DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

ATTACHMENT A**COR61550****Pruntytown Correctional Center****Road Replacement Project****Questions:**

- Q1: Prime coat is not used in West Virginia anymore
- A1: Prime coat will not be required. Replace prime coat with tac spray.
- Q2: We recommend latex paint be used on new roadway in place of alkyd-resin and chlorinated rubber.
- A2: Accepted to use latex paint.
- Q3: We recommend a drop inlet in front of building #19.
- A3: Please see information in the below clarification and attached drawing.
- Q4: We recommend using 3,500 psi concrete with wire mesh instead of 5000 psi concrete @ entrance.
- A4: As stated in the pre-bid meeting, please provide five thousand (5,000) psi concrete. Provide one layer of heavy wire mesh WVDOT standard at four and a half inches (4.5") above bottom of concrete.
- Q5: Specifications does not call for any shoulder stone along road edge.
- A5: There are a lot of areas where shoulder stone cannot be placed. Please provide a unit price per ton to install shoulder stone along the road edges.
- Q6: Base coat asphalt should be installed in (2) 3" inch lifts.
- A6: Install the base coat asphalt in two (2) layers of three inch (3") lifts. Each layer will need to be compacted.
- Q7: Specifications call for rebar be installed every 6" inches, we don't think that is necessary.
- A7: Please delete the concrete rebar and install one layer of heavy wire mesh WVDOT standard at four and a half inches (4.5") above bottom of concrete.

- Q13: Specification Section 02300 – Earthwork, 1.4, B.5 requires that soil encountered below the removed existing roadway that cannot be properly compacted is to be scarified, moistened, aerated or removed and replaced. Since the condition and extent of poor materials that would require action cannot be determined at this time prior to bidding, this issue is generally regarded as an unforeseen condition that can be controlled by using a unit price cost per square foot of additional material, do you concur?
- A13: This is considered as an unforeseen condition and would be handled as a change order. Please provide a unit price per square foot of additional material when bidding this project.
- Q14: Specification Section 02300 – Earthwork, 1.4, C requires that uncharted or incorrectly charted utilities that are encountered and damaged during excavation are to be repaired by contractor to the satisfaction of the utility company. If the contractor employs the required due diligence by involving Miss Utility prior to construction activities and then damage occurs as a result of encountering utilities that are not known to the contractor, would this not be an unforeseen condition, do you concur?
- A14: It is the contractor's responsibility to contact Miss Utility by law. If after a utility is hit because it was unmarked, this could be handled as an unforeseen condition, but will have to be looked at as a case by case issue.
- Q15: We understand that it was discussed that the new concrete for the entrance was to be 5000 psi, is this correct?
- A15: Please provide five thousand (5,000) psi concrete as specified in the pre-bid meeting.

Clarifications:

- C1: At the entrance to Administration I Building, the concrete has been extended an additional three feet (3') onto the side of the road. Please see attached drawing to see the changes. It will be the contractor responsibility to coordinate with the Taylor County Department of Highways concerning this area.
- C2: At all existing and new culvert pipe locations, inlet boxes are required to be installed. The inlet boxes are to be outside diameter will be 40" x 40" x 32" high with a 25-3/4" steel grating. The inside diameter are to be 24" x 24" x 24" high. The inlet boxes will be 8" thick of concrete. It will be the contractors responsibility to verify the sizes of all existing culvert pipe sizes before ordering.
- C3: Please see Exhibit #1 – Revision #1 for new drawing layout.
- C4: Please see Exhibit #2 for Key Notes that are on Exhibit #1 – Revision #1.
- C5: Please replace the Bid Form with the following revised bid form.
- C6: The bid opening has moved from 07/03/2012 to 07/11/2012.
