Request for Quotation LBS 12135

Enclosed is Abbott Diagnostics Division's response to the West Virginia Department of Health and Human Resources, Bureau of Public Health, Office of Laboratory Services request for quote to provide a fully automated analyzer to process reagent kits for Hepatitis A, B, C and HIV.

Our equipment recommendations and reagent pricing are based upon the yearly volumes provided in the solicitation and we believe that the proposal offered by Abbott represents the best technological option and best value for the West Virginia Department of Health for both Hepatitis and HIV testing.

Abbott Diagnostics has been a world leader in infectious disease diagnostics for over forty years as we pioneered hepatitis testing with the release of AUSRIA, the first RIA assay for HBsAg, in 1972. Abbott was also the first to market in 1985 with an EIA assay to detect HIV antibodies. Our tradition of developing world-class assays has continued ever since and today we manufacture the only FDA approved, fully automated method of detection of HIV Ag/Ab in a single sample. This groundbreaking 4th generation HIV assay along with our portfolio of automated assays for hepatitis A, B and C, keep Abbott at the forefront of infectious disease diagnostics and we are excited to partner with the West Virginia Department of Health to bring the highest quality results to the physicians and patients you serve.

In this solicitation response, Abbott is proposing the ARCHITECT i1000SR Immunoassay analyzer because it will allow the West Virginia Department of Health to fully automate all hepatitis A, B, HCV and HIV Ag/Ab testing onto a single platform with random access processing and continuous access for sample and reagent loading, unloading and STAT prioritization through the use of a multi-dimensional robotic sample handler; thus, vastly improving upon the more manual, labor dependent method currently employed. In addition to being able to demonstrate great productivity and efficiency gains due to instrument and assay technology, the ARCHITECT is one of the most reliable Immunoassay analyzers on the market, averaging less than two service calls per year which will mean that the work gets done consistently with very little unscheduled downtime.

Both the ARCHITECT i1000SR and our hepatitis A,B and HCV and HIV Ag/Ab Combo assays are being widely adopted by many state, county and city public health departments throughout the United States with recent HIV Combo start ups in New York City, San Francisco, San Diego, Maricopa County, Contra Costa County and the states of Florida, Maryland, South Carolina, Rhode Island, Illinois, Iowa, New Mexico, Arizona, Hawaii, Oregon and Wisconsin. In addition to detecting the presence of acute HIV which then allows for more rapid and effective treatment for patients, by choosing the ARCHITECT these facilities are realizing more instrument uptime, improved sample processing and more efficient operations than they were before.

Our complete automation solution to the State of West Virginia Department of Health includes the following:

- 1 ARCHITECT i1000SR Analyzer
- A UPS for the ARCHITECT i1000SR
- A comprehensive customized implementation plan
- Upgraded Performance Plus service plan
- A 98% Uptime Guarantee on the ARCHITECT i1000SR
- Real Time monitoring of the ARCHITECT with AbbottLink
- Complete operator training for the primary operator at our Dallas Customer Training Center, with additional operators trained on site during Integration.
- On-site assistance with all assay correlations by our Technical Application Specialist
- No charge for shipping/handling of the ARCHITECT i1000SR.

Thank you for allowing us to respond to this solicitation. We look forward to working with the State of West Virginia to automate and expand the Hepatitis and HIV testing program. If you have any questions, please feel free to contact me.

Best Regards,

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.
