#### ADDENDUM NO. 1

#### RESPONSES TO TECHNICAL QUESTION

- Q 1: The successful vendor shall provide the required testing at the vendor's facilities located throughout the State. Can we use Collection sites-Clinic's?
- A 1: Yes, as long as the clinics meet the distance requirements specified in "S" of the RFO
- Q 2: The successful vendor will inform the participant of drug screen results via US Postal Service within 48 hours after collection of specimen for negative Tests. For positive results, the participant shall be informed within 48 hours after review of the results by MRO. Is the vendor to notify the donor of the results?
- A 2: Yes
- Q 3: The successful vendor will provide confidential access to designated WFWV employees to this database. Due to HIPPA laws, we suggest only one person access to database.
- A 3: We will drastically limit WFWV employees with access. However, one may not be sufficient. The number will be decided after contract award.
- Q 4: The successful vendor must maintain client records for 6 years following the expiration. Cancellation of any contract resulting from this RFQ. The Dot requirement is 5 years after testing if positive and 1 year if negative.
- A 4: We understand DOT's requirement. This is based on WFWV's federally mandated document retention time.
- Q 5: The successful vendor shall ensure complete integrity of each specimen tested and the respective test results. Receiving, transfer and handling of all specimens by laboratory personnel shall be full documented using chain of custody documentation compliant with DOT. Will a Substance Abuse Professional be used for positive test since you are following DOT guidelines?
- A 5: No. The individuals to be tested are clients- not employees.
- Q 6: The successful vendor must employ full-time, board certified, toxicologist of the American Board of Forensic Toxicology. We use Medtox Laboratories in St. Paul, MN. They have toxicologist on their staff. Is that what you are asking?

A 6: Yes. As long as they are employed by the vendor, it can.

# RESPONSES TO TECHNICAL QUESTION RECEIVED FROM WWV 12886

#### Addendum 2

- Q1. Are there peak times of utilization expected or will the anticipated 900 applicants be more evenly distributed?
- A1. Based on 2011 figures, peak times are anticipated to be January and August. Utilization will be steady for the remainder of months, with the exception of June and April being the least.
- **Q2.** With a requirement of a "walk-in, 8-5 site" the RFQ seems restricts this to brick and mortar providers such as clinics or hospitals. Is there a time frame and procedure for reporting results to insure timeliness to meet enrollment dates?
- A2. Yes, as per (l)-"The successful vendor will inform the participant of drug screen results via US Postal Service within 48 hours after collection of specimen for negative results." Internal guidelines instruct case managers as to how to refer the client and complete necessary paperwork to enroll the client on ITA/OJT contracts.
- Q3. What are the requirement/expectations to keep this HIPPA covered information confidential given that internet databases frequently breeched and/or hacked?
- A3. WorkForce West Virginia is not a health care provider as it is not providing the actual drug testing for patient treatment, but for forensic purposes. WorkForce is also not a health plan or a healthcare clearinghouse. Because WorkForce is not a healthcare provider that bills electronically, is not a health plan and is not a healthcare clearinghouse, it is not covered by HIPAA. Additionally, WorkForce proposes to perform drug testing for its own reasons and is not doing it on behalf of a HIPAA covered entity, so it is not a HIPAA business associate.

Although WorkForce West Virginia is not a HIPAA covered entity, WorkForce does expect the successful vendor to maintain safeguards in compliance with all applicable federal and state regulations governing personally identifiable information (PII), including protected health information (PHI). As permitted in these regulations, the vendor will be liable for any breach of sensitive information.

- Q4. How many times will the "select individuals" access an applicant's information.
- A4. As needed for reporting purposes
- Q5. Is it possible to qualify with a full time toxicologist on contract, as opposed to an employee?
- A5. Yes. As long as they are employed by the vendor, it can.

