33. **VENDOR CERTIFICATIONS:** By signing its bid or entering into this Contract, Vendor certifies (1) that its bid or offer was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid or offer for the same material, supplies, equipment or services; (2) that its bid or offer is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this Solicitation in its entirety; understands the requirements, terms and conditions, and other information contained herein. Vendor's signature on its bid or offer also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency. The individual signing this bid or offer on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or offer or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.
34. **PURCHASING CARD ACCEPTANCE:** The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract unless the box below is checked.
- ☒ Vendor is not required to accept the State of West Virginia's Purchasing Card as payment for all goods and services.
35. **VENDOR RELATIONSHIP:** The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but

not limited to, Workers' Compensation and Social Security obligations, licensing fees, etc. and the filing of all necessary documents, forms, and returns pertinent to all of the foregoing. Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater.

For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

The Contract shall be awarded to the vendors that provide the Contract Items meeting the required specifications for the lowest total life cycle cost or lowest unit price depending on class per fuel type vehicle class as shown on the Pricing Pages. Additionally, vehicle class 9, 9A, 9B, 9C, 9D, 9E, 9F and 10 will be awarded based on lowest unit price. Each vehicle fuel type (Gasoline, Flex-fuel, Diesel, CNG/Bifuel, and Hybrid) contained in a given class, represents an opportunity for a separate bid response. Each of these vehicle fuel types shall be evaluated independently and awarded to the lowest responsible bidder meeting the specifications of the given vehicle fuel type in that vehicle class.
- 4.2 Life of Contract:** This contract shall become effective upon award and extends for one year or until such time as the vendor notifies the Purchasing Division that the model year build-out date has been reached, unless the vendor chooses to supply next model year vehicles at the price quoted, or until contracts are issued for the next model year.
- 4.3 Pricing Pages:** Vendor should complete the Pricing Pages by responding to the information requested in the "Vendor Name", "Manufacturer/Brand", "Model & Number", "EPA HIGHWAY MPG Rating", "EPA CITY MPG Rating" and "Unit Price" fields for each vehicle class. Utilizing the provided excel files will self-tabulate the "Total Life Cycle Cost" fields.

REQUEST FOR QUOTATION
MV15 - 2015, or latest model year, motor vehicles

Vendor Bid Response Section: The vendor shall use the EPA mileage ratings from the 2015 Fuel Economy Guide for Highway and City MPG ratings for each vehicle class. If the vehicle is not present in the 2015 Fuel Economy Guide, vendors must utilize the EPA Mileage rating provided by the manufacturer for 2015 model vehicles. Vendors should submit documentation from the manufacturer, with their bid response, for the vehicle EPA mileage ratings not present in the 2015 Fuel Economy Guide. Inclusion of this documentation, with the bid, will expedite the evaluation process.

Any vehicle class that contains a vehicle evaluated on the basis of the EPA Mileage rating provided by the manufacturer will be re-evaluated when then vendors notify the Purchasing Division that the vehicle's EPA Mileage rating is now available on the 2015 Fuel Economy Guide. The notification requirement in the preceding paragraph applies to all vendors in a given class, not just to the vendor providing the vehicle with EPA Mileage from the manufacturer.

The re-evaluation will utilize the EPA mileage ratings from the 2015 Fuel Economy Guide in place of the EPA Mileage rating from the manufacturer. In the event that the two EPA mileage ratings differ, the re-evaluation may result in cancellation of the existing award and re-award of a vehicle class to another vendor. Orders placed with an awarded vendor prior to a contract re-award will remain valid. Once a re-award is made and officially becomes effective, all new orders for that vehicle class will be placed with the re-awarded vendor.

4.3.1 "Vehicle Fuel Type" segment:

- A. Vendors bidding vehicle fuel type "Gasoline" shall use the MPG ratings for gasoline.
- B. Vendors bidding vehicle fuel type "Flex-fuel" shall use the MPG ratings for E85.
- C. Vendors bidding vehicle fuel type "Diesel" shall use the MPG ratings for diesel.
- D. Vendors bidding vehicle fuel type "CNG/Bifuel" shall use the MPG ratings for gasoline.
- E. Vendors bidding vehicle fuel type "Hybrid" shall use the MPG ratings for gasoline.

