Department of Administration, Purchasing Division
2019 Washington Street East
Charleston, WV 25305-0130

Dear Review Committee:

Aric Margolis Architecture and its selected design team is pleased to have the opportunity to submit this proposal for providing architectural / engineering services for the State Park Model Cabin Renovation Project at Watoga State Park and Cass, WV. We feel confident our design team is uniquely qualified to provide design services for the project and feel a team approach between WV DNR and its architects / engineers is the key to the successful completion of your project.

Aric Margolis Architecture is pleased to present a proposal outlining technical expertise, management, staff capabilities and experience for providing high quality architectural services. Our approach will offer advantages in methodology and delivery that will guarantee the success of your project both now and for years to come. My firm is capable of providing full architectural design services and has a long list of sub-consultants that provide civil, mechanical and electrical engineering services to complete the design package. I have provided full architectural design services to multiple State Agencies. During that time, I have had the opportunity to complete many building designs as represented in the enclosed profiles.

As with many architectural firms in West Virginia, Aric Margolis Architecture has teamed with consultants for the required various trades to provide the owner with a complete turnkey project. These consultants have been selected based on past performance, design expertise and familiarity with the region to provide a cost affective, efficient and reliable team. The team consists of Terradon Corporation for Civil / Site design services. Moment Engineers for Structural Engineering. Harper Engineering will provide Plumbing, Mechanical and Electrical Engineering services. Their profiles are included in this package.

The following shall serve as an outline to the project specifications:

Qualifications and Experience:

A team has been assembled to provide A/E services based on the expected scope of work. Attached to this document are the individual firm profiles for each discipline outlining their capabilities and project experience. Aric Margolis Architecture will be the architect on the project and the prime contact with the client. Terradon Corporation will provide Civil Engineering services. Moment Engineers will provide structural Engineering Services. Harper Engineering will provide Plumbing, Mechanical and Electrical engineering services.

3.1.a Communication on the project will begin between the DNR representative assigned to the project and the architect. As the project leader, the architect will disseminate the correspondence to the other team members. If any information is passed on directly to the other team members either during design or construction, the procedure set up will be to pass that information along to the team leader so that all information can be tracked. It will be up to the team leader to track all of the information so that it is properly organized and distributed as needed. This information will then be further passed along to the owner (if not originated by owner) so that the owner is kept up to date.

3.1.b Within the attached project profiles you will find an array of projects both in size and scope that have been built per the owner's budget. Furthermore, I would propose that we hire an independent professional estimator that has experience in this region. This independent estimator will help insure that the project bids come within budget. I have used this method before and it is very successful.

3.1.c In order to assure that the construction time is met, the team shall put together a plan that combines a realistic time schedule as well as liquidated damages. Unlike the private sector, the State cannot always pick who the contractor will be. That is why a realistic time schedule based on the size of the project, expected trades on the job, and location of the project must be considered. The estimator hired for the project will also be asked to timeline the project.

3.1.d See attached firm profiles showing the range of projects for the design team.

Teamwork is the spirit and foundation of a successful project. We acknowledge the importance of a quick turnaround and excellent quality of services which our administrative procedures, overall organization and depth of experience provides you. As you will see from our resumes and company experience, we are uniquely qualified to offer the professional services required and to ensure that your project becomes a success. We want to emphasize that your project is very important to our design team and look forward to personally discussing our qualifications to complete this project to the very highest standards, on time and within budget. Should you have any questions regarding this proposal, please do not hesitate to contact us.

Sincerely,

Aric L. Margolis, AIA

ADDENDUM ACKNOWLEDGEMENT FORM
SOLICITATION NO.:

Instructions: Please acknowledge receipt of all addenda issued with this solicitation by completing this addendum acknowledgment form. Check the box next to each addendum received and sign below. Failure to acknowledge addenda may result in bid disqualification.

Acknowledgment: I hereby acknowledge receipt of the following addenda and have made the necessary revisions to my proposal, plans and/or specification, etc.

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

about

Aric Margolis Architecture, PLLC was founded in the Fall of 2012. Aric has worked in the field of architecture for over 18 years and has a tremendous amount of experience in a variety of areas and in different capacities. A native Charlestonian, Aric's office is conveniently located in the historic Woodrums Building in downtown Charleston. Aric is licensed to practice in West Virginia, Kentucky and is NCARB certified, allowing licensure in other states. Aric has worked on projects throughout the State of West Virginia. He is dedicated to enhancing the beauty of our state through his craft, and he loves what he does for a living. Aric earned a Bachelor of Environmental Design in Architecture from the University of Colorado. While at Colorado, he entered the Denmark International Study program and spent 6 months studying in Europe. Aric also earned a Bachelor of Architecture from North Carolina State University and returned to West Virginia in 1996. Aric has served on the City of Charleston Municipal Planning Commission since 2002. He is also past members of the Friends of Clay Center Board, Big Brothers Big Sister Myrtle Beach Dinner Dance, and Museum in the Community.

design approach

Aric Margolis Architecture, PLLC believes in client-centered representation. Flexible and accessible, Aric will work tirelessly to ensure client satisfaction. Aric feels design is not a one size fits all. Every project brings unique situations. It is important to listen and understand the problems before coming to the solution. All projects must begin with a development of a compilation of the needs and wants of the client. Through dialogue, the owner and architect create an understanding of the important parameters within a project. Within those parameters, the Architect is charged with developing aesthetically pleasing, cost-conscious solutions.

collaboration

Like most architectural firms, Aric has developed strong relationships with several engineering firms. He considers all talented firms and tailors firm selections based on the specific project.

Buckskin Council Service Center

Addition and Renovation to current Service Center
8,000 Square Feet of New + 6,000 Square Feet of Renovated Construction
The Boy Scout service center is a 1978 building that no longer meets the needs of the user. The existing building is to be completely renovated, both inside and out and addition will provide much needed meeting space. This building is set to break ground in October 2015
Aric Margolis Architecture, PLLC is the Project Architect

St. Johns United Methodist Church

New Multi-Purpose Building & Entrance
13,200 Square Feet of New + 26,800 Square Feet of Renovated Construction
The church was in need of expanded facilities. This project re-purposed existing space in order to save cost so that a new Multi-purpose building could be constructed. Project was completed in 2014
Aric Margolis Architecture, PLLC was the Project Architect

CAMC: Parking lot Expansion

New 185 Car Parking lot
Aric Margolis Architecture oversaw the Coordination, Bidding & Construction of the much needed parking lot expansion for CAMC. Project also used rain garden principals to minimize effects of run-off
Aric Margolis Architecture, PLLC was the Project Architect

Glenville State College: Goodwin Hall

New 6 Story - 484 Bed Residence Hall
120,566 Square Feet
This project, built on a steep hill, was constructed of light gauge steel framing as well as load bearing concrete and steel framing. The project provided much needed, updated housing for the campus. Construction Cost over \$20 million
Aric Margolis was Project Architect while at Associated Architects.

