This written document sets forth completely the entirety of all provisions, applications, conditions, implementations, results, and consequences of every aspect of the Express Warranty, Limitations of Warranty, Disclaimers of Warranty, Invalidity of Warranty, Exclusions of Warranty, and Extensions of Warranty ("Warranties") that Octane Forklifts (as "Seller") offers to those who/which purchase, from Octane Forklifts ("Buyer(s)"), any and all forklift machines; any and all equipment and devices that separately or in the aggregate perform or accommodate forklift operations or functions; and any and all parts and components of, for, or associated with forklift machines sold by Octane Forklifts ("Forklift(s)").

This written document wholly merges and fully integrates any and all other communications, expressions, implications, or representations of any kind (verbal, written, conduct-established, etc.) that could in any way relate to Octane Forklifts' Warranties. Any and all representations of any kind that are in any way inconsistent with Octane Forklift's written Warranties, **as set forth in this written document**, are null, void, and unenforceable; and such inconsistent representations shall not constitute, qualify, or in any way affect the written Warranties that Octane Forklifts provides to Buyers who purchase Forklifts.

Master Disclosure of the Exclusive Expressions, Limitations, and Disclaimers of the written Warranties:

Octane Forklifts' written Warranties, as set forth in this written document, are Warranties that Octane Forklifts provides **in lieu of – and in complete and final replacement and substitution of - all other express or implied warranties, including any and all aspects of any implied warranties of merchantability, fitness for a particular purpose, title or infringement, or any other obligation** on the part of Octane Forklifts. Examples or demonstrator-models of Forklifts, that were or are exhibited to Buyers, are for general informational purposes **only** and do **NOT** create or constitute a warranty by sample/model, or otherwise have any legal effect.

The Buyer's sole and exclusive remedy and Octane's sole and exclusive liability, with respect to **ANY** breach of the written Warranties, as set forth in this written document, shall be, at Octane's sole and exclusive option, the **repair, refurbishment, or replacement** of the defective or nonconforming Forklift (or part or component), **as set forth below in writing**.

Please Note Important Condition: At Octane Forklifts sole and exclusive discretion, Octane Forklifts has the right to require the Buyer to return to Octane Forklifts, for inspection and evaluation, any allegedly defective or malfunctioning components or parts, as an express condition on which warranty coverage will be strictly contingent.

3 Components and Parts Warranty-Return Procedure: Do not return any parts unless requested. Return parts must be cleaned and fully assembled. Parts must be shipped on a prepaid basis.

Octane Forklifts will **NOT** accept a claim-application for warranty coverage, **if** Octane Forklifts requests the return of the subject components or parts, **but** Octane Forklifts does **NOT** receive the components/parts within **30 days** of the date on which Octane Forklifts emailed the return-request.

4 Claim-Application Requirements: All claim-applications for warranty coverage must be completed by the Buyer and received by Octane Forklifts, via email at: **warranty@octaneforklifts.com**

Email Text Requirements: In the emailed claim-application, the claimant must reference and identify, clearly and completely, the component(s) or part(s) for which the claimant is requesting coverage under the written Warranties.

Email Photo Requirements: The claimant must attach to the emailed claim-application one or more photos that disclose, clearly and legibly, the **nameplate** of the allegedly defective Forklift. The attached photos must depict, clearly and obviously, the alleged **defect or malfunction** for which the claimant is requesting coverage under the written Warranties - and must do so in the context of the Forklift's visibly-revealed **condition and operational-environment**. The photos must demonstrate, clearly and precisely, the orientation, position, and location of the component(s) or part(s) for which the claimant is requesting warranty coverage. The photos must reveal, clearly and legibly, the **Serial Number**, along with the **Hour Meter with Hour Reading**, for the component(s) or part(s) for which the claimant is requesting coverage under the written Warranties. A claimant also must attach to the emailed claim-application an accurate and exact copy of **All Service, Maintenance, and Repair Records** for the Forklift (the machine, as a whole) and for all components and parts that were in any way serviced, maintained, and/or repaired, separate and apart from the Forklift machine.

5 Warranty Claim Submission: A fully completed, photo-supported claim-application must be received, as an email that is ISP/server-designated as "received" by Octane Forklifts, at the above-provided email address and account, within **30 days** of the date on which an applicable repair was completed. Octane Forklifts will deem incomplete, non-timely, and ineligible for coverage under the written Warranties, any and all claim-applications that Octane Forklifts receives on a date that is more than 30 days after the date on which the subject repair was completed.

