We will also attempt to communicate significant methodology changes by press release on our website and/or by email to your primary account contact.

Adulteration Testing

RTL's Standard Operating Procedures (SOP's) require that each specimen be examined for signs of adulteration. This examination includes the following:

- Physical Examination: Color, excessive foaming, excess sediments, or unusual odor are noted. If adulteration is suspected, this is noted on the final report.
- Analytical Examination: Creatinine is automatically tested on every urine and levels are provided to clients on every report. Upon request, pH, specific gravity, and/or nitrites may be run to aid in determining possible adulteration (see quote sheet for add-on pricing).

Synthetic Testing

RTL is offering the DJS two different panels each for Synthetic Marijuana (K2/Spice) and Designer Stimulants (Bath Salts), as follows. ***Please note that we have entered pricing for our Standard K2 Test and Basic Bath Salts Test on the Request for Quotation form for the line item, as these are less expensive to run; however, we will make the Premium K2 and Expanded Bath Salts tests available to the DJS as desired at the prices shown below the line item.*** RTL has some of the most comprehensive synthetic tests in the industry, which could help the DJS to keep up with offenders' varied drug abuse.

- K2/Spice: Our standard K2/Spice test is run using enzyme immunoassay (EIA) with confirmations by liquid chromatography-tandem mass spectrometry (LC-MS/MS), and detects 19 different compounds. Our Premium K2/Spice test is run using LC-MS/MS and detects 30 different compounds, including some of the more recent compounds cropping up in the market.
- Bath Salts: RTL offers a Short Bath Salts panel, including tests for MDPV, Mephedrone, Methylenedioxymethamphetamine (MDA), and alpha-Pyrrolidinopentiophenone (PVP), which is screened by LC-MS/MS and confirmed by GC-MS. We also offer an Expanded Bath Salts panel that detects up to 21 different compounds, and which is screened and confirmed by GC-MS.

3.1.1.1 Testing supplies will only include a urine screen bottle with lid, packaging for delivery to the lab will also be part of the contract or service. Vendor will provide all collection supplies, shipping envelopes, and pay all shipping costs for the quoted price. Collection of specimens will be done by DJS employees.

- Security seals
- Temperature strips (available upon request)
- Pre-paid mailers
- FedEx/UPS overnight service lab packs

RTL provides specimen pick up through a courier service, with overnight service delivery to our laboratory in Santa Rosa, California. We will provide this service to the DJS at no additional cost per the F.O.B. Destination terms specified in this RFP. However, in Addendum 1, Question & Answer #15, the State indicated that it would be willing to consider 2- or 3-time weekly pickups instead of daily pickups in order

to amass 5 or more specimens to put into each overnight shipment package. RTL would appreciate this cooperative action by the DJS to help us continue to be able to provide free overnight delivery service. RTL will work directly with a DJS representative to determine the best dates and times to pick up specimens.

3.1.1.2 Results must be available within a minimum 72 hours of receipt of specimen.

RTL will provide results within 72 hours of receipt of specimen at our laboratory. Our turnaround times will be as follows:

For **standard urine panels**, negative results are reported within twenty-four (24) hours after receipt of the specimen in the laboratory. For confirmation of positives by GC-MS, LC-MS/MS or GC-FID, an additional twenty-four (24) to forty-eight (48) hours may be necessary.

For **specialty urine tests** such as Synthetic Cannabinoids (K2/Spice) or Designer Stimulants (Bath Salts), results will be reported within seventy-two (72) hours after receipt of the specimen in the laboratory.

3.1.1.3 Results will be reported using the following options:

- A. E-Mail notification that results are available for viewing online to an E-mail address or addresses (to meet state and federal HIPPA requirements)
- B. E-Mail notification of actual results to a secure E-Mail address or addresses.

RTL will notify your agencies of positive results directly following test completion via notifications sent through **ToxAccess** (<https://toxaccess.redwoodtoxicology.com>), RTL's secure web-based internet reporting website. Results are also available by mail or by fax if desired, but we highly recommend ToxAccess as the most expeditious and expedient method for receiving results. ***RTL will not provide email notification of actual results, as this is not a HIPAA-compliant method for delivering results.***

RTL's proprietary internet reporting website boasts a multitude of features that will make your drug testing experience as simple and convenient as possible, from specimen collection to final report. ToxAccess provides a secure and complete solution for searching, managing, and printing test reports online. Through this system you can easily locate, view, print and save donor results, access monthly reports, drug statistics, donor summaries, and more. Some of the numerous advantages and benefits available through ToxAccess include:

- **Faster Collections.** Collections can be performed on a single screen in just a few easy steps. All donor information can be entered into, saved and stored in the website; after saving a donor's information just once, you can pull up his or her information for future testing using just a few keystrokes. You can then select a test by selecting a default test or choosing from tests pre-determined by your agency. Print out your specimen label on our one-part chain of custody form via a standard printer.