Glenville State College: Pioneer Center

2 Story, 120,000 Square Feet
3000 seat gymnasium and education building
This project was a new multi-purpose facility housing locker rooms, Athletic offices, weight room, indoor walking track, presidents suite and semi-attached 2 story education building.
Aric Margolis was Project Architect while at Associated Architects.

University of Charleston: East Hall

New 4 Story - 49 Apartments & 524 car parking

This project provided new apartment style housing and much needed parking for the Campus. The design wrapped the apartment building around 3 sides of the parking structure while maintaining the campus aesthetics. Each floor of the garage aligns with the apartment floors, allowing for direct access. Aric Margolis was Project Manager while at Associated Architects.

Charleston Medical Center Housing Corporation

Jefferson Place

24 Unit Apartment Building .

This complex serves resident doctors for CAMC. Project incorporated materials from the surrounding neighborhood to give it a classic feel. Aric Margolis was Project Manager while at Associated Architects.

Other notable projects while at Associated Architects:

As Project Architect:

- University of Charleston: Renovations for New Physicians Assistant program
- CAMC Orthopedic Trauma Group: 8000 Square Feet expansion of existing Office Space
- Dr. Grant Mason: Renovation to existing facility for Dental office
- Raleigh Regional Cancer Center: Renovations to existing building
- Crestview: New 3 Story, 48 - Unit Apartment Building, 49,473 Square Feet
- Willow Tree II: New 3 Story, 48 - Unit Apartment Building, 47,581 Square Feet
- Lowenstein Building: Renovations to historic building for Commercial & Residential use
- Kanawha Stone: New 2 Story Office Building
- Dollar General Washington St. E: New Retail Store
- Raleigh Mall: Demolition and Renovation to Existing Facility

As Project Manager:

- University of Charleston: Middle Hall - 5 Story - 240 bed residence hall, 62,715 Square Feet
- DEP: New 3 Story - 120,000 Square Feet Office Building, LEED Silver
- University of Charleston: Ratrie Hall - 4 Story - 180 bed residence hall, 47,352 Square Feet
- B'nai Jacob Synagogue: - 1 Story addition used for Meeting & Dining Space
- Marshall University Parking Garage: 5 Story - 1009 car parking
- Joe Holland Service Center: 1 Story 44,000 square foot service center
- Northgate Business Park: Sports Medicine, Ticketmaster, Thrasher Engineering, Forbes Building

CORPORATE OVERVIEW

TERRADON Corporation offers a multi-faceted approach to design engineering and consulting services. For more than 25 years TERRADON staff has provided a wealth of engineering solutions blanketing the Ohio Valley and the Appalachian Region with successful projects. The company built its reputation on expert personnel and quality, time-sensitive service. Those same founding principles hold true today.

Staff includes engineers, landscape architects, surveyors, planners, environmental scientists, designers, technicians and LEED Accredited Professionals.

The company maintains approximately 50 leading-edge staff in four locations: Nitro/Poca, WV; Lewisburg, WV; Charlton Heights, WV; and Ripley, WV. TERRADON'S departments work cohesively to provide turn-key solutions that strive to exceed client expectations.

ABOUT TERRADON

The family-owned business has built a strong reputation by providing flexible, cost effective design solutions and maintaining the highest level of customer service. TERRADON is particularly suited to design engineering within the mountainous areas of the Ohio Valley and Appalachian Regions. The firm has been recognized through numerous awards from professional organizations and agencies including the several State Divisions of Highways, Departments of Environmental Protection and the American Institute of Architects state chapters.

TERRADON's corporate culture promotes innovation and progressive thinking. Project leaders strive to sustain customers through a wide-range of engineering offerings. TERRADON employees understand the purpose behind their services and work to cultivate lasting relationships with clients through honest, hard work.

SERVICE OFFERINGS

- Land Planning and Site Design
- Civil Engineering
- Environmental
- Geotechnical Engineering
- Surveying and Mapping
- Water/Wastewater
- Transportation Engineering
- Structural Engineering

TERRADON Land Development Services Overview

Land Development covers a broad swath of TERRADON's service offerings and sees a large percentage of its annual revenue from repeat clients or referrals. The group is composed mainly of Landscape Architects and CAD designers who frequently team with every other department within the company.

TERRADON's Land Development department collaborates with public and private entities and has a strong presence in the recreation, public/civil, educational and commercial development sectors. TERRADON is recognized as a leader in providing site design and land planning services. The firm's professional engineers work closely with the client from the project's initial phase through a schematic design, construction documents and project delivery. TERRADON's Landscape Development Group remains on the forefront of sustainable design, providing LEED Accredited Professionals to clients. Projects utilizing sustainable design best practices aid clients in significantly reducing energy costs on projects.

TERRADON's Land Development Group works in a variety of markets including: Parks/Recreation, Commercial/Industrial, Civic/Public, K-12 Education, Higher Education and Medical.

Projects include: Master planning, recreational planning, funding agencies assistance, economic development planning, surveying, engineering, architecture, historical preservation construction administration and inspection.

LAND DEVELOPMENT SERVICES

- Master Planning
- Presentation Drawings/Renderings
- Site Feasibility Studies
- Schematic Design
- Layout Plans
- Grading Plans
- Stormwater Management Plans
- Erosion Control Plans
- Planting Plans
- Construction Observation

RESUMES OF PROJECT TEAM MEMBERS - TERRADON

Greg Fox, ASLA, LEED AP VP Land Development

Greg Fox has overseen TERRADON's Land Development Department since its inception in 2000. He offers more than 25 years of industry experience, providing design services to a variety of markets. During his tenure, the Land Development Group has completed more than one hundred K-12 Educational projects and dozens of Higher Education projects.

Under his guidance, the group has been the recipient of Engineering Excellence awards from the West Virginia Association of Consulting Engineers, and the Gold Award for Engineering Excellence from the American Council of Engineering Companies. Additionally, the Land Development Group has been recognized numerous times for Merit Awards by the West Virginia Chapter of American Society of Landscape Architects. Fox is a registered Landscape Architect in West Virginia, Ohio, North Carolina, South Carolina, Pennsylvania and Virginia. He is an active member of the American Society of Landscape Architects. Fox received degrees in Landscape Architecture and Planning from West Virginia University.

Peter J. Williams, ASLA Landscape Architect

"Pete" Williams is a graduate of West Virginia University with a Bachelor of Science in Landscape Architecture. His responsibilities include landscape architectural design, grading and storm water drainage design, the design of pedestrian circulation systems and related amenities, roadway design, site planning, and quality control. Mr. Williams is registered as a professional Landscape Architect in West Virginia with more than 13 years of experience at TERRADON and more than 22 years of overall experience.