4.3.2 "EPA HIGHWAY MPG Rating" & "EPA CITY MPG Rating" segments: The EPA mileage ratings for Highway and City MPG are supplied by the US Environmental Protection Agency at the following

REQUEST FOR QUOTATION
MV15 - 2015, or latest model year, motor vehicles

website: <http://www.fueleconomy.gov/feg/printGuides.shtml> Vendor shall provide each corresponding EPA MPG rating in the cell provided.

4.3.3 "Unit Price" segment: The Unit Price is the base vehicle price including standard equipment requirements, vehicle requirements and any additional requirements for the given vehicle class.

4.3.4 "Total Life Cycle Cost" segment:

The Total Life Cycle Cost is tabulated using the following formula for all fuel types *except* diesel:

$$\left(\left[\frac{75,000}{\text{EPA Highway MPG Rating}} + \frac{25,000}{\text{EPA City MPG Rating}} \right] \times 3.75 \right) + \text{Unit Price}$$

The above formula is derived from an estimated vehicle life of 100,000 miles; where an estimated 75,000 miles will be highway use and an estimated 25,000 miles will be city use. The combined averages of the two MPG ratings are then multiplied by an estimated gasoline price of \$3.75 per gallon.

The Total Life Cycle Cost tabulation formula for diesel is as follows:

$$\left(\left[\frac{75,000}{\text{EPA Highway MPG Rating}} + \frac{25,000}{\text{EPA City MPG Rating}} \right] \times 4.05 \right) + \text{Unit Price}$$

The above formula is derived from an estimated vehicle life of 100,000 miles; where an estimated 75,000 miles will be highway use and an estimated 25,000 miles will be city use. The combined averages of the two MPG ratings are then multiplied by an estimated diesel price of \$4.05 per gallon.

For example, if a gasoline vehicle were to have an EPA MPG rating of 22 MPG Highway and 18 MPG City with a Unit Price of \$22,000.00, the Total Life Cycle cost would equal \$39,992.42. (First find the product of 75,000 miles divided by the EPA Highway MPG Rating, and then find the product of 25,000 miles divided by the EPA City MPG Rating. Next, add the two products together and multiply by the fuel type cost of 3.75 per gallon (for gasoline). Lastly add the product of the preceding calculation to the Unit Price of the vehicle being bid.)

4.3.5 "Options"

REQUEST FOR QUOTATION
MV15 - 2015, or latest model year, motor vehicles

Mileage charges for delivery should be listed under the "Options" section of each vehicle class pricing page. FOB Dealership (Deduct) and FOB Other than Metro Charleston refers the delivery charges, that, at time of order, the vendor will add to or deduct from their final bid amount for each vehicle class awarded. If no response is received in either the FOB Dealership (deduct) or FOB Other than Metro Charleston fields, it will be assumed the vendor will not be charging delivery. These options will not be evaluated as part of the award.

General: Vendors should complete the Pricing Pages in their entirety as failure to do so may result in Vendor's bids being disqualified.

Notwithstanding the foregoing, the Purchasing Division may correct errors at its discretion. Vendor should type or electronically enter the information into the Pricing Pages to prevent errors in the evaluation. The Pricing Pages were created as a Microsoft Excel document and Vendor can request an electronic copy for bid purposes by sending an email request to the following address: Dean.C.Wingerd@WV.Gov.

The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice. Additionally, vendor may add a supplementary per mile charge for delivery to locations other than West Virginia Surplus Property and should provide this information in the "Options" section of each vehicle class pricing page.

6.4 Return of Unacceptable Items: If the Agency deems the Contract Items to be unacceptable, the Contract Items shall be returned to Vendor at Vendor's expense and with no restocking charge. Technical Questions and Responses for Solicitation CRFQ-SWC1500000008

Statewide Contract for Motor Vehicles Model 2015 or newer (MV15)

Q1. We have the same question for Class 5B Compact Utility & 6B Mid-Size Utility.

The Vehicle Requirements in Classification Drive: 4 Wheel/All Wheel with High and Low Range.

We can only provide All Wheel Drive without a High and Low Range. The type of vehicle we would be providing is a GMC Terrain and GMC Acadia. We are requesting an exception to the bid specification.

