Re: A/E SERVICES-WATTERS SMITH STATE PARK NEW FACILITIES PROJECT

Dear Mr. Nisbet:

Ascent Consulting & Engineering (ACE) is pleased to submit this Expression of Interest for Consulting Services in regards to the Watters Smith State Park New Facilities Project. ACE has the expertise, staffing and knowledge, to provide professional services for your planned facilities projects which will keep you on time and on budget.

Our company was founded from a desire to work in the State of West Virginia in order to provide a level of service and accessibility to clients that is unmatched. We work with our clients to understand their broadened aspirations around each project so that we can be an effective consultant. Too often, engineering services are treated as tasks with little thought as to how the process affects the client or the public. At ACE, we strive to appreciate and plan for all facets of the project such as planning design, operations during construction and product evaluation.

The ACE team understands that these improvement projects will benefit the community and people throughout the State of West Virginia. We are a young, growing local firm that is eager to serve our state. ACE is pleased to submit our credentials as an engineering and consulting firm for your consideration.

The Selection of ACE will be beneficial to upcoming project for multiple reasons.

- Ability to mobilize quickly following acceptance
- Employees located throughout WV, both office and remote based
- Experience, quality of work, knowledge and personal touch

This is an exciting opportunity for ACE and we very much would like to be a part of the continued success in the

state. Sincerely,
Ascent Consulting & Engineering, LLC

Michael R. Nestor

WV PURCHASING
DIVISION

FIRM IDENTIFICATION AND BACKGROUND

FIRM PROFILE

Founded in January 2018, Ascent Consulting and Engineering is a young company with big experience. Ascent employs a diverse staff, bringing expertise in nearly every facet of Civil and Environmental Engineering. We are committed to providing quality services, building long lasting relationships, and supporting/encouraging our employees.

LAND DEVELOPMENT

Ascent knows development. Our knowledge in Site Development ranges from on thousand acre mixed use developments and business parks to small commercial site plans and residential housing communities. We pride ourselves in understanding the goals of the development and our designs are practical, complete, well-coordinated, and on budget.

UTILITIES

Ascent has a wide range of experience in utility designs and upgrades. From service line extensions to major system expansions and replacement projects, ACE has the technical knowledge and personnel to meet your needs.

STORMWATER MANAGEMENT & DRAINAGE

Every project is different. Ascent evaluates drainage patterns and works with clientele to determine which best management practice are best suited for each project. From traditional basin design to underground systems and bio-retention facilities, Ascent has the knowledge to work with any site, providing a responsible design that compliments the landscape and fits the budget.

ENVIRONMENTAL SERVICES

With over twelve years of experience, our environmental capabilities cover a wide range of services including Phase I and Phase II Environmental Site Assessments, aquatic resource surveys/permitting, endangered species consultations, asbestos inspections, operating permit compliance, and general environmental consulting.

INSPECTION SERVICE

We have built a senior team of construction inspectors that have knowledge in utilities, earthwork, slip repairs, retaining walls, pipeline, etc. No matter what your project is we will always strive to give you the best service, with the highest quality at all times.

