MV12 General Specifications/Information

This RFQ is to supply 2012 (or latest model year if successful vendor desires) vehicle to the State of West Virginia Agencies and political subdivisions. An award shall be made for each Vehicle Class to the lowest, responsible bidder meeting specifications using the base price of the vehicle bid, including delivery cost and life-cycle costing, pursuant to the changes in the West Virginia Code. The life-cycle costing to be used shall be the gasoline consumption for 100,000 miles. This will only apply to vehicles < 8,500 GVWR.

Gasoline Costing Information:

100,000 ÷ MPG Average (25% - City – 75% Highway)
Gasoline shall be based on \$4.00 per gallon.

For example, if a vehicle were to average 25 MPG under the 25% city - 75% highway, the life cycle costing would equal \$16,000.00. (100,000 ÷ 25 X \$4.00) The cost of the gasoline (based on \$4.00/gallon) shall be added to the base price and shall be added to the cost shown on the bid for evaluation purposes.

Financial Information

Vehicles may be purchased from this contract by any West Virginia State agency or political subdivision. West Virginia State agencies will either remit payment directly or use a third-party financing company on contract with the State of West Virginia. The Department of Administration, Fleet Management Office (FMO) usually arranges for third-party financing. This arrangement requires the vendor to submit invoices to the Department of Administration, who, in turn forwards those to the third-party financing company for prompt payment.

The time required for third party financing does not differ from the time required for payment directly from the state as both are normally made within 30 days of receipt of vehicle meeting specifications and appropriate invoice. The time period is provided as an estimate only and is not guaranteed. Actual times required to process payment may vary.

Standard options shall be included in the base price of each class with the exception of XM Radio, Sirius and On-Star, these shall be deducted from ALL vehicle classes.

MATHENY MOTOR TRUCK CO.
 P.O. BOX 1304
 PARKERSBURG, WV 26102-1304 **General Specifications/Information**

Options:

Option pricing shall be submitted with the bid, but will not be part of the evaluation process. **All option pricing shall be at dealer cost. Bidders must sign the Certification and return preferably with the bid. No awards shall be processed without such Certification.**

Options other than those stated in the final contract may occasionally be requested. Those options may be considered by the State only if the dealer prices these items at dealer cost and furnishes proof of dealer cost prior to the purchase order being submitted by the agency. Dealer must provide verification of these prices from the manufacturer.

" Option Packages" (ex. Tow Package) must specify what items are included.

Pricing

Use the attached pricing pages for your quotation. Vendors should add their name to each page. All vehicles should be quoted FOB Dunbar, West Virginia. Vendor may add an additional per mile charge for delivery to other locations, but should be aware that additional charges may impact the award.

Prices must remain firm for the life of this contract. **Note:** This contract is in effect for a term of one year or until such time as the vendor notifies the Purchasing Division that the model year build out date has been reached (unless the vendor chooses to supply next model vehicles at price quoted), or until contracts are issued for the next model year.

Delivery Information

Deliveries **must** be made Monday through Friday 9 a.m. to 3:30 p.m.

Vehicles delivered to Surplus Property will be inspected in a timely manner. Ordering agencies will inform the dealers if the vehicles do not meet specifications outlined in the purchase order. Additionally, they will work with the appropriate vendor to resolve any issues.

Please contact Surplus Property, Doug Elkins, at 304-766-2626 to make delivery arrangements. Mr. Young must be contacted five (5) working days in advance of requested delivery date for authorization.

All deliveries of vehicles to other agencies (list attached) require 24-hour notice prior to delivery.

MV12 General Specifications/Information

Equipment Specifications and Requirements

NOTE: All vehicles must be pre-drilled with hardware to meet specifications that require both front and rear license plate prior to delivery. This is a requirement under West Virginia State Law. Any vehicle delivered without such holder shall be rejected until the dealer corrects the deficiency.

NOTE: When options are priced, back-up alarms must be listed if they are available from the manufacturer for that particular vehicle.

All vehicles shall be gasoline powered unless otherwise stated. Diesel, hybrid, Flex Fuel, etc. may be specified on various models.

Vehicles must have all equipment found on the manufacturer's base model plus all other items, packages, etc., needed to meet the specifications for each order class placed against the contract.

All equipment/options must be manufacturer installed except tow hooks. Any other non-manufacturer installed options must be approved by the Purchasing Division.

Questions and Answers

Q1. Does the transportation charges to the dealer from the manufacturer need to be broken out of base price and listed somewhere on the pricing sheet. Or is it part of our price that is listed between the standard equipment section and the option section?

A1. Transportation costs are to be included with standard equipment pricing.

Q2. Is there a standard mileage charge that dealers are charging for delivery to areas other than delivery to Dunbar, WV. Or an amount that the purchasing dept. sees as acceptable?

A2. Mileage Charge for delivery is to be listed with options pricing.

Q3. Should there be a entry on each line for options? For example if it is included as standard equipment on an equal vehicle that we are using should we list it as standard on the option price line? Or if it is unavailable, should it be listed as so?

A3. If option is standard write standard, if is an option insert price.

Q4. A state agency has requested that you add Compressed Natural Gas (CNG) powered vehicles to the contract for all classes for which such a vehicle exists.

A4. No

Q5. Classes 22, 25, and 26 require a rear step bumper. Please only require the standard rear bumper and make the step bumper an option.

A5. Cost Sheets for Classes 22, 25 and 26 will be revised to reflect step bumper as an option.

Q6. Class 23 requires 255 horsepower and 285 lb./ft of torque. Please lower the horsepower to 225 minimum. A more powerful engine would be listed as an option for those who feel the need.

A6. Class 23 Pricing page is revised to reflect this change.

Q7. Class 18 requires 231 horsepower and 293 lb./ft of torque. Please lower the torque to 275 minimum. An engine with higher torque rating would be listed as an option for those feel the need.

A7. Class 18 Pricing page is revised to reflect this change.

Q8. Class Mini-storage van – Please lower the horsepower to 136 and the torque to 128 for the gasoline engine.

A8. Class Mini-storage van Pricing page is revised to reflect this change.

Q9. Shop manuals options are requested in both CD and paper form for all classes. Chrysler, Dodge, Jeep now requires users to subscribe to a service for access to the information normally contained in the shop manuals. Ford Motor Company is allowing customers to order the manuals direct from the publisher Helm, Inc. in paper, DVD, and subscription format. My suggestion is to remove the option from the contract and allow the vehicle owners to order this information in the format that best suits their needs direct from the supplier rather than the car dealer vendor.

A9. Pricing sheets will be revised to reflect this change. Vehicle owners will have to order the format that best suits their needs based upon available options from the manufacturer.

Q10. Slush mats/all weather mats (cargo) are listed as an option on truck classes 12 through 21. This is an option that only applies to SUV's and should be removed from the truck classes.

A10. If this is not an option then use N/A in the option line

Q11. Options to delete cloth seats, carpet, and floor mats are standard and could be removed from truck classes 12 through 21.

A11. If this is not an option then use N/A in the option line
