Vendor questions from Pre-bid meeting

Question #1: Item 4.1.5.5 says the contractor will place any additional ballast where it may be needed after surfacing. Do you have an estimated quantity of what may be required?

Answer: Correction to 4.1.5.5, SBVR will place any additional ballast that may be required.

Question #2: What are the mile post limits for the surfacing and bolt tightening?

Answer: The 3.2 miles of final surfacing, ballast regulation and bolt tightening include the main track between Bridge 50.0 (just north of MP 50) to the end of track at MP 52.4, various side tracks in Petersburg Yard, the turnout in Moorefield and the turnout in Romney.

Question #3: Are there any turnouts to be surfaced in the surfacing item?

Answer: There are 12 turnouts to be surfaced in Petersburg Yard. There is also one in Moorefield and one in Romney.

Question #4: Are there any road crossings to be removed and surfaced through?

Answer: There are three paved public crossings in Petersburg Yard that the contractor will taper into when surfacing. South Main Street has signals and the contractor will be responsible for the immediate repair of any damage done to the signal system. There are five private crossings that the contractor will remove and then replace after surfacing and bolt tightening. Two are timber and ballast, three are ballast only. They average 30 feet in length. SBVR will supply new timbers if the old ones cannot be reused.

Question #5: Are there any cattle guards to be removed and replaced?

Answer: There are no cattle guards in this project.

Question #6: Who will furnish replacements for defective bolts and/or joint bars?

Answer: SBVR will supply replacements for any defective or missing tie plates, joint bars or track bolts.

Question #7: How much superelevation should be in the curves?

Answer: All curves in this project will be given ½ inch of superelevation.

Question #8: How much do you want the main track to be raised in Petersburg Yard?

Answer: The main track between Potomac Avenue and South Main Street in Petersburg Yard needs to be lifted an average of 3 ½ inches to bring it up to the level of the adjacent side tracks. This section of track is 316 feet long.

Question #9: Where can we unload track machinery directly from the trailer to the track?

Answer: There are two locations where track machinery can be rolled directly onto a track and back onto a trailer. They are the stockyard runaround at Jefferson Street in Moorefield (MP 38.5) and the side track at Vanderlip (MP 16.9) by US 50 just west of Romney.

Question #10: Can we use the state's tax exemption when purchasing materials?

Answer: The State Rail Authority's tax exemption does not apply to purchases made by the contractor for this project.

Question #11: Item 4.1.2.1 of the RFQ indicates gage of 65 ½ inches. What is the correct gage?

Answer: Correction to 4.1.2.1, new ties will be spiked to a gage of 56 ½ inches, plus or minus ¼ inch.

Question #12: Where are the attachments that are mentioned in the RFQ?

Answer: They are included with this addendum as:
Attachment A – Spiking Pattern
Attachment B – Excursion Train Schedule
Attachment C – List of Switch Ties (Note that the quantities have changed from the RFQ).

Question #13: May we have a copy of the sign-in sheets?

Any waiver must be expressly stated in writing and signed by the waiving party.
- 33. SUBSEQUENT FORMS:** The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. Acceptance or use of Vendor's forms does not constitute acceptance of the terms and conditions contained thereon.

Failure to comply with the foregoing requirements will result in public disclosure of the Vendor's bid without further notice. A Vendor's act of marking all or nearly all of its bid as exempt is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor's act of marking a bid or any part thereof as "confidential" or "proprietary" is not sufficient to avoid disclosure and WILL NOT BE HONORED. In addition, a legend or other statement indicating that all or substantially all of the bid is exempt from disclosure is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor will be required to defend any claimed exemption for nondisclosure in the event of an administrative or judicial challenge to the State's nondisclosure. Vendor must indemnify the State for any costs incurred related to any exemptions claimed by Vendor. Any questions regarding the applicability of the various public records laws should be addressed to your own legal counsel prior to bid submission.

This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total

contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.
