Vendor must indemnify the State for any costs incurred related to any exemptions claimed by Vendor. purchasing agency tenders the initial payment to Vendor.

- 43. - 46. INDEMNIFICATION:** The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered

by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.
- 50. REPORTS:** Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:
- Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.
 - Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.requisitions@wv.gov.
- 51. BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state

repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance

with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

State of West Virginia RFQ: EHP14078 – Interferon Gamma Release Assay (IGRA)

This document is meant to provide additional support to Oxford Immunotec, Inc.'s ability to fulfill the requirements of the bid.

1. Lab will provide in vitro blood testing.
 - Oxford Diagnostic Laboratories® offers the T-SPOT®.TB test which is an *in vitro* diagnostic test for the detection of *M. tuberculosis* infection.
2. Lab must use standard collection tubes that are not specialized
 - The T-SPOT.TB test requires 6 ml of blood in a standard 6ml lithium heparin or sodium heparin (green top) collection tube. Additionally, there are no specialized collection procedures required, such as drawing the tubes in a specific order. The T-SPOT.TB test does not require shaking of the collection tubes at the correct intensity of shaking and for a specific amount of time. The use of a purge tube when using a butterfly needle is not required with the test offered by Oxford Diagnostic Laboratories. When filling the standard collection tubes it is not necessary to ensure that the tubes are filled within +/- .2mls of a specific fill volume to avoid erroneous results. All that is required is standard phlebotomy practices with a standard collection tube.
3. The lab must provide to the Health Departments all blood collection supplies; i.e., tubes, packing materials, mailers needed to perform the tests.
 - The cost of these supplies along with the shipping cost is included in the price of the test.
4. Lab must report both qualitative interpretation and quantitative assay measurements to determine result interpretations; i.e., Positive, Negative.
 - Oxford Diagnostic Laboratories test result reporting protocol is and has always been to provide both a qualitative result (i.e., Positive, Negative) and a quantitative result (the number of spots per specific antigen and control wells). The Centers for Disease Control and Prevention specifically recommends in the Updated Guidelines for Using Interferon Gamma Release Assays to Detect *Mycobacterium tuberculosis* Infection – United States, 2010 that “Both the standard qualitative test interpretation and quantitative assay measurements should be reported together with the criteria used for test interpretation. This will permit more refined assessment of results and promote understanding of the tests”
5. Lab must report IGRA blood testing results to the local health department within 36 – 72 hours of submission of specimen.
 - Oxford Diagnostic Laboratories will report the IGRA blood test result (T-SPOT.TB test) to the local health department within 36 to 72 hours of shipment of specimens to the laboratory. Specimens are to be shipped the day of collection.

6. Bid must include supplies, draw fee, shipping and handling and courier service. Courier service will pick up specimens at the local health departments. A list of the county health departments is attached.
 - Oxford Diagnostic Laboratories will provide the collection tubes. We assume that the county health departments will draw the specimen at the local health departments. Patients will not be required to go to an off-site draw location. Drawing samples by employees of the county health departments will eliminate costs associated with a draw fee. Shipping and handling and costs associated with a courier service are included in the price per test. Oxford Diagnostic Laboratories uses FedEx[®] as our courier service. FedEx will pick up the specimens at the local health departments on a "will-call" basis.
7. Lab must provide training at no cost to local health departments personnel for proper specimen collection, storing and shipping process.
 - Oxford Diagnostic Laboratories will provide training at no cost to the local health departments personnel on the proper collection of specimens, storing of specimens and the shipping process.
8. Lab must be accredited by the Clinical Laboratory Improvements Act/Amendments (CLIA) and by the College of American Pathologists (CAP) to perform IGRA Blood testing services. Tests must be FDA approved.
 - Oxford Diagnostic Laboratories is both CLIA certified (CLIA Number 44D2035207) and CAP accredited (LAP Number 8044548). Both certificates are attached. The T-SPOT.TB Test was approved by the FDA in July of 2008.

In addition, based on the bid specifications as listed in this bid it appears that any laboratory responding to this bid would not be eligible to receive the award if they are planning to offer the health departments the QuantiFERON[®] TB Gold (QFT). This is based on the fact that the QFT test uses three specialized collection tubes (Bid Spec # 2). These tubes are specifically manufactured for the QFT test and cannot be used for any other test. Their specialized procedure requires the following:

- Phlebotomist must draw three specialized tubes.
- The three specialized tubes must be drawn in a specific order.
- A specific amount of blood must be drawn in each tube +/- .2ml. Under or overfilling may lead to erroneous results.
- Once the specialized collection tubes are filled the phlebotomist is required to vigorously shake the tubes up and down for 5 seconds (10 times).
- A purge tube is required when a butterfly needle is used to draw the specimen.

A laboratory offering the QFT test would not meet the requirement outlined in the # 2 bid specification.