There are no exceptions. Claim-applications that Octane Forklifts returns, "for correction and resubmission", must be corrected and received by Octane Forklifts, as above-described, within **30 days** after Octane Forklift emails to the claimant a returned, correction/resubmission email-reply. Octane Forklift will **NOT** accept claim-applications that Octane Forklifts does **NOT** receive within 30 days after Octane Forklifts emails a returned, correction/resubmission email-reply.

Octane Forklifts will provide to a claimant **ONLY two opportunities** to submit to Octane Forklifts a claim-application: (1) an original claim-application and (2) a correction/resubmission claim-application, which Octane Forklifts must receive strictly in compliance with the above-described procedure, requirements, and timeframe. **After** Octane Forklifts provides the above-described, **second** opportunity - the correction/resubmission opportunity, Octane Forklifts will **NOT** accept any claim-application that is not resubmitted in **strict compliance** with the above-described procedure, requirements, and timeframe.

6 Warranty for Approved Attachments: Any warranty for attachments of which Octane Forklifts approves, **exclusively** consists of **ONLY** those warranties, **if any**, that the manufacturers (of the approved attachments) specifically and expressly provides. Claimants must submit to those manufacturers any claims for warranty coverage on the approved attachments.

7 Buyers' Inspection/Reporting Obligations: Buyers are obligated to engage in all commercially reasonable **due diligence** in discerning and evaluating the condition, integrity, and fitness of the Forklifts; Buyers are required to do so, immediately, by performing a comprehensive and thorough **Reception-Inspection**, upon the arrival of a Forklift at a Buyer's delivery-reception location. Buyers must present to, **and resolve with**, the delivering trucking/cartage company, **exclusively**, all alleged damage to the Forklift. Buyers must disclose clearly in an **Inspection-Report** any components or parts that the Inspection reveals to be missing or incomplete. Octane Forklifts must receive the completed Inspection-Reports within **three days** of the date on which the Buyer receives delivery of the Forklift. Octane Forklifts will **NOT** accept for review and consideration any Inspection-Reports that are received by Octane Forklifts **later** than three days after the Buyer's Delivery-Reception date.

Please Note Important Warranty Coverage Requirement: Octane Forklifts' **timely and proper receipt of the Inspection-Report**, in **strict compliance** with the specific and expressly disclosed (above) requirements, procedure, and timeframe, is an **express condition** on which Octane Forklifts' obligation to provide any coverage, under the written Warranties, is **strictly contingent**.

The references, descriptions, definitions, and characterizations set forth in this written document - with respect to any and all machines, components, parts, coverage, requirements, conditions, availability, limitations, and other subjects and qualifiers - constitute information that is reasonably correct, realistically accurate, and practically applicable, but **only** to the extent, under the limitations, and within the qualifications and context of **what is specifically and expressly disclosed in this written document**.

The Buyers are obligated to act responsibly, in good faith, and in a commercially reasonable and diligent manner in purchasing, inspecting, possessing, maintaining, repairing, and implementing the Forklifts, in all respects, within and outside of the coverage provided by the written Warranties. Accordingly, the Buyers are obligated to act prudently, carefully, competently, and actively to prevent the submission of groundless and improper warranty claims that, too often, result in needless disputes and unnecessary litigation. In that respect, the Buyers have an affirmative duty to comply with the provisions and requirements of the written Warranties, all contract provisions between Octane Forklifts and the Buyers, **AND** all acknowledged industry standards, established best-practices, and all duties at law.

REQUESTS FOR REIMBURSEMENT THAT INCLUDE STAND-ALONE LEAK FAILURES, MUST INCLUDE PRE-REPAIR PHOTOS

Internal oil seals/gaskets leaking which cause either the need for regular topping up of lubricant between regular service intervals, or a sudden escape of lubricant, may be covered. Internal oil seals/gaskets are oil seals/gaskets which are internal to the machine and do not have a face to the outside air.

External oil seals/gaskets that has oil escaping from an eligible reservoir, sump, housing or gearbox, where the correct level cannot be maintained to ensure proper operation, has developed a drip/run that reaches the ground, will damage surrounding components, or puddle in/on the machine, may be covered so long as the leak is an internal seal/gasket failure and cannot be attributed to wear or contamination. External oil seals/gaskets have an external face and are susceptible to wear and contamination damage. External oil seals/gaskets leaking but not requiring regular topping up of lubricant between regular service intervals, and which are found at service inspection, and have not been previously reported as a fault by the client, are not covered.

This literature is descriptive only. The precise protection afforded is subject to the terms, conditions and exclusions of the contract as issued.

Any extension of this Contract to the aforementioned Other Government Entities must be on the same prices, terms, and conditions as those offered and agreed to in this Contract, provided that such extension is in compliance with the applicable laws, rules, and ordinances of the Other Government Entity. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.

The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision. 42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.
