INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders of
THOMPSON CONSTRUCTION GROUP, INC.:

I have audited the accompanying financial statements of Thompson Construction Group, Inc. (a South Carolina S Corporation), which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Thompson Construction Group, Inc. as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of earnings from contracts, contracts completed, and contracts in progress are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

THOMPSON CONSTRUCTION GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS

The Company is a South Carolina corporation established on December 31, 1986. The Company is a leading provider of industrial construction, maintenance, building construction, and disaster recovery services in the southeast.

REVENUE AND COST RECOGNITION

Revenue from construction contracts is recognized on the percentage-of-completion method, measured by the proportion of construction costs incurred to date to estimated total construction costs for each contract. That method is used because management considers costs incurred to be the best available measure of progress on contracts in progress. The Company utilizes the percentage of completion method of recognizing income on contracts for financial reporting and tax purposes.

Contract costs of projects under construction include all direct material and labor costs and indirect costs related to contract performance. Selling, general, and administrative costs are charged to expenses as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in estimated profitability are recognized in the period in which the revisions are determined. The costs of construction contracts are charged to earnings on the percentage-of-completion method used to recognize revenues.

The asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents revenues recognized in excess of amounts billed. The liability, "Billings in excess of costs and estimated earnings on uncompleted contracts," represents billings in excess of revenues recognized.

USE OF ESTIMATES

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from these estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Certificates of deposit with original maturities over three months are classified as certificates of deposit.

BOOK OVERDRAFT

In order to maximize cash utilization, the Company's practice is to draw down on its line of credit only as checks are presented for payment. As a result, the December 31, 2017 book overdraft amount represents checks issued but not presented to a bank for payment.

MARKETABLE SECURITIES

The Company classifies its marketable equity securities as available for sale. Securities classified as available for sale are carried in the financial statements at fair value. Realized gains and losses, determined using the first-in, first-out (FIFO) method, are included in earnings; unrealized gains and losses are reported in other comprehensive income.

ACCOUNTS RECEIVABLE

Accounts receivable are stated at the invoiced amount. If the Company is aware of a specific customer's inability to pay, the Company records a reserve for the difference in the amount due and the amount the Company reasonably estimates will be collected. For other customers, the differences between the amount due and the amount management expects to collect are reported in the results of operations of the year in which those differences are determined, with an offsetting entry to a valuation allowance for accounts receivable. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

LONG-LIVED ASSETS

Long-lived assets held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of any asset may not be recoverable. In the event that facts and circumstances indicate that the cost of any long-lived assets may be impaired, an evaluation of recoverability would be performed. As of December 31, 2017 and 2016, the Company has reviewed all long-lived assets and determined that no adjustment is necessary.

DERIVATIVE

The Company applies the provisions of ASC 815, Derivatives and Hedging, for its derivative instruments. The Company is party to one interest rate swap agreement that serves as a hedge against the movement of interest rates associated with borrowing at a variable rate, which matures July 5, 2022. The Company uses the derivative to eliminate the variability of cash flows related to interest rate payments on the Company's variable-rate debt. The fair value of this derivative was a liability of \$14,386 and \$9,364 as of December 31, 2017 and 2016, respectively. The change in fair value is recorded in other income (expenses) in the accompanying statements of income and comprehensive income.

S CORPORATION - INCOME TAX STATUS

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S Corporation. In lieu of corporate income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Usually no provision or liability for federal income taxes is included in the financial statements.

The Company follows FASB ASC 740-10, Accounting for Uncertainty in Income Taxes, which provides guidance on accounting for uncertainty in income taxes recognized in the Company's financial statements.