PROFFESIONAL ENGINEERING CONSULTANT PROJECT HISTORY

ASCENT CONSULTING AND ENGINEERING (BRIDGEPORT, WV) FEBRUARY 2018 – PRESENT

- **Project Name:** Fort Martin Road Upgrades
Project Owner / Client: Longview Power
Project Owner Contact: Rick Usery (304)-296-4501 ext. 205
Project Description: Designed and bid various repairs to existing road under WVDOH maintenance programs. Work involved ditching, culvert replacement, milling and asphalt overlay.
- **Project Name:** The Vale Subdivision
Project Owner / Client: Trailhead Investments
Project Owner Contact: Beau Henderson (304)- 641-0298
Project Description: Performed design of 72 subdivision including +/- 3,500 ft. of roadway, utility, extensions, drainage and stormwater management. Project included a WVDOH entrance permit. Road will be taken over by the city of Bridgeport upon completion.
- **Project Name:** Lowdens Hill Slip Repair
Project Owner / Client: City of Clarksburg
Project Owner / Contact information: Anthony Bellotte (304) 624-1681
Project Description: Completed design and bid for slip repair on South 2nd Street in Clarksburg, WV. The project required alterations to an existing H-pile wall, installation of underdrains, and reconstruction of the roadway.
- **Project Name:** Archwood Culvert Replacement
Project Owner / Client: City of Bridgeport
Project Owner / Contact: Beth Fox, PE (304) 842-8204
Project Description: Design and bid plans for a 36" culvert replacement and swale reconstruction. Conveyance needed upgraded since property owner was getting flooded. Ascent completed a water shed analysis and designed a stormwater with flex-a-mat stabilization to convey runoff.
- **Project Name:** I-79 Exit 99 Interchange.
Project Owner / Client: WVDOH
Project Owner Contact: WVDOH District 7
Project Description: Interchange Construction quality control testing and inspection on aggregates, concrete, soils and asphalt.

- **Project Name:** RT. 23 Resurfacing
Project Owner / Client: WVDOH
Project Owner Contact: WVDOH District 4
Project Description: Resurfacing of existing roadway. ASCENT's role was Quality Control testing of HMA and Aggregates.

PROJECT TEAM

MICHAEL R. NESTOR, PE

SUMMARY

Mr. Nestor is a Civil Engineer registered professionally in WV and serves as the Managing Member of Ascent Consulting and Engineering, LLC. He has over 15 years of consulting experience focusing on land development projects and stormwater management in WV, MD, and PA. His expertise allows him to guide projects from concept to completion by understanding the goals/vision of the project, effectively communicating with the project team, and paying careful attention to the details. Mr. Nestor will be responsible for client communication as well as QA/QC on this project.

HIGHLIGHTED PROJECTS

ASCENT CONSULTING AND ENGINEERING (BRIDGEPORT, WV) – JANUARY 2018 - PRESENT

- **VALLEY HILLS PLAZA**

Site plan development for the addition of a 12,000 sf retail space in the parking lot of an existing retail development. The project consisted of layout to allow for circulation within the existing development, parking, and new drive though, utility connections, stormwater conveyance, and re-grading of the existing parking lot.

- **THE VALE**

Layout and engineering design for an upscale housing development in Bridgeport, WV. The community utilizes low impact development practices to provide 22 lots ranging in size from 1 to 7 acres. The project required substantial utility extensions and creativity in stormwater management controls.

THE THRASHER GROUP (BRIDGEPORT, WV) – MARCH 2005 – JANUARY 2018

Throughout Mr. Nestor's employment with The Thrasher Group, he served in a variety of roles ranging from Staff Engineer up to Site Group Division Manager. This allowed him to work on teams for a wide variety of projects and in a range of capacities.

- **BUSINESS AND INDUSTRIAL PARKS**

Designed and permitted the sites for multiple commercial properties including Sheetz, Huntington Bank, Subway, Ihop, Comfort Suites, etc.

Managed team of professionals through the design and construction of multiple park expansions involving major earthwork operations, road and utility extensions, permitting operations and large site developments such as the Dominion Energy Headquarters Facility.

- **ROADS/SIDEWALKS**

Designed and managed road extension projects such as the Phase II White Oaks Boulevard extension and the "Double Camp" and "Tunnel Hill" access road improvements for Antero Resources.

- **STORMWATER MANAGEMENT**

Developed stormwater management programs for compliance to the State of WV's MS4 requirements in the communities of Clarksburg, Westover, Oak Hill, Fayetteville, and Sophia.

REGISTRATIONS

- Professional Engineer – West Virginia PE [REDACTED]

ASSOCIATIONS

- American Society of Civil Engineers

EDUCATION

- Fairmont State College, Fairmont, WV – Bachelor of Science in Engineering Technology – 2003

ZACHARY L. ASSARO

SUMMARY

Mr. Assaro is an Engineering Consultant/Manager and Member of Ascent Consulting and Engineering, LLC. He has over 6 years of consulting experience focusing on land development projects and stormwater management in WV, MD, and PA. His expertise allows him to guide projects from concept to completion by understanding the goals/vision of the project, effectively communicating with the project team, and paying careful attention to the details. Mr. Assaro will be responsible for managing support staff and project details throughout this project.