Jim Nagy, PE Utility Infrastructure

Nagy performs Civil Engineering related to water and waste water projects at TERRADON. He specializes in the design of water treatment and distribution systems. He has more than 25 years of on-hand experience providing engineering for the largest private water company in West Virginia. He earned a B.S. in Civil Engineering from West Virginia University. His primary focus is on management of water and wastewater projects. He also performs design work related to water distribution systems and sewage collection systems.

Robert Thaw, PS VP Survey and Mapping

Robert Thaw, Vice President of Survey and Mapping, oversees all TERRADON Survey services. TERRADON's survey group serves a diverse range of projects in support of TERRADON's service groups in addition to managing survey-specific clients. Thaw manages a staff of Professional Surveyors and Computer Aided Drafting (CAD) designers who provide mapping, construction layout, ALTA survey, topographic survey and boundary survey services. Thaw's leadership has been instrumental in TERRADON's prioritization of the use of modern technology, ensuring clients the most efficient and accurate results. Additionally, he is responsible for in-house design of commercial property sites, parking and utility easements, and review of project plans and base mapping creation. Thaw's group also provides as-built surveys, utility identification surveys and deformation monitoring of design features such as retaining walls and dams.

Bill Hunt, PG, LRS VP Geo-Environmental, Materials Testing and Inspection

Bill Hunt serves as Vice President of Geo-Environmental at TERRADON Corporation. He will oversee any environmental needs, permitting and direct work for geotechnical tasks and testing and inspection required of the project. Hunt offers relevant experience in environmental documentation, investigations, and coordination with federal, state, and local agencies. He prepares Environmental Impact Statements, Environmental Assessments, Section 4(f) Evaluations, and other environmental technical documents. He supervises and participates in work plan development, field surveys, on-site monitoring, data collection, impact analysis, subconsultant management, public meeting organization and group presentations.

John James, PE Geotechnical Engineer

James is a Senior Geotechnical Engineer for civil engineering projects. Mr. James specializes in innovative and cost-saving concepts for his projects. James' project experience includes: roads; highways and bridges; earth and rockfill dams; numerous foundation investigations; studies and designs for landfills and environmental facilities; surface and ground water studies and remediation; foundation investigations and designs ranging in size from houses to major industrial complexes; storm drainage facilities; airport facilities; landslide analysis and correction; and forensic engineering.

RESUMES OF PROJECT TEAM MEMBERS

Greg Fox, ASLA, LEED AP
 Vice President of Land Development

Greg Fox oversees TERRADON's Land Development Sector. Fox has been responsible for hundreds of notable commercial, educational and recreational site development projects during his 25-year career. During his time as Land Development Department Head, TERRADON has earned Engineering Excellence Awards from the West Virginia Association of Consulting Engineers, numerous Merit Awards from the American Society of Landscape Architects, and the Gold Award from the American Council of Engineering Companies.

Relevant Project Experience

- **The Bechtel Summit National Scouting Reserve**
 Provide Site Design for the 12,000+ acre site in Fayette County, WV. Responsible for site grading, construction drawings, NPDES design and coordination for all project subconsultants for NPDES permitting with WVDEP.
- **Greater Greenbrier Sports Complex**
 Provided Master Planning and Grading Design Services for the Greater Greenbrier Sports Complex located north of Lewisburg, WV. Five phases include: Master Planning, Grading Study, Full Construction Documents, Utility Layout, Road Design, Erosion and Sediment Control.
- **Glade Run/ Zellenople, PA**
 Conducted a master facility plan for a 300+ acre development for Glade Run Lutheran Services This project involved a mixed use development which included an equestrian trail, senior housing, single family residential, office, and retail.
- **Palatine Park Master Planning**
 Provided master Planning Services for the City of Fairmont for the redevelopment of Palatine Park on the east side of the Monongahela River adjacent to downtown Fairmont, WV. The Master Plan featured new parking areas, walking trails, a vista overlook, a picnic gazebo and retail space.
- **Putnam County Parks Master Planning**
 TERRADON Corporation provided Master Planning and site civil design services for the expanding Valley Park in Hurricane, Putnam County, WV. This work is part of a nearly \$2 million expansion, which was completed in 2013 and adds an additional 6 acres to the park. The project included planning for athletic fields, multiple parking lots, access roads and greenspace, but also incorporated a walking trail that ties into existing park trails. The plan was produced in coordination with the WVDOT to determine roadway/walkway ingress/egress and designed in accordance with local, state and federal regulations.
- **Fairmont Riverfront Park Master Plan**
 The City of Fairmont and the Fairmont Renaissance Corporation intend to develop new recreation opportunities and at the same time enhance economic development opportunities for the community. The main goal of the planning process was to develop a plan that will allow for the comprehensive development and implementation of new elements to the riverfront. The elements planned will include rehabilitation of an existing park and new recreation, commercial, and residential opportunities.

RESUMES OF PROJECT TEAM MEMBERS

Bill Hunt, PG, LRS

Vice President of Geo-Environmental, Testing & Inspection

Bill Hunt is a Licensed Remediation Specialist and serves as Vice President of Geo-Environmental and Testing & Inspection services at TERRADON Corporation. Hunt offers relevant experience in environmental documentation, investigations, and coordination with federal, state, and local agencies. He prepares Environmental Impact Statements, Environmental Assessments, Section 4(f) Evaluations, and other environmental technical documents. He supervises and participates in work plan development, field surveys, on-site monitoring, data collection, impact analysis, subconsultant management, public meeting organization and group presentations.

Relevant Project Experience

Hunt has provided environmental management services on a wide variety of projects. His experience includes:

- Phase I and II Environmental Site Assessments
- Section 401/404 Permitting
- Wetland Assessments and Delineations
- Environmental and Industrial Hygiene Sampling
- Environmental Audits and NEPA Assessments
- Risk Assessments
- Remediation Design
- Statistical Analysis of Soil and Groundwater data
- Spill Prevention and Best Management Practices Plan Preparation

