Re: CEOI 0612 DPS1600000001
Professional Architectural and Engineering Services
West Virginia State Police
Multiple Projects throughout West Virginia

Dear Sir/Madam,

MSES Architects is pleased to submit our expression of interest in providing professional architectural and engineering services to the West Virginia State Police for multiple projects throughout West Virginia. Our team's extensive experience in designing similar projects would prove to be of great value to you in the successful completion of your project.

MSES Architects, located in Fairmont, is a division of MSES Consultants, Inc. in Clarksburg. MSES is a multi-disciplinary firm with a staff of over 100 professionals, and has served both private and public clients throughout West Virginia since 1976. Over the years, we have opened offices in Fairmont, Huntington, and Beckley, WV, as well as Indiana PA. Together, MSES Architects' experienced team of design professionals, including registered architects, interns, interior designers and technicians, combine with our well-established engineering and environmental group to create a full-service team capable of producing a successful project to meet your design and budgetary needs, all under one contract.

As you will see on the following pages, MSES has provided professional design services for many projects similar to the ones planned for the various WV State Police facilities, including but not limited to:

- Roll-up doors, garages and storage facilities for Stockmeier Urethanes, Pace Enterprises, Pratt & Whitney, and others.
- Emergency Generators for many industrial, health care and office facilities.
- Office construction and renovations for Marion County Board of Education, Stockmeier Urethanes, Mountain State Endodontics, MVB Bank, and others.
- Roof repair or replacement for many existing structures as shown on our enclosed Roof Experience Matrix.

- State Purchasing Division projects including Mildred Mitchell Bateman Hospital Renovations, Turning Pointe Residential Facility, and West Virginia Veterans Nursing Facility, among others.

MSES is particularly well suited to perform projects such as these due to the diverse talents of the full service project team. Construction and renovation projects require a vast knowledge of all phases of design, from project programming, preliminary design and schematic design through contract documents, bidding and construction period services. Our clients are especially pleased with our attention to detail, our skills in estimating and budgeting, and our follow-up assistance during and after construction. Another advantage is that we have multiple offices in the state, allowing us to promptly travel to the project sites from one of our locations and reducing potential delays due to unforeseen construction issues.

If selected, I personally will manage all of your projects from our Fairmont office, with support from our Clarksburg and Huntington offices. Our experienced architects, engineers and environmental professionals will work together to design the upgrades and renovations to each State Police facility, with the most accurate and efficient designs possible, while maintaining your budget and schedule constraints.

We encourage you to discuss our past experience with the clients listed in our reference section of this EOI. Our current project load enables us to start working on your project immediately. We would appreciate the opportunity to meet you and discuss how we can provide you with professional services needed for a successful project. Thank you for your consideration.

Sincerely,

Pamela J. Wean, AIA
Senior Project Architect
MSES Architects

GENERAL INFORMATION

MSES ARCHITECT'S GENERAL DESCRIPTION OF THE FIRM

MSES Architects, located in Fairmont, WV, is a wholly-owned subsidiary of MSES Consultants, Incorporated in Clarksburg, WV. We are a multi-disciplinary firm which was founded in 1976. Since that time our firm has been providing quality services to private and public clients all over West Virginia and surrounding states. We are a full-service organization providing architectural, engineering, design, and environmental services with a current professional staff of over 100, making us one of the largest West Virginia-owned and diversified A/E consulting firms in the state of West Virginia.

Our design professionals have vast experience in the design and project management of building renovations, additions, and new construction. Our knowledge of local, state and federal regulations is beneficial to the client because our team can ensure that their facility not only meets but also exceeds these standards.

Our Personnel

The MSES Team maintains a staff of highly trained and experienced personnel, including all the technical disciplines necessary to fully staff projects of all sizes and types. Our personnel demonstrate the education and experience required to accommodate any land planning, site development, program management, planning, renovation, repairs, modifications, upgrades, additions, or new construction projects.

