WE CAN JV/JY Series Programmable Lightbars

An external interface unit, the WeCan Electronic Control Module (ECM), communicates all lightbar operating functions via a 2 conductor, 20 gauge cable. This small cable provides easier overall wiring and lightbar installation. Up to eighteen different programmed warning configurations can be operated using customer supplied switching to each of eighteen input wires to the ECM (default program pre-installed).

- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**REQUEST FOR QUOTATION

3.2 Basic Structural Design of Lightbar

- 3.2.1 The Lightbar shall be designed for advanced aerodynamic efficiency.
- 3.2.2 The Lightbar must be 56.25 inches (+/- 2 inches) in length with a maximum depth of 12 inches and a height of 2.25 inches (without mounting feet).
- 3.2.3 The main structural material shall be of heavy gauge extruded aluminum and shall be designed with dual vertical supports to allow superior structural strength with no sagging. The black polycarbonate base shall mount over the extruded aluminum support. The dome covers must screw into the polycarbonate base. The use of clips is unacceptable because they fail with time.
- 3.2.4 The lightbar must contain to the front (2) two Amber Linear6 corners or equal and (4) four each Amber CON3 or equal.
- 3.2.5 The lightbar must contain to the rear (2) two Amber Linear6 corners or equal and (4) four each Amber CON3 or equal.
- 3.2.6 The lightbar shall not cause RFI (Radio Frequency Interference) to any WVDOH radio telecommunications equipment. If any interference does occur, manufacturer shall provide any engineering and parts to remedy the interference at no additional cost to the Agency.

3.3 Construction of Outer Domes

- 3.3.1 The outer domes shall be constructed of polycarbonate. There shall be four dome sections on the 56 inch Lightbar, and each section must be completely sealed to provide a weather tight seal. The domes shall mount to the polycarbonate base. Lightbars that utilize clips or clamps are not acceptable since they may corrode or loose tension over time and fly off.
- 3.3.2 Each dome must be easily replaceable without removing the Lightbar from the roof of the vehicle.

**REQUEST FOR QUOTATION
LED LIGHTBARS**

- 3.3.3 The light through domes shall not be blocked and shall be of equal intensity to the viewer from the front, rear, or sides.
- 3.3.4 The domes shall be clear in color with optional colored outer domes available.
- 3.3.5 The domes must have a sealant "hard coating" applied during production to maximize the durability of the lens.

3.4 Internal Component System

- 3.4.1 The lightbar shall contain one (1) control module I/O board which shall contain all the electronics required to operate all internal light heads. This single module is required for ease of servicing the lightbar. Lightbars with multiply I/O boards or those that require replacement of LED board assemblies are unacceptable. All internal components such as lamp modules and I/O modules shall be modular in design for ease of replacement without removing the lightbar from the roof of the vehicle. The I/O module shall be 100% solid state with built-in reverse-polarity protection and output-short protection. They shall operate from 10-16 VDC with not degradation in Flash rate, and shall operate through a temperature range of -30 degrees Celsius to 60 degrees Celsius.
- 3.4.2 All internal light heads must be Phosphor converted Amber LEDs (Generation 3.5 Super LEDs) which provide maximum intensity and long, stable life. There must be a multiple of LED light heads to choose from.

REQUEST FOR QUOTATION LED LIGHTBARS

3.4.3 The Lightbars primary warning shall have a maximum of four (4) linear LED modules [1 in each corner] with only the four corner modules. Lightbars that utilize more than four modules to meet SAE Class 1 requirements are not acceptable. A copy of the Testing Lab or AMECA Certificate confirming that the lightbar conforms to SAE Class 1 requirements is required with this bid. Failure to submit this documentation will disqualify the bidder. Lightbars that do not use Linear LEDs as primary warning are not acceptable. The lightbar shall have linear LED modules in the four corners. Each linear LED corner module shall contain Super LEDs mounted in the parabolic center of a single "removable" highly mirrored reflector for maximum light output. Corner light modules that utilize multiple reflectors or mirrors are not acceptable since they do not provide a true, even light spread. The Linear LEDs shall be mounted in a straight line and have a single diffuser panel collimator mounted in front of them for maximum light output. The removable reflector must contain the LEDs and allow for the removal of each individual light head for ease of changing the light configuration. Lightbars that require the removal of large multi-LED panels to replace/reconfigure a light head are not acceptable. The Lightbar must contain a minimum of eight (8) CON3 Super LED panels or equal (4 Front Center/4 Rear Center). Each CON3 module must contain a maximum of (3) Super-LEDs and must be supplied with a removable optical filter that disperses the light. The LED panel must be mounted within the lightbar. Systems in which the LED panel/lens assembly makes up the outside configuration of the lightbar are not acceptable.

3.5 External Cable

3.5.1 There shall be two (2) cables exiting the lightbar on the passenger side. Each cable shall be heavy duty water resistant: (1) 4 conductor 14 gauge power and ground cable (one pair controls front operation and the second controls rear operation); and one 3 conductor 22 gauge cable for Scan-Lock and pattern override feature. The external cable shall be a minimum of 17 feet.

