to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304)558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

EDD402513 NetFlow Analysis and Reporting Solution

SPECIFICATIONS

PURPOSE AND SCOPE: The West Virginia Purchasing Division is soliciting bids on behalf of West Virginia Department of Education to establish an open-end contract for NetFlow analysis and reporting solution that consists of software, licensing, software upgrades/updates, database updates and technical support. The vendor must include all costs to attain a complete solution including any servers, appliances or other hardware required to operate the proposed software. If including servers, appliances, or other hardware, the vendor must provide a list of specifications for all quoted hardware.

Section I – Current Environment

Approximately 750 public schools in 57 school districts of West Virginia are connected with a privately addressed TCP/IP statewide network. The network currently uses the private Class A range of 10.0.0.0 IPv4 addresses. The network is divided into two Point of Presence (POP) sites which each have 10Gbps connections to the Internet. The POPs are equipped with Cisco 6513 switches that contain Cisco router and Cisco PIX firewall modules that route and translate the private IP addresses to our Class B 168.216.0.0 public network IP addresses. A plan is in place to upgrade to IPv6 in the near future. The POPs are located in the WVNET facilities in Morgantown, WV and in the shared facilities vault at Building 6 of the State Capitol Complex at Charleston, WV. Each one of the two POPs connects approximately 100,000 unique computers to the Internet with 10 gigabits/second of bandwidth. There are approximately 280,000 students and 20,000 staff who utilize the K-12 network daily. These users are fairly evenly divided between the two POPs.

NetFlow is a network protocol for collecting IP traffic information. NetFlow has become an industry standard for traffic monitoring and is supported on various platforms. The West Virginia Department of Education seeks to implement an enterprise class **Netflow analysis and reporting solution** that consists of software, licensing, software upgrades/updates, and technical support. The NetFlow solution **must** collect and analyze statistics generated by NetFlow-capable network devices to generate traffic flow information.

Kanawha IT Services is a local company founded on strong principals; integrity, loyalty, honor, and dedication. The number one priority for our company is to bring jobs back home to West Virginia. We do not outsource anything. We use local credit unions for our financing, we use local suppliers for materials and equipment whenever possible, and we write our own software whenever possible. The second priority is to pay our technicians a living wage. We feel that hard work and dedication should be rewarded.

The company was founded in February of 2013 by Lisa Philpott, Tim Sayre, and Alyssianna Neal. In June, we hired 4 technicians part time. In 2014, we plan on making these 4 positions full time and hiring at least 4 more. In the next five years, we plan on being a major player in the IT field in WV. Providing work for skilled technicians is how we can give something back to the community. There are too many instances of local companies outsourcing jobs just because there is no alternative. We are that alternative; we provide competitive solutions at competitive pricing. When our customers need help, they don't get someone at a call center halfway around the world or even across the country, they get to talk to their neighbors. Whether it's a \$300 contract or a \$3,000,000 contract, our

customers get the quickest response possible by the best technicians in the area.

Our CEO, Lisa Philpott, has been a computer technician for over 15 years. She studied at West Virginia State University and Marshall University, and plans to pursue her Bachelor's degree in the coming year.

Our CFO, Alyssianna Neal, has been a computer technician for over 20 years. She studied at Chabot Junior College at the Hayward, California Campus and has hands on experience from several years in the Silicon Valley/ San Jose area of California. Her Associate's Degree is from NIT at Cross Lanes, WV. Alyssianna has 18 years of experience in Management and employee supervision and training. She will be the office manager.

Our COO, Tim Sayre, has been a computer technician since 1988, and was trained by the US Army. He is an excellent manager, having been employed as the S-1 NCO in the 19th Special Forces Group (Airborne) and has two combat tours in the Middle East. He has an Associate's degree in computer networking from ITT Tech and is pursuing a Bachelor's degree in security at the University of Charleston.

Our technicians hold various certifications from A+ to CCNA to Security +. All of our technicians have a minimum of five years experience and are among the best and brightest in the state. We are currently corporate vendors for Aarons rental centers and are in negotiations with Samsung, Vizio, and Pizza Hut. We also have contracts to provide service for several local businesses.