In addition to employee experience, another factor for MSES' continued success is the unusual degree of longevity and company loyalty among our personnel. Our many long-term and repeat clients are appreciative of the continuity that this affords, and are refreshed with the degree of familiarity and prior knowledge with which each subsequent project is met. It is this unique combination of knowledgeable, experienced, talented, and devoted principals and employees that has brought MSES to the forefront as a provider of architectural, engineering, environmental, total land planning, property inventorying, auditing, hazards surveys, adapted reuses, historic preservation, LEED AP, and project management services.

Our staff's stable employment record also enables the firm to assemble project teams that have worked together for many years, and that possess a good knowledge of how individual strengths fit together to form an effective team. The firm is able to assemble teams composed of individuals whose capabilities are tested and well known to our establishment. We assign senior staff to management roles on all our projects.

MSES Architects and Building Construction and Renovations

Since 1978, MSES's architectural and engineering services have been distributed nearly equally between the construction of new facilities and the renovation of existing structures. Our expertise has gained MSES a distinguished reputation with commercial, industrial, and manufacturing firms, municipalities, State Agencies, the West Virginia School Building Authority, county boards of education, the state's colleges and universities, and other entities as a noted leader in this field.

Our extensive experience has yielded a specialized, efficient project approach, in which we incorporate the most up-to-date technologies for all aspects of audits, renovations, design, and construction. This promotes the development of modern facilities within existing structures, while preserving the character of the existing buildings and providing an enhanced environment in which to work, all accomplished within a cost effective, affordable budget. With the combination of our diversity and our 39 years of professional experience, MSES truly lives up to its reputation as a full service provider of architectural, engineering, auditing, design and environmental services.

MSES ARCHITECTS • GENERAL INFORMATION

An important component of demolition and renovation projects is the identification of potential hazardous materials within the existing structure. MSES is unique relative to any other firm in the state by maintaining a qualified staff to sample, analyze and interpret results for environmental issues that may often be associated with demolition, renovations and modifications to older facilities. Included among these are concerns related to asbestos-containing materials, paints containing lead, radon, and other environmental risks. MSES' staff includes Certified Industrial Hygienists, asbestos inspectors, abatement designers, lead-based paint risk assessors, radon risk assessors, air sampling personnel, and bacteria and fungi specialists, among others. The expertise of these skilled individuals, in combination with our laboratory support facilities, ensures the accurate and timely identification of materials of concern, the development of remediation planning, and the safe and proper removal of identified materials, thus facilitating successful renovations, site development, utility infrastructure, and building additions.

The Fairmont, West Virginia office staff, with support from MSES Consultants' office staff in Clarksburg, Huntington and Beckley will be responsible for the activities associated with this project. Pam Wean will be the Senior Project Architect and Jeff Wise, Executive Director, will be the Project Manager. Mr. Wise and Ms. Wean will manage and coordinate the work among architects, engineers, environmental specialists and support staff to ensure your projects are completed on time and within budget.

PROJECT EXPERIENCE

EDUCATIONAL

- Asbestos abatement project assistance, AHERA compliance and indoor air quality investigations for the following WV County School Systems: Marion, Mineral, Taylor, Randolph, Lewis, Monongalia and Braxton
- Asbestos abatement project assistance and AHERA compliance for the following WV County School Systems: Webster, Pleasants and Tucker
- Asbestos abatement project assistance and indoor air quality investigations: Fairmont State University, Wesleyan College and Alderson-Broadus College
- Laboratory hood certifications and mercury spill cleanup assistance at West Virginia University
- Asbestos abatement project assistance: Shepherd University and Salem University

COMMERCIAL

- Asbestos abatement and demolition project assistance- MVB Bank, Fairmont Branch
- Indoor air quality investigation- Huntington Bank, Clarksburg Branch
- Asbestos abatement project assistance- Kroger Company
- Asbestos Air Sampling- Chase Bank, Clarksburg Branch and Barbour County Bank, Philippi Branch

HEALTHCARE

- Asbestos abatement project assistance, environmental compliance assistance, safety/industrial hygiene assistance, indoor air quality investigations- United Hospital Center and Louis A. Johnson Medical Center
- Indoor air quality investigations, isolation room Certification- Fairmont General Hospital
- Indoor air quality investigations- Monongalia General Hospital

PROJECT ORGANIZATION

MSES TEAM
PROJECT ORGANIZATIONAL CHART
ARCHITECTURAL/ENGINEERING DESIGN SERVICES
WV STATE POLICE- VARIOUS PROJECTS

MSES Architects presents a full service approach for your project. Our team has the capacity to provide all of the needed resources to develop, design and oversee the project under one A/E Agreement. MSES has offices spread across West Virginia and we have completed numerous successful projects throughout the state. The Fairmont Office staff, with assistance from MSES Consultants' Corporate Office staff, the Beckley Office staff and the Huntington Office staff will be responsible for the activities associated with your projects.

