## ATTACHMENT A

Questions & Answers Received for  
MV13  
Addendum No. 1

|           |  |
|-----------|--|
| Question: | Per my comments today at your pre-bid meeting, I think it would benefit your lifecycle cost review if you evaluated the manufacturer warranties for a true value picture in addition to fuel economy ratings. You will find that some manufacturers offer better warranties than others. For example GM offers 40,000 more miles versus Ford on all of our Drive train warranties and Roadside assistance which is very significant. |
| Answer:   | Evaluation will be made per the specifications.  |

|           |  |
|-----------|--|
| Question: | Can one representative at the pre-bid meeting represent several dealerships owned by the same company with different Purchasing Division Registrations and FEIN numbers? |
| Answer:   | Yes  |

|           |   |
|-----------|---|
| Question: | If possible can the use of the state credit card for vehicle purchases be listed as a surcharge of 3% up charge added to cost of vehicle. It is impossible to absorb the credit card charges for auto/truck purchases as we do not build in 3% profit on each unit. We can do this, but the state will be paying more for each unit and not getting the best deal per unit. |
| Answer:   | No  |

|           |   |
|-----------|---|
| Question: | Can the use of the state purchasing card be removed as a form of payment? |
| Answer:   | No  |

|           |  |
|-----------|--|
| Question: | Due to incomplete pricing information from the manufacturer at this date, would it be possible to extend the bid opening date for at least a couple weeks? |
| Answer:   | Bid Opening will be September 20, 2012 at 1:30 pm, same location.  |

|                  |   |
|------------------|---|
| <b>Question:</b> | The bid date of 9/6 is impossible to meet and bid all vehicles that you are requesting, especially given the fact that answers to the requested spec changes will not be released until at the earliest 8/27. I would request that the opening be no earlier than 10/4. This timing would be in line with the previous year's final spec change receipt to bid opening dates. |
| <b>Answer:</b>   | Bid Opening will be September 20, 2012 at 1:30 pm, same location.   |

|                  |   |
|------------------|---|
| <b>Question:</b> | Will you accept CNG vehicles that converted to bi-fuel by a factory certified converter after leaving the plant, or OEM installations only? |
| <b>Answer:</b>   | Yes   |

|                  |  |
|------------------|--|
| <b>Question:</b> | As discussed in the pre-bid meeting, some classes had options moved to the mandatory specifications section but are options that in the past, many customers have not chosen to purchase. Particularly, cruise control, power windows and locks, and rear air conditioning on SUV's. Moving these back to optional would result in cost savings to those who do not need them. |
| <b>Answer:</b>   | Specification sheets have been revised per comments received at the pre-bid meeting, when the Buyer was advised. If a requirement is not standard on the vehicle you are quoting, please note on your bid that it is an option.  |

|                  |  |
|------------------|--|
| <b>Question:</b> | Are manufacturer certified companies allowed for CNG conversions if the warranty for the vehicle is not affected in any way? |
| <b>Answer:</b>   | Yes  |

|                  |  |
|------------------|--|
| <b>Question:</b> | Are retrofit or aftermarket CNG conversions allowed? |
| <b>Answer:</b>   | No.  |

## PURCHASING AFFIDAVIT

**MANDATE:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

Any conflict of interest discovered shall be promptly presented in detail to the Agency.
- 50. REPORTS:** Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:
- ☒ Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.

- [ ] Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at [purchasing.requisitions@wv.gov](mailto:purchasing.requisitions@wv.gov).

**51. BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

**52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS:** Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

**53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL:** In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

### **MV13 General Specifications**

The State of West Virginia is soliciting bids to supply 2013 model vehicles (or latest model year) for all State of West Virginia Agencies and political subdivisions. An award shall be made for each vehicle class to the lowest, responsible bidder meeting specifications using the base price of the vehicle bid, including delivery cost and life cycle costing.

The life-cycle costing to be used shall be the gasoline consumption for 100,000 miles. This will only apply to vehicles < 8,5000 GVWR.

#### **Gasoline Costing Information:**

$100,000 \div \text{MPG Averages (25\% City / 75\% Highway)}$   
Gasoline shall be based on \$4.00 per gallon.

For example, if a vehicle were to average 25 MPG under the 25% city – 75% highway, the life cycle costing would be equal to \$16,000.00 ( $100,000 \div 25 \times \$4.00$ ) The cost of the gasoline (based on \$4.00/gallon) shall be added to the base price and shall be added to the cost shown on the bid for evaluation purposes.

Vendors shall use the EPA mileage ratings for City and Highway MPG supplied by the manufacturer.

#### **Financial Information:**

Vehicles may be purchased from this contract by any West Virginia State agency or political subdivision. West Virginia State agencies will either remit payment directly or use a third-party financing company on contract with the State of West Virginia. The Department of Administration, Fleet Management Office (FMO) usually arranges for third-party financing. This arrangement requires the vendor to submit invoices to the Department of Administration, who, in turn forwards those to the third-party financing company for prompt payment.