Key Projects

- 40 Phase I Environmental Site Assessments (ESAs) for fast food franchise at locations in WV, OH, IN, MO, KS, MI and WI. 25 of these Phase I ESAs led to Phase II ESAs
- Phase I and II ESA of coal loading terminal along the Ohio River. Phase II delineated Soil & groundwater diesel impact which was remediated using free product recovery, pump and treat and vacuum extraction—Kenova, WV
- Phase I ESA of more than 1800 acres of timber land which included Phase II soil sampling for mercury at natural gas wellhead sites – Various Locations, WV
- Phase I ESA of city block slated for demolition. Phase II activities included soil and groundwater sampling, asbestos sampling, lead based paint sampling and wipe sampling of surfaces within pesticide storage areas – Fairmont, WV
- Phase I ESA and wetland assessment and delineation at 900-acre undeveloped property Kingwood, WV
- Risk assessment for site closure at LUST site in Ohio, conducted in accordance with Ohio BUSTR guidelines.
- Risk assessment for RCRA closure at Barge Manufacturing Facility, Burlington, Ohio.
- NEPA Environmental Study, West Virginia Regional Airport, Randolph County Airport, Mason County Airport, Upshur County Airport, Mingo County Airport
- Exposure Assessment at pigment manufacturing facility as part of RCRA closure Cincinnati, Ohio

RESUMES OF PROJECT TEAM MEMBERS

Jim Nagy, PE Senior Engineer

As a Senior Engineer at TERRADON, Jim Nagy's primary focus is on designing civil engineering projects for public and private development projects throughout West Virginia. Nagy specializes in the design of water distribution systems as well as sewage collection systems. Nagy offers decades of hands-on experience and has previously provided design engineering services for schools, commercial developments, residential developments, public utilities and more. He earned a B.S. in Civil Engineering from West Virginia University and is a Professional Engineer in the State of West Virginia.

Relevant Project Experience

- **School Projects**

Responsible for layout, design, and permitting of water and sewer lines for numerous school projects in WV. Projects entailed coordination with PSDs, municipal water and sewer departments, State and Federal regulatory agencies for design of facilities. Schools include: Blue Ridge Community and Technical College, Blue Ridge K-12, Burnsville Elementary, Flatwoods Elementary, Davis Elementary, Sutton Elementary, Little Birch Elementary, Frametown Elementary, Buffalo High School, Clay-Battelle High School, Confidence Elementary, Jefferson Elementary, East Hardy High School, Eastwood Elementary, Flinn Elementary, Geary Elementary, Gilbert High School, Greenbrier West high School, Hampshire High School, Harpers Ferry High School and 19 additional schools.

- **Commercial Developments**

Responsible for layout, design, and permitting of water and sewer lines for numerous commercial developments in WV. Projects entailed coordination with PSDs, municipal water and sewer departments, State and Federal regulatory agencies for design of facilities. Developments include: Fairmont Federal Credit Union, Allegheny Energy Union (Fairmont), First Ward (Clendenin) Apartments, Milton Crossing, Tri-State Hotel and multiple convenience store sites throughout WV.

- **Charleston Replacement Housing**

Utility design, primarily water, sewer and stormwater, and coordination of overall site activities with the project developer for multi-unit housing development. Each phase entailed the design and layout of several hundred feet of water, sewer and stormwater line, including multiple connections with the utility providers, i.e., the Charleston Sanitary Board and West Virginia American Water, and applicable permit applications. Also responsible for construction monitoring and provision of as-built drawings as required by the respective utility providers.

- **Cathcart – Devonshire Development, Scott Depot, WV**

Designed sanitary sewer and water distribution system to serve more than 900 housing units in this private development.

- **Washington Woods Subdivision, Ravenswood, WV**

Designed more than 9,000 feet of water and sewer line and a 500 gpm fire pump water booster station to serve a 150 lot subdivision.

- **Sawmill Village, Snowshoe, WV**

Designed approximately 2,800 feet of 8" water line and sanitary facilities to serve the Sawmill Village development project in Snowshoe, WV.

- **Cabell County Water Main Extension Project**

Worked on design and layout of approximately 46,000 feet of water main for the Salt Rock PSD/WVAW. Responsible for bidding, contract award, and project management.

- **Putnam County Water Main Extensions**

Worked on design and layout of approximately 63,000 feet of water main and a booster pumping station for the Putnam County Commission/WVAW. Responsible for bidding, contract award, and project management.

- **Manila Ridge Water Main Extension Project**

Worked on design and layout of approximately 38,000 feet of water main for the Putnam County Commission/WVAW. Project has not received funding yet. However, will be responsible for bidding, contract award, and project management.

RESUMES OF PROJECT TEAM MEMBERS

John James, PE Senior Geotechnical Engineer

John James is a Senior Geotechnical Engineer for various transportation, environmental, and mining projects. James specializes in innovative and cost-saving concepts for his projects. James' project experience includes: studies and designs for landfills and environmental facilities; surface and groundwater studies and remediation; design of liners for landfills and various impoundments; earth and rockfill dams; roads; highways and bridges; foundation investigations and designs ranging in size from small projects to major industrial complexes; storm drainage facilities; airport facilities; landslide analysis and remediation; and forensic engineering.

Relevant Project Experience

- **Geotechnical investigations and reporting on highway/roadway projects including:** open-ended statewide geotechnical contract, Route 35 Design/Build, Sedalia Arch Bridge, and Sleeth's Run Bridge.
- **LCAP Experience**
Provided design and permitting for the following under the WVDEP LCAP Program:
 - Pine Creek/Omar Landfill, 12 Acres HDPE Liner, Pine Creek, Logan County, WV.
- **Dam Experience**
James has been Engineer of Record for numerous earth and rock fill dams in West Virginia. Recent projects include: Mallard Dam (presently in design), 8 acres; Upper Glade Creek Water Supply Dam upgrade (from 95 to 112 acres+/-; Dawson Dam, 30 acres+/-; Lake Chaweva Reconstruction, 24 acres+/-; and Chatham Dam, 65 acres+/-). Also provided consultation and construction design for the United States Army Corps of Engineers for Bluestone Dam.
- **Site Selection Experience**
James specializes in site evaluation from geologic and topographic perspectives, including literature research and site reconnaissance, for specific project needs.
- **Landslide Experience**
Worked on numerous landslides of various sizes and complexity in West Virginia.
- **Foundation Investigation and Design**
Performed foundation investigation services for more than 1,000 projects in West Virginia, from small residential sites to major industrial projects (valued at up to \$2 B) including complicated foundation designs.
- **Retaining Walls**
Designed numerous retaining structures including simple gravity concrete and MSU walls, cantilever walls and complicated sheet piling or H pile and lagging walls.
- **Geotechnical investigation and design of numerous water and wastewater treatment plants, including:**
Charleston Wastewater Treatment Plant, North Beckley Wastewater Treatment Plant, and Buckhannon Water & Wastewater Treatment Plant.
- **WVDOT City Beer Bridge, Wood County, WV**
TERRADON conducted a field exploration for the proposed overpass replacement on I-77 located in Wood County, West Virginia. A total of thirteen (13) structure borings at the proposed bridge and one pavement boring were required by the WVDOT, and TERRADON performed drilling for the fourteen borings, delivered samples to MCS&T and provided GINT logs.
- **WVDOT Corridor H- Slope Stability Design of Waste Pit Areas and Cut/Fill Slope Value Engineering**

RESUMES OF PROJECT TEAM MEMBERS

Robert Thaw, PS

VP - Survey and Mapping

With more than 22 years of experience in a wide range of surveying projects, Robert Thaw serves as head of TERRADON's Survey and Mapping department. He organizes and supervises survey crews, reviews project plans and creates base mapping for various projects including noise barriers, interchanges, connectors, bypasses, sidewalks, bike paths and bridges. Thaw oversees all TERRADON survey activities, including: preparation of Right-Of-Way plans; the development of GPS static networks for aerial mapping in the design of roadways; identification of existing utilities and property lines; base image development and control placement for construction projects; and drafting of legal descriptions for ROW parcels.