RELEVANT EXPERIENCE

STOCKMEIER URETHANES USA, INC.
Clarksburg, WV

Stockmeier Urethanes USA, Inc. is a manufacturing facility in Clarksburg, West Virginia. MSES Architects has designed and managed many projects to keep up with the Owner's increasing business.

Projects include:
Master Planning of the site to include expansion of warehouse and production area; gutting and renovating an 11,000 SF office building to create a new, state-of-the-art corporate office including a training room, state-of-the-art board room and classroom, and an exercise room for staff; expansion of several loading dock areas; creation of new site entry plaza with signage and flagpoles; new tanker and trailer parking lots; new 22,000 sf pre-engineered warehouse; renovation of breakroom, locker room and labs; and many others.

PROJECT HIGHLIGHTS

- Architectural and Engineering design services for a variety of projects
- Warehouse expansion
- Corporate Office renovation
- Master Planning
- Site improvements
- Loading dock additions
- Locker Room & Break Room renovations
- Parking Lots

CLIENT

Stockmeier Urethanes USA, Inc.
Christian Martinkat
(304) 624-7002

MSES professionals provided design and construction period services for this project in the following roles:

- Jeff Wise, Planning, Funding, Budgeting and Management
- Pam Wean, Project Architect
- Nate Zirkle, Intern Architect
- David Skeen, Mechanical Engineer
- David Kirby, Electrical Engineer
- Rod Kidd, Civil Engineer

PACE ENTERPRISES
Morgantown, WV

Pace Enterprises is a facility that trains adults with disabilities in the fields of production, food service, data entry, maintenance and a variety of other skills. Pace had outgrown their existing facility in Star City, West Virginia and were in need of expansion. Our team of architects and engineers assisted Pace by designing an 11,000 SF office and production facility. Phase 1 included construction of the building foundation and shell. Phase 2 involved the build-out of interior spaces which includes food service and dining facilities for staff and clients as well as a small diner open to the public. In addition, offices and training rooms are available for clients to learn computer skills.

The production and maintenance area features a large, high-bay work area and is complete with a loading dock. Currently one of their most requested services is their secure document shredding service.

PROJECT HIGHLIGHTS

- *Design of training facility for adults with disabilities*
- *Production / Warehouse / Maintenance Shop*
- *Administrative Offices*
- *Training rooms*
- *Commercial kitchen and cafeteria*
- *Restaurant*

- *Rod Kidd, Civil Engineer*
- *John Keeling, Environmental Specialist*
- *Ron Cutlip, Environmental Specialist*
- *MSES Survey Team*

KINGSFORD MANUFACTURING COMPANY
Parsons, WV

Since 1987, MSES has enjoyed an ongoing relationship with Kingsford, in which we have provided our engineering, environmental, mechanical, electrical, civil, and safety services for numerous projects at the Parsons, WV plant. MSES designed a 27,400 SF pre-engineered, slab on grade metal building, to serve as the production, storage, shipment, and auxiliary services facility for the Match Light product line. A 10,000 sq. ft. portion of the facility is used for the entire production process. MSES designed a specialty ventilation system for this portion of the Match Light plant, as well as a water and foam fire suppression system and outside raw materials / naphtha storage tanks. The remaining 17,400 sq. ft. portion serves as the storage warehouse and shipping terminal for the finished / palletized products, as well as housing offices, restrooms and a breakroom for the employees.

MSES provided all of the engineering, environmental, mechanical, electrical, civil, and safety services for the entirety of the project.

