Addendum # 1

Item 1: The contractor will have 180 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250 per day liquidated damage clause will be in effect after the 180 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.

Item 2: Q) How is the asphalt repair item paid?

A) The asphalt repair is paid under Item 4.2, per linear foot.

Item 3: Q) What if we have already installed pipe and then encounter utilities that require removal/replacement of that pipe?

A) Prospective bidders are required to examine the locations of the proposed work and to determine, each in their own way, the site and subsurface conditions and difficulties which may be encountered in the prosecution of the same. The submission of a bid shall be prima facie evidence that such examination and determinations have been made by the Bidder. No claims for additional compensation will be considered by the Owner based on obstruction or conditions at the location of the work, which may add to the difficulties or costs of construction, even though such obstructions or conditions are not shown on the contract plans or indicated in the other construction documents. Field adjustments to the project plans will be at the discretion of the Engineer. The contractor shall be solely responsible to correctly locate all existing active underground and overhead utilities at the project sites and take precautions to avoid damage to them. Any existing utility lines damaged by the Contractor shall be replaced by the Contractor or repaired at no cost to the Owner. The Contractor shall notify the utility companies likely to be affected well in advance and before beginning any work within the project sites. In the event of damage to the existing utilities or other facilities, the Contractor shall notify the affected utility Owner(s) and the WVDEP immediately and make, or have made, all necessary repairs and bear the expense thereof and resulting damage caused thereby. It shall be the responsibility of the Contractor to arrange for relocating the utility lines, where required and as directed by the WVDEP, in accordance with the guidelines set forth by the utility company, prior to beginning construction. The Contractor will be reimbursed for actual charges invoiced by the Utility Company, except for utilities that are subject to regulation by the Public Service Commission, in which case, payment will be made directly to the affected utility by the WVDEP. The utility companies (and WVMIS) must be contacted by the Contractor at least one week prior to commencement of construction activities for the purpose of field locating and marking utility owned facilities within the project area. The phone number of the WVMIS Utility location service is 1-800-245-4848.

Item 4: The holes/voids located along the existing piping system are not to be filled. Any damage to the existing piping system will be repaired by the contractor at the contractor's expense. Contractor is responsible for working around these areas and maintaining vehicular access for residents during construction.