Thaw has been directly responsible for survey and mapping services on a number of notable projects including:

- **Laurel Fork Campground Bridge**
TERRADON provided surveying and design engineering on a USDA Forest Service project in Randolph County, West Virginia. Surveyors led by Thaw provided Right-Of-Way services, including courthouse research, construction easements, and location of alignments. Additionally, provided topographic mapping, project control for construction, hydraulic cross sections, and stream profiles.
- **Sedalia Arch Bridge**
Thaw oversaw survey services for the replacement of an existing concrete arch bridge with a 72' single span bridge. The bridge consisted of adjacent concrete prestressed box beams with a cast-in-place concrete deck. Survey services consisted of a topographic survey, ROW plans, construction control, and legal description creation. Roadway design consisted of new bridge approaches and a designed detour. Drainage, maintenance of traffic, and right-of-way plans were included in the scope of work.
- **Sleeth's Run Bridge**
Thaw provided Right-Of-Way services during the design for the replacement of an existing truss bridge in Lewis County, WV. The project included the design of a new 200' structure and approaches. Survey services consisted of a topographic survey, ROW plans, construction control, and legal description creation.
- **Grade Road**
Thaw oversaw Right-Of-Way services for the new construction of two lanes adjacent to an existing two-lane roadway. Right-Of-Way services included Right-Of-Way Plans, legal descriptions, and questionnaires for take parcels.
- **St. Mary's Bypass**
Working for the WVDOT, Thaw led transportation survey services for the relocation of WV 16 in Pleasants County, from Pleasants County Route 18 to WV 2 in Saint Mary's, West Virginia for approximately two miles of highway. The project included topographic mapping, survey control mapping, right-of-way and utility cost estimates, and inventories.
- **Nitro Land Fill-2007 Topo**
Surveyed the boundary of the former Landfill for future cap and development. Performed topographic survey of the site, prepared maps used for design of a municipal boat ramp.
- **Tucker Co Landfill**
Established survey control for the landfill. Created topographic surveys quarterly to be used for quarterly volume reports.

RELEVANT EXPERIENCE

Palatine Park Master Planning

From June to August 2013, TERRADON Provided master Planning Services for the City of Fairmont for the redevelopment of Palatine Park on the east side of the Monongahela River adjacent to downtown Fairmont, WV. The Master Plan featured new parking areas, walking trails, a vista overlook, a picnic gazebo and retail space.

Palatine Park
Master Plan Fairmont, West Virginia

August 27, 2013

Fairmont Riverfront Master Plan

The City of Fairmont and the Fairmont Renaissance Corporation intend to develop new recreation opportunities and at the same time enhance economic development opportunities for the community. The main goal of the planning process was to develop a plan that will allow for the comprehensive development and implementation of new elements to the riverfront. The elements planned will include rehabilitation of an existing park and new recreation, commercial, and residential opportunities. This plan was designed so that the core elements of the plan will entertain people of all age groups, help with the revitalization of the surrounding neighborhood, and stimulate the entire downtown area of Fairmont.

RELEVANT EXPERIENCE

Putnam County Commission - Master Planning & Valley Park Expansion

TERRADON Corporation provided Master Planning and site civil design services for the expanding Valley Park in Hurricane, Putnam County, WV. This work is part of a nearly \$2 million expansion, which was completed in 2013 and adds an additional 6 acres to the park.

The project included planning for athletic fields, multiple parking lots, access roads and greenspace, but also incorporated a walking trail that ties into existing park trails. The plan was produced in coordination with the WV DOT to determine roadway/walkway ingress/egress and designed in accordance with local, state and federal regulations.

RELEVANT EXPERIENCE

Summit Bechtel National Scout Reserve Master Plan

From 2008 to July 2013, TERRADON provided a variety of services for the development of the Summit Bechtel National Scout Reserve near Mt. Hope, Fayette County, WV. In fact, TERRADON worked with the NRGDA on the initial site selection and presentations to the Boy Scouts of America, which landed this massive project in Mt. Hope.

The Summit is a 10,600+ acre outdoor adventure center near Mt. Hope, WV next to the New River Gorge National Park. The world-class facility serves as a venue for the Boy Scouts of America's fourth High Adventure Base, the permanent home to the National Jamboree, a summer camp and National Center for Scouting Excellence leadership center - all on the same contiguous property.

Services for the 10,600+ Acre site included:

- Initial Site Selection/Conceptual Designs
- Site Planning/Grading
- Erosion and Sediment Control
- AML
- Survey/Mapping
- All Environmental Permitting
- Geotechnical Engineering
- Materials Testing and Construction Monitoring
- Utility Design
- 60+ miles of underground utilities
- 550,000 tons of aggregate produced by on-site rock crushing 600 acres of clearing, grubbing and rough grade operations
- 3 million cubic yards of excavation
- 600 acres of fine grading and revegetation
- 28 miles of drainage swales, including erosion and sediment control
- 14 miles of new roads (grade and drain)
- 4 earthen dams
- 80,000 seat lawn amphitheater
- On site sanitary sewer system

RELEVANT EXPERIENCE

Greater Greenbrier Sports Complex Master Plan

TERRADON provided Master Planning and Grading Design Services beginning in June 2013 for the Greater Greenbrier Sports Complex located north of Lewisburg, WV.

