STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

Purchasing Affidavit (Revised 07/01/2012)

State of West Virginia
VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or** 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or,**
2. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
3. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
4. **Application is made for 5% resident vendor preference for the reason checked:**
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or,**
5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or,**
6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.
7. **Application is made for preference as a non-resident small, women- and minority-owned business, in accordance with *West Virginia Code* §5A-3-59 and *West Virginia Code of State Rules*.**
 Bidder has been or expects to be approved prior to contract award by the Purchasing Division as a certified small, women- and minority-owned business.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Mountain State Computer and Network Solutions (MSCNS) was founded in 2003 as a dba of the Foundation for Independent Living (FIL), which was founded in 1992. The purpose of FIL is to develop resources to further the mission of Mountain State Centers for Independent Living in their ongoing struggle to help bring equality and independence to the people with disabilities. All of the profits made by MSCNS are spent towards that end.

MSCNS employs highly skilled, certified technicians and engineers. We also strive to employ local personnel and graduates of colleges local to each community we expand into. Our goal is to bring the highest level of quality in both product and service to all of our clients while maintaining the community vested spirit that many companies forget. Our business is all about community and quality in everything we do.

Below is a list of services we offer:

- Commercial Networking
- Small Office/Home Networking
- Desktop/Laptop/Server Repair
- Virus/Spyware/Malware Removal
- Professional Data Recovery
- Specialized Custom Built Systems
- Authorized Reseller of Dell, HP, Lenovo, Acer, IBM
- High Performance Custom Gaming Rigs
- Voice over IP
- Consulting Services
- Network Administration
- Network Security
- Wireless Networking
- Website Design and Administration
- Video Production
- Graphic Design
- Search Engine Optimization
- Media Placement and Marketing Solutions
- Social Media Management
- Application Development
- Virtualization
- Structured Data and Voice Cabling
- Offsite/Onsite Backup Solutions
- On-Site/Off-Site Services 24x7
- IT Staff Augmentation/Outsourcing Solutions
- Internet Surveillance Systems
- Helpdesk and Remote PC Services

Why is a web presence important?

- Identity and Information! With so many options on where to go for shopping and entertainment, the internet has become a chief, if not primary source for purchases, planning a day or night out, weekend excursions and more. People want to know about you and what you do!

While a web presence is important, it's much more than that, you want to give visitors the information they crave, in a pleasant and entertaining way! You want to give them an *interactive* web experience!

Responsive Design:

You can just have one website... many businesses have multiple web sites... one for the personal computer/laptop user and another for mobile users. Why do that when you can have a website featuring responsive design so that it will fit any device... from the desktop computer to the tablet to the smart phone.

Search Engine Optimization:

Search engines rank websites in their search results by several factors. There are keywords or META tags that aren't visible in the site, but are present in the programming so that when the search engines software or "bot" reads or "crawls" the site, it sees those keywords and will add the site to its results when those words or phrases are searched. There are over 200 factors that go into page rank.

Content Management:

A site can be designed in such a way that anything, other than the physical structure of the site, can be changed by designees of the facility. You can add events, pictures, copy, content and more on each page. We will create the site in such a system and train the designated staff on how to operate the Content Management System (*CMS*) and make changes to the content.

Growth/Scalability:

Your website's infrastructure would be built to allow you to easily integrate all the things you want to in the future without a costly re-design (*new products/services*).

What is Application Development?

Application development can mean designing and implementing anything from a mobile app for your smart phone, to a desktop application that installs on your computer, to a web-based application that runs in your browser. MSCNS uses state of the art programming methods and languages to deliver the most robust and future proof solutions in the area!

Lightweight Mobile Apps

Our mobile apps, whether available through the app store, or delivered via the browser, are engineered to reduce the amount of data that actually crosses the air or the “wire”. This helps keep data and bandwidth consumption to a minimum so employees using agency data plans are not constantly going over their usage maximum.

Scalable/Extensible

Any application we design is written with growth and extensibility in mind. We create frameworks that can easily grow, or have other modules written and “plugged in” to them. Also, it means that many times our frameworks can be integrated into existing applications such as accounting, HR, inventory, and many others!

Cloud Based/Browser Delivered

The future of application delivery is hosted data and browser-based interfaces. We specialize in creating applications for browser delivery, with cross-browser support (IE, Firefox, Chrome, Safari, etc), and support for older versions of IE back to 7. Our solutions can even seamlessly integrate into your existing website or website that we design. This way, you can centralize the access for all the web resources in your company!

Marketing for any business or organization is a never ending task that can leave a person scratching their head looking for the right solutions and messages. Everyone you talk to has the “correct answer,” or the product/service that will solve your problems, and all of this can take up valuable time that you don’t necessarily have. Let MSCNS help you with the marketing process!

Marketing Solutions

We will analyze your business needs and help you design a campaign to capitalize on your target or who you best need for your business or organization to grow. We will reach out to traditional media and help you choose the best avenues based on research and your marketing budget.

Preferably, your campaign would include elements of traditional media (*print, radio, television*) and the “not-so-traditional” but just as important avenues such as Social Media (*Facebook, Twitter, Pinterest, etc.*), Web/App Design and Development and Events. MSCNS can manage all of these for you, working with you in the process, so you’re never out of the loop. We will simply be the point of contact for you and your marketing providers.

Campaign Design

Your marketing campaign should have a cohesive look and sound, no matter the medium. MSCNS will produce the elements for your media that will go together to create an image and message that delivers results.

