is prohibited. Mobile Broadband and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless subscriber has Mobile IP (MIP) capable Equipment. Verizon Wireless reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and we reserve the right to deny, modify or terminate service, with or without notice, to anyone we believe is using Data Plans or Features in a manner

Verizon Wireless Calling Plan Optional Features

that adversely impacts our network. We may monitor your compliance, or the compliance of other users, with these terms and conditions, but we will not monitor the content of your communications except as otherwise expressly permitted or required by law. [See verizonwireless.com/privacy.]

Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and Mobile Broadband data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

Data Roaming: In the Canadian Broadband and Canadian Enhanced Services Rate and Coverage Areas, usage will be charged at a rate of \$0.002/KB or \$2.05/MB. In the Mexican Enhanced Services Rate and Coverage Area, usage will be charged at a rate of \$0.005/KB or \$5.12/MB. For more information on roaming in Canada and Mexico, visit verizonwireless.com/narooming. In the Bermuda, China, Dominican Republic, Guam, India, Israel, Saipan and South Korea Enhanced Services Rate and Coverage Areas, usage will be billed at a rate of \$0.02/KB or \$20.48/MB. I-Dial is needed to roam in many destinations. Only the Canadian Broadband Rate and Coverage Area supports EV-DO.1XRTT Roaming Feature. When roaming domestically, Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where 1XRTT Roaming is available, see www.verizonwireless.com. 1XRTT roaming is available (i) in the Canadian Broadband and Canadian Enhanced Service Rate and Coverage Areas, and (ii) in the Mexican Enhanced Services Rate and Coverage Areas.

Global Data Optional Features: Global PC Card required for international use. Global PC Cards will not work in the United States or Canada and Global Data Optional Features subscribers will need a NationalAccess or Mobile Broadband PC card for domestic use. The domestic and Global PC Cards cannot be used at the same time. Prior to leaving the United States, subscribers must install Global Data Optional Features VZAccess ManagerSM and run the OTA wizard. Global Data Optional Features subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. Global Data Optional Features internet browsing, email, or intranet access applies to Mobile Broadband and NationalAccess usage within the United States and Canada as well as an allowance of 100MB (\$0.005/KB overage rate) in Tier 1 Countries, and an allowance of 0MB (\$0.030/KB) in Tier 2 Countries. Subscribers to NationalAccess and Mobile Broadband Plans using Global PC Cards may also add Global Data Optional Features Pay-Per-Use at \$0.002/KB in Canada, \$0.020/KB in Tier 1 Countries, and \$0.030/KB in Tier 2 Countries.

GlobalEmail: GlobalEmail capable equipment required. Verizon Wireless

reserves the right to terminate the GlobalEmail service of subscribers that have less than half of their usage on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. GlobalEmail subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Text messaging billed at standard domestic and international Text Messaging rates. Existing Verizon Wireless subscribers migrating to GlobalEmail plans may be required to extend their Line Term.

Global Data Optional Features and Global Email SIM Cards: SIM Cards are available for use only with your Global PC Card, Global Smartphone, or Global Phone, and only for the purposes of speeds to a maximum of approximately 200 kbps. Verizon Wireless is not responsible for any unauthorized use of subscriber's SIM Cards and subscriber must safeguard security codes. Placing your GlobalEmail SIM in any other non BlackBerry or Smartphone device could result in additional charges or termination of service. Upon termination of service, subscriber must destroy SIM Card.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

Nationwide for Business: Sharing Option is for voice Anytime Minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Verizon Wireless reserves the right to remove the Share Option from all subscribers if the 5 Government Subscriber minimum is not met at any time. Each sharing subscriber's unused Anytime Minutes will pass to other sharing subscribers that have exceeded their Anytime Minutes during the same monthly billing period (Mobile to Mobile Calling minutes and Night and Weekend minutes do not share). Each sharing subscriber's Monthly Anytime Allowance Minutes apply first to that line. Unused Monthly Anytime Minutes are then shared with other sharing subscribers that have exceeded their Monthly Anytime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on Nationwide for Business with Share Option may be migrated onto applicable retail consumer pricing or government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing subscribers activated in more than one Verizon Wireless billing system. Sharing among subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing subscriber to the total minutes needed by all sharing subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

3G M2M Data Plan Terms and Conditions

A data session is inactive when no data is being transferred, and may seem inactive while data is actively being transferred to a device, or seem active when actually cached and not transferring data. Customer must maintain virus protection when accessing the service and is responsible for all data sent and received including "overhead" (data that is in addition to user-transmitted data, including control, operational and routing instructions, error-checking characters as well as retransmissions of user-data messages that are received in error) whether or not such data is actually received. Verizon Wireless will not be liable for problems receiving Service that result from Customer's device.

Megabyte (MB) Data Plans: M2M data usage is rounded to next full kilobyte at end of each billing cycle. Any unused portion of the megabyte allowance is lost. Equipment will not indicate kilobyte usage.

NationalAccess Roaming Feature: Not for use with Mobile Office Kits. Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where NationalAccess Roaming is available, see www.verizonwireless.com.

Roaming in CDMA countries outside of the US: Roaming in CDMA countries is \$0.69 per minute plus the servicing carrier's long distance charges, toll charges, surcharges and taxes, which are billed on a pass-through basis. Roaming rates in Canada and Mexico may vary. Roaming in CDMA countries is only available in "CDMA" mode where service is available. An update to Equipment software is required to roam in S. Korea.

Data Roaming: In the Canadian Broadband and Canadian Enhanced Services Rate and Coverage Areas, usage will be charged at a rate of \$0.002/KB or \$2.05/MB. In the Mexican Enhanced Services Rate and Coverage Area, usage will be charged at a rate of \$0.005/KB or \$5.12/MB. For more information on roaming in Canada and Mexico, visit verizonwireless.com/naroaming. In the Bermuda, China, Dominican Republic, Guam, India, Israel, Saipan and South Korea Enhanced Services Rate and Coverage Areas, usage will be billed at a rate of \$0.02/KB or \$20.48/MB. I-Dial is needed to roam in many destinations. Only the Canadian Broadband Rate and Coverage Area supports EV-DO.

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