The work was divided into five phases, and includes:

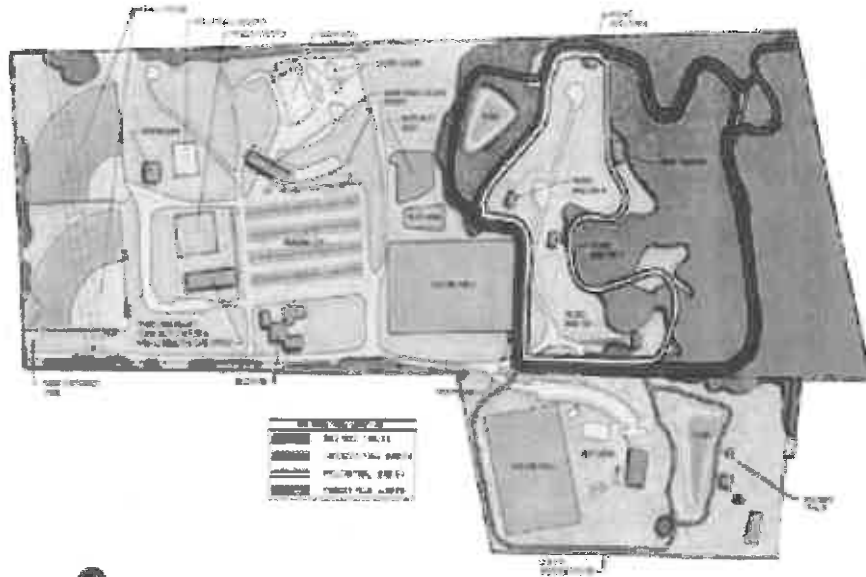

- Master Planning
- Grading Study
- Full Construction Documents
- Utility Layout
- Road Design
- Erosion and Sediment Control.

RELEVANT EXPERIENCE

Putnam County Parks and Recreation Board - Valley Park Trails Map

TERRADON Corporation developed a detailed trail map and additional graphics for a walking trail system in Valley Park.

Jonathan Larck Reservoir Park Master Plan

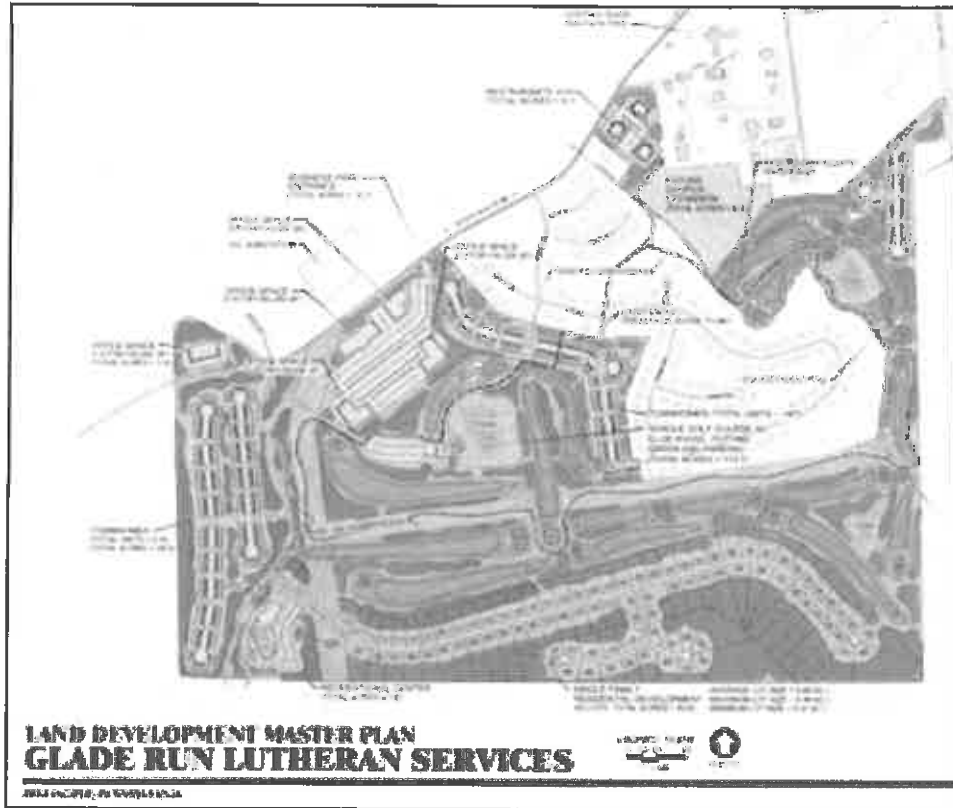

TERRADON Corporation was responsible for creating a Master Plan for the Jonathan Larck Reservoir Park for the Putnam County Parks and Recreation Commission. Elements included an access drive to the park area, picnic shelters, playground areas, restroom facilities, trail systems and fishing and boating opportunities.

RELEVANT EXPERIENCE

Glade Run Lutheran Services

TERRADON conducted a master facility plan for a 300+ acre development for Glade Run Lutheran Services. This project involved a mixed use development which included an equestrian trail, senior housing, single family residential, office, and retail.

Barbour County Park - Master Planning

As a subconsultant, TERRADON created a Final Schematic Master Plan for Barbour County Park.

Relevant Project Tasks Included:

- Survey and Mapping
- Land Planning
- Utility Design
- Grading and Drainage Design
- Access Road Design
- Construction Drawings

RELEVANT EXPERIENCE

Toyota Wetland Education Center

TERRADON Corporation provided Master Planning and site civil design services, followed by construction drawings, for the Toyota Wetland Education Center near Buffalo, WV.

Notable elements incorporated parking spaces, information kiosks, crushed gravel trails, elevated boardwalks and observation decks into this unique environmental habitat and wildlife refuge.

Harveytown Park & Connector Master Planning

TERRADON Corporation was responsible for trail design of a connector from Harveytown Park to Ritter Park in Huntington, WV. TERRADON provided a 3-Phase Master Planning approach for a section of trail that is predicted to be heavily used by the Huntington Community.