SERVICES

- 27,400 SF pre-engineered metal buildings, slab-on-grade, metal building
- Specialty ventilation system
- Fire suppression system
- Outside storage tanks
- Storage warehouse and shipping terminal
- Offices, restrooms and breakroom

CLIENT

Kingsford Manufacturing Company
(304) 478-2911

FMC CORPORATION
South Charleston, WV

MSES was commissioned by FMC Corporation to develop a multi-faceted maintenance complex which would allow for the total maintenance, repair and modification of any motorized vehicle in use at the FMC Corporation's many locations within the Kanawha Valley. This modern facility features a tire maintenance area; routine maintenance (oil changes, tire changes, etc.) area; body and specialty equipment fabrication area; secure storage area; and complete body shop operations, consisting of auto body repair shop, spray booth, and heat treatment stalls. In addition, offices, employee break / lunchroom, locker, and shower facilities are part of this complex. The complex also provides spacious exterior parking, external materials storage areas, and a fueling center for all the company's motorized vehicles. Environmental compliance is also a chief focus, with no discharges released from the facility (with the exception of restroom and shower areas). Where possible, wastes are captured for recycling; other wastes are contained for proper disposal off-site.

The Maintenance Facility is a pre-engineered metal building, slab on grade, two story (offices, locker rooms, showers, training rooms, lunch room) with specialty activity areas on the first floor. The total building is 28,000 square feet.

PROJECT HIGHLIGHTS

- 28,000 SF pre-engineered, slab-on-grade metal building, two-story maintenance complex.
- Tire and routine maintenance area.
- Body & specialty equipment fabrication area, secure storage area, and complete body shop.
- Offices, employee break/lunchroom, locker and shower facilities.
- Parking and external materials storage areas.
- Fueling center.

CLIENT

FMC Corporation
(304) 744-512

PRATT & WHITNEY ENGINE SERVICES
Bridgeport, WV

Pratt & Whitney Engine Services provides services for the inspection, repair and maintenance of small to medium sized aircraft engines. These services include housing aircraft in the company's hangar systems, removing the engines, performing the necessary repairs and inspections, testing the engines, and the re-installing them into the aircraft. MSES was assigned the task of developing an aircraft hangar building that would accommodate various sized aircraft, with the capacity to house numerous aircraft at one time. A pre-engineered, slab on grade metal building, which interconnects with the Harrison-Marion Regional Airport's taxiways, was developed. MSES has been called upon on two different occasions to enlarge the existing hangar area and developed additional repair and offices spaces immediately adjacent to the hangar. The facility consists of a 28,000 SF hangar area and a 12,000 sq. ft. maintenance and office area

PROJECT HIGHLIGHTS

- *Pre-engineered, slab-on-grade metal building interconnecting with Harrison-Marion Regional Airport's taxiways.*
- *28,000 SF hangar area*
- *12,000 SF maintenance and office area*
- *Completed May, 2014*

CLIENT

*Pratt & Whitney Engine Services
(304) 842-5422*

MSES professionals provided design and construction period services for this project in the following roles:

MSES AND MAINTENANCE / STORAGE FACILITIES

Since 1993 MSES has been active in the development and design of production, maintenance and storage facilities for numerous clients. Professional services provided for these projects have included siting, subsurface investigations, site development, utilities and drainage, building foundation and structural designs, mechanical/electrical/plumbing, and necessary permitting, for such organizations as:

- *West Virginia Air National Guard - Benedum Air Training Center*
- *Central West Virginia Transport Authority - Centra Bus Garage*
- *FMC Corporation - Nitro Maintenance Facility*
- *Ohio County Board of Education - Ohio County Maintenance Garage*
- *Harrison County Commission - Harrison County Public Safety Complex*
- *G. E. Specialty Chemicals - Morgantown Industrial Park, North Plant Maintenance, Training, and Shower/Locker Facility*
- *Amtower Auto Parts, Inc. - NAPA Automotive Establishments*
- *Cytec Industries - Willow Island, WV Vehicle Maintenance Station*
- *City of Huntington – Bus Maintenance Facilities*

Our team of architects and engineers have also completed a variety of work in the vocational and maintenance facilities for the local school boards listed below. Work includes dust collection systems, electrical upgrades, HVAC upgrades, welding shop and fire training tower.

