Questions:

- Q4: Upon bid renewal can pricing be adjusted up or down due to market conditions. Most of the items on this bid are commodities that rely on favorable weather conditions, if mother nature does not cooperate it could cause market conditions to change and also if she does it could drive prices down. It would be fair for both parties to practice up or down pricing adjustment after 1 year with proper backup being presented to the state to show market conditions have changed.
- A4: **PRICE ADJUSTMENT:** Vendor may submit a request for price adjustment for consideration prior to renewing this Contract. Any such price adjustment request that results in an increase to a contract total or unit price must be based on quantifiable increases directly attributable to raw materials and/or labor. Price adjustments resulting in an increase to a contract total or unit price shall be limited to the Vendor's actual increased costs and shall not include Vendor's profit or overhead expenses. The State and/or the Vendor may request a price adjustment that results in a lower total price or unit price at any time.

A Vendor's request to adjust its price must include a detailed explanation of the raw materials/labor causing the adjustment, a detailed explanation of the impact that the changes have on the goods or services covered under this Contract, and independent verification of the price changes, and any other information requested by the Purchasing Division.

The Purchasing Division reserves the right to deny a price adjustment request at its sole discretion. A price adjustment request should be submitted in writing 30 days prior to the expiration of the current contract term. No Price Adjustment will become effective unless and until the Agency and the Vendor agree to the adjustment and such adjustment is approved by the Purchasing Division and the Attorney General's office (as to form).

Revised pricing pages attached.

Other Information:

1. The bid opening has been extended from 08/30/2016 to 09/08/2016.
2. Revised pricing pages attached.
3. Vendors should provide "Vendor's Unit Cost" to determine the vendor's cost at the time of award for comparison with price increase/decrease as noted above.

4. To delete Section 4.2 in the specifications its entirety and replace with the following language:

4.2 Pricing Pages: Vendor should complete the Pricing Pages by inserting the requested information in the appropriate location and performing the calculations necessary to arrive at a total cost. The requested information includes: Brand Bid, Size Bid, Vendor's Unit Cost, Unit of Measure for Vendor's Unit Cost, Number of Individual Units, Unit Price per Individual Item, and Extended Cost. Vendor should complete the Pricing Pages in their entirety as failure to do so may result in Vendor's bid being disqualified.

The Pricing Pages contain an estimated number of products. These estimates represent an amount that will be utilized for evaluation purposes only. No future use of the Contract or any individual item is guaranteed or implied.

42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.

b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.
