STATEWIDE CONTRACT FOR MEDICAL SUPPLIES
ADDENDUM NO. 4 – CRFQ SWC160000011

Questions:

- Q1: Line 97 and 98- what is the difference between eye wash and saline solution? What is the current brand for line 97?
- A1: The information on the pricing pages are the most frequently purchased items from the State agencies. This market basket of items or the pricing pages are used for evaluation purposes only.
- Q2: Line 99: Vision Care- Patch, Please clarify if the patch should have an elastic band or be an adhesive
- A2: Elastic band
- Q3: Please provide the bid tabulation from the last time this contract was procured.
- A3: See attached bid tab from MEDSUP12A.
- Q4: Will you be awarding this bid line by line, by group, or all or nothing?
- A4: Per Section IV Contract Award, Percentage Discount, Catalogue in the specifications, “the Contract shall be awarded to the Vendor that meets the RFQ specifications and provides the lowest Total Bid Cost for the Eligible Items listed on the Pricing Pages. Notwithstanding the foregoing, the Purchasing Division reserves the right to award this Contract to multiple Vendors if it deems such action necessary.”
- Q5: Would you be kind enough to send me an electronic copy for bid purposes of the MEDSUP16 bid?
- A5: A revised Excel spreadsheet entitled MEDSUP16 Pricing Pages have been added to the CRFQ. The spreadsheet may be found on the WV Purchasing Bulletin - <https://prod-fin-vss.wvoasis.gov/webapp/prdvss11/AltSelfService>.
- Q6: Would you accept quotes based on unit prices instead of discounts to catalog prices?
- If so, could provide a spreadsheet that bidders could use to submit their quotes on straight unit prices? The current formatting of the spreadsheet restricts users from entering data into most cells, thus preventing bidders from entering unit prices into the necessary columns to submit a quote based on unit prices.
- A6: No. See Section IV Contract Award, Percentage Discount, Catalogue in the specifications for pricing information.

Q7: I downloaded the bid this morning. The fields for Pricing are not open to add any information.

A7: Most of the fields in the Excel spreadsheet have been locked. The discount percentage may be entered in the table on page 9 of the pricing page. Once entered, the "Discount Percentage" fields should auto-populate with the percentage entered on Page 9.

A revised Excel spreadsheet entitled MEDSUP16 Pricing Pages have been added to the CRFQ. The spreadsheet may be found on the WV Purchasing Bulletin –

<https://prod-fin-vss.wvoasis.gov/webapp/prdvss11/AltSelfService>

Q8: Is the State willing to accept exceptions to the terms and conditions (& negotiate the terms and conditions of any resulting contract)?

A8: Per Item No. 11, Exceptions and Clarifications in the Instructions to Vendors Submitting Bids, vendors shall clearly mark any exceptions, clarifications or other proposed modifications in its bid.

Q9: Would the State be willing to extend the bid opening date?

A9: The bid opening has been extended to 08/09/2016 at 1:30 pm.

Q10: During the contract term, how shall the Vendor address items that have been continued with replacement products that are available?

A10: The price of the replacement product cannot be increased, the replacement must be for the same price as bid; the replacement product must conform to the specifications contained in the CRFQ, and if requested, the vendor must prove the replacement product is equal to or better than the original product.

Q11: Will the State accept a log-in to an online ordering system versus a Catalog provided in Excel Format on a CD from the Vendor?

A11: No. See Section 4 -Catalogue in the specifications.

Q12: The Vendor does not have the capabilities to print the discount on each invoice. Will this be cause for rejection of bid or award of contract?

A12: See Section V Ordering and Payment – Subsection 2 Invoicing and Payment in the specifications.

Q13: How shall the Vendor address items on the MEDSUP12A Pricing Page that are no longer available from the Manufacturer? Examples below.

The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision. The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.

b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

8. **"Discounted Price"** means the price that the Vendor will charge Agencies for the purchase of Eligible Items under this Contract. The Discounted Price is the Catalogue Price reduced by the Discount Percentage.
9. **"Eligible Item"** means any medical supplies in the Vendor's Catalogue, excluding anything already included on a pre-existing contract held by the State. Incontinence products, latex gloves, and lab supplies are specifically excluded from the definition of Eligible Items under this MEDSUP12 Contract.