- *Harrison County Schools*
- *Jackson County Schools*
- *Marion County Schools*
- *Randolph County Schools*
- *Pleasants County Schools*

GENERATOR EXPERIENCE

MSES has provided design services for emergency generators for the following facilities. Some of these facilities were designed by MSES Architects and/or Engineers and are highlighted on the following pages.

- WV Veterans Nursing Facility
Clarksburg, West Virginia

- William R. Sharpe, Jr. Hospital Transitional Facility
Weston, West Virginia

- Turning Pointe Facility at Jackie Withrow Hospital
Beckley, West Virginia

- Stockmeier Urethanes USA, Inc.
Clarksburg, West Virginia

- Appalachian Teen Challenge Induction Center
Bridgeport, West Virginia

- MVB Bank, White Hall Branch
White Hall, West Virginia

- Mildred Mitchell-Bateman Hospital
Huntington, West Virginia

- Industrial Home for the Youth, Jones Building
Industrial, West Virginia

- Camp Dawson, West Virginia Army National Guard
Kingwood, West Virginia

- U.S. Fish and Wildlife Service
Shepherdstown, West Virginia

MARION COUNTY BOE OFFICE RENOVATIONS
Fairmont, WV

The former National Guard Armory in Fairmont was purchased by Marion County Schools, and, under the design by MSES Architects, has been renovated to house the Marion County Board of Education Central Office. Work consisted of demolition of the existing vehicle maintenance bay and firing range and renovation of the existing office wing into over 30 new offices and associated spaces. In addition, a new state-of-the-art Conference Room was designed with fully-automated projectors, screens, lighting and window blinds that function using iPad control.

Exterior improvements include replacement of existing doors and windows and creation of a new main entrance to the office wing. Plumbing, HVAC, fire alarm and electric were upgraded or replaced, and new toilet facilities were provided. Also, new parking areas for staff and visitors were provided.

PROJECT HIGHLIGHTS

- Renovation of office wing of the former National Guard Armory for use as the Marion County Board of Education Central Office
- 11,430 SF
- Asbestos abatement
- All new finishes
- Lighting and electrical upgrades and replacement
- Plumbing and HVAC upgrades and replacement
- Window and door replacement
- New parking
- Completion June 2015
- Construction Cost: \$1,440,000.00

CLIENT

Marion County Schools
Gary Price, Superintendent
(304) 367-2100 x111

MSES professionals provided planning, design and construction period services for this project in the following roles:

- Jeff Wise, Planning Funding Budgeting and Management
- Pam Wean, Senior Project Architect
- Casey Smith, Intern Architect
- David Skeen, Mechanical Engineer
- David Kirby, Electrical Engineer
- Rod Kidd, Structural and Civil Engineer
- John Keeling, Environmental Specialist
- Ron Cutlip, Environmental Specialist

NEW OFFICE BUILDING FOR MOUNTAIN STATE ENDODONTICS
Star City, WV

PROJECT HIGHLIGHTS

- 4,500 SF Office Building
- State-of-the-Art Dental Equipment
- Full finished basement for staff and Owner use.
- Future second floor apartment

CLIENT

Lauren Namsupak, DDS, MS
Mountain State Endodontics
3412 University Ave.
Morgantown, WV 26505
304/381-3331

MSES professionals provided design and construction period services for this project in the following roles:

- Pam Wean, Senior Project Architect
- Nate Zirkle, Intern Architect
- David Skeen, Mechanical Engineer
- David Kirby, Electrical Engineer
- Rod Kidd, Civil Engineer

MSES Architects teamed with City Construction Co., Inc. to create this design-build project in Star City. The new endodontic clinic provides a waiting room, reception area, exam/treatment rooms, imaging and sterilization rooms, offices and staff areas. Equipped with state-of-the-art dental equipment and modern furnishings, the interior spaces are welcoming with plenty of natural light in all areas.

The finished basement provides staff and private areas, storage and mechanical space. The unfinished second floor is equipped with a private entrance and utilities for future build-out of a rental unit.

The exterior of the new office building is professionally detailed with cement board siding and stone veneer, and fits in well in this mixed residential / commercial setting.