Public Relations

Sometimes marketing consists of more than selling product and putting commercial messages into the world. Something as simple as media releases can help spread the word about your business or organization, but building that communications network can be difficult and take time. MSCNS can build your media communications network and issue your message for them to act upon, just give us the information that you need us to share!

As a Web Application that can be downloaded to smartphones, your organization has another way to reach the masses immediately in this world where media fragmentation is at an all-time high.

Smartphone usage is on the rise... Globally, smartphones outnumber people 4 to 3 and iPhone sales alone outpace the number of births. Also, research shows that the average person has their mobile phone in reach 14-hours/day (*Eric Qualman YouTube Channel, March 25, 2013*).

Heads Up is a unified alerts notification system developed specifically for smart phones. The app allows users to directly receive important information via push notifications that is to be input by trusted and authorized delegates. From highway accidents, school closings to severe, emergency incidents, Heads Up is designed to keep the public safer by providing fast **AND** accurate information.

App Features

- App is free to end users
- Data is delivered *in real time* directly from participating sources
 - The app is designed so that the burden of information doesn't rest on any one source or agency
 - The posting of information can come from a central source or it can come from a variety of sources depending on the organization's need
 - Again, this lessens the burden on any one agency's responsibility to report emergencies as the responsibility is shared, and therefore, also lessens the burden of local emergency systems by providing accurate information quickly
- Users receive data based push notifications
- Users will have the ability to select what sort of notifications they put priority on
 - If users want notifications fire, traffic and crime situations, but prefer to not receive school notifications, they can easily select what sort of notification they put priority on. The alerts will show up in the app, but will not be pushed
 - Notification Levels: (1)Informational (2)Low Level Emergency (3)Mid-Level Emergency (4) High Level Emergency* (5) Extreme Emergency
- Ability to share information received through app on Social Media
- Alerts will be archived
- Intuitive user interface

Admin Panel Features

- The App comes with an Admin Panel with special permissions, groups and users tailored for Heads Up delegates to input factual information
- Remote publishing
 - Responsive admin panel makes it easy to post in the field or on the go
- Social Network integration from the Admin area
- Filtering, searching and sorting of events
- Full logging of every action taken by any delegate
- Configurable data mining and statistical analysis for reporting
- Training provided

Cloud Data Secured, Encrypted

Heads Up infrastructure is hosted and managed within Amazon's secure data centers and utilize the Amazon Web Service (AWS) technology. ISO 27001 -- SOC 1 and SOC 2/SSAE 16/ISAE 3402 (Previously SAS 70 Type II) -- PCI Level 1 -- FISMA Moderate -- Sarbanes-Oxley (SOX).

Secured Traffic Network

Systems are utilized to restrict access to systems from external networks and between systems internally. Firewalls, DDoS Mitigation, Spoofing and Sniffing Protections, Port Scanning, and vulnerability management to name a few.

Better Display Quality

We use progressive enhancement, a collection of best practices, to not only provide ways of enhancing images for high-density displays but, in some cases, replace pixel-based graphics altogether, making your App faster and leaner.

Custom Push Notifications

Users will have the ability to select what sort of notifications they receive. If users want notifications for fire, traffic and crime situations, but prefer to not receive school notifications, they can easily select this in their settings. The alerts will show up in the app, but will not be pushed!

Free To End-Users

Available to download for free from the Google Play store for your Android devices and the Apple App store for your iDevice.

The ability to **inform** the **population of emergency situations** is **critical**, and the **Heads Up App** is a **custom scripted** software application that will give your organization the ability to do that **quickly, easily and efficiently.**

Heads Up!

Emergency Alert Notification Application

Apps Overview

Apps Features

Direct From The Source

As a Web Application that can be downloaded to smartphones, your organization has another way to reach the masses immediately in this world where media fragmentation is at an all-time high.

Real Time Data

Data is delivered in real time directly from participating sources. Reliable information that you can trust.

Data Encryption

We undergo penetration tests, vulnerability assessments, and source code reviews to assess the security of our application, architecture, and implementation.

Automatic Update

Receive free periodic updates as the applications grows and develops from the Apple App store or the Google Play store.

Police

Receive direct information from local law enforcement as situations you need to be aware of arise. From information regarding missing persons to dangerous situations to avoid, you'll be among the first to know.

Fire

When fire and other Fire Department related emergencies happen, your Heads Up App will alert you to the information you need to know quickly and efficiently.

School

This app allows school boards, superintendents and other education officials inform teachers, parents and even students of delays, cancellations, early dismissals and more with the push of a button.

Traffic

Get accurate information first of areas to avoid when accidents occur and get where you need to go with less chance of being held up by stalled traffic or roads affected by inclement weather.

Health

Accurate health related information can be delivered to you quickly from sources in the know. From boil water advisories to health related cancellations and outbreaks, you'll find it here.

Utilities

When the power goes out... When the water lines break... are you affected? Get good information from dedicated sources and plan your next step without having to wait for information or getting home and finding out you're in the dark!

Other / Misc

Not every situation can be categorized, but when there's something you need to know, it'll find it's way to you regardless of the category!

Smartphone Usage

Smartphone usage is on the rise. With an average increase of around 400% per year. More than 56% of adults have a Smartphone, up from 25% just two years ago. -

Running on Multiple Devices

iOS 7

Currently the application supports all Andriod and iPhone devices. As it continues to grow we will expand to support less popular platforms such as Windows Mobile and Blackberry