HIGHLIGHTED PROJECTS

ASCENT CONSULTING AND ENGINEERING (BRIDGEPORT, WV) – MAY 2018 - PRESENT

- **JENKINS SUBARU – ADDITION**
Site plan development for the addition of a 10,000 sf office space in the parking lot of an existing dealership. The project consisted of layout to allow for circulation within the existing dealership, parking, utility connections, stormwater conveyance, and re-grading of the existing gravel parking lot.
- **THE VALE**
Layout and engineering design for an upscale housing development in Bridgeport, WV. The community utilizes low impact development practices to provide 22 lots ranging in size from 1 to 7 acres. The project required substantial utility extensions and creativity in stormwater management controls.

THE THRASHER GROUP (BRIDGEPORT, WV) – MAY 2012 – MAY 2018

Throughout Mr. Assaro's employment with The Thrasher Group, he served in a variety of roles ranging from Staff Engineer up to Project Manager. This allowed him to work on teams for a wide variety of projects and in a range of capacities.

- **BUSINESS AND COMMERCIAL/RETAIL**
Designed and permitted sites for multiple commercial properties including Hawthorn Suites, TGI Friday's, Generic Retail Centers, Shop N' Save, Dollar General, Kia, Audi, Subaru, and Ford Dealerships. Also served on Project Team as lead engineer for the Boy Scouts of America Welcome Center located on US Rt. 19
- **INDUSTRIAL PARK**
Designed and managed a block factory known as America's Best Block. Throughout this experience handled foreign affairs and foreign design coordination.
- **STORMWATER MANAGEMENT**
Designed and managed multiple stormwater upgrades for municipalities such as the City of Bridgeport and Fayetteville.

EDUCATION

- Fairmont State University, Fairmont, WV – Bachelor of Science in Engineering Technology – 2012

ERIC SHORT, PROJECT MANAGER

SUMMARY

Eric Short is a site/civil Project Engineer in the Bridgeport, West Virginia. In his 15 years, he has worked on a variety of projects which include commercial, residential, and industrial development, as well as downtown streetscapes and oil and gas sites. His tasks involve the design and development of Demolition, Erosion and Sediment Control, Site, Grading, and Utility Plans along with creating details for site specific elements. Mr. Short is also an experienced highway designer with a background in the preparation of roadway construction, right-of-way, sign, and pavement marking plans. Other responsibilities include traffic studies, storm water and sanitary sewer design, and cost estimation.

Eric Short's expertise lies in commercial, residential, oil and gas site development projects. Mr. Short is responsible for the design and permitting for Natural Gas Development facilities such as: Well pads, compression and M & R facilities located in the Marcellus Shale region.

Prepare construction and permitting documents; develop grading plans from preliminary to detailed final design, cost estimates and bid specifications; and provide construction oversight, helping to insure a safe, cost-effective and timely completion of all projects to meet or exceed client expectations.

Maintain excellent relationships and stay in constant contact with all clients.

EXPERIENCE

- Fairmont State University: Assisted in design of Football Stadium sub-surface and drainage system for preparation new turf placement, practice field improvements, and all associated access roads, parking areas, and utility system upgrades.
- City of Pleasant Valley Sidewalks: Working with the local regional planning and development council, successfully designed and constructed approximately 3500 feet of sidewalk using transportation enhancement funds and safe routes to school funds in three phases. Designing a phase 4 portion of sidewalk for the city now. Typically these types of projects stay within the WVDOH right of way and therefore have to reviewed and approved by them.
- City of Ripley: Main Street Revitalization: This project was one of kind for us in that we took all of the existing overhead utility lines along Main Street and putting them underground in conduit. The project involved direct coordination with the utility companies to ensure they had the necessary number, size, and location of conduit. Beyond the utilities, the Main Street was designed with new sidewalks that incorporated brick pavers, hand railing, decorative street lights, and handicap ramps.
- City of Ripley Safe Routes to School Sidewalks: Designed 1000 feet of sidewalk along with drainage improvements. Worked with the city as they used their own work force to construct the project.
- Wirt County Commission Sidewalks: Worked for both the Wirt Co. Commission and the Town of Elizabeth for the design of approximately 1000 square yards of sidewalk. The project consists of replacing sidewalk around the courthouse square and along the main street in the town.