MVB BANK WHITE HALL BRANCH
Fairmont, WV

MSES Architects and Engineers designed the White Hall Branch of MVB in Fairmont. This branch is the first MVB of its kind in North Central West Virginia that features the latest in automated self-service technology. This technology allows the customer to handle their own transactions.

MSES worked with the client to include these unique digital features while incorporating other more traditional exterior and interior styles of MVB to create a state-of-the-art banking experience.

PROJECT HIGHLIGHTS

- 3,500 SF Branch Bank
- Traditional MVB Appearance
- Self-Service Technology and Equipment

CLIENT

MVB Bank, Inc.
John Schirripa, President & CEO
1000 Johnson Avenue
Bridgeport, WV 26330

Current MSES professionals provided design services for this project in the following roles:

- Jeff Wise, Planning, Budgeting and Management
- Pam Wean, Architect-of-Record, Sr. Project Architect
- Nate Zirkle, Intern Architect
- Dave Skeen, Mechanical Engineer
- Dave Kirby, Electrical Engineer
- Rod Kidd, Civil Engineer

WV VETERANS NURSING FACILITY
Clarksburg, WV

PROJECT HIGHLIGHTS

- *Design of New 120 Bed State Veterans Nursing Facility*
- *98,000 SF*
- *\$22,600,000.00*
- *Completed: 2007*
- *Funding administered by WV State Purchasing Department*

CLIENT

*WV Veterans Nursing Facility
Kevin Crickard, Administrator
(304) 626-1600*

MSES professionals provided design and construction period services for this project in the following roles:

- *Jeff Wise, Planning, Funding, Budgeting and Management*
- *Pam Wean, Project Architect*
- *David Skeen, Mechanical Engineer*
- *David Kirby, Electrical Engineer*
- *Jeff Pauley, Electrical Engineer*
- *Rod Kidd, Civil Engineer*
- *John Keeling, Environmental Specialist*
- *MSES Survey Team*

MSES Architects and Engineers are proud to be the designers of the very first West Virginia State Veterans Nursing Facility located in Clarksburg, WV. This State-of-the-Art facility houses 120 veterans, including beds for 20 Alzheimer's patients. Special features include a grand three-story atrium at the main entrance, large common dining rooms overlooking the West Fork River, and spacious screened-in porches on each end of the patient wings complete with comfortable furnishings and porch swings. Each patient room entry door is equipped with glass display cases which are filled with photos and personal keepsakes of the patient for ease of identifying their room. Hallways and rooms are tastefully decorated with photos of local landmarks, military uniforms, and medals and other reminders of their service. Exterior spaces are available for residents to enjoy the view and fresh air in a safe and comfortable environment. A multi-tiered plaza behind the building offers various seating areas under the shade of gazebos and trellises.

TURNING POINTE AT JACKIE WITHROW HOSPITAL
Beckley, WV

Turning Pointe is an 8,300 SF treatment facility for mothers who are battling substance-abuse issues, and their children. This wood-framed brick structure contains classrooms, group therapy rooms, offices, kitchen, dining and bedrooms for up to 16 residents. The wooded site on the campus of Jackie Withrow Hospital provides a grassy fenced-in recreational area, and parking with porous pavement to allow for proper site drainage.

TB UNIT AT JACKIE WITHROW HOSPITAL
Beckley, WV

The State of West Virginia was in need of a new medical unit designed specifically for use by patients with tuberculosis. MSES Architects and Engineers provided design services to create the Five-Bed TB Unit in one wing of the existing Jackie Withrow Hospital in Beckley.

Features included five private bedroom, one common gathering room, nursing station, nourishment station, gowning areas and clean/spoiled storage rooms. The unit is designed to provide isolation and control of the infection by implementing state-of-the-art HVAC ventilation and building materials.