The time required for third party financing does not differ from the time required for payment directly from the state as both are normally made within 30 days of receipt of vehicle meeting specifications and appropriate invoice. The time period is provided as an estimate only and is not guaranteed. Actual times required to process payment may vary.

**Options:**

Option pricing shall be submitted with the bid, but will not be part of the evaluation process. **All option pricing shall be at dealer cost. Bidders must sign the Certification and return preferably with the bid. No awards shall be processed without such Certification.**

Options other than those stated in the final contract may occasionally be requested. Those options may be considered by the State only if the dealer prices these items at dealer cost and furnishes proof of dealer cost prior to the purchase order being submitted by the agency. Dealer must provide verification of these prices from the manufacturer.

"Option Packages" (ex. Tow Package) must specify what items are included.

All cars quoted shall be four (4) door models.

Standard options shall be included in the base price of each class with the exception of XM Radio/Sirius and On-Star; these shall be deducted from ALL vehicle classes.

**Pricing:**

Use the attached pricing pages for your quotation. Vendors should add their name to each page. All vehicles should be quoted FOB Dunbar, West Virginia. Vendor may add an additional per mile charge for delivery to other locations, but should be aware that additional charges may impact the award.

Mileage charges for delivery to be listed with options pricing. Transportation charges are to be included with standard equipment pricing.

Prices must remain firm for the life of this contract.

This contract is in effect for a term of one year or until such time as the vendor notifies the Purchasing Division that the model year build out date has been reached (unless the vendor chooses to supply next model vehicles at price quoted), or until contracts are issued for the next model year.

**Delivery Information:**

Deliveries **must** be made Monday through Friday 9 a.m. to 3:30 p.m.

Vehicles delivered to Surplus Property will be inspected in a timely manner. Ordering agencies will inform the dealers if the vehicles do not meet specifications outlined in the purchase order. Additionally, they will work with the appropriate vendor to resolve any issues.

Please contact Surplus Property, Doug Elkins, at 304-766-2626 to make delivery arrangements. Mr. Elkins must be contacted five (5) working days in advance of requested delivery date for authorization.

All deliveries of vehicles to other agencies (list attached) require 24-hour notice prior to delivery.

**Equipment Specifications and Requirements:**

1. All vehicles **must** be pre-drilled with hardware to meet specifications that require both front and rear license plate **prior** to delivery. This is a requirement under West Virginia State Law. Any vehicle delivered without such holder shall be rejected until the dealer corrects the deficiency.
2. Options listed on the vehicle classification bid sheets must be quoted with initial bid. These include such things as delivery costs; deduct for pick-up of vehicles at dealership and optional beds for chassis cabs.
3. When options are priced, back-up alarms must be listed if they are available from the manufacturer for that particular vehicle.

All vehicles shall be gasoline powered unless otherwise stated. Diesel, hybrid, Flex Fuel, etc. may be specified on various models.

Vehicles must have all equipment found on the manufacturer's base model plus all other items, packages, etc., needed to meet the specifications for each order class placed against the contract.

All equipment/options must be manufacturer installed except tow hooks. Any other non-manufacturer installed options must be approved by the Purchasing Division.

All vehicles shall have the full manufacturer's warranty.

**Prior to delivery, all vehicles must include the following:**

1. Complete lubrication;
2. Fill crank case with oil;
3. Adjustment of engine to proper operating condition;
4. Inflate tires to proper pressure;
5. Verification of perfect operation of all mechanical and performance features;
6. Front end alignment and balancing of all tires;
7. Wash and clean inside and out including removal of all unnecessary tags, stickers, papers, etc. Fleet Management does not want stickers in windows.
8. Owner's manual;
9. Full tank of fuel. Bi-Fuel, hybrid, FFV, etc. vehicles must include all tanks full upon delivery. This may require dealer to top off tanks immediately prior to delivery to Surplus Property or other approved location;
10. Temporary West Virginia License if required;
11. Valid West Virginia Inspection Sticker affixed to windshield. The vehicle must be inspected in the month delivered, thus providing a minimum of 11 months and maximum of 12 months before the next inspection must occur;
12. No dealer insignia or other advertising shall be affixed to the vehicle or appear on mud flaps, bumpers, deck lids, etc. Vehicles delivered with such advertising may be rejected.

**Reports:**

Successful vendors shall be required to submit a report upon request but no later than **July 15, 2013** detailing the number of vehicles by class and total amount of sales to that date under the MV13 contract. It would be helpful if this report included the agency/political sub-division making the purchase.

Submit report via email to: [Purchasing.Requisitions@wv.gov](mailto:Purchasing.Requisitions@wv.gov) and the Buyer assigned to this Statewide Contract.