- **Town of Elizabeth Sidewalks:** Designed phase 2 of the sidewalk improvement plan funded by the transportation enhancement funds. Currently designing adjacent sidewalks for them with safe routes to school funds.
- **Town of Nutter Fort Sidewalks:** Designed approximately 800 feet of sidewalks and drainage. Both transportation enhancement funds and safe routes to school funds were utilized.
- **City of Grafton, Main Street Revitalization:** The project consisted of designing sidewalks that incorporated decorative street lights, benches, handicap ramps, and landscape islands.
- **Town of Farmington, Pedestrian Bridge and Step Replacement:** Worked with the town using transportation enhancement funds to design plans to replace an existing road bridge with a 100 foot span prefabricated pedestrian bridge. The project will also involve replacing several flights of steps that connect from one street to the next.
- **Harrison County Commission, Handicap Ramp and Sidewalk:** The goal of the design was to improve the handicap entrance to the county courthouse by making a wider ramp and gentler slope. The sidewalk that makes up Court Street, adjacent to the courthouse was designed to remove all existing uneven pavers, slate and concrete and replace with a concrete sidewalk with a brick paver border.
- **City of Salem Slip Repairs:** The goal of the project was to repair two slip areas that occurred below a city street and above some residential structures. The problem areas were investigated by a geotechnical engineer. Based on site conditions and funds, the most efficient method to correct the problems were to use gabion walls.
- **WVDOH Corridor "H":** Assisted in design of Roadways, Bridges, and erosion/sediment control.
- **Raleigh County Memorial Airport & Industrial Park:** Design of a 1,100 linear foot road extension, Drainage and Erosion and Sediment Control Plan.
- **Mike Mason Chiropractic Office Building:** Complete Site Design Package, including building and parking layout, utility extensions, and underground storm water management facility in accordance with the City of Bridgeport regulations.
- **Cambridge Place Business Park:** Complete Site Design Package, multiple tenant building and parking layout, utility extensions, and storm water system in accordance with the City of Bridgeport regulations.
- **Walgreens Retail Store (Grafton, WV):** Complete Site Design Package, including building and parking layout, utility extensions, and underground storm water management facility in accordance with the City of Grafton regulations.
- **Walgreens Retail Store (Bridgeport, WV):** Complete Site Design Package, including building and parking layout, utility extensions, 210' foot long poured concrete retaining wall and storm water management facility in accordance with the City of Bridgeport regulations.
- **Genesis Youth Crisis Center:** Complete Site Design Package, including approximately 35,000 cubic yards of earthwork, building and parking layout, utility extensions, and storm water management facilities.

Devon R. Shrewsbury, Project Engineer

SUMMARY

Devon is a Project Engineer, her experience is in engineering plan production, stormwater management design, environmental protection permitting, technical reports, and more. Her ability to prepare and design multiple aspects of a project as well as her great communication with our clients and team allows Devon to meet the needs of everyone involved. Mrs. Shrewsbury was hired as a Project Engineer at Ascent Consulting and Engineering after 4 years of employment at The Thrasher Group. While there she was given responsibilities that involved leading a design team on large scale and complex projects. Devon has continued to help develop small and large projects at Ascent as well as helping in client communications and growing business.

EXPERIENCE

- Daily utilization of knowledge of civil engineering design practices and the project development process.
- Accurate analysis and organization of project data and calculations.
- Understanding and utilizing AutoCad standard procedures in order to complete designs.
- Preparing and reviewing design computations and estimations for multiple aspects of project.
- Ability to take project from start to finish.
- Technical Report Preparation and Submission
- West Virginia Department of Environmental Protection Permitting
- Stormwater Management Design
- Advance Abilities in AutoCAD, Hydraflow, Express, and Storm Sewers.

