**DEP15743**  
**Addendum #1**  
**Sludge Removal for the Northern Counties of West Virginia**

**Questions and Answers**

Q. 1. DEP14150 also included snow removal. Just needed to know for sure that DEP number 15743 does or does not include snow removal.

A.1 Contract does not include snow removal. Contract is for pumping only.

Q.2. Need for 3 & 6 inch pumps multiple jobs at one time?

A.2. Yes

Q.3. How many ponds & how often do they need cleaned? est 3.

A.3 The total number of permits DEP Office of Special Reclamation currently maintains is 42. The frequency of pumping ponds varies depending on precipitation and the conditions that are specific to that site. For example, Viking Coal UO-519 in Preston County typically requires pumping monthly. Delta Mining, permit U-2024-87 in Upshur County, typically requires pumping every eighteen to twenty-four months. Bidders should keep in mind the majority of the work covered in this contract is in Preston County and eastern Monongalia County.

Q.4. How far apart are the drying cells located from ponds?

A.4. Distance varies. Some sites require high head pumps or double pumping due to distance and difference in elevation. The majority only require a pump that meets the minimum specifications defined in line item 3.

Q.5. Average size of ponds

A.5. Average size does vary. Typical size is fifty by two hundred feet.

Q.6. Is it possible to see ponds before bid is placed?

A.6. Yes. Bidders may call Scott McElwayne at 304-203-4048 or Greg Phillips at 304-516-9668 to schedule an appointment to review sites that are a representation of the work.

Q.7. Is Bid based on a 40 week minimum & if so do overtime rates apply

A.7. Unit price in bid items three, four and five must be all inclusive. This is to include any and all overtime required to perform the work. Bid items one and two are also to be all inclusive for the work performed as defined in the bid item technical specifications.