3.6 Mounting Kit

3.6.1 The Mounting Kit shall be permanent mount.

3.7 Warranty

**REQUEST FOR QUOTATION
LED LIGHTBARS**

- 3.7.1 The System shall be warranted by the manufacturer to the user directly to be free from defects of material or workmanship for a period of (24) twenty-four months from the date of purchase. No warranty is offered on optical plastic parts. LEDs shall be warranted for a period of (5) years. Written proof of this warranty by the manufacturer must be furnished by the bidder and attached to the bid.
- 3.7.2 The manufacturer shall provide a (24) twenty-four month warranty on both parts and labor. This shall include (48) forty-eight hour factory turnaround repair service. Out of warranty product shall receive the same quality service and be repaired at a flat service rate of \$75.00, which includes shipping/handling fees for each unit returned. Warranty excludes new or necessary hardware such as lenses, flash tubes, etc.

4. CONTRACT AWARD, PERCENTAGE DISCOUNT, CATALOG:

- 4.1 **Contract Award:** The Contract is intended to provide the Agency with a discounted price on all Eligible Items. The Contract shall be awarded to the Vendor that meets the RFQ specifications and provides the lowest Total Bid Cost for the Eligible Items. Notwithstanding the foregoing, the Purchasing Division reserves the right to award this Contract to multiple Vendors if it deems such action necessary.
- 4.2 **Discount Percentage:** Vendor shall quote a single Discount Percentage that will reduce the lowest price shown in the Catalog for every Eligible Item. The resulting Discounted Price shall be the price Agencies pay for purchases of that Eligible Item under this Contract.

Vendor shall not incorporate Discount Percentages into its Catalog unless the Vendor clearly shows the Catalog Price and then separately lists the applicable Discount Percentage and the Discounted Price for each Eligible Item.

The Discount Percentage and subsequent Discounted Price derived from that discount must take into account any and all fees, charges, or other miscellaneous costs that Vendor may require, including delivery charges as indicated below, because those fees, charges, or other miscellaneous costs will not be paid separately. The Agency shall only pay the appropriate Discounted Unit Price for items purchased under this Contract.

**REQUEST FOR QUOTATION
LED LIGHTBARS**

5. Catalog:

- 5.1 Submission.** Vendor must submit its Catalog prior to award of this Contract for evaluation purposes. Vendor shall also mail the Catalog free of charge to any Agency desiring to use this contract. Copies of the Catalog may be requested in an electronic format and should be provided in that format if possible. Vendor's Catalog will be used by Agencies to order Eligible Items under this Contract.

Vendor should identify all items listed on the solicitation by circling or highlighting those items in its Catalog and earmarking or tabbing the pages for those items, to assist in the evaluation and verification of the bids and pricing. If any discrepancies exist between the quoted price on the solicitation and the actual price listed in the Catalog, the actual price shall prevail and the solicitation may be corrected by the Purchasing Division buyer for evaluation purposes.

- 5.2 Catalog Modification.** The Purchasing Division may permit Vendor to update its Catalog at each renewal date. Determination of whether or not to allow a Catalog update is at the sole discretion of the Purchasing Division. Any request by Vendor to update its Catalog must include a detailed listing of the following: (1) any Eligible Items being removed, Discounted Unit Prices for those items, Agencies quantity usage of those items, and total spent by Agencies on those items; (2) any Eligible Items being added to the Catalog and the Discounted Unit Price of those items; (3) all changes in the Discounted Unit Price to Eligible Items, estimated usage relating to items that have changed in price, and the total impact of the price change on the State; and (4) justification for updating its Catalog. The Purchasing Division may waive the detailed listing requirement if it finds that doing so is in the best interest of the State. Unless an updated catalog is approved, the Eligible Items available under this Contract and prices for those items shall remain unchanged during the term of this Contract.

In the event that multiple vendors are awarded a contract under the RFQ, The first priority vendor shall not be permitted to include in its updated Catalog items being sold by a vendor that is lower in ordering priority without the consent of that lower priority vendor.

6. ORDERING AND PAYMENT:

- 6.1 Ordering:** Vendor shall accept orders by regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system. Any on-line ordering

- 6.2 Invoicing and Payment:** Vendor shall indicate the discount received on each invoice submitted for payment. Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia. Methods of acceptable payment must include the West Virginia Purchasing Card. Vendor shall ship all orders in accordance with the above schedule and shall not hold orders until a minimum delivery quantity is met. Eligible Items must be delivered to Agency at (see attached Exhibit B for District Locations).
- 7.2 Late Delivery:** The Agency placing the order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for cancellation of the delayed order, and/or obtaining the items ordered from a third party.

Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division.

- 7.3 Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice.

- 7.5 Return of Unacceptable Items:** Items that Agency deems unacceptable shall be returned to Vendor at Vendor's expense and with no restocking charge. Vendor shall either make arrangements for the return within five (5) days of being notified that items are unacceptable, or permit the Agency to arrange for the return and reimburse Agency for delivery expenses. If the original packaging cannot be utilized for the return, Vendor will supply the Agency with appropriate return packaging upon request. All returns of unacceptable items shall be F.O.B. the Agency's location. The returned product shall either be replaced, or the Agency shall receive a full credit or refund for the purchase price, at the Agency's discretion.
- 7.6 Return Due to Agency Error:** Items ordered in error by the Agency will be returned for credit within 30 days of receipt, F.O.B. Vendor's location. Vendor shall not charge a restocking fee if returned products are in a resalable condition. Items shall be deemed to be in a resalable condition if they are unused and in the original packaging.