- Q6. Will the cost per test need to include the cost for re-test for all challenged results?
- A6. The initial test should include the costs for confirmatory tests should they be necessary. However, if tests are challenged, WFWV can be charged for a retest.
- Q7. Will there be any provisions for referral to resources or assistance (ie. DOT, SAP) to resolve drug issues for those with a positive result? If not that appears fairly short sighted when looking at developing a solid workforce for WV.
- A7. All clients will receive information on substance abuse counseling.
- **Q8.** There is a very strict procedure for drug testing result records maintenance with-in most sections. The RFQ references DOT regulations at one point, but those regulations are obviously not incorporated into the scope of this RFQ.
- A8. We understand DOT's requirement of five years retention however our request for six years is based on WFWV's federally mandated document retention time.
- Q9. Regarding the test for synthetic narcotics; are there specific drugs you wish to target with a synthetic narcotics screen? There are a great number of synthetic narcotic medications that must be individually identified on the ordered drug testing panel, some of which will affect test cost.
- A9 The definition for Synthetic Narcotics will encompass Hydrocodone/Hydromorphone as well as Oxycodone/Oxymorphone.
- Q10. The RFQ states that "The successful vendor must be certified by the Substance Abuse and Mental Health Services Administration (SAMHSA)" and that "All facilities utilized by the successful vendor must be SAMHSA certified". SAMHSA only certifies laboratories, not administrators or collection facilities. Is the State asking that a Vendor's laboratory be SAMHSA certified?

#### A10. Yes

Q11. Page 9, subsection (g) states that "The successful vendor must adhere to the regulations put for the by the United States Department of Transportation". Many of the requirements as stated in the RFQ are contrary to USDOT regulations. Is it the State's intention to require adherence to USDOT regulations specifically pertaining to the specimen collection process only and not the administrative, test configuration and records retention procedures

#### A11. Yes

Q12. In the addendum addressing vendor question # 11 (Please define Synthetic Narcotics?) The answer provided stated: Hydrcodone/Hydromormphone. This excludes Oxycodone/Oxymorphone which are heavily abused substances in West Virginia. Is it the State's intention to exclude Oxycodone/Oxymorphone and only test for Hydrocodone and Hydromorphone?

- A12. The definition for Synthetic Narcotics will encompass Hydrocodone/Hydromorphone as well as Oxycodone/Oxymorphone.
- Q13. In several places in the RFQ the word "employ" is used in describing the relationship between the administrator, the laboratory and the MRO. As a third party administrator we contract with SAMHSA certified labs and forensic toxicologists who are indeed employed by those labs. Is this contractor relationship acceptable for the purposes of this RFQ?

#### A13. Yes

- Q14. The Cutoff level of 2000 ng/ml for Synthetic Opiates as stated in the RFQ is much higher than accepted standards. This will cause many individuals who should test positive for synthetic opiates to produce a negative test. Is it the State's intention to retain the cutoff level for synthetic opiates at the 2000 ng/ml level?
- A14. Yes, we are using SAMHSA recommended cutoff levels, which was raised from 300 ng/mL to 2,000 ng/mL in 1998 in order to avoid false positives from poppy seeds.
- Q15. Also, do you wish to test for substances such as K2, Spice, or Bath Salts? (synthetic Marijuana and Cocaine) These substances are in a separate class from synthetic narcotics and can affect test cost.

#### A15. No

- Q16. The listed cutoff level for testing opiates and synthetic narcotics is 2000 ng/ml. SAMHSA-certified labs utilize DOT-recommended cutoff levels of 2000 ng/ml for Opiates. However, for synthetic narcotics the cutoff level is much lower. Is the lower cutoff level of 300 ng/ml for synthetic narcotics acceptable for this bid?
- A16. Cutoff level on RQF will remain at 2000ng/ml. See response to Q 26.

#### ADDITIONAL TERMS AND CONDITIONS

Various Legislative acts passed in the 2012 session require inclusion of certain provisions in all state contracts. Accordingly, this addendum will add the three provisions listed below to the solicitation and resulting contract entered into between the State of West Virginia and the vendor. In the event that the solicitation is not for construction or architectural/engineering work, sections 2 and 3 below will not apply.

1. BACKGROUND CHECK: In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services may require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

- 2. SUBCONTRACTOR LIST SUBMISSION: In accordance with W. Va. Code § 5-22-1, The apparent low bidder on a contract for the construction, alteration, decoration, painting or improvement of a new or existing building or structure valued at more than \$500,000.00 shall submit a list of all subcontractors who will perform more than \$25,000.00 of work on the project including labor and materials. This provision shall not apply to any other construction projects, such as highway, mine reclamation, water or sewer projects.
  - a. Required Information. The subcontractor list shall contain the following information:
    - I. Bidder's name
    - II. Name of each subcontractor
    - III. License numbers as required by W. Va. Code § 21-11-1 et. seq.