PROJECT HIGHLIGHTS: TURNING POINTE

- Design of New Residential and Treatment Facility for 16 Residents
- Porous paving for stormwater drainage.
- 8,300 SF
- Completed: 2012

PROJECT HIGHLIGHTS: TB UNIT

- Design of Five-Bed TB Unit
- State-of-the-art medical unit specifically for the treatment of patients with tuberculosis
- Renovation of existing wing of Jackie Withrow Hospital

CLIENT

Jackie Withrow Hospital
Ms. Angela Booker, Administrator/CEO
(304) 256-6600

MSES professionals provided planning, design and construction period services for both projects in the following roles:

- Jeff Wise, Planning, Funding, Budgeting and Management
- Pam Wean, Senior Project Architect
- Nate Zirkle, Intern Architect
- David Skeen, Mechanical Engineer
- Jeff Pauley, Electrical Engineer
- Rod Kidd, Civil Engineer
- John Keeling, Environmental Specialist
- Ron Cutlip, Environmental Specialist

DONEL KINNARD MEMORIAL STATE VETERANS CEMETERY
Institute, WV

PROJECT HIGHLIGHTS

- *Master Planning*
- *Administration/Public Information Center*
- *Maintenance Building*
- *Committal Service Shelter*
- *Equipment and Burial Support Items*
- *Site Access and Intra-Cemetery Roadways*
- *Utilities*
- *Telecommunications*
- *Irrigation System*
- *Walking Paths*
- *Completed: 2012*
- *Funding administered by WV State Purchasing Department*

CLIENT

State of WV Division of Veterans Affairs
Rick Thompson
(304) 558-3661

MSES professionals provided design and construction period services for this project in the following roles:

- *Jeff Wise, Planning, Funding, Budgeting and Management*
- *Nate Zirkle, Architect Intern*
- *Jeremy Hobson, Architect Support*
- *Dave Skeen, Mechanical Engineer*
- *Jeff Pauley, Electrical Engineer*
- *Rod Kidd, Civil Engineer*
- *John Keeling, Environmental Specialist*
- *MSES Survey Team*

The MSES Engineering Team was selected to provide the site development concept(s), utilizing the existing terrain and past industrial site uses, for a tribute to the West Virginia Veterans and their families.

Initially, Master-Planning services were needed to evaluate the 350 acre site, and create a comprehensive layout of public, burial, staff and maintenance areas, roadways and site drainage. Design services included clearing the site, providing site access, roadways and parking, utility infrastructure, walking paths and landscaping, and P/M/E design for four separate structures. MSES also provided construction administration and closeout services.

To Whom It May Concern:

I have had the pleasure of serving Ritchie County as County Commissioner since 1987. Throughout that time period, the Commission has enlisted MSES for professional services on numerous occasions. MSES has provided us with architectural and engineering design for construction, restoration, renovation, demolition and environmental projects.

Most recently, MSES has been providing services for renovations of the Ritchie County Courthouse. President, Larry Rine, Senior Project Architect, Pam Wean, Project Architect, Stacey Bowers and their team of professionals performed exceptionally throughout the process. It is easy to see that they hold themselves to a very high standard. The knowledge that this team possesses in regards to regulatory agencies is unmatched. In particular, their experience working with the State Historic Preservation Office has proven invaluable to us. There is no doubt that choosing this firm for our projects has been both time and cost effective.

From planning through post construction, MSES has provided excellent service. The fact that they could provide architectural, engineering and even environmental services under one AIA contract was also beneficial.

Any client engaging MSES for their project will benefit from the many assets they can provide. Their attention to detail, open communication and commitment to meeting cost and time demands are just a few of their strengths. I strongly urge you to consider MSES as designers for your construction projects. If you require more detailed information, I would be glad to speak to you regarding MSES.

Sincerely,

Samuel C. Rogers
President
Ritchie County Commission

To Whom It May Concern:

I am providing this letter of reference on behalf of MSES Architects and Consultants who have informed me that they are interested in providing services for some upcoming projects your organization will be undertaking. I have worked with both Jeff Wise and Pam Wean since 1998 on numerous school projects in Pocahontas, Marion and Randolph Counties. I recommend their services without hesitation or reservation.

I have found their organization to be highly competent in providing support to school systems in the areas of building renovations and new construction. First and foremost it is important to note that their organization has always brought projects in under budget and always within the timelines set forth in the project timelines. They do so because of careful planning and attention to detail. They have a vast background in school construction and are very familiar with the nuances and dynamics of working with the public and those organizations that deal with school construction funding. Their client services exceed what one might expect of similar engineering and architectural firms. They provide intricate communications that keep their clients informed of any issues that may arise during planning, construction, and post construction phases because they utilize a very high level of a "hands on" approach of engaging with project contractors. They understand the principle of the owner relationship and go beyond all levels of normal expectations once they are engaged in a project.

