Subject: RFQ #DEP16157: Cheyenne Sales Company, Inc. O-11-83, S-2009-96, O-2025-86

Dear Mr. Whittaker:

Tetra Tech is pleased to submit our Expression of Interest to perform design services in reply to RFQ #DEP16157 for the State of West Virginia. As outlined in our Expression of Interest, Tetra Tech and its personnel have completed work on **thousands of mine reclamation projects**. These projects have included services that will be needed for this project. Our project team has the required expertise to support the full scope of work.

This project will be managed out of Tetra Tech's Pittsburgh, Pennsylvania area offices, including the Fairmont, West Virginia office. Tetra Tech has a total of six AML design teams (a team consisting of one engineer and one CAD professional) in the Pittsburgh area offices. In addition, our firm has four more civil engineers within these offices. Tetra Tech also has more than 650 mining and civil engineers (hundreds of which are registered Professional Engineers), and 170 CAD professionals companywide that are available to support this work as needed.

Our experienced team is led by Mr. Gregory Hynes, PE. Mr. Hynes has more than 22 years of AML reclamation experience and water resources engineering. He has managed or supported more than 30 AML projects for the WVDEP. Most recently, Mr. Hynes managed three highwall projects for the agency in 2012 – the Waitman-Barbe Highwall, the Colliers Sportsman's Club Highwall, and the Simpson Creek Highwall. He has also managed several projects for other state agencies including PADEP and the Ohio Department of Natural Resources, preparing design calculations, cost estimates, plans, and technical specifications for abandoned mine land reclamation.

Mr. Thomas Gray, PE, Tetra Tech's Energy and Natural Resources Manager, will be our Project Advisor. Mr. Gray is a licensed Professional Engineer in five states, including West Virginia, and has participated in more than 100 mining projects throughout his career. He has recently managed three AML projects for the WVDEP – the Fisher Run, Tunnelton, and the Paint Branch Mine Portal Closure Design projects.

As requested by the RFP we have provided one original submittal, one copy, and one copy on CD-ROM. We appreciate this opportunity to provide this proposal, and look forward to answering any questions you may have. If you should require any additional information, please contact Mr. Gray at (412) 921-8794.

Sincerely,

Mr. Gregory Hynes, PE
Project Manager

Mr. Thomas Gray, PE
Energy and Natural Resources Manager