10. **“Pricing Pages”** means the schedule of prices, Discount Percentages, totals, and other information attached hereto as Exhibit A and used to evaluate the RFQ.
11. **“Purchasing Division”** means the West Virginia Department of Administration, Purchasing Division.
12. **“RFQ”** means the official RFQ published by the Purchasing Division and identified as MEDSUP16.
13. **“State”** means the State of West Virginia and/or any of its agencies, commissions, boards, etc.
14. **“Total Bid Cost”** means the sum of the bid total column on the Pricing Pages shown below the bid total column and identified as the total bid cost.
15. **“Unit”** means the smallest practical measurable amount of an Eligible Item and is identified on the Pricing Pages in the Unit column. The Unit will only be utilized for bid evaluation purposes.
16. **“Unit Price”** means the price of an individual unit of an Eligible Item as shown on the Pricing Pages.
17. **“Vendor”** or **“Vendors”** means the successful bidder(s).

III. GENERAL REQUIREMENTS

1. **Mandatory Eligible Item Requirements:** Eligible Items must meet or exceed the mandatory requirements listed below.
 - a. Eligible Items must be identified in the Catalogue.
 - b. Eligible Items must be new and unused.
 - c. Eligible Items must not expire for at least 180 days after receipt by the Agency. The manufacturer’s expiration date must be included on or with each Eligible Item shipped. Failure to include the manufacturer’s expiration date or providing Eligible Items that expire in less than 180 days of Agency’s receipt will result in return of those items in accordance with the return provisions in this Contract.

IV. CONTRACT AWARD, PERCENTAGE DISCOUNT, CATALOGUE

1. **Contract Award:** The Contract is intended to provide Agencies with a Discounted Price on all Eligible Items. The Contract shall be awarded to the Vendor that meets the RFQ specifications and provides the lowest Total Bid Cost for the Eligible Items listed on the Pricing Pages. Notwithstanding the foregoing, the Purchasing Division reserves the right to award this Contract to multiple Vendors if it deems such action necessary.

2. **Discount Percentage:** Vendor shall quote a Discount Percentage for each category of Eligible Items. Each category may have a different Discount Percentage. The Discount Percentage for a given category will reduce the Catalogue Price for every Eligible Item in that category. The resulting Discounted Price shall be the price Agencies pay for purchases of that Eligible Item under this Contract. If multiple Discount Percentages are quoted, Vendor must offer a “miscellaneous” discount category for all items that may not be included in an identified category.

Vendor shall not incorporate Discount Percentages into its Catalogue unless the Vendor clearly shows the Catalogue Price and then separately lists the applicable Discount Percentage and the Discounted Price for each Eligible Item.

Vendor may utilize additional product categories that are not listed on the Pricing Pages if it so desires. Any addition to the product categories must be included with Vendor’s bid.

3. **Pricing Pages:** Vendors are **strongly encouraged** to complete the Pricing Pages electronically in Microsoft Excel. Doing so will reduce the number of calculations required and the possibility for calculation errors as explained below.
 - a. **Information Requested.** Vendor should complete the Pricing Pages by filling in any blank spaces with the information requested. The information requested on the Pricing Pages for each frequently purchased Eligible Item includes Catalogue Prices, Catalogue Package Quantity, Unit Prices, Discount Percentages, Discounted Unit Prices, Units, and item total costs. The Vendor should also include the Total Bid Cost, Discount Percentages for all Eligible Item product categories (including a miscellaneous category), and Contract Coordinator contact information. Vendor should complete all columns as failure to complete the Pricing Pages in their entirety may result in Vendor’s bid being disqualified.

Vendor must apply the appropriate Discount Percentage for each frequently purchased Eligible Item listed on the Pricing Pages in arriving at the Discounted Unit Price for that item. For example, If Item A falls into the personal care products category then the Discount Percentage for the personal

REQUEST FOR QUOTATION
Medical Supplies – Specifications - MEDSUP16

care products category must be used to calculate the Discounted Unit Price for Item A on the Pricing Pages.

b. Pricing Page Calculations. The Pricing Pages require Vendor to insert its Catalogue Price, Catalogue Package Quantity, and Discount Percentage for each Eligible Item listed thereon. That information, along with information that is already included on the Pricing Pages will be used to calculate the Unit Price, Discounted Unit Price, item total cost, and Total Bid Cost. If Vendor completes the Pricing Pages electronically using the Microsoft Excel version from the Purchasing Division, these calculations will be automatically completed.

i. Unit Price Calculation – The Unit Price is calculated by dividing the Catalogue Price by the Catalogue Package Quantity.

Example: \$10 per box divided by 10 masks per box equals a Unit Price of \$1.

ii. Discounted Unit Price – The Discounted Unit Price is calculated by applying the appropriate Discount Percentage to the Unit Price

Example: \$1 Unit Price reduced by a 10% Discount Percentage equals a \$0.90 Discounted Unit Price.

iii. Item Total Cost – The item total cost is calculated by multiplying the estimated unit quantity by the Discounted Unit Price.

