MACK TRUCK OEM PARTS OR EQUAL

1. **Question:** The first part of the package contained the parts Pricing Page examples the State wanted our pricing entered. There were two different sections of parts examples. One being the pricing page and the other in a more detailed form with information about the State and the bid with your name at the bottom as well. My question is we noticed that the parts descriptions are the same but have part numbers. These are the exact parts they want quoted and on the different formats?

Answer: Page 2 - line number 1 unit pump part number: 3413GC5230MX shall be changed to the Pricing Page item number 1 unit pump part number: 313GC5230MX.

Page 4 – line number 7 starter part number: 2132-10461055 shall be changed to Pricing Page item number 7 tank part number 25133601.

Page 5 – line number 9 muffler part number: 2MW3112 shall be changed to Pricing Page item number 9 muffler part number 2ME3112.

Page 6 – line number 12 pipe part number 4ME41158P2 shall be changed to Pricing Page item number 12 pipe part number 4ME41158P2.

Page 7 – ADD number 15 tank part number 25174629 as Pricing Page item number 15 tank part number 25174629.

2. **Question:** I am assuming that any box left “unchecked” is not involved in the bid?

Answer: Vendor is correct.

3. **Question:** With respect to the catalog, we believe everything with Mack right now is on disk only. Is that acceptable, or do they need this in print?

Answer: A disk is acceptable.

4. **Question:** Does this catalog need to be with our bid submission? If the bid is done via wvOASIS, that would eliminate the catalog would it not?

Answer: 3.2 Catalog Submission: Vendor must submit its Catalog prior to award of this contract for evaluation purposes. Vendor shall also mail the Catalog free of charge to any Agency

desiring to use this contract. Copies of the Catalog may be requested in an electronic format and should be provided in that format if possible. Vendor's Catalog will be used by Agencies to order Contract Items under this Contract.

Vendor should identify all items listed on the Pricing Section by circling or highlighting those items in its Catalog and earmarking or tabbing the pages for those items, to assist in the evaluation and verification of the bids and pricing. If any discrepancies exist between the Pricing Pages and the Unit Price listed in the Catalog, the Unit Price shall prevail and the Pricing Pages may be corrected by the Purchasing Division buyer for evaluation purposes.

5. **Question:** If the factory has a catalog/price change at the mid-year point, can that be brought up for review and change in pricing?

Answer: 3.3 Catalog Modification: The Purchasing Division may permit Vendor to update its Catalog at each renewal date. Determination of whether or not to allow a Catalog update is at the sole discretion of the Purchasing Division. Any request by Vendor to update its Catalog must include a detailed listing of the following: (1) any Contract Items being removed, Discounted Unit Price for those items, Agencies quantity usage of those items, and total spent by the Agencies on those items; (2) any Contract Items being added to the Catalog and the Discounted Unit Price of those items; (3) all changes in the Discounted Unit Price to Contract Items, estimated usage relating to items that have changed in price, and the total impact of the price change on the State; and (4) justification for updating its Catalog. The Purchasing Division may waive the detailed listing requirements if it finds that doing so is in the best interest of the State. Unless an updated catalog is approved, the Contract Items available under this Contract and Unit Prices for those items shall remain unchanged during the term of this Contract.

6. **Question:** They state they want our lowest price reflected in print in our catalog with either the percentage discount or increase shown separately. Does that mean the state will do their own math computation for their pricing till they receive our invoicing which will reflect the "final" price with our discount or increase included?

Answer: 4.2 Pricing Pages: Vendor shall complete the Pricing Pages by inserting either a Discount Percentage or a Markup Percentage. Vendor shall bid one percentage (mark-up or discount) to be applied to all contract items. Multiple percentages will not be accepted. Vendor should insert the Catalog Unit Price from Vendor's current catalog for each of the items listed.

A quote will be requested for contract items prior to ordering. Unit prices and "Adjusted Unit Price" will be verified for accuracy by the Purchasing Agent.

7. **Question:** The delivery section stated the parts had to be delivered in a 5 day or 1 day time frame depending on the order. We were told at one time the orders were all sent to Buckhannon; however it looks as if the posted ten locations around the state are the receiving garages. Is this correct?

Answer: 6.1 Delivery Time: Vendor shall ship deliver standard orders within five (5) working days after orders are received. Vendor shall deliver emergency orders within one (1) working day, upon the Agencies request. Vendor shall ship all orders in accordance with the above schedule and shall not hold orders until a minimum delivery quantity is met. Contract Items must be delivered to the ordering Agency attached hereto as Exhibit B.

Exhibit B contains the Equipment Division and the 10 District Storerooms as delivery locations.

8. **Question:** If so, I assuming that is why the Agency will cover shipping to these locations: As for receiving payment for the shipping, it state under 6.3, that the Vendor needs to invoice those delivery costs as a separate charge "with the original freight bill" attached. Are you referring to the freight bill we receive to have the parts shipped?

Answer: Section 6.3 Payment/Risk of Loss: shall be replaced entirely to read as follows:

6.3 Delivery Payment/Risk of Loss: Standard order delivery shall be F.O.B. destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice.

9. **Question:** As for the Vendor Preference Certificate: Under subdivision 1, do you have to meet two of the four requirements posted? And the reference to the vendor having "its headquarters or principle place of business" located in WV, our question is, if a company has a location or two in WV, but its Corporate offices and main headquarters are in another state, can one of the locations in WV qualify just based on being incorporated?

Answer: Under subdivision 1, the answer is no. The Vendor should mark any and all reasons that are verifiable for preference for their residency status, with the understanding that the amount shall not exceed 5%.