EDUCATION

Bluefield State College B.S.E.T in Civil Engineering August 2009 – December 2010

West Virginia University Bachelor of Science in Civil Engineering January 2011 – May 2014

ANDY KINCELL, FIELD SERVICE MANAGER

SUMMARY

Mr. Kincell also has the responsibility of testing and inspection of materials utilized at the construction site, as well as managing his employees and the laboratories he oversees. Andy has independently conducted a number of building inspections and ensured that the proper maintenance actions were taken. Mr. Kincell has many certifications such as ACI Concrete Field Testing Technician Grade 1, WVDOH Aggregate Technician, WVDOH Asphalt Technician, WVDOH Compaction Technician, WVDOH Asphalt Inspector, WVDOH Concrete Inspector, WVDOH Concrete Technician as well as PTI Certified Level 1 Unbounded PT and more. Andy is always able to meet the needs of our clients and his team with his experience and great communication skills.

RESPONSIBILITIES

Prepare budgets and track to make sure within compliance. Monitor Testing of various construction materials in the lab, such as concrete, aggregate, and soil. Hiring and training of new employees. Scheduling and coordination of employees, testing and maintenance on multiple projects at a time. Liaison between contractors, clients, and government agencies.

PAST EXPERIENCE

Construction Services/Business Development

The Thrasher Group Inc. Bridgeport, WV

Supervision of 60+ employees. Management of three separate laboratories; one in Clarksburg, WV, one in Beckley, WV and the third in Canton, OH. Hiring and training of new employees. Scheduling and coordination of employees, testing and maintenance on multiple projects at a time. Monitor Testing of various construction materials in the lab, such as concrete, aggregate, and soil. Prepare budgets and track to make sure within compliance. Compilation of results of tests into the proper reports which is then submitted to the contractor and West Virginia Department of Transportation. Problem solving. Maintenance and calibration of all testing equipment. Ordering supplies and additional testing equipment. Liaison between contractors, clients, and government agencies. Hiring and training of new employees.

Research Assistant

West Virginia University Morgantown, WV

Research Assistant for Dr. Zaniewski, West Virginia University (head of asphalt department), and the West Virginia Department of Transportation. Assisted with a variety of research projects. Responsible for the supervision and training of graduate students on the use of research equipment

and assisted them with research projects. Maintenance of testing equipment, which included running calibrations on the equipment, documenting any variances, reading schematics to diagnose and repair malfunctioning equipment, and correcting any problems found during the maintenance process. Ensured the adequate amount of testing equipment and supplies were available and ordered any additional materials required. Attended conferences to learn about new products and testing procedures.

Environmental Technician

Southern Ohio Coal (Martinka) Fairmont, WV

Duties included, but were not limited to, reading schematics for the installation of a variety of equipment, working with outside vendors on repairs and installation of equipment, along with consulting vendors on new types of available equipment. Responsible for monitoring streams and water quality on mine sites and ensured appropriate actions were taken to preserve the quality of water entering public rivers, streams, and ponds. Treated potable and waste water to ensure public safety. Independently conducted a number of building inspections and ensured that the proper maintenance actions were taken.

Construction Inspector

West Virginia Department of Transportation Clarksburg, WV

Testing and inspection of materials utilized at the construction site. Review of a variety of A/E drawings and blueprints to ensure the appropriate measures were taken in regards to the structural design. Assisted in the continual evaluation of the construction timeline to ensure that project goals were met accordingly and made appropriate adjustments to the schedule when necessary. Analyzed and compiled a variety of cost invoices to ensure the appropriate funds were dispersed to the contractor based on fixed price, lump sum, or time and materials.

EDUCATION AND CERTIFICATIONS

- A.S. Civil Technology, 1987 – Fairmont State University**
- Fairmont State University Level V Certification – Transportation Engineering**
- Technologist – Construction Specialization**
- ACI Concrete Field Testing Technician Grade 1 [REDACTED]**
- West Virginia Journeyman Electrical Card**

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