Example: An estimated unit quantity of 10,000 masks multiplied by a Discounted Unit Price of \$0.90 equals a \$9,000 item total cost for that item.

iv. Total Bid Cost – The Total Bid Cost is calculated by adding the item total cost for every item listed on the Pricing Pages.

Example: Item total costs of \$9,000 and \$1,000 would equal a Total Bid Cost of \$10,000 (assuming that the Pricing Pages contained only two items).

c. Estimated Quantities Only. The Pricing Pages contain a list of frequently purchased items and estimated unit quantity that will be purchased. The estimated unit quantity for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

- d. **Correction of Errors.** Notwithstanding anything contained herein, the Purchasing Division may correct errors on the Pricing Pages. Vendor is strongly encouraged to electronically enter the information into the Pricing Pages to prevent errors in the evaluation.
- e. **Electronic Version.** The Pricing Pages were created as a Microsoft Excel document and Vendor can request an electronic copy for bid purposes by sending an email request to the following address: tara.l.lyle@wv.gov.

The Purchasing Division's electronic version of the Pricing Pages contains the formulas for calculating the Unit Price, Discounted Unit Price, item total cost, and Total Bid Cost. Those items will be automatically populated by the Microsoft Excel program when Vendor inserts its Catalogue Price, Catalogue Package Quantity, and Discount Percentage. Utilizing the electronic version of the Pricing Pages and inserting the values using Microsoft Excel will greatly reduce the number of calculations that Vendor will have to make and the possibilities for error. The Purchasing Division reserves the right to take Vendor's Pricing Pages and insert the appropriate numbers into the Microsoft Excel spreadsheet if Vendor chooses to complete the Pricing Pages in any other way.

4. Catalogue:

- a. **Submission.** Vendor must submit two dated copies of its Catalogue for evaluation purposes prior to award of this Contract. Vendor shall also mail the Catalogue free of charge to any Agency desiring to use this Contract. Copies of the Catalogue may be requested in an electronic format and should be provided in that format if possible. Vendor's Catalogue will be used by Agencies to order Eligible Items under this Contract.

Vendor should identify all Eligible Items listed on the Pricing Pages by circling or highlighting those items in its Catalogue and earmarking or tabbing the pages for those items, to assist in the evaluation and verification of the bids and pricing. If any discrepancies exist between the Pricing Pages and the actual price listed in the Catalogue, the actual price shown in the Catalogue shall prevail and the Pricing Pages may be corrected by the buyer for evaluation purposes.

- b. **Catalogue Modification.** The Purchasing Division may permit Vendor to update its Catalogue at each renewal date. Determination of whether or not to allow a Catalogue update is at the sole discretion of the Purchasing Division. Any request by Vendor to update its Catalogue must include a detailed listing of the following: (1) any Eligible Items being removed, discounted prices for those items, Agencies quantity usage of those items, and total spent by

REQUEST FOR QUOTATION
Medical Supplies – Specifications - MEDSUP16

Agencies on those items; (2) any Eligible Items being added to the Catalogue and the discounted price of those items; (3) all changes in the discounted price to Eligible Items, estimated usage relating to items that have changed in price, and the total impact of the price change on the State; and (4) justification for updating its Catalogue. The Purchasing Division may waive the detailed listing requirement if it finds that doing so is in the best interest of the State. Unless an updated catalogue is approved, the Eligible Items available under this Contract and prices for those items shall remain unchanged during the term of this Contract.

In the event that multiple Vendors are awarded a contract under the RFQ, Vendors shall not be permitted to include in its updated Catalogue items being sold by a Vendor that is lower in ordering priority without the consent of that lower priority Vendor.

V. ORDERING AND PAYMENT

1. **Ordering:** Vendor shall accept orders by regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system and describe the process for setting up such ordering for State agencies. Any on-line ordering system must have the capability to restrict prices and available items to conform to the Catalogue originally submitted with this RFQ. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line.
2. **Invoicing and Payment:** Vendor shall indicate the discount received on each invoice submitted for payment. Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia. Methods of acceptable payment must include the West Virginia Purchasing Card. Payment in advance is not permitted under this Contract.

VI. DELIVERY AND RETURN

1. **Delivery Time:** Vendor shall deliver standard orders within five (5) working days after orders are received. Vendor shall deliver emergency orders within one (1) working day after orders are received. Vendor shall ship all orders in accordance with the above schedule and shall not hold orders until a minimum delivery quantity is met. All deliveries must be made during normal working hours for the delivery locations. All shipments of products requiring a material safety data sheet (MSDS) shall include a MSDS with the product.

2. **Late Delivery:** The Agency placing the order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for:
 - (a) cancellation of the delayed order, and
 - (b) obtaining the items ordered from a third party.

Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division.