Response: Vehicle Class 5B Compact Utility and 6B Mid-Size Utility must have high and low range

Q2. Regarding our discussion at the pre-bid meeting, last year it was clarified on MV14 that although the specifications often call for "front and rear tow hooks", it is not always in the best interest of the state to require such. On some vehicles, adding and then using tow hooks would often cause damage to bumper covers, air dams, fascia, etc. I believe that your office agreed last year, on those vehicles where tow hooks were required, that either "front or rear" would suffice and if the vehicle were equipped with a trailer hitch, that no tow hooks would be necessary.

Response: Acknowledged, if the vehicle is equipped with a trailer hitch as standard factory equipment, then no rear tow hooks are required.

Q3. I have another question about MV15 pertaining to Class 8A-minivan.

The specification calls for "Slush/All-Weather Mats: Installed: Driver, Passenger, Cargo Areas".

If the standard flooring in the van is a factory installed vinyl floor covering that covers all areas of the floor, is this sufficient?

Response: Acknowledged, this requirement has been reviewed and addressed in the revised pricing page for Class 8A-Minivan

Q4. Addendum No. 1 to MV15 addresses a time extension for the Q&A but not the bid opening date. Based upon our discussion at the prebid meeting, I felt certain that you were in agreement that an extension of the bid opening is in order, particularly now that Q&A period has been extended. I am in hopes that you still plan some sort of extension and would appreciate your feedback on this as it will impact immediate planning for the bid process.

Response: Bid Opening Date has been moved to November 13, 2014 at 1:30pm

Q5. Regarding Class 9, Full Size Van, 8 passenger seating, would you lower the minimum wheelbase requirement to 130 inches from 134 inches?

Response: Acknowledged, and revised, this requirement has been reviewed and addressed in the revised pricing page for Class 9.

Q6. Would you lower the minimum number of doors from the currently required 6, to 4 doors minimum for Classes 9, 9B, and 9E?

Response: Acknowledged, and revised, this requirement has been reviewed and addressed in the revised pricing page(s) for Class 9, 9B, and 9E.

Q7. Would you please lower the minimum GVWR on Class 13A from 6,275 lbs. to 6,050 lbs.?

Response: Acknowledged, and revised, this requirement has been reviewed and addressed in the revised pricing page for Class 13A.

Q8. Could you lower the minimum GVWR requirement for Class 15A to 6,350 lbs.?

Response: Acknowledged, and revised, this requirement has been reviewed and addressed in the revised pricing page for Class 15A.

Q9. The request for 15A to lower the minimum GVWR to 6,350 lbs. will also apply to 15B, 15C and 15D?

Response: Acknowledged, and revised, this requirement has been reviewed and addressed in the revised pricing page(s) for Class 15B, 15C, and 15D.

Q10. Regarding the statewide contract for motor vehicles, MV15, I remain concerned that you would list your specifications using the number of cylinders contained in the engine (i.e. V8, V6, etc.) as a required minimum. For many years now, technology has allowed the vehicle manufacturers to build vehicles with smaller engines that have the same or more power than the engines that they replace. Historically, the configuration would often remain the same, such as a 4.6L V8 replacing a 5.0L V8 and maintaining or increasing power. Now, more than ever, the configuration is going to fewer cylinders. For example, the 2014 Ford Expedition was powered by a 5.4L V8 engine with 310 horsepower and 365 lb-ft of torque. The 2015 Expedition is powered by a 3.5L turbocharged V6 engine that generates 365 horsepower and 420 lb-ft of torque, a very significant increase. The smaller V6 engine, while more powerful, allows the vehicle to receive an EPA gas mileage rating that is two miles per gallon higher on both the city and highway ratings than the less powerful V8, 15/20 and 13/18 respectively, another significant increase.

Technology is even changing the way engines use their power. Chrysler now has several engines that recognize when eight cylinders are not needed and a computer shuts down four of the eight cylinders, saving fuel in the process. When the driver accelerates to the point that the additional cylinders are needed, the computer re-activates the rest of the engine.

Ignoring this revolution in engine technology would doom the state to a fleet of vehicles with archaic design which will result in unnecessary fuel costs while actually sacrificing the power desired to get the job done.

Response: Acknowledged, for the MV15 contract using the number of cylinders contained in the engine as a required minimum will remain unchanged and as written.

MANDATE: Under W. Va.
