- A7. Yes

Q.8. The SBVRR forces are to remove and reinstall 21 crossings within the limits of the cross-tie changeout area when we bring in our surfacing unit to tamp the 10 miles of track in this area. As the tie unit will have completed all work by the time we bring in our surfacing unit, we assume that there will be no ties to change out in any of the crossings. Please confirm.

A.8. If there are any ties to replace in the crossings, the crossings will be cleaned out ahead of the tie gang to allow change out.

Q.9. Are there any dual cut or tight areas within the tie change out area that would restrict the removal or insertion of the cross-ties?

Q.14. Please advise whether the cross-ties are required to be 100% Grade 5 ties or a 7" AREMA Mix of 80% Grade 5 and 20% Grade 4 will be allowed.

A.14. See A.1.

Q.15. It was mentioned at the prebid meeting that the SBVR is going to remove and put back all crossings for us. Additionally, if they fell behind due to how much track the production tamper surfaces in a day that we would just surface into and out of the crossings, is this correct?

A.16. NO, there will be no delays

Q.17. I went to a couple of crossings after the pre-bid meeting and noticed some anchors and spikes laying beside the tracks. Are we required to pick up any material left over from previous jobs or just what we take out?

A vendor will not be permitted to unencrypt files, remove password protections, or resubmit documents after bid opening to make a file viewable if those documents are required with the bid. A Vendor may be required to provide document passwords or remove access restrictions to allow the Purchasing Division to print or electronically save documents provided that those documents are viewable by the Purchasing Division prior to obtaining the password or removing the access restriction.

Submission of any bid, proposal, or other document to the Purchasing Division constitutes your explicit consent to the subsequent public disclosure of the bid, proposal, or document. The Purchasing Division will disclose any document labeled “confidential,” “proprietary,” “trade secret,” “private,” or labeled with any other claim against public disclosure of the documents, to include any “trade secrets” as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

22. INTERESTED PARTY DISCLOSURE: West Virginia Code § 6D-1-2 requires that the vendor submit to the Purchasing Division a disclosure of interested parties to the contract for all contracts with an actual or estimated value of at least \$1 Million. That disclosure must occur on the form prescribed and approved by the WV Ethics Commission prior to contract award. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. 42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

EXHIBIT B – PROJECT PLANS

1. GENERAL REQUIREMENTS:

1.1 Mandatory Contract Item Requirements: Contract Item must meet or exceed the mandatory requirements listed below. All materials and workmanship shall meet the AREMA Manual for Railway Engineering's standards.

1.1.1 Replace 6,000 crossties between MP 32 and MP 42 on the SBVR. All ten miles where ties are replaced will be surfaced according to tamping and final surfacing instructions below. During installation, ties will be installed firmly against the rail without humping. As long as they are firm, no tamping will be required during change out. Tamping will then be completed as production tamping once the change out is complete.

1.1.1.1 Ties will be handled in accordance with specifications in the AREMA Manual for Railway Engineering to avoid damage. The vendor will replace only those ties marked for replacement by the SBVR. The vendor will remove and dispose of old ties. Ties must be stacked clear of tracks and must not be stacked on property other than SBVR right-of-way.

1.1.2 Spiking of Ties – Gaging Additional Ties

1.1.2.1 New ties will be spiked to a gage of 56 ½ inches, plus or minus ¼ inch. There will be 900 feet of additional gaging.

1.1.2.2 All ties replaced or respiked will have new spikes. Old spikes will not be reused. Spikes shall be started and driven vertically and square with the rail. They shall have full bearing against the side of the rail base. Spikes shall not be overdriven. Ties on tangents will get four spikes per tie and ties in curves will get six (6) spikes per tie or eight (8) spikes per tie depending on the curvatures as illustrated in Attachment A. The correct spiking pattern will be used on all new ties and any adjacent ties that are respiked to correct gage. Track maps showing curvature are shown in Attachment B.

1.1.3 Rail Anchors

1.1.3.1 All rail anchors will be reapplied in the existing location and properly fitted against ties.

REQUEST FOR QUOTATION

- 1.1.4.1 Vendor will use production tamper with computer alinement control to restore proper surface to the entire track and establish best fit for curves including appropriate spirals. Surfacing will taper into bridges. Between MP 32-42 there are six (6) bridges, between MP 15.5-16.8 there are no bridges and between MP 22-31.5 there are 3 bridges.**
- 1.1.4.2 Between MP 32-42 there are twenty-one (21) crossings that will be tamped through and fourteen (14) crossings that will be tamped into and out of. Between MP 15.5 – 16.8 there are one (1) crossing that will be tamped through and zero (0) crossings that will be tamped into and out of. Between MP 22-31.5 there are two (2) crossings that will be tamped through and zero (0) crossings that will be tamped into and out of. Where crossings are tamped through, SBVR will be responsible to remove crossing materials and reinstall crossings.--**
- 1.1.4.3 When surfacing a turnout, tamping will continue for a distance of at least 100 feet onto the side track to ensure uniform surface through the turnout. There are 0 turnouts between MP 15.5-16.8, 1 #10 turnout between MP 22-31.5 and six (6) #10 and one (1) # 8 turnouts between MP 32-42.**
- 1.1.4.4 The condition of the track needs to be restored to vertical evenness or smoothness with a minimum of two insertions for each tie.**
- 1.1.4.5 SBVR will provide information on superelevation of curves.**
- 1.1.4.6 A ballast regulator will follow the tamper to regulate ballast and reshape shoulders. SBVR will provide and place any additional ballast where it may be needed after surfacing. Production tamping includes regulating and brooming.**
- 1.1.4.7 Before the tamping project begins, Vendor must coordinate the tamping schedule with the SBVR shop to discuss how signal wires will be marked in the field. Signal wires are marked in the field to minimize damage to wires. Repairs to any damaged wires are the responsibility of the contractor and must be reported and repaired immediately.**

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
