Re: Camden (Wilson) Landslide

Ascent Consulting & Engineering (ACE) is pleased to submit this Statement of Qualifications for Engineering Services regarding The Camden (Wilson) Landslide Project. ACE is a "home town" firm comprised of "home town" individuals that simply strive to complete good work and help to improve our beloved state. Our firm was started out of desire to get back to our roots.

A son of a coal miner, I was told at a young age that I was not allowed to follow in my father's footsteps. However, I took an interest in construction, machinery, energy, and infrastructure. After completing a degree in civil engineering, I was fortunate enough to work for a growing company that allowed me to experience a variety of civil engineering projects. I worked my way up from a staff engineer to a major division lead, focusing on development projects, earthwork, stormwater/drainage, transportation, and Abandoned Mine Lands projects, among others. Through that career growth, I began to spend less and less time dealing with aspects of the designs, working with clients, and teaching the younger generation of engineers. The desire to do those things led me to start a new engineering firm, Ascent Consulting and Engineering....

We are now completing our second year in business and have been extremely lucky to have worked on a large variety of projects. The components of the designs we complete every day are very similar with those that are required for projects such as this and our staff has worked on numerous AML projects in their past. However, as a new company, we have not yet had the honor of working with your office on an Abandoned Mines related project. I would greatly appreciate the opportunity to do so and I believe very strongly that we will do an excellent job.

At ACE, we use a common sense approach to complete projects and provide a level of service and accessibility that is unmatched. Too often, engineering and consulting services are treated as tasks with little thought as to how the process affects the client or the public. At Ascent, we strive to appreciate and plan for all facets of the project such as operation during construction in addition to the final product.

The ACE team understands that these projects will benefit The State of West Virginia and its residents. The Selection of ACE will be beneficial for multiple reasons:

- Your project is IMORTANT to us!
- Experience, quality of work, knowledge and personal touch
- Priority and communication

This is an exciting opportunity for ACE and we greatly appreciate the opportunity to be considered for this work. Sincerely,

Ascent Consulting & Engineering, LLC

Michael R. Nestor

Michael R. Nestor, PE
Managing Member

QUALIFICATIONS

Founded in January 2018, Ascent Consulting and Engineering is a young and growing firm located in Clarksburg, West Virginia. Ascent has a total of 25 employees with knowledge and experience in Abandoned Mine Lands, Utilities, Land Development, Stormwater Management, Drainage, Environmental Services, Inspection, Materials Testing, and more. We have built this team of professionals so we can provide a full range of services to our clients. This allows us to be “hands on” and quick to respond to our clients’ needs.

We are committed to providing quality services, building long lasting relationships, and supporting/encouraging our employees. We aren’t the typical engineering firm.

KEY PERSONNEL

ACE employs a broad range of professionals to meet the needs of our clients. The main Ascent personnel involved with this project include:

Michael R. Nestor, PE-Civil Engineer QA/QC

Mr. Nestor is a Civil Engineer registered professionally in WV and serves as the Managing Member of Ascent Consulting and Engineering, LLC. He has over 15 years of consulting experience focusing on land development projects and utilities in WV, MD, and PA. His expertise allows him to guide projects from concept to completion by understanding the goals/vision of the project, effectively communicating with the project team, and paying careful attention to the details. Mr. Nestor will be responsible for client communication as well as QA/QC on this project.

Eric Short, Senior Project Engineer

Eric Short is a site/civil Project Engineer. In his 16 years, he has worked on a variety of projects which include commercial, residential, and industrial development, as well as downtown streetscapes and oil and gas sites and Abandoned Mine Lands remediation projects. His tasks involve the design and development of Demolition, Erosion and Sediment Control, Site, Grading, and Utility Plans along with creating details for site specific elements. Mr. Short is also an experienced highway designer with a background in the preparation of roadway construction, right-of-way, sign, and pavement marking plans. Other responsibilities include traffic studies, storm water and water/sanitary sewer design, and cost estimation.

Jeff Knepper, CPG, LRS-Sr. Environmental Manager

Jeff is a former Environmental Resource Program Manager for the West Virginia Department of Environmental Protection (WVDEP). He worked for the Division of Water and Waste Management reviewing and approving groundwater protection and remediation plans. He worked closely with the WV Voluntary

Remediation Program (VRP) and has spent significant time negotiating as a regulator and consultant for remedial activities for the WVDEP and the EPA.

As an LRS Jeff understands the importance of organization and technical prowess while completing documentation and regulatory requirements of the VRP and EPA programs. Mr. Knepper is an experienced AST inspector with over 1,000 completed inspections in various states including: WV, PA, OH, KY, WI, MI, VA and NY.