- **Clearer, more accurate data.** The information input into ToxAccess at the time of collection is transferred into RTL's laboratory information system, eliminating both errors caused by hand-written labels and laboratory data entry errors.
- **Complete, real-time tracking.** Track specimens every step of the way – from collection through reporting – in real time, 24/7. These steps include Scheduled for Testing, Collected, Shipped, Received by lab, and Reported.
- **Convenient, In-Control Program Management.** Get the big picture by organizing donors into specific groups and schedule them for testing utilizing a month calendar. You may view groups each day, the collection roster for the current date, and no-show lists.
- **Powerful, usable reporting.** Retrieve results and reports for an individual or group of individuals by using our Search feature. In seconds you can generate a complete listing of test results, pending specimens, drug statistics, no shows and more.
- **Total digital data collection.** ToxAccess is a complete donor data management solution that captures information about each donor and stores it electronically.

Once you've ToxAccess, you'll never want to go back to paper reporting again. Access may be arranged at time of account set-up or at any time during the life of the contract. If you are interested in reviewing the functions and features of ToxAccess, please visit https://www.redwoodtoxicology.com/services/online_reporting; select the "Training" tab in the middle of the page and enter your email address into the Online Training Sessions email field in order to receive the link for on-demand access to our training presentation.

3.1.1.4 The vendor must maintain back up documentation of results for all reported tests.

RTL keeps test results available on ToxAccess for 2 years and then archives them indefinitely. We also keep test results stored in our own laboratory information system (LIS) locally and provide backup through an off-site electronic storage. Any archived results can be reloaded to ToxAccess upon request.

3.1.1.5 The vendor shall provide technical support by phone or e-mail 8:00am to 8:00pm Monday through Friday.

RTL's Technical Support, Customer Service, and Toxicology Support Service staff members are available by phone during regular business hours (6 a.m. to 4 p.m. PST, Monday through Friday) to assist with questions and consultation in regard to specific services as well as provide information about all services RTL offers. What's more, RTL offers direct access to our Certified Toxicologists for consultation on drug interactions, cross reactivity, THC retention/detection times and general toxicology inquiries.

For inquiries made after-hours, an RTL representative will respond to your email or voicemail by the next business day, generally within one hour of receiving your inquiry. RTL can offer an after-hours contact phone number if desired to address any emergency situations by the DJS.

IT Supporthelpdesk@redwoodtoxicology.com

3.1.1.6 The vendor shall provide a one-time training upon award of the contract. This will be an onsite training to take place in Charleston, WV. Travel and training expenses must be all inclusive in the bid. No travel or meals will be reimbursed.

RTL will provide a one-time training as necessary at no cost. RTL can offer an in-person, on-site training; however, we also offer web-based trainings that may offer more flexibility for your staff, and we encourage the DJS to consider this option for trainings as necessary throughout the contract.

RTL's certified trainer will contact facilities to provide scheduled training. Each training session will include information on specimen collection, chain of custody procedures, specimen shipment to the lab, and reporting methods. A question and answer session will follow every presentation. Training supplies will be provided to training attendees with sample bottles, labels, and literature.

3.1.1.7 The vendor must be able to provide an expert Medical Review Officer (MRO) to testify in regards to the validity of the lab and test results in the event any results are challenged in court. This must be a per hour bid to include any travel.

As indicated by the State in Addendum 1, Question & Answer #12, the DJS will accept a qualified laboratory toxicologist as an expert witness instead of an MRO. Expert witness services are available through written affidavit, telephonically, or in-court. Pricing is available on our Request for Quote form. Per the DJS' specifications, we will waive our travel, daily per-diem, hotel costs, and any other related travel cost. When subpoenaed to testify, the toxicologist will produce the chain of custody, laboratory results, quality control data, and GC-MS or LC-MS/MS confirmation of the positive drug(s).

3.1.1.8 Invoices are to be sent to the same locations as the testing supplies.

RTL agrees to send Invoices to the state provided locations.

3.2 Mandatory Vendor Certification/License Requirements

- 3.2.1** The successful vendor must have its own laboratory and cannot contract out to a third party. Vendor must hold a Clinical Laboratory License to conduct the testing requested in this solicitation.

Copies of RTL's certifications and licenses are included with this bid response.

- 3.2.2** Must hold a current Controlled Substance Registration Certificate issued by the DEA.

As noted above, RTL holds a Controlled Substance Registration Certificate from the DEA. We have not provided a copy with this bid, as the license number is sensitive information, but can provide a confidential copy to the State upon request.

- 3.2.3** Vendor must be Clinical Laboratory Improvement Amendments (CLIA) Certified Laboratory.

As stated previously, RTL is a CLIA-certified laboratory; please find copies of our current certifications and licensure attached to this bid response.

RTL has provided copies of our relevant certification and licensure, with the exception of our DEA certificate, which may be provided separately upon request.

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