RELEVANT EXPERIENCE

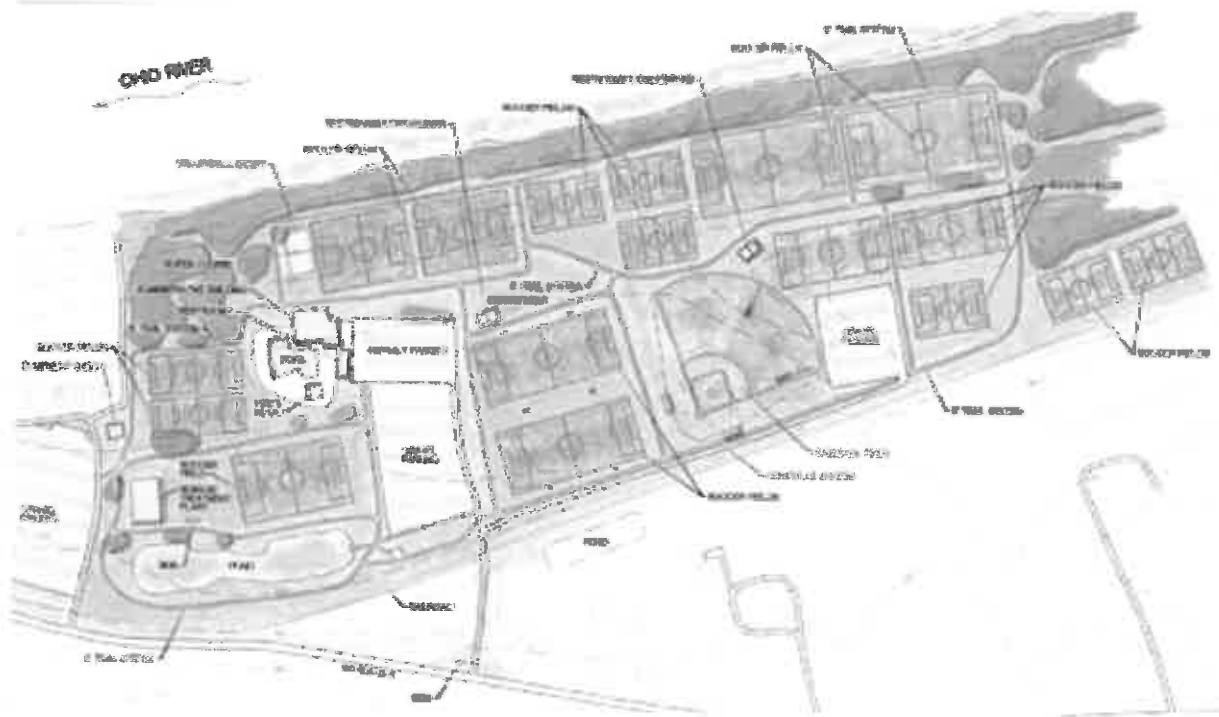

Westmoreland Trail System Master Planning

TERRADON Corporation was responsible for the Master Planning of a unique trail system for the Greater Huntington Parks and Recreation District. The project design called for the connection of the Ceredo-Kenova area to Huntington. The trail system was designed to use the top of an earthen flood levy to move through urban areas. Design included alignments, typical sections and E&S Control.

Kennedy Center Athletic Complex Master Planning

TERRADON Corporation was responsible for the Master Planning of the Kennedy Center Athletic Complex, an outdoor recreational facility located north of Huntington, WV, that provides 80 acres of outdoor opportunities as part of the Huntington YMCA. Improvements or additions were made to various athletic fields, including upgrading a soccer field to tournament-level requirements.

RELEVANT EXPERIENCE

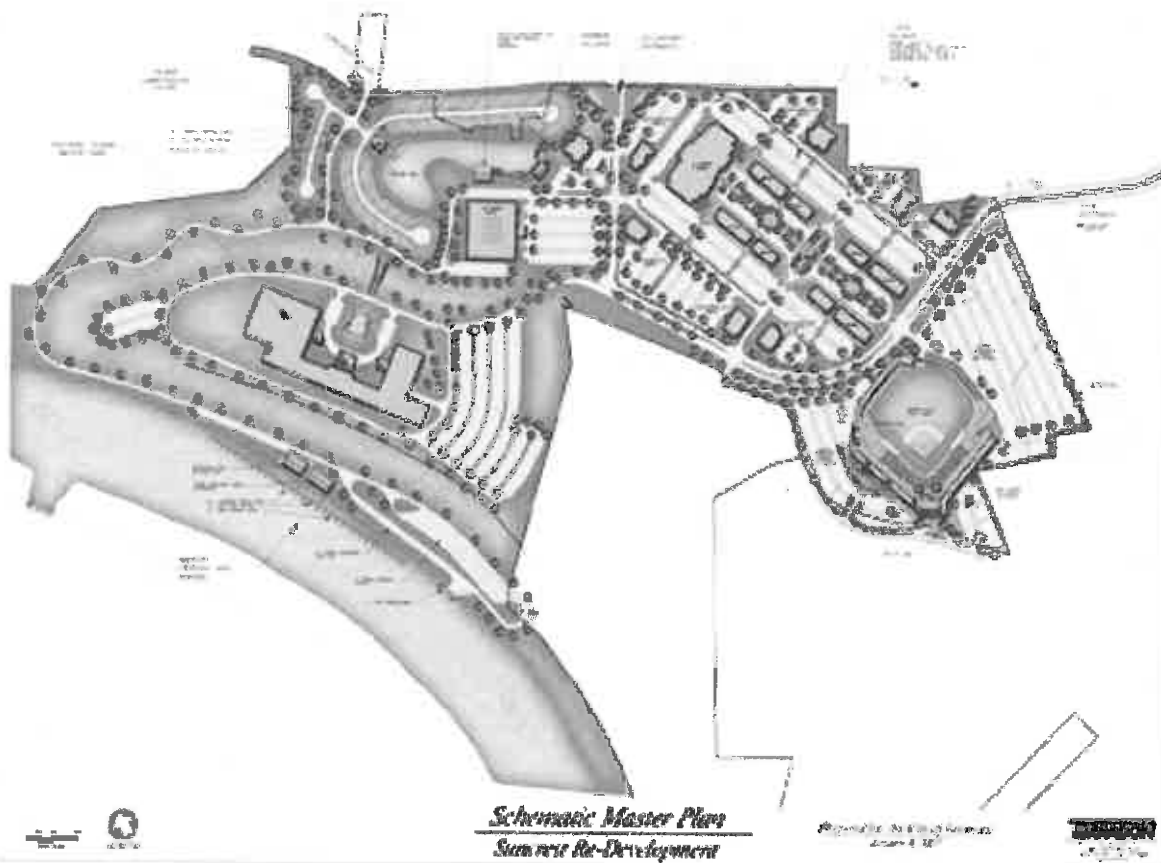

Volcano Island & Water Park Master Planning

TERRADON Corporation has provided a variety of engineering services for a growing community on the East Side of Fairmont, WV to help spur economic development. The former Coke Works Site in Fairmont, WV consisted of approximate 100 acres of land. Previously listed on the EPA priority list of superfund sites, the site concluded remediation efforts in 2008. TERRADON Corporation then began providing land planning and design services to the City.

Combined with surrounding areas totaling approximately 350 acres, TERRADON provided land planning and design engineering, utility location and mapping services for the properties. The master planning provided vision for Volcano Island Water Park, allowing the City of Fairmont efficient and value-based use of the former environmentally concerned site.

Relevant Project Tasks Included:

- Survey and Mapping
- Land Planning
- Utility Design
- Grading and Drainage Design
- Access Road Design
- Construction Drawings

RELEVANT EXPERIENCE

Bluestone State Park Master Planning

TERRADON was responsible for the development of a swimming pool replacement for existing pools at Bluestone State Park. The existing pool was located within the 100-year flood plain and subject to flooding.

TERRADON proposed a new pool located above the 100-year flood plain while incorporating many unique and creative design features for Bluestone State Park guests and the surrounding community.

