ALL CONTRACTS: Under W. Va. Lightweight Half Round dump bodies maximize payload.

The DynaHauler®/HR dump body is a half round dump body used primarily in road paving and road maintenance applications. The body is designed to easily discharge into paving machines. Unlike traditional square dump bodies that discharge their loads in larger areas, the J&J half round is designed to focus material in a smaller, targeted area.

Rely on our experience.

There's no substitute for a truck body built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 60+ years of experience to build you the dump trucks you want - we'll build them to your specification and application.