3. **Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. destination to the Agency's location. The minimum order for prepaid shipping to one, in-state destination shall be \$200.00. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount for all orders of \$200.00 or greater and shall not charge the Agency separately for such delivery. For all orders of less than \$200.00, or emergency orders for which the Agency has requested expedited delivery, Vendor may charge the Agency at cost for delivery provided that Vendor includes the delivery expense as a separate line item on the invoice with the original freight bill attached. Vendor shall maintain the risk of loss for orders under \$200.00 and emergency orders.

Agencies may make purchases that fall under the \$200.00 limit at a local source under authority delegated from the Purchasing Division without violating the terms of this Contract, provided that such purchases do not exceed Purchasing Division spending and bidding limits.

4. **Quality Assurance:** Upon request, Vendor shall provide the State with test data, certifications, or samples of any Eligible Item. Vendor is responsible for all costs associated with submitting these items. Vendor shall ensure that any request under this provision is fulfilled within five (5) days unless the State agrees otherwise in writing.

5. **Return of Unacceptable Items:** Eligible Items that Agency deems unacceptable shall be returned to Vendor at Vendor's expense and with no restocking charge. Vendor shall either make arrangements for the return within five (5) days of being notified that items are unacceptable, or permit the Agency to arrange for the return and reimburse Agency for delivery expenses. If the original packaging cannot be utilized for the return, Vendor will supply the Agency with appropriate return packaging upon request. All returns of unacceptable items shall be F.O.B. the Agency's location. The returned product shall either be replaced, or the Agency shall receive a full credit or refund for the purchase price, at the Agency's discretion.
6. **Return Due to Agency Error:** Items ordered in error by the Agency will be returned for credit within 30 days of receipt, F.O.B. Vendor's location. Vendor shall not charge a restocking fee if returned products are in a resalable condition. Items shall be deemed to be in a resalable condition if they are unused and in the original packaging. Any restocking fee for items not in a resalable condition shall be the lower of the Vendor's customary restocking fee or 5% of the total invoiced value of the returned items.

VII. MISCELLANIOUS

1. **No Substitutions:** Vendor shall supply only Eligible Items contained in its Catalogue submitted in response to the RFQ or an updated Catalogue approved by the Purchasing Division as described above. Vendor shall not supply substitute items.
2. **Vendor Supply:** Vendor must carry sufficient inventory of the Eligible Items being offered to fulfill its obligations under this Contract. By signing its bid, Vendor certifies that it can supply the Eligible Items contained in its bid response.
3. **Reports:** Vendor shall provide quarterly reports and annual summaries to the Agency showing the Agencies (including political subdivisions) which have used this Contract. The report should include items purchased, quantities of items purchased, and the total dollar value of the items purchased. Vendor shall also provide reports, upon request, showing the items purchased during the term of this Contract, the quantity purchased for each of those items, and the total value of purchases for each of those items. Failure to supply such reports may be grounds for cancellation of this Contract. The report is to be sent electronically to: tara.l.lyle@wv.gov.
4. **Contract Manager:** During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The contract manager must be available during normal business hours to address any customer service or other issues related to this Contract. Vendor should identify the contract manager in the space provided on the Pricing Pages.

5. **Mandatory Requirements:** The terms “must,” “will,” “shall,” “minimum,” “maximum,” or “is/are required” identify a mandatory contract requirement. Decisions regarding compliance with any mandatory requirements shall be at the sole discretion of the Purchasing Division. Failure on the part of the Vendor to meet any of the mandatory specifications shall result in disqualification of the bid.

6. **Waiver:** The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in remain in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

7. **References to Price Changes:** Any reference in Vendors documents submitted in response to the RFQ to prices being subject to change is null and void. Price changes may only be made with approval of the Purchasing Division as outlined herein.

Product Features

- McKesson Hydrocolloid Dressings
- Thin
- 2" x 2" (5.1 cm x 5.1 cm)
- McKesson Thin Hydrocolloid Dressings aim to provide an optimal wound healing environment with a matrix design that delivers enhanced absorbency, flexibility, and overall patient care.
- Not only does the new design help prevent residues from leaching into wound bed, but it keeps the wound contact layer intact, reduces the potential for skin maceration, and assists in one-piece removal.
- Hydrocolloid layer reacts with cellular material from the wound to form a gel-like covering to help maintain a moist wound environment.
- Cohesive dressing removal system does not break down or leave residue in the wound and facilitates easy removal without tearing the dressing or skin. Wound contact layer remains intact and minimizes potential wound bed disturbance.
- Low-profile rounded corners and smooth tapered design helps reduce edge roll-up and risk of shear and friction.
- Semi-transparent outer layer permits wound site visualization without removing dressing.
- Thin and flexible dressing conforms to body contours; adhesion is firm yet gentle to peri-wound skin.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