Little Beaver State Park Design

TERRADON was responsible for the design of a campground expansion that doubled the number of existing full-service RV spaces, a new bathhouse and a trail system to the bathhouse. TERRADON was also responsible for preparation of plans and specifications for a septic tank effluent gravity (STEG) system at the park. DNR Parks and Recreation had started the project using force account method of construction, but was unable to complete the project. Terradon designed the project to utilize materials already purchased and delivered to the site. The project consisted of septic tanks, one (1) grinder sewage pumping station, and small diameter gravity sewer (SDGS) with connection to the local PSD for treatment.

RELEVANT EXPERIENCE

West Virginia University Institute of Technology Marina Study Master Plan

TERRADON Corporation was responsible for the design of a Tech Marina Study as part of a recreational master plan study for the West Virginia University Institute of Technology Extreme Sport Committee. The study contained plans for renovation of an existing dock, fuel slips, boat rental slip expansion, a boat trailer parking lot, vehicle parking, camping sites and overflow parking on a bicycle trail along the Kanawha River.

Nitro Boat Launch Master Plan

TERRADON Corporation was responsible for the design of schematic plans for the Nitro Boat Launch in Nitro, WV. The master plan contained boat docks, an access road and parking lot to provide the local community with a recreational outlet to the Kanawha River.

NITRO BOAT LAUNCH
SCHEMATIC PLAN

RELEVANT EXPERIENCE

Dorsey's Knob Master Plan - BOPARK

TERRADON provided Master Planning services to the Morgantown Board of Park and Recreation Commissioners for the development of Dorsey's Knob in Morgantown, WV.

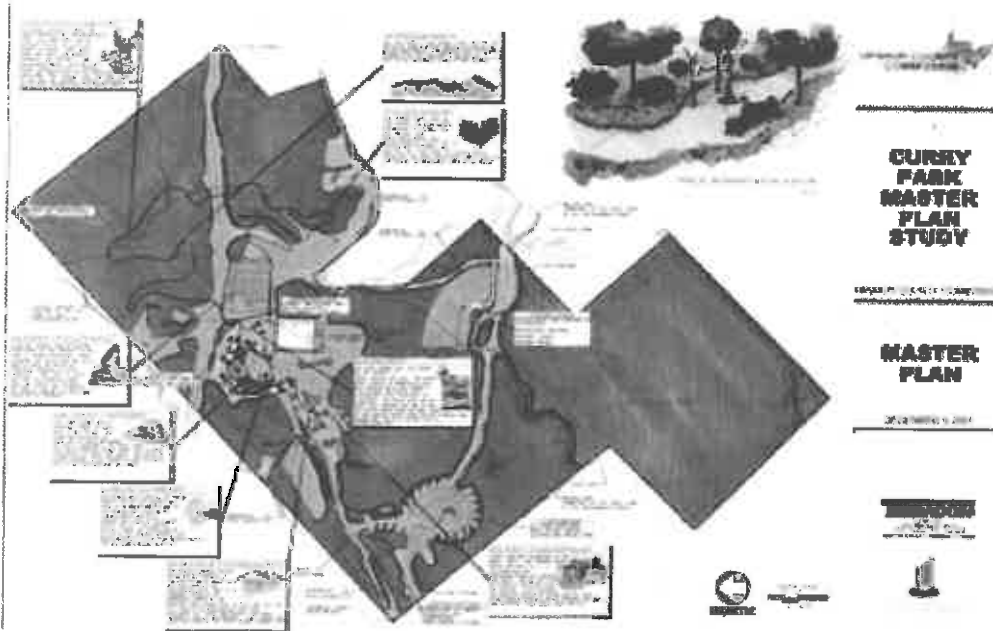

Roane County Parks Master Planning

TERRADON Corporation, provided site master planning and site civil engineering services for Roane County Parks.

RELEVANT EXPERIENCE

Upshur County Park Master Planning - Curry Park

As a subconsultant, TERRADON completed the Curry Park Master Plan Study for the Upshur County Commission.

Relevant Project Tasks Included:

- Survey and Mapping
- Land Planning
- Utility Design
- Grading and Drainage Design
- Access Road Design
- Construction Drawings

RELEVANT EXPERIENCE

Grand Vue Park

TERRADON is currently in the developing Master Plans and Schematic Planning for Grand Vue Park near Moundsville, WV. Services include: inventory and analysis of existing features, identifying project opportunities, land planning, master planning and team coordination with subconsultants.

Background

Moment Engineers, Inc. is a professional consulting firm specializing in structural engineering. We serve the architectural and building construction communities throughout West Virginia. Based in Charleston, West Virginia at 179 Summers Street, Moment Engineers was founded by Douglas Richardson in early 2005.

During his more than 25 years of experience, Mr. Richardson has had sole responsibility for the structural engineering design of more than 6 million square feet of built space. The construction costs of these projects exceeded a half billion dollars. His experience, which ranges from small to very large multi-phase projects, is invaluable in providing the technical expertise and creative flexibility to deliver results in a prompt and reliable manner.

Our staff's experience encompasses a wide variety of building types and sectors, and our expertise includes design analysis for steel, concrete, masonry, and wooden structures.

Approach

At Moment Engineers, we recognize that the contractor and architect are the primary contact for the building owner. Our role is to strengthen those relationships by producing high quality designs in a prompt and cost effective manner. To that end, we emphasize incorporating traditional and technical means of communication and data transfer to ensure a seamless integration of structural integrity and architectural creativity.

We believe that the practice of engineering is the point at which science and society meet. We also believe that the architects and builders we serve are essential in the development of the fundamental dignity of the community. Moment Engineers is strongly committed to developing structural solutions which bring permanence and strength to the expression of architectural thought.

Harper Engineering, pllc was founded in 2008 to provide innovative engineering design services to architects, owners and contractors throughout the state. We are a unique combination of eager young talent and proven experience fused together to serve all of your building systems design needs including HVAC, Plumbing, Lighting, Electrical, Fire Alarm and Sprinkler Suppression systems.

Our goal is to design optimized systems that meet all of our client's performance, energy use, and budgetary needs. The staff at Harper Engineering has a combined 85 years of experience working with clients in a variety of fields including but not limited to K-12 Schools, hospitals, offices, airports, manufacturing, and water treatment plants.

Services:

HVAC Design

- Heating and Cooling load calculations
- Ductwork sizing
- Hydronic pipe sizing
- Equipment selection

Electrical Design

- Electrical load calculations
- Panel and switch gear selection
- Lighting
- Fire alarm
- Site Utilities
- Emergency Generators
- Security and communications

Plumbing Design

- Pipe Sizing
- Fixture Selection
- Sprinkler design
- Site Utilities

Drafting