If you select them to provide services for your organization, you will immediately gain an asset for project. Their level of professionalism and courteousness is unmatched in these trying times of limited resources and unique dynamics of school construction. If you need further information about what MSES can do for you and your school system, I will be glad to discuss their attributes in further detail. Good luck in your endeavors to select your representative. Thank you for your consideration and attention in this matter.

Sincerely,

Jim Phares

Former County Superintendent (Pocahontas, Marion, and Randolph)

To Whom It May Concern,

I would like to endorse the selection of MSES for any construction or renovation project you may be considering. Their knowledge of the requirements of the School Building Authority, the fire marshal's office and other regulatory agencies is invaluable in saving planning time and managing scarce resources.

Please feel free to contact me for additional comments or to tour our newly constructed East Fairmont Middle School, totally renovated Fairmont Senior High School or our soon to open Central Offices - all MSES projects.

With Kindest Regards,

Gary L. Price
Superintendent
Marion County Schools

June 18, 2015

To Whom It May Concern:

I am writing this letter in support of MSES Architectural Firm, Pam Wean, Senior Project Architect, acknowledging their work in design and construction of Franklin Elementary School. Pam, Stacy and associates were a great partner to the many questions, concerns and issues that were raised as we began and finished our new school. I can honestly say they were eager to listen and always took into account our concerns when challenges arose. MSES Architects have been a friend to Pendleton County and I feel confidently they will do the same in future projects in which they may participate.

Please feel free to contact me if I can be of any assistance.

Sincerely,

A handwritten signature in cursive script that reads 'Douglas S. Lambert'.

Douglas S. Lambert, Superintendent
Pendleton County Schools

July 21, 2015

To whom it may concern:

It is my pleasure to recommend MSES Architects for professional architectural services. Marion County Schools (MCS) has maintained a strong relationship with MSES Architects/Consultants (MSES) over the past several years. Projects have included a wide variety including renovations, additions and a new construction. The MSES team is led by Senior Project Architect, Pamela Wean. I have had the pleasure of working with Ms. Wean on several occasions.

As the Clerk-of-the-Works for MCS on these projects, my responsibilities have demanded that I work closely with the project Architect and Engineers. My duties include observing and monitoring the progress of construction, reviewing the contract documents, communicating both with the Contractor and the Architect/Engineer, attending project meetings as the Owner's representative, maintaining records and assisting with closeout procedures.

It is my opinion that MSES is a hard-working architectural firm possessing incredible talents and skills. The agencies that govern the design and construction of schools in West Virginia have many requirements, and MSES has knowledge of these requirements that is unmatched. They also possess experience and understanding in dealing with consultants and contractors. Everyone involved knows that the environment of public school design and construction is very difficult and there are many financial challenges. However, MSES has consistently brought in projects on time and within budget. It is clear that they have an excellent understanding of the importance of deadlines, schedules, plans and specifications, as well as Local, State and Federal Codes that govern school construction. That understanding leads to a project with fewer change orders.

My unique perspective allows me to see the strength and weaknesses of an architectural firm. I can attest that the MSES staff is highly professional, enthusiastic and committed to successful projects. Their enthusiasm does not end when the design is complete, but continues throughout the entire process.

The Marion County Schools facilities designed by MSES have generated an enormous amount of pride in this community. These projects include:

- Marion County Technical Center Repair and Renovations
- Renovations to East Fairmont Middle School Gymnasium
- Additions and Renovations to White Hall Elementary School
- Jayenne Elementary School Additions and Renovations
- Classroom Addition at Blackshere Elementary School
- New East Fairmont Middle School
- Fairmont Senior High School Renovations
- Additions and Renovations to Pleasant Valley Elementary School
- Barrackville School Additions and Walkways

I do strongly and confidently endorse MSES to any prospective party interested in their services.

Sincerely,

Gary Santy
Clerk of the Works, Marion County Schools

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT**

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