12. A. Is your firm's personnel experienced in Abandoned Mine Lands Remediation/Mine Reclamation Engineering?

YES Description and Number of Projects: Performed design for various projects dealing with mine seepage and ground instability. Coordinated drilling/monitoring activities, designed wet mine seals, drainage conveyances, E&S measures, and slip repairs, etc. Approximately 5 or 6 projects completed. Specifically, Mr. Nestor was heavily involved in the Anglins Run and Roaring Creek projects as well as several others.

NO

B. Is your firm experienced in Soil Analysis?

YES Description and Number of Projects: Ascent staff is experienced with identifying hydric soils applicable to wetlands and subsequent permitting needs. Ascent is also experienced with reading boring logs and coordinating with Geotechnical Engineers in order to apply information to practical designs. Ascent personnel has provided such services on dozens of projects.

NO

C. Is your firm experienced in hydrology and hydraulics?

YES Description and Number of Projects: Ascent personnel performs pre and post watershed analyses on a variety of projects. We have completed drainage studies for municipalities, private development projects, and AML projects. We have also performed stream analyses for bridge replacement projects and development in flood prone areas. This type of work is performed in nearly every project Ascent works on and has been completed in hundreds of projects.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?

YES Description and Number of Projects:

NO Ascent works with subconsultants to identify the most cost-effective way of producing design worthy mapping. We have purchased mapping that was already developed, produced mapping with drone flights, and utilized Brandon Rumbaugh Solutions in order to develop survey mapping from "boots on the ground" survey.

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in evaluation of aquifer degradation as a result of mining.)

YES Description and Number of Projects: Ascent is experienced with the design and layout of potable water systems for commercial and residential development projects. We have completed dozens of mainline extensions and/or replacement projects, however we do not have experience in aquifer degradation.

NO

F. Is your firm experienced in Acid Mine Drainage
Evaluation and Abatement Design?

YES Description and Number of Projects: Ascent Personnel has developed several projects dealing with
evaluation of Acid Mine Drainage and design of conveyance/treatment systems. Approximately 5 or 6 projects completed

NO

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES RESPONSIBLE FOR AML PROJECT DESIGN (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)

**ADDITIONAL TERMS AND CONDITIONS
(Architectural and Engineering Contracts Only)**

- 1. PLAN AND DRAWING DISTRIBUTION:** All plans and drawings must be completed and available for distribution at least five business days prior to a scheduled pre-bid meeting for the construction or other work related to the plans and drawings.
- 2. PROJECT ADDENDA REQUIREMENTS:** The Architect/Engineer and/or Agency shall be required to abide by the following schedule in issuing construction project addenda. The Architect/Engineer shall prepare any addendum materials for which it is responsible, and a list of all vendors that have obtained drawings and specifications for the project. The Architect/Engineer shall then send a copy of the addendum materials and the list of vendors to the State Agency for which the contract is issued to allow the Agency to make any necessary modifications. The addendum and list shall then be forwarded to the Purchasing Division buyer by the Agency. The Purchasing Division buyer shall send the addendum to all interested vendors and, if necessary, extend the bid opening date. Any addendum should be received by the Purchasing Division at least fourteen (14) days prior to the bid opening date.
- 3. PRE-BID MEETING RESPONSIBILITIES:** The Architect/Engineer shall be available to attend any pre-bid meeting for the construction or other work resulting from the plans, drawings, or specifications prepared by the Architect/Engineer.
- 4. AIA DOCUMENTS:** All construction contracts that will be completed in conjunction with architectural services procured under Chapter 5G of the West Virginia Code will be governed by the attached AIA documents, as amended by the Supplementary Conditions for the State of West Virginia, in addition to the terms and conditions contained herein. The terms and conditions of this document shall prevail over anything contained in the AIA Documents or the Supplementary Conditions.
- 5. GREEN BUILDINGS MINIMUM ENERGY STANDARDS:** In accordance with West Virginia Code § 22-29-4, all new building construction projects of public agencies that have not entered the schematic design phase prior to July 1, 2012, or any building construction project receiving state grant funds and appropriations, including public schools, that have not entered the schematic design phase prior to July 1, 2012, shall be designed and constructed complying with the ICC International Energy Conservation Code, adopted by the State Fire Commission, and the ANSI/ASHRAE/IESNA Standard 90.1-2007: Provided, That if any construction project has a commitment of federal funds to pay for a portion of such project, this provision shall only apply to the extent such standards are consistent with the federal standards.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
